FEDERAL REGISTER Published daily, Monday through Friday, (not published on Saturdays, Sundays, or on official holidays), by the Office of the Federal Register, National Archives and Records Administration, Washington, DC 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C. Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402.

The **Federal Register** provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive Orders and Federal agency documents having general applicability and legal effect, documents required to be published by act of **Congress** and other Federal agency **documents** of public interest. Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless earlier filing is requested by the issuing agency.

The seal of the National Archives and Records Administration authenticates this issue of the **Federal Register** as the official serial publication established under the Federal Register Act. 44 U.S.C. 1507 provides that the contents of the **Federal Register** shall be judicially noticed.

The **Federal Register** will be furnished by mail to subscribers for $340 per year in paper form; $195 per year in microfiche form; or $37,500 per year for the magnetic tape. Six-month subscriptions are also available at one-half the annual rate. The charge for individual copies in paper or microfiche form is $1.50 for each issue, or $1.50 for each group of pages as actually bound, or $175.00 per magnetic tape. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402, or charge to your GPO Deposit Account or VISA or Mastercard.

There are no restrictions on the republication of material appearing in the **Federal Register.**

How To Cite This Publication: Use the volume number and the page number. Example: 55 FR 12345.

Rules and Regulations

Federal Register
Vol. 55, No. 78
Monday, April 23, 1990

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect, most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.
The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each week.

DEPARTMENT OF AGRICULTURE

Animal and Plant Health Inspection Service

7 CFR Part 354

[Docket No. 90-044]

Commuted Traveltime Periods

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Final rule.

SUMMARY: We are amending the regulations concerning overtime services provided by employees of Plant Protection and Quarantine (PPQ) by adding commuted traveltime allowances for two locations in Mississippi. Commuted traveltime allowances are the periods of time required for PPQ employees to travel from their dispatch points and return there from the places where they perform Sunday, holiday, or other overtime duty. The Government charges a fee for certain overtime services provided by PPQ employees and, under certain circumstances, the fee may include the cost of commuted traveltime. This action is necessary to inform the public of the commuted traveltime for these locations.

EFFECTIVE DATE: April 23, 1990.

FOR FURTHER INFORMATION CONTACT: Paul R. Eggert, Director, Resource Management Support Staff, PPQ, APHIS, USDA, room 623, Federal Building, 6505 Belcrest Road, Hyattsville, MD 20782, (301) 436-7764.

SUPPLEMENTARY INFORMATION:

Background

The regulations in 7 CFR, chapter III, and 9 CFR, chapter I, subchapter D, require inspection, laboratory testing, certification, or quarantine of certain plants, plant products, animals and animal byproducts, or other commodities intended for importation into, or exportation from, the United States. When these services must be provided by an employee of PPQ on a Sunday or holiday, or at any other time outside the PPQ employee's regular duty hours, the Government charges a fee for the services in accordance with 7 CFR part 354. Under circumstances described in § 354.1(a)(2), this fee may include the cost of commuted traveltime. Section 354.2 contains administrative instructions prescribing commuted traveltime allowances, which reflect, as nearly as practicable, the periods of time required for PPQ employees to travel from their dispatch points and return there from the places where they perform Sunday, holiday, or other overtime duty.

We are amending § 354.2 of the regulations by adding commuted traveltime allowances for two locations in Mississippi. The amendments are set forth in the rule portion of this document. This action is necessary to inform the public of the commuted traveltime between the dispatch and service locations.

Executive Order 12291 and Regulatory Flexibility Act

We are issuing this rule in conformance with Executive Order 12291, and we have determined that it is not a "major rule." Based on information compiled by the Department, we have determined that this rule will have an effect on the economy of less than $100 million; will not cause a major increase in costs or prices for consumers, individual industries, Federal, State or local government agencies, or geographic regions; and will not cause a significant adverse effect on competition, employment, investment, productivity, innovation, or on the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets.

The number of requests for overtime services of a PPQ employee at the locations affected by our rule represents an insignificant portion of the total number of requests for these services in the United States.

Under these circumstances, the Administrator of the Animal and Plant Health Inspection Service has determined that this action will not have a significant economic impact on a substantial number of small entities.

Effective Date

The commuted traveltime allowances appropriate for employees performing services at ports of entry, and the features of the reimbursement plan for recovering the cost of furnishing port of entry services, depend upon facts within the knowledge of the Department of Agriculture. It does not appear that public participation in this rulemaking proceeding would make additional relevant information available to the Department.

Accordingly, pursuant to the administrative procedure provisions in 5 U.S.C. 553, we find upon good cause that prior notice and other public procedure with respect to this rule are impracticable and unnecessary; we also find good cause for making this rule effective less than 30 days after publication of this document in the **Federal Register.**

Executive Order 12372

This program/activity is listed in the Catalog of Federal Domestic Assistance under No. 10.025 and is subject to Executive Order 12372, which requires intergovernmental consultation with State and local officials. (See 7 CFR part 3015, subpart V.)

List of Subjects in 7 CFR Part 354

Agricultural commodities, Exports, Government employees, Imports, Plants (Agriculture), Quarantine, Transportation.

Accordingly, 7 CFR part 354 is amended as follows:

PART 354—OVERTIME SERVICES RELATING TO IMPORTS AND EXPORTS

1. The authority citation for part 354 continues to read as follows:

Authority: 7 U.S.C. 2260, 49 U.S.C. 1741; 7 CFR 2.17, 2.51 and 371.2(c).

2. Section 354.2 is amended by adding in the table, in alphabetical order, the information as shown below:

§ 354.2 Administrative instructions prescribing commuted traveltime.

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Parts 21 and 23

[Docket No. 082CE, Special Condition 23-ACE-53]

Special Conditions; Piper Model PA-46 Series Airplanes

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final special conditions.

SUMMARY: These special conditions are being issued to become part of the type certification basis for the Piper Model PA-46 Series airplanes. These airplanes will have novel and unusual design features when compared to the state of technology envisaged in the airworthiness standards for normal, utility, acrobatic, and commuter category airplanes. These novel and unusual design features include the installation of electronic displays and the protection of them from high energy radiated electromagnetic fields (HERF) for which the applicable regulations do not contain adequate or appropriate airworthiness standards. These special conditions contain the additional safety standards that the Administrator considers necessary to establish a level of safety equivalent to that provided by the applicable airworthiness standards.

EFFECTIVE DATE: May 23, 1990.

FOR FURTHER INFORMATION CONTACT: Ervin E. Dvorak, Aerospace Engineer, Standards Office (ACE-110), Aircraft Certification Service, Central Region, Federal Aviation Administration, Room 1544, 601 East 12th Street, Federal Office Building, Kansas City, Missouri 64106; telephone (816) 426-5688.

SUPPLEMENTARY INFORMATION:

Background

On November 27, 1989, Piper Aircraft Corporation made an application to the FAA for an amendment to the type certificate of the Model PA-46 Series airplane. The Model PA-46 airplane is a pressurized, single-engine turboprop, of conventional metal material, with 6 seats, with a maximum altitude of 25,000 feet. The installation incorporates an electronic attitude director indicator (EADI) and an electronic horizontal situation indicator (EHSI) on the pilot side of the instrument panel instead of the traditional mechanical or electromechanical displays providing similar information to the flight crew.

Type Certification Basis

The type certification basis for the Piper Model PA-46 Series airplane is as follows: Part 23 of the FAR, effective February 1, 1965, including amendments 23-1 through 23-25 and part 25, §§ 25.783(e), 25.831 (c) and (d) of amendment 25-41; part 36, effective December 1, 1969, as amended by amendments 36-1 through amendment 36-15; exemptions, if any; and the special conditions adopted herein.

Discussion

Special conditions may be issued and amended, as necessary, as part of the type certification basis if the Administrator finds that the airworthiness standards designated in accordance with § 21.101 do not contain adequate or appropriate safety standards because of novel or unusual design features of an airplane or installation. Special conditions, as appropriate, are issued in accordance with § 11.49 after public notice, as required by §§ 11.28 and 11.29(b), effective October 14, 1980, and will become a part of the type certification basis, as provided by § 21.101(b)(2).

The proposed type design of the Piper Model PA-46 Series airplane contains a number of novel and unusual design features not envisaged by the applicable airworthiness standards. Special conditions are considered necessary because the applicable airworthiness standards do not contain adequate or appropriate safety standards for the novel or unusual design features of the Piper Model PA-46 Series airplane. These special conditions will also be applicable to all Piper Model PA-46 Series airplanes, including the installation of similar EFIS, without further amendment of the special conditions.

Electronic Flight Instrument System (EFIS)

The proposed cathode-ray tube (CRT) electronic display units will contain primary attitude, heading, and navigation cockpit displays. The cockpit instrument panel configuration would feature two displays, an EADI and an EHSI on the pilot side of the instrument panels. All other displays, i.e., airspeed, altitude, vertical speed, etc., on the pilot side will be conventional electromechanical instruments. On some later installations, another EADI and EHSI may be installed on the copilot side.

Emissive color on a CRT display will inevitably appear different than reflective colors on conventional electromechanical displays. Different intensities and color temperatures of ambient illumination will also affect the perceived colors. Therefore, display legibility must be adequate for all cockpit lighting conditions, including direct sunlight.

Features of this system are novel and unusual relative to the applicable airworthiness standards. Current small airplane airworthiness standards are based on "single-fault" or "fail-safe" concepts and, when promulgated, the FAA did not envision use of complex, safety-critical systems in small airplanes. The current small airplane airworthiness standards envisioned instruments that were single function; i.e., a failure would cause loss of only one instrument function, although several instrument functions may have been housed in a common case.

Flight instruments for the pilot are required to be grouped in front of the pilot so deviation from looking forward along the airplane flight path is minimized when the pilot shifts from viewing the flight path to viewing the flight instuments.

For instrument flight, the airplane must be equipped with the minimum flight instruments listed in the operating rules. This minimum listing of instruments includes all instruments that have long been accepted as the minimum for continued safe flight. When the current airworthiness standards of part 23 were written, only mechnical or electromechanical instruments that functioned independently for each parameter were envisioned. The requirements intended that airspeed, altitude, and magnetic compass information remain available to the pilot after total failure of the airplane's electrical power. Standby instruments for flight instruments are not required by the small airplane

airworthiness standards because the FAA has long accepted that the small airplane could be flown safely by using partial panel techniques following a single instrument failure. The basic airman certification program for an instrument flight rules (IFR) rating has long included requirements for the pilot to demonstrate the ability to fly the airplane safely following failure of any one of the previously cited instruments.

The special conditions will provide appropriate requirements for installation of electronic displays featuring design characteristics where a single malfunction or failure could affect more than one primary instrument, display, or system. The special conditions will also provide requirements to assure adequate reliability of system design functions that are determined to be essential for continued safe flight and landing of the airplane.

For installations where electronic displays take the place of traditional instruments, the reliability must not be less than that of the traditional instruments. This concerns the collective reliability of the traditional instruments rather than the reliability of a single traditional instrument. For this reason, the special conditions include requirements needed for their certification.

The special conditions will also require a detailed examination of each item of equipment/component of electronic display system, and installation of the system, to determine if the airplane is dependent upon its function for continued safe flight and landing or if its failure would significantly reduce the capability of the airplane or the ability of the crew to cope with these adverse operating conditions. Each component of the installation identified by such an examination as being critical to the safe operation of the airplane would be required to meet the special conditions.

The existing § 23.1309, which was incorporated into part 23 by amendment 23-14, dated December 20, 1973, has been used as a means of evaluating systems for those airplanes that include § 23.1309 in their type certification basis. The "no-single-fault" or "fail-safe" concept of § 23.1309, along with experience based on service-proven designs and good engineering judgment, have been used to successfully evaluate most airplane systems and equipment. The type certification basis for this airplane includes § 23.1309; however, the "single fault" concept does not provide an adequate means for determining and evaluating the effect of certain failure conditions that may exist in complex systems such as an EFIS installation. Therefore, the FAA considers it necessary to include the additional system analysis requirements in the certification basis. This will also allow the use of the "rational method" of safety analysis of the systems to assure a level of safety intended in the applicable requirements.

The development of rational methods for safety assessment of systems is based on the premise that an inverse relationship exists between the probability of a failure condition and its effect on the airplane. That is, the more serious the effect, the lower the probability must be that the related failure condition will occur. Rational methods for showing compliance for safety assessment of systems may be shown by the use of numerical analysis, but it is not mandatory. In many cases, adequate data is not available for preparing a stand-alone numerical analysis for showing compliance. Therefore, in small airplane certification, a rational analysis based on identification of failure modes and their consequences is frequently a more acceptable substantiation of compliance with the various required levels of system reliability than a numerical analysis alone.

If it is determined that the airplane includes systems that perform critical functions, it will be necessary to show that those systems meet more stringent requirements. These systems would be required to establish either that there will be no failures of that system or that a failure is extremely improbable. Critical functions means those functions whose failure would contribute to or cause a failure condition that would prevent the continued safe flight and landing of the airplane. These special conditions provide reliability requirements that are based on the criticality of the system's function and provide the airworthiness standards needed for certification of complex safety-critical systems being proposed for installation.

The special conditions also require that the occurrence of system(s) failures that would significantly reduce the airplane's capability or the ability of the crew to cope with adverse operating conditions, and thereby be potentially catastrophic, be improbable. It is recognized that any system(s) failure will reduce the airplane's or crew's capability by some degree, but that reduction may not be of the degree leading to potentially catastrophic results.

Protection of Systems From High Energy Radiated Electromagnetic Fields (HERF)

Recent advances in technology have given rise to the application in aircraft designs of advanced electrical and electronic systems that perform functions required for continued safe flight and landing. Due to the use of sensitive solid state components in analog and digital electronic circuits, these advanced systems are readily responsive to the transient effects of induced electrical current and voltage caused by the high energy radiated electromagnetic fields (HERF) incident on the external surface of aircraft. These induced transient currents and voltages can degrade electronic systems performance by damaging components or upsetting system functions.

Furthermore, the electromagnetic environment has undergone a transformation that was not envisioned when the current requirements were developed. Higher energy levels are radiated from transmitters that are used for radar, radio, and television. Also, the population of transmitters has increased significantly.

At present, aircraft certification requirements, as well as the industry standards for protection from the adverse effects of HERF, are inadequate in view of the aforementioned technological advances. In addition, some significant safety events have been reported of incidents and accidents involving military aircraft equipped with advanced electronic systems when they were exposed to electromagnetic radiation.

The combined effect of the technological advances in aircraft design and the changing environment has resulted in an increased level of vulnerability of electrical and electronic systems required for the continued safe flight and landing of the aircraft. Effective measures against the effects of exposure to high energy radiated electromagnetic fields (HERF) must be provided by the design and installation of these systems. The primary factors that have contributed to this increased concern are:

(1) The increasing use of sensitive electronics that perform critical functions;

(2) The reduced electromagnetic shielding afforded airplane systems by advanced technology airframe materials;

(3) The adverse service experience of military airplanes that use these technologies; and

(4) The increase in the number and power of radio frequency emitters and expected future increases.

Cognizant of the need for aircraft certification standards to cope with the developments in technology and environment in 1986, the FAA initiated a high priority program:

(1) To determine and define the electromagnetic energy levels;

(2) To develop and describe guidance material for design, test, and analysis; and

(3) To prescribe and promulgate regulatory standards. The FAA sought and received the participation of international airworthiness authorities and industry to develop internationally recognized standards for certification.

At this time, the FAA and other airworthiness authorities have established an agreed level of HERF environment that the airplane is expected to be exposed to in service. While the HERF requirements are being finalized, the FAA has adopted special conditions for the certification of aircraft that employ electrical and electronic systems that perform critical functions. The accepted maximum energy levels in which civilian airplane system installations must be capable of operating safely are based on surveys and analysis of existing radio frequency emitters. These special conditions require that the airplane be evaluated under these energy levels for the protection of the electronic system and its associated wiring harness. These external threat levels are believed to represent the worst case to which an airplane would be exposed in the operating environment.

These special conditions require qualification of systems that perform critical functions, as installed in aircraft, to the defined HERF environment in paragraph 1 or, as an option to a fixed value using laboratory tests, in paragraph 2, as follows:

(1) The applicant may demonstrate that the operation and operational capability of the installed electrical and electronic systems that perform critical functions are not adversely affected when the aircraft is exposed to the HERF environment, defined below, or

FIELD STRENGTH VOLTS/METER

Frequency	Peak	Average
10-500 KH$_z$	80	80
500-2000	80	80
2-30 MH$_z$	200	200
30-100	33	33
100-200	33	33
200-400	150	33
400-1000	8.3K	2K

FIELD STRENGTH VOLTS/METER—Continued

Frequency	Peak	Average
1-2 GH$_z$	9K	1.5K
2-4	17K	1.2K
4-6	14.5K	800
6-8	4K	666
8-12	9K	2K
12-20	4K	509
20-40	4K	1K

(2) The applicant may demonstrate by a laboratory test that the electrical and electronic systems that perform critical functions withstand a peak of electromagnetic field strength of 100 volts per meter (v/m) in a frequency range of 10KHz to 18GHz. When using a laboratory test to show compliance with the HERF requirements, no credit is given for signal attenuation due to installation.

In view of the revised HERF envelope, the requirement for the fixed value test has been changed to 100 v/m from the previously used value of 200 v/m. The applicant opting for the fixed value laboratory test, instead of the HERF envelope, may be subject to post certification reassessment based on the finalized rule requirements. The applicants should be cautioned that choosing 100 v/m may make it difficult, under post certification reassessment requirements, to qualify the installations without design upgrade. If the system should not meet the post certification reassessment requirements, additional protection provisions and/or testing may be required.

A preliminary hazard analysis must be performed by the applicant for approval by the FAA to identify electrical and/or electronic systems that perform critical functions. The term "critical" means those functions whose failure would contribute to, or cause, a failure condition that would prevent the continued safe flight and landing of the aircraft. The systems that perform critical functions, as identified by the hazard analysis, are candidates for the application of HERF requirements. The primary electronic flight display and the full authority digital engine control (FADEC) systems are examples of systems that perform critical functions. A system may perform both critical and non-critical functions. Primary electronic flight display systems, and their associated components, perform critical functions such as attitude, altitude, and airspeed indication. The HERF requirements only apply to critical functions.

Compliance with HERF requirements may be demonstrated by tests, analysis, models, similarity with existing systems, or a combination thereof. Service experience alone is not acceptable since such experience in normal flight operations may not include an exposure to the HERF environmental condition. Reliance on a system with similar design features for redundancy as a means of protection against the effects of external HERF is generally insufficient since all elements of a redundant system are likely to be exposed to the fields concurrently.

The modulation should be selected as the signal most likely to disrupt the operation of the system under test, based on its design characteristics. For example, flight control systems may be susceptible to 3 Hz square wave modulation while the video signals for electronic display systems may be susceptible to 400 Hz sinusoidal modulation. If the worse case modulation is unknown or cannot be determined, default modulations may be used. Suggested default values are a 1 KHz sine wave with 80% depth of modulation in the frequency range from 10 KHz to 400 MHz and 1 KHz square wave with greater than 90% depth of modulation from 400 MHz to 18 GHz. For frequencies where the unmodulated signal caused deviations from normal operation, several different modulating signals with various waveforms and frequencies should be applied.

Acceptable system performance is attained by demonstrating that the system under consideration continues to perform its intended function during and after exposure to required electromagnetic fields. Deviations from system specification may be acceptable and will need to be independently assessed for each application for approval by the FAA.

Conclusion

In review of the design features discussed for the installation in the Piper PA–46 Series airplane, the following special conditions are issued to provide a level of safety equivalent to that intended by the referenced airworthiness standards. This action is not a rule of general applicability and affects only the model/series of airplanes identified in these special conditions.

The substance of these special conditions has been subject to the notice and public comment procedure in several prior instances (54 FR 43417; October 25, 1989), (54 FR 41955; October 13, 1989), (53 FR 14782; April 26, 1988), and (51 FR 37711; October 24, 1986). Also, special conditions with similar requirements have been promulgated

without public procedures because the FAA has determined that good cause existed for immediate adoption (55 FR 270; January 4, 1990) and (54 FR 51870; December 19, 1989). For this reason, and because a delay would significantly affect the applicant's installation of the system and the certification of the airplane, which is imminent, the FAA has determined that good cause exists for adopting these special conditions without further notice. Therefore, special conditions are being issued without substantive change for this airplane and made effective 30 days from the date of publication.

List of Subjects in 14 CFR Parts 21 and 23

Aircraft, Air transportation, Aviation safety, and Safety.

The authority citation for these special conditions is as follows:

Authority: Secs. 313(a), 601, and 603 of the Federal Aviation Act of 1958; as amended (49 U.S.C. 1354(a), 1421, and 1423); 49 U.S.C. 106(g) (Revised Pub. L. 97–449, January 12, 1983); 14 CFR 21.16 and 21.101; and 14 CFR 11.28 and 11.49.

Adoption of Special Conditions

Accordingly, pursuant to the authority delegated to me by the Administrator of the Federal Aviation Administration, the following special conditions are issued as part of the type certification basis for the Piper Model PA–46 Series airplanes that incorporates an Electronic Flight Instrument System.

1. Electronic Flight Instrument Displays

In addition to, and instead of, the applicable airworthiness standards of Part 23 and requirements to the contrary, for instruments, systems, and installations whose design incorporates electronic displays that feature design characteristics where a single malfunction or failure could affect more than one primary instrument display or system, and/or system design functions that are determined to be essential for continued safe flight and landing of the airplane, the following special condition applies:

(a) Systems and associated components must be examined separately and in relation to other airplane systems to determine whether the airplane is dependent upon its function for continued safe flight and landing and whether its failure would significantly reduce the capability of the airplane or the ability of the crew to cope with adverse operating conditions. Each system and each component identified by this examination upon which the airplane is dependent for proper functioning to ensure continued safe flight and landing, or whose failure would significantly reduce the capability of the airplane or the ability of the crew to cope with adverse operating conditions, must be designed and examined to comply with the following requirements:

(1) It must be shown that there will be no single failure or probable combination of failures under any foreseeable operating condition that would prevent the continued safe flight and landing of the airplane, or it must be shown that such failures are extremely improbable.

(2) It must be shown that there will be no single failure or probable combination of failures under any foreseeable operating condition that would significantly reduce the capability of the airplane or the ability of the crew to cope with adverse operating conditions, or it must be shown that such failures are improbable.

(3) Warning information must be provided to alert the crew to unsafe system operating conditions and to enable them to take appropriate corrective action. Systems, controls, and associated monitoring and warning means must be designed to minimize initiation of crew action that would create additional hazards.

(4) Compliance with the requirements of this special condition may be shown by analysis and, where necessary, by appropriate ground, flight, or simulator tests. The analysis must consider:

(i) Modes of failure, including malfunction and damage from foreseeable sources;

(ii) The probability of multiple failures, and undetected faults;

(iii) The resulting effects on the airplane and occupants, considering the state of flight and operating conditions; and

(iv) The crew warning cues, corrective action required, and the capability of detecting faults.

(5) Numerical analysis may be used to support the engineering examination.

(b) Electronic display indicators, including those incorporating more than one function, may be installed instead of mechanical or electromechanical instruments if:

(1) The electronic display indicators:

(i) Are easily legible under all lighting conditions encountered in the cockpit, including direct sunlight;

(ii) In any normal mode of operation, do not inhibit the primary display of attitude; and

(iii) Incorporate sensory cues for the pilot that are equivalent to those in the instrument being replaced by the electronic display units.

(2) The electronic display indicators, including their systems and installations, must be designed so that one display of information essential to safety and successful completion of the flight will remain available to the pilot, without need for immediate action by any crewmember for continued safe operation, after any single failure or probable combination of failures that is not shown to comply with paragraph (a)(1) of this section.

2. Protection of Electronic Flight Instrument Systems from High Energy Radiated Electromagnetic Fields (HERF)

(a) Each system that performs critical functions must be designed and installed to ensure that the operation and operational capabilities of these critical functions are not adversely affected when the airplane is exposed to high energy radiated electromagnetic fields external to the airplane.

(b) For the purposes of the above, the following definitions apply:

(1) Critical Functions. Functions whose failure would contribute to or cause a failure condition that would prevent the continued safe flight and landing of the airplane.

Issued in Kansas City, Missouri, on April 10, 1990.

Franklin L. Stogsdill,

Acting Manager, Small Airplane Directorate, Aircraft Certification Service.

[FR Doc. 90–9329 Filed 4–20–90; 8:45 am]

BILLING CODE 4910–13–M

14 CFR Part 39

[Docket No. 89–NM–148–AD; Amendment 39–6581]

Airworthiness Directives; Boeing Model 747 Series Airplanes

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment supersedes an existing airworthiness directive (AD), applicable to all Boeing Model 747 series airplanes, which currently requires the installation of placards; inspections and repair, if necessary; mechanical and/or electrical tests and repairs, if necessary; special interim operating procedures; and modification of forward and aft lower lobe cargo doors. This action also requires modification of the visual warning systems for the forward and aft lower lobe cargo doors and for the side main deck cargo door, if installed. This supersedure is prompted by an accident in which the forward lower lobe cargo

door may have opened in flight, resulting in the uncontrolled decompression of the airplane. The FAA has determined that design changes are necessary to ensure that the cargo door warning system detects cargo doors that are not fully closed, latched, and locked.

EFFECTIVE DATE: May 29, 1990.

ADDRESSES: The applicable service information may be obtained from Boeing Commercial Airplanes, P.O. Box 3707, Seattle, Washington 98124. This information may be examined at the FAA, Northwest Mountain Region, Transport Airplane Directorate, 17900 Pacific Highway South, Seattle, Washington, or Seattle Aircraft Certification Office, FAA, Northwest Mountain Region, 9010 East Marginal Way South, Seattle, Washington.

FOR FURTHER INFORMATION CONTACT: Mr. Pliny Brestel, Airframe Branch, ANM-120S; telephone (206) 431-1931. Mailing address: FAA, Northwest Mountain Region, 17900 Pacific Highway South, C-68966, Seattle, Washington 98168.

SUPPLEMENTARY INFORMATION: A proposal to amend part 39 of the Federal Aviation Regulations by revising AD 89-05-54, Amendment 39-6166 (54 FR 11937; March 23, 1989), applicable to Boeing Model 747 series airplanes, to add a requirement to modify the warning systems for the forward and aft lower lobe cargo doors, and for the side main deck cargo door, if installed, was published in the **Federal Register** on October 12, 1989 (54 FR 41846).

Interested persons have been afforded an opportunity to participate in the making of this amendment. Due consideration has been given to the comments received.

The Air Transport Association (ATA) of America, and five other commenters, including the National Transportation Safety Board (NTSB), expressed concern or objection to the proposed requirement for the cockpit warning signal. Some commenters requested that the requirement for a red-colored light be withdrawn from the rule; other commenters requested that the signal light be amber rather than red. These commenters pointed out that a red light warning indication may have a negative effect on safety in that it could trigger precipitous actions by the crew, not justified by an unlocked indication of a cargo door. For example, if the red indication light were annunciated at or about takeoff speed, the crew may react by commanding an aborted takeoff which, in itself, is a potentially hazardous situation. The FAA does not concur that the proposed requirement for a cockpit warning signal be withdrawn, but does concur that the signal should be amber rather than red. Federal Aviation Regulations (FAR) § 25.1322 specifies that only those warning signals indicating a hazard, which requires immediate corrective action, are to be red. The intent of the cockpit signal proposed in this rulemaking action is to serve as a cautionary signal; therefore, in accordance with FAR 25.1322, it is more appropriate that the color of the signal be amber. Paragraph E. of the final rule has been revised accordingly.

The Air Line Pilots Association (ALPA), on behalf of its members, and some operators agreed with the proposed requirement that a visual warning signal for flight crewmembers be located on a forward panel. The manufacturer and one operator disagreed, stating that the three crewmembers operate in a coordinated manner and a warning light appearing to the flight engineer is a warning to all three crewmembers. Also, the warning light on the pilot's main panel will accentuate the cargo door light during takeoff, thereby increasing the probability of an inappropriate rejected takeoff, which would be a step backward in safety. The FAA does not concur. The additional signal, located on a forward panel, will allow for a conceivable human error in not detecting a cargo door unlocked condition. Also, those airplanes utilizing the Engine Indication and Crew Alerting System (EICAS) will already have the warning signal forward of the flight crewmembers.

The NTSB, ALPA, and three other commenters agreed with the need for the proposed modification of the cargo door warning system to reflect the door status of closed, latched, and locked. However, the manufacturer did not agree that the cargo door warning system currently installed on the affected airplanes needs to be modified. The manufacturer stated that increasing the complexity of the warning system so that it will be capable of sensing the additional latching function will not increase the safety of the door. The existing system senses the position of the pressure relief doors which are at the end of the door locking mechanism chain and cannot be closed unless the door latches have rotated to the closed position. Also, the modified lock sectors will withstand attempts to backdrive the latches after the door has been closed, latched, and locked. The FAA does not concur that the current warning system is adequate under all circumstances, and has determined that it may give a false closed, latched, and locked indication to the flight crewmembers. The modification required by this AD action will ensure that the cargo door warning system detects cargo doors that are not fully closed, latched, and locked.

One commenter requested that a specific design for the ground crew signal be adopted in the final rule, which would consist of a warning light that would be extinguished when the door is unlatched and would illuminate when the door is fully latched closed. With such a design, ground personnel would look for the light to illuminate when the door is closed and latched prior to locking the door manually. The FAA cannot concur with the commenter's request to specify this design as a requirement in the final rule, since some operators may have already developed other designs that meet the requirements of the rule.

The NTSB commented that the modification schedule should be promulgated as proposed, without significant increases in the modification time. The ATA, on behalf of its members, and one other commenter requested that the proposed compliance time of one year for modification of the cargo door warning system be changed to at least 18 months after a service bulletin and parts become available. These commenters suggested that since the current visual inspection program confirms that the doors are properly closed, latched and locked, the additional time will not in any way reduce the level of safety; the increased compliance time would also permit modification during scheduled maintenance periods without incurring additional maintenance costs due to special handling. The FAA does not concur with extending the compliance time to 18 months after the release of the service bulletin and parts availability. However, since the FAA has recently accepted a modification design proposed by the manufacturer, the FAA has determined that the compliance time may be extended to 18 months after the effective date of the AD to allow for the related service bulletin to be prepared and distributed, and for the required parts to be made available to affected operators. The final rule has been revised to reflect this change.

One commenter recommended that the AD not be issued until such time as the manufacturer has developed and the FAA has approved a service bulletin with the modifications instructions. Premature release of the AD could force the airlines to develop the modification on their own and place the burden of design and certification upon the airlines. The FAA does not concur. In accordance with FAR 21.99, the

manufacturer has submitted a design proposal to the FAA which has been accepted. The descriptive data will be made available to all operators when completed and the compliance time has been extended as noted above.

One commenter strongly opposed the restriction of power tools for manual door operation stating that a calibrated torque-limited power tool does not impose a safety hazard and that the use of power tools should be controlled by the airplane manufacturer's recommendations. The FAA does not concur with the use of power tools because they are prohibited for use in accordance with the FAA-approved type design data.

One commenter stated that the estimated parts and labor costs and grossly underestimated, particularly for the modification of airplanes which must be accomplished during revenue service and, therefore, the cost figures should be increased by a factor of 1.75. The FAA does not concur because the cost estimates only include parts and direct labor by an experienced crew, which are estimated by the manufacturer, and do not include lost revenue.

The NTSB suggested that a warning system of this nature be considered for non-plug cargo doors on all transport category airplanes. The FAA recognizes that this suggestion requires further review and will consider it in the FAA's review of all cargo doors. However, to include such a requirement in this AD action would be beyond the scope of the rule.

Since this AD makes significant substantive changes to the existing AD, the FAA has determined that its adoption as a revision to the existing AD may tend to cause confusion; and that, for this reason, it should be adopted as a supersedure of the existing AD. Accordingly, the final rule has been changed to reflect that it supersedes, rather than revises, the existing AD.

After careful review of the available data, including the comments noted above, the FAA has determined that air safety and the public interest require the adoption of the rule with the changes previously noted. These changes do not increase the economic burden on any operator, nor increase the scope of the rule.

There are approximately 780 Model 747 series airplanes of the affected design in the worldwide fleet. It is estimated that 140 airplanes of U.S. registry will be affected by this AD. It is estimated that 20 of these airplanes have the side main deck cargo door installed. It will take approximately 90 manhours per airplane to accomplish the required actions. Those airplanes with the side main deck cargo door installed will require an additional 30 manhours. The average labor cost will be $40 per manhour. Parts are estimated at $1,700 per airplane. Parts for airplanes with the side main deck cargo door installed are estimated at an additional $400 per airplane. Based on these figures, the total cost impact of the AD on U.S. operators is estimated to be $774,000.

The regulations adopted herein will not have substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government. Therefore, in accordance with Executive Order 12612, it is determined that this final rule does not have sufficient federalism implications to warrant the preparation of a Federalism Assessment.

For the reasons discussed above, I certify that this action (1) is not a "major rule" under Executive Order 12291; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) will not have a significant economic impact, positive or negative, on a substantial number of small entities under the criteria of the Regulatory Flexibility Act. A final evaluation has been prepared for this action and is contained in the regulatory docket. A copy of it may be obtained from the Rules Docket.

List of Subjects in 14 CFR Part 39

Air transportation, Aircraft, Aviation safety, Safety.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me by the Administrator, the Federal Aviation Administration amends 14 CFR part 39 of the Federal Aviation Regulations as follows:

PART 39—[AMENDED]

1. The authority citation for part 39 continues to read as follows:

Authority: 49 U.S.C. 1354(a), 1421 and 1423; 49 U.S.C. 106(g) (Revised Pub. L. 97–449, January 12, 1983); and 14 CFR 11.89.

§ 39.13 [Amended]

2. Section 39.13 is amended by superseding AD 89–05–54, Amendment 39–6166 (54 FR 11937; March 23, 1989), with the following new airworthiness directive:

Boeing: Applies to Model 747 series airplanes, line number 001 and subsequent, certificated in any category. Compliance required as indicated, unless previously accomplished.

To prevent inadvertent opening of lower lobe forward and aft cargo doors and the main deck side cargo door, if installed, accomplish the following, (paragraphs A. through D. apply to lower lobe cargo doors only):

A. Within the next 10 days after April 3, 1989 (the effective date of Amendment 39–6166, AD 89–05–54), install Boeing placards, P/N 27EBY115 for hook operation, and P/N 27EBY114 for latch operation, or equivalent, adjacent to the respective drive ports.

B. Except for airplanes that have been modified in accordance with Boeing service bulletins specified in paragraph D., below, or on which a production equivalent has been installed, within the next 10 days after April 3, 1989, accomplish the following:

1. Visually inspect for broken, bent, or otherwise damaged lock sectors which would affect the integrity of the door locking mechanism, and repair or replace damaged sectors prior to further flight, in accordance with FAA-approved procedures. This inspection must be repeated at intervals not to exceed 30 days, and after the next door opening following each manual operation of the door.

2. Conduct the mechanical and electrical system tests specified in Boeing Service Bulletin 747–52A2206, Revision 3, dated August 27, 1983, Revision 4, dated April 14, 1988, or Revision 5, dated March 30, 1989, paragraphs III.A. and B. Airplanes which fail mechanical and/or electrical tests must be repaired prior to further flight, in accordance with FAA-approved procedures. Repeat these tests at intervals not to exceed 30 days and repeat the electrical test after restoration of electrical power following manual operation.

C. Within the next 14 days after April 3, 1989, change the operating procedures for the lower lobe cargo door to include the requirements specified below, and thereafter comply with those revised procedures. The procedures required by this paragraph must be accomplished by qualified and trained mechanics, and the training program must be approved by the FAA Principal Maintenance Inspector (PMI). Methods for documentation of compliance with the following procedures must be approved by the FAA PMI.

1. Prior to takeoff following each operation of the door, conduct a visual verification, through the external viewports, to ensure proper engagement of the latching cams to ensure the door is fully latched closed. This information must be relayed to and acknowledged by the flight crew.

2. When operating the door manually, the cranking torque shall not exceed 70 inch-pounds, and power tools shall not be used to operate latch and hook mechanisms in the manual mode.

D. Within the next 30 days after April 3, 1989, accomplish the following:

1. For those airplanes specified in Boeing Alert Service Bulletin 747–52A2206, Revision 3, dated August 27, 1987, Revision 4, dated April 14, 1988, or Revision 5, dated March 30, 1989: Modify the doors in accordance with paragraphs III.H. through III.O. of the applicable revision of the service bulletin.

2. For these airplanes specified in Boeing Alert Service Bulletin 747–52A2209, dated August 27, 1987, Revision 1, dated April 14, 1988, or Revision 2, dated March 30, 1989:

Modify the doors in accordance with paragraphs III.E. through III.L. of the applicable revision of the service bulletin.

Accomplishment of these modifications constitutes terminating action for the repetitive requirements of paragraph B., above.

E. Within the next 18 months after the effective date of this Amendment, install a system which provides visual warning signals to alert flight crewmembers and ground crew personnel when forward and aft lower lobe cargo doors, and side main deck cargo door, if installed, are not fully closed, the latch cams are not rotated to the closed position, or the locks are not in the locked position. The warning system must monitor the door closed, latched, and locked condition directly. An amber visual warning signal for flight crewmembers must be located on a forward cockpit panel. Incorrect indication, either open or closed, must be improbable. The modification must be approved by the Manager, Seattle Aircraft Certification Office, FAA, Northwest Mountain Region. Accomplishment of this modification constitutes terminating action for the special operating procedure required by paragraph C.1., above.

F. An alternate means of compliance or adjustment of the compliance time, which provides an acceptable level of safety, may be used when approved by the Manager, Seattle Aircraft Certification Office, FAA, Northwest Mountain Region.

Note. The request should be forwarded through an FAA Principal Maintenance Inspector (PMI), who will either concur or comment and then send it to the Manager, Seattle Aircraft Certification Office.

G. Special flight permits may be issued in accordance with FAR 21.197 and 21.199 to operate airplanes to a base in order to comply with the requirements of this AD.

All persons affected by this directive who have not already received the appropriate service documents from the manufacturer may obtain copies upon request to Boeing Commercial Airplanes, P.O. Box 3707, Seattle, Washington 98124. These documents may be examined at the FAA, Northwest Mountain Region, Transport Airplane Directorate, 17900 Pacific Highway South, Seattle, Washington, or Seattle Aircraft Certification Office, 9010 East Marginal Way South, Seattle, Washington.

This amendment supersedes Amendment 39-6166, AD 89-05-54.

This amendment becomes effective May 29, 1990.

Issued in Seattle, Washington, on April 13, 1990.

Leroy A. Keith,

Manager, Transport Airplane Directorate, Aircraft Certification Service.

[FR Doc. 90-9328 Filed 4-20-90; 8:45 am]

BILLING CODE 4910-13-M

14 CFR Part 39

[Docket No. 89-NM-222-AD; Amendment 39-6583]

Airworthiness Directives; Boeing Model 737-400 Series Airplanes

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment adopts a new airworthiness directive (AD), applicable to Boeing Model 737-400 series airplanes, which requires modification of the auxiliary power unit (APU) instrumentation wiring. This amendment is prompted by reports that the APU exhaust gas temperature (EGT) indication incorrectly read "zero" following an APU shutdown, including an APU shutdown associated with an aborted APU start. This condition, if not corrected, could result in undetected overtemperature damage to the APU rotor structure, which could then result in rotor failure and possible structural damage to the airplane.

EFFECTIVE DATE: May 29, 1990.

ADDRESSES: The applicable service information may be obtained from Boeing Commercial Airplanes, P.O. Box 3707, Seattle, Washington 98124. This information may be examined at the FAA, Northwest Mountain Region, Transport Airplane Directorate, 17900 Pacific Highway South, Seattle, Washington, or Seattle Aircraft Certification Office, 9010 East Marginal Way South, Seattle, Washington.

FOR FURTHER INFORMATION CONTACT: Mr. Stephen Bray, Propulsion Branch, ANM-140S; telephone (206) 431-1969. Mailing address: FAA Northwest Mountain Region, 17900 Pacific Highway South, C-68966, Seattle, Washington 98168.

SUPPLEMENTARY INFORMATION: A proposal to amend part 39 of the Federal Aviation Regulations to include an airworthiness directive, applicable to Boeing Model 737-400 series airplanes, which requires modification of the APU EGT instrumentation wiring in a manner that will assure continuous APU EGT indication to the flight compartment following all APU shutdowns, was published in the **Federal Register** on January 4, 1990 (55 FR 305).

Interested persons have been afforded an opportunity to participate in the making of this amendment. Due consideration has been given to the single comment received.

The Air Transport Association (ATA) of America expressed no objection with the content of the proposed rule.

After careful review of the available data, including the comment noted above, the FAA has determined that air safety and the public interest require the adoption of the rule as proposed.

There are approximately 55 Model 737-400 series airplanes of the affected design in the worldwide fleet. It is estimated that 18 airplanes of U.S. registry will be affected by this AD, that it will take approximately 10 manhours per airplane to accomplish the required actions, and that the average labor cost will be $40 per manhour. Based on these figures, the total cost impact of the AD on U.S. operators is estimated to be $7,200.

The regulations adopted herein will not have substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government. Therefore, in accordance with Executive Order 12612, it is determined that this final rule does not have sufficient federalism implications to warrant the preparation of a Federalism Assessment.

For the reasons discussed above, I certify that this action (1) is not a "major rule" under Executive Order 12291; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) will not have a significant economic impact, positive or negative, on a substantial number of small entities under the criteria of the Regulatory Flexibility Act. A final evaluation has been prepared for this action and is contained in the regulatory docket. A copy of it may be obtained from the Rules Docket.

List of Subjects in 14 CFR Part 39

Air transportation, Aircraft, Aviation safety, Safety.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me by the Administrator, the Federal Aviation Administration amends 14 CFR part 39 of the Federal Aviation Regulations as follows:

PART 39—[AMENDED]

1. The authority citation for part 39 continues to read as follows:

Authority: 49 U.S.C. 1354(a), 1421 and 1423; 49 U.S.C. 106(g) (Revised Pub. L. 97-449, January 12, 1983); and 14 CFR 11.89.

§ 39.13 [Amended]

2. Section 39.13 is amended by adding the following new airworthiness directive:

Boeing: Applies to all Model 737–400 series airplanes, certificated in any category. Compliance required within the next 1,000 hours time-in-service after the effective date of this AD, unless previously accomplished.

To prevent auxiliary power unit (APU) rotor failure resulting from an undetected EGT overtemperature condition, accomplish the following:

A. Modify the APU instrumentation wiring in a manner that will assure continuous flight-compartment APU exhaust gas temperature (EGT) indication following a shutdown. The modification must be accomplished in a manner approved by the Manager, Seattle Aircraft Certification Office, FAA, Northwest Mountain Region.

B. An alternate means of compliance or adjustment of the compliance time, which provides an acceptable level of safety, may be used when approved by the Manager, Seattle Aircraft Certification Office, FAA, Northwest Mountain Region.

Note: The request should be forwarded through an FAA Principal Maintenance Inspector (PMI), who will either concur or comment and then send it to the Manager, Seattle Aircraft Certification Office.

C. Special flight permits may be issued in accordance with FAR 21.197 and 21.199 to operate airplanes to a base in order to comply with the requirements of this AD.

All persons affected by this directive who have not already received the appropriate service documents from the manufacturer may obtain copies upon request to Boeing Commercial Airplanes, P.O. Box 3707, Seattle, Washington 98124. These documents may be examined at the FAA, Northwest Mountain Region, Transport Airplane Directorate, 17900 Pacific Highway South, Seattle, Washington, or Seattle Aircraft Certification Office, 9010 East Marginal Way South, Seattle, Washington.

This amendment becomes effective May 29, 1990.

Issued in Seattle, Washington, on April 13, 1990.

Leroy A. Keith,

Manager, Transport Airplane Directorate, Aircraft Certification Service.

14 CFR Part 39

[Docket No. 89–NM–136–AD; Amendment 39–6582]

Airworthiness Directives; McDonnell Douglas Model DC–10–10 and –15 Series Airplanes

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment adopts a new airworthiness directive (AD), applicable to Model DC–10–10 and –15 series airplanes, which requires reducing the wear limit of the main landing gear brakes to 0.60 inch. This amendment is prompted by reports of dynamometer testing and analysis which revealed that the current wear limit is inadequate to provide enough braking to accomplish a maximum energy rejected takeoff (RTO) stop. This condition, if not corrected, could result in the loss of the main landing gear brakes.

EFFECTIVE DATE: May 29, 1990.

FOR FURTHER INFORMATION CONTACT: Mr. Robert T. Razzeto, Aerospace Engineer, Los Angeles Aircraft Certification Office, ANM–131L, FAA Northwest Mountain Region, 3229 East Spring Street, Long Beach, California 90806–2425; telephone (213) 988–5355.

SUPPLEMENTARY INFORMATION: A proposal to amend part 39 of the Federal Aviation Regulations to include an airworthiness directive, applicable to DC–10–10 and –15 series airplanes, which requires reducing the wear limit of the main landing gear brakes to 0.60 inch, was published as a Notice of Proposed Rulemaking (NPRM) in the **Federal Register** on September 20, 1989 (54 FR 38691) and as a Supplemental NPRM on January 11, 1990 (55 FR 1045).

Interested persons have been afforded an opportunity to participate in the making of this amendment. Due consideration has been given to the comments received.

Six airline operators requested a 90-day compliance time for imposition of a 1.00 inch allowable brake wear limit and 180 days for imposition of the proposed 0.60 inch allowable break wear limit. The reasons presented for the two different wear limits and longer compliance time were that brake overhaul shops cannot absorb the increased work because of manpower limitations, and that parts shortages are anticipated, as the proposed AD will probably triple the brake replacement requirements. In addition, these commenters stated that there are not enough spare brakes to keep the fleet in service during the transition to the lower allowable brake wear limit and, because of this, service to the public could be interrupted. These commenters also indicated that the wear limits and compliance time for the proposed AD were not consistent with those for AD 90–01–C1, Amendment 39–6431 (54 FR 53048; December 27, 1989), which is a similar AD applicable to Model DC–10–30 series airplanes. AD 90–01–01 provides for a 90-day compliance time and a "two-stage" incorporation of reduced brake wear limits (initially a limit of .75 inch, and later, a limit of .5 inch). Upon consideration, the FAA concurs that the compliance time for the reduction of brake wear limits may be extended and that initiation of the new brake wear limits may be accomplished in two phases, without adversely affecting safety. The final rule has been revised to require reduction of the brake wear limit to 1.00 inch within 90 days, and further reduction of the wear limit to .60 inch within 120 days.

Six airline operators requested that the proposal be revised to include two different allowable brake wear limitations. They stated that airplanes operating at a kinetic energy (KE) of 597 million foot-pound (maximum certified aircraft KE) should be limited to 0.6 inch of brake wear limit, and airplanes operating at or below a KE of 490 million foot-pound (reduced aircraft KE) should be limited to 1.1 inch brake wear limit. Their proposal is based on the results of laboratory RTO tests which they believe show that the existing equipment can safely operate at a lower airplane KE, 490 million foot-pound, with 1.1 inch of wear on the brake stack. These operators stated that many airplanes in the DC–10–10 fleet operate at this reduced KE and Douglas Aircraft Company has offered to provide data for incorporation into the Approved Airplane Flight Manuals. The FAA does not concur with granting general relief to this limitation, as the commenters have suggested, but will consider alternate means of compliance, under the provisions of paragraph E. of the final rule, on a case-by-case basis.

Numerous commenters suggested that the cost impact of the proposed AD will far exceed the total impact of $9,200 as stated in the Notice, and requested that the FAA re-evaluate the actual costs, including parts costs. The FAA concurs. The cost of parts was inadvertently omitted in the preamble to the Notice. The economic impact analysis paragraph, below, has been revised to include the cost of parts.

After careful review of the available data, including the comments noted above, the FAA has determined that air safety and the public interest require the adoption of the rule as proposed with the changes previously described. The FAA has determined that these changes will neither increase the economic burden on any operator nor increase the scope of the AD.

There are approximately 134 Model DC–10–10 and –15 series airplanes of the affected design in the worldwide fleet. It is estimated that 115 airplanes of U.S.

registry would be affected by this AD, that it would take approximately 2 manhours per airplane to accomplish the required actions, and that the average labor cost would be $40 per manhour. The cost of parts to accomplish the change to the new wear limit is estimated to be $32,000 per airplane. Based on these figures, the total cost impact of the AD on U.S. operators is estimated to be $3,689,200.

The regulations adopted herein will not have substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government. Therefore, in accordance with Executive Order 12612, it is determined that this final rule does not have sufficient federalism implications to warrant the preparation of a Federalism Assessment.

For the reasons discussed above, I certify that this action (1) is not a "major rule" under Executive Order 12291; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) will not have a significant economic impact, positive or negative, on a substantial number of small entities under the criteria of the Regulatory Flexibility Act. A final evaluation has been prepared for this action and is contained in the regulatory docket. A copy of it may be obtained from the Rules Docket.

List of Subjects in 14 CFR Part 39

Air transportation, Aircraft, Aviation safety, Safety.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me by the Administrator, the Federal Aviation Administration amends 14 CFR part 39 of the Federal Aviation Regulations as follows:

PART 39—[AMENDED]

1. The authority citation for part 39 continues to read as follows:

Authority: 49 U.S.C. 1354(a), 1421 and 1423; 49 U.S.C. 106(g) (Revised Pub. L. 97–449, January 12, 1983); and 14 CFR 11.89.

§ 39.13 [Amended]

2. Section 39.13 is amended by adding the following new airworthiness directive:

McDonnell Douglas: Applies to Model DC–10–10 and –15 series airplanes, certificated in any category. Compliance required as indicated, unless previously accomplished.

To prevent the loss of the main landing gear brakes, accomplish the following:

A. Within 90 days after the effective date of this amendment, inspect Airplanes Braking Systems (formerly Loral, formerly Goodyear) brakes, part numbers 5000709–1, –3, –5, –7, and –8, for wear. Any brake worn more than 1.00 inch must be replaced, prior to further flight, with one within this limit.

B. Within 90 days after the effective date of this amendment, incorporate the 1.00 inch brake wear limit into the FAA-approved maintenance inspection program.

C. Within 120 days after the effective date of this amendment, inspect Airplanes Braking Systems (formerly Loral, formerly Goodyear) brakes, part numbers 5000709–1, –3, –5, –7, and –8, for wear. Any brake worn more than 0.60 inch must be replaced, prior to further flight, with one within this limit.

D. Within 120 days after the effective date of this amendment, incorporate the 0.60 inch brake wear limit into the FAA-approved maintenance inspection program.

E. An alternate means of compliance or adjustment of the compliance time, which provides an acceptable level of safety, may be used when approved by the Manager, Los Angeles Aircraft Certification Office, FAA, Northwest Mountain Region.

Note: The request should be forwarded through an FAA Principal Maintenance Inspector (PMI), who will either concur or comment, and then send it to the Manager, Los Angeles Aircraft Certification Office, FAA, Northwest Mountain Region.

F. Special flight permits may be issued in accordance with FAR 21.197 and 21.199 to operate airplanes to a base in order to comply with the requirements of this AD.

This amendment becomes effective May 29, 1990.

Issued in Seattle, Washington, on April 13, 1990.

Leroy A. Keith,

Manager, Transport Airplane Directorate, Aircraft Certification Service.

[FR Doc. 90–9324 Filed 4–20–90; 8:45 am]

BILLING CODE 4910–13–M

---

14 CFR Part 39

[Docket No. 89–NM–240–AD; Amendment 39–6584]

Airworthiness Directives; McDonnell Douglas Model DC–9–81, –82, –83, and –87 Series Airplanes and Model MD–88 Airplanes, Fuselage Numbers 1071 Through 1644

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment adopts a new airworthiness directive (AD), applicable to McDonnell Douglas Model DC–9–81, –82, –83, and –87 series airplanes and Model MD–88 airplanes, which requires inspection and modification of the electrical bonding straps for the overhead stowage compartment support rail assembly to preclude premature chafing of electrical wiring in the cabin overhead area. This amendment is prompted by reports of electrical shorting and smoke emanating from the passenger compartment ceiling area. This condition, if not corrected, could result in fire on board the airplane above the cabin overhead stowage compartments.

EFFECTIVE DATE: May 29, 1990.

ADDRESSES: The applicable service information may be obtained from McDonnell Douglas Corporation, 3855 Lakewood Boulevard, Long Beach, California 90846, Attention: Business Unit Manager, Technical Publications, C1–HCW (54–60). This information may be examined at the FAA, Northwest Mountain Region, Transport Airplane Directorate, 17900 Pacific Highway South, Seattle, Washington, or at the Los Angeles Aircraft Certification Office, 3229 East Spring Street, Long Beach, California.

FOR FURTHER INFORMATION CONTACT: Mr. Alan T. Shinseki, Aerospace Engineer, ANM–1321L, FAA, Northwest Mountain Region, Los Angeles Aircraft Certification Office, 3229 East Spring Street, Long Beach, California 90806–2425; telephone (213) 988–5343.

SUPPLEMENTARY INFORMATION: A proposal to amend part 39 of the Federal Aviation Regulations to include an airworthiness directive, applicable to McDonnell Douglas Model DC–9–81, –82, –83, and –87 series airplanes and Model MD–88 airplanes, which requires a one-time inspection and modification of the bonding strap installation for the overhead stowage compartment support rail assembly, was published in the **Federal Register** on December 19, 1989 (54 FR 51892).

Interested persons have been afforded an opportunity to participate in the making of this amendment. Due consideration has been given to the comments received.

The Air Transport Association (ATA) of America, on behalf of its member operators, commented that the applicability of the final rule should only include those airplanes listed in McDonnell Douglas MD–80 Alert Service Bulletin A25–309, since airplanes other than those listed are equipped with a different type of stowage compartment bin. The FAA concurs and has revised the applicability statement of the final rule accordingly.

ATA also commented that another member requested that the compliance period be extended from the proposed 12 months to 5 years so that the modification can be accomplished during a heavy base visit when the subject compartments are routinely

removed. ATA suggested that if this member's request is denied, then the compliance period should be extended to 18 months after the effective date of the final rule to allow operators to accomplish the required inspection and modification during a scheduled "C" check. The FAA does not agree with the ATA member's request for an extension of the compliance time to 5 years; however, the FAA concurs with ATA's suggestion that the proposed compliance period be extended to 18 months. This extension will provide for time to accomplish the requirements of the AD at a time when airplanes are at a main base for an extended hold and where special equipment and trained personnel are available. The final rule has been revised accordingly.

After careful review of the available data, including the comments noted above, the FAA has determined that air safety and the public interest require the adoption of the rule as proposed with the changes previously described. The FAA has determined that these changes will neither increase the economic burden on any operator nor increase the scope of the AD.

There are approximately 556 McDonnell Douglas Model DC–9–81, –82, –83, and –87 series airplanes and Model MD–88 airplanes of the affected design in the worldwide fleet. It is estimated that 313 airplanes of U.S. registry will be affected by this AD, that it will take approximately 30 manhours per airplane to accomplish the required actions, and that the average labor cost will be $40 per manhour. The required parts will be provided by the manufacturer at no cost to operators. Based on these figures, the total cost impact of the AD on U.S. operators is estimated to be $375,600.

The regulations adopted herein will not have substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government. Therefore, in accordance with Executive Order 12612, it is determined that this final rule does not have sufficient federalism implications to warrant the preparation of a Federalism Assessment.

For the reasons discussed above, I certify that this action (1) is not a "major rule" under Executive Order 12291; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) will not have a significant economic impact, positive or negative, on a substantial number of small entities under the criteria of the Regulatory Flexibility Act. A final evaluation has been prepared for this action and is contained in the regulatory docket. A copy of it may be obtained from the Rules Docket.

List of Subjects in 14 CFR part 39

Air transportation, Aircraft, Aviation safety, Safety.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me by the Administrator, the Federal Aviation Administration amends 14 CFR part 39 of the Federal Aviation Regulations as follows:

PART 39—[AMENDED]

1. The authority citation for part 39 continues to read as follows:

Authority: 49 U.S.C. 1354(a), 1421 and 1423; 49 U.S.C. 106(g) (Revised Pub. L. 97–449, January 12, 1983); and 14 CFR 11.89.

§ 39.13 [Amended]

2. Section 39.13 is amended by adding the following new airworthiness directive:

McDonnell Douglas: Applies to McDonnell Douglas Model DC–9–81, –82, –83, and –87 series airplanes and Model MD–88 airplanes, Fuselage Numbers 1071 through 1644, certificated in any category. Compliance is required within 18 months after the effective date of this airworthiness directive (AD), unless previously accomplished.

To eliminate a potential fire ignition source in the main cabin above the overhead stowage compartment area, accomplish the following:

A. Visually inspect the left and right overhead stowage compartment rail assemblies in the vicinity of each electrical bonding strap for evidence of arcing, burning, or chafing to electrical wiring. If damage is found, prior to further flight, repair the electrical wires in accordance with McDonnell Douglas MD–80 Maintenance Manual, Chapters 20–50–01 and 20–50–02.

B. Modify the electrical bonding strap installation of the left and right overhead stowage compartment rail assemblies in accordance with the Accomplishment Instructions of McDonnell Douglas MD–80 Alert Service Bulletin A25–309, dated October 30, 1989.

C. An alternate means of compliance or adjustment of the compliance time, which provides an acceptable level of safety, may be used when approved by the Manager, Los Angeles Aircraft Certification Office, FAA, Northwest Mountain Region.

Note: The request should be forwarded through an FAA Principal Avionics Inspector (PAI), who will either concur or comment and then send it to the Manager, Los Angeles Aircraft Certification Office.

D. Special flight permits may be issued in accordance with FAR 21.197 and 21.199 to operate airplanes to a base in order to comply with the requirements of this AD.

All persons affected by this directive who have not already received the appropriate service documents from the manufacturer may obtain copies upon request to McDonnell Douglas Corporation, 3855 Lakewood Boulevard, Long Beach, California 90846, Attention: Business Unit Manager, Technical Publications, C1–HCW (54–60). These documents may be examined at the FAA, Northwest Mountain Region, Transport Airplane Directorate, 17900 Pacific Highway South, Seattle, Washington, or at the Los Angeles Aircraft Certification Office, 3229 East Spring Street, Long Beach, California.

This amendment becomes effective May 29, 1990.

Issued in Seattle, Washington, on April 13, 1990.

Leroy A. Keith,

Manager, Transport Airplane Directorate, Aircraft Certification Service.

[FR Doc. 90–9326 Filed 4–20–90; 8:45 am]

BILLING CODE 4910–13–M

---

14 CFR Part 71

[Airspace Docket No. 89–AGL–7]

Transition Area Establishment—Vermillion, SD

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: The nature of this action is to establish the Vermillion, SD, transition area to accommodate a new NDB Runway 30 Standard Instrument Approach Procedure (SIAP) to Harold Davidson Field Airport, Vermillion, SD. The intended effect of this action is to ensure segregation of the aircraft using approach procedures in instrument conditions from other aircraft operating under visual weather conditions in controlled airspace.

EFFECTIVE DATE: 0901 u.t.c., June 28, 1990.

FOR FURTHER INFORMATION CONTACT: Douglas F. Powers, Air Traffic Division, System Management Branch, AGL–530, Federal Aviation Administration, 2300 East Devon Avenue, Des Plaines, Illinois 60018, telephone (312) 694–7899.

SUPPLEMENTARY INFORMATION:

History

On Thursday, April 6, 1989, the Federal Aviation Administration (FAA) proposed to amend part 71 of the Federal Aviation Regulations (14 CFR part 71) to establish a transition area airspace near Vermillion, SD (54 FR 13896).

Interested parties were invited to participate in this rulemaking

proceeding by submitting written comments on the proposal to the FAA. No comments objecting to the proposal were received.

Except for editorial changes, this amendment is the same as that proposed in the notice. Section 71.181 of part 71 of the Federal Aviation Regulations was republished in Handbook 7400.6F dated January 2, 1990.

The Rule

This amendment to part 71 of the Federal Aviation Regulations establishes a transition area airspace near Vermillion, SD. This transition area is being established to accommodate a new NDB Runway 30 SIAP to Harold Davidson Field Airport, Vermillion, SD.

The development of this procedure requires that the FAA alter the designated airspace to insure that the procedure may be contained within controlled airspace. The minimum descent altitude for this procedure may be established below the floor of the 700-foot controlled airspace.

Aeronautical maps and charts will reflect the defined area which will enable other aircraft to circumnavigate the area in order to comply with applicable visual flight rules requirements.

The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore—(1) is not a "major rule" under Executive Order 12291; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

List of Subjects in 14 CFR Part 71

Aviation safety, Transition areas.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me, part 71 of the Federal Aviation Regulations (14 CFR part 71) is amended as follows:

PART 71—[AMENDED]

1. The authority citation for part 71 continues to read as follows:

Authority: 49 U.S.C. 1348(a), 1354(a), 1510; Executive Order 10854; 49 U.S.C. 106(g) (Revised Pub. L. 97-449, January 12, 1983); 14 CFR 11.69.

§ 71.181 [Amended]

2. Section 71.181 is amended as follows:

Vermillion, SD [New]

That airspace extending upward from 700 feet above the surface within a 5-mile radius of the Harold Davidson Field Airport, Vermillion, SD (lat. 42°46'00" N., long. 96°56'00" W.), and within 4.25 miles each side of the 119° bearing from the airport extending from the 5-mile radius to 8.5 miles southeast of the airport; excluding that portion which overlies the Sioux City, IA, transition area.

Issued in Des Plaines, Illinois, on April 12, 1990.

Teddy W. Burcham,

Manager, Air Traffic Division.

14 CFR Part 97

[Docket No. 26179; Amdt. No. 1423]

Standard Instrument Approach Procedures; Miscellaneous Amendments

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment establishes, amends, suspends, or revokes Standard Instrument Approach Procedures (SIAPs) for operations at certain airports. These regulatory actions are needed because of the adoption of new or revised criteria, or because of changes occurring in the National Airspace System, such as the commissioning of new navigational facilities, addition of new obstacles, or changes in air traffic requirements. These changes are designed to provide safe and efficient use of the navigable airspace and to promote safe flight operations under instrument flight rules at the affected airports.

DATES: *Effective:* An effective date for each SIAP is specified in the amendatory provisions.

Incorporation by reference—approved by the Director of the Federal Register on December 31, 1980, and reapproved as of January 1, 1982.

ADDRESSES: Availability of matters incorporated by reference in the amendment is as folows:

For Examination

1. FAA Rules Docket, FAA Headquarters Building, 800 Independence Avenue SW., Washington, DC 20591;

2. The FAA Regional Office of the region in which the affected airport is located; or

3. The Flight Inspection Field Office which originated the SIAP.

For Purchase

Individual SIAP copies may be obtained from:

1. FAA Public Inquiry Center (APA-200), FAA Headquarters Building, 800 Independence Avenue SW., Washington, DC 20591; or

2. The FAA Regional Office of the region in which the affected airport is located.

By Subscription

Copies of all SIAPs, mailed once every 2 weeks, are for sale by the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402.

FOR FURTHER INFORMATION CONTACT: Paul J. Best, Flight Procedures Standards Branch (AFS-420), Technical Programs Division, Flight Standards Service, Federal Aviation Administration, 800 Independence Avenue SW., Washington, DC 20591; telephone (202) 267-8277.

SUPPLEMENTARY INFORMATION: This amendment to part 97 of the Federal Aviation Regulations (14 CFR part 97) establishes, amends, suspends, or revokes Standard Instrument Approach Procedures (SIAPs). The complete regulatory description of each SIAP is contained in official FAA form documents which are incorporated by reference in this amendment under 5 U.S.C. 552(a), 1 CFR part 51, and § 97.20 of the Federal Aviation Regulations (FAR). The applicable FAA Forms are identified as FAA Forms 8260-3, 8260-4, and 8260-5. Materials incorporated by reference are available for examination or purchase as stated above.

The large number of SIAPs, their complex nature, and the need for a special format make their verbatim publication in the **Federal Register** expensive and impractical. Further, airmen do not use the regulatory text of the SIAPs, but refer to their graphic depiction on charts printed by publishers of aeronautical materials. Thus, the advantages of incorporation by reference are realized and publication of the complete description of each SIAP contained in FAA form documents is unnecessary. The provisions of this amendment state the affected CFR (and FAR) sections, with the types and effective dates of the SIAPs. This amendment also identifies

the airport, its location, the procedure identification and the amendment number.

This amendment to part 97 is effective on the date of publication and contains separate SIAPs which have compliance dates stated as effective dates based on related changes in the National Airspace System or the application of new or revised criteria. Some SIAP amendments may have been previously issued by the FAA in a National Flight Data Center (FDC) Notice to Airmen (NOTAM) as an emergency action of immediate flight safety relating directly to published aeronautical charts. The circumstances which created the need for some SIAP amendments may require making them effective in less than 30 days. For the remaining SIAPs, an effective date at least 30 days after publication is provided.

Further, the SIAPs contained in this amendment are based on the criteria contained in the U.S. Standard for Terminal Instrument Approach Procedures (TERPs). In developing these SIAPs, the TERPS criteria were applied to the conditions existing or anticipated at the affected airports. Because of the close and immediate relationship between these SIAPs and safety in air commerce, I find that notice and public procedure before adopting these SIAPs are unnecessary, impracticable, and contrary to the public interest and, where applicable, that good cause exists for making some SIAPs effective in less than 30 days.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore—(1) is not a "major rule under Executive Order 12291; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. For the same reason, the FAA certifies that this amendment will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

List of Subjects in 14 CFR Part 97

Approaches, Standard Instrument, Incorporation by reference.

Issued in Washington, DC on March 30, 1990.

Daniel C. Beaudette,

Director, Flight Standards Service.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me, part 97 of the Federal Aviation Regulations (14 CFR part 97) is amended by establishing, amending, suspending, or revoking Standard Instrument Approach Procedures, effective at 0901 g.m.t. on the dates specified, as follows:

PART 97—[AMENDED]

1. The authority citation for part 97 continues to read as follows:

Authority: 49 U.S.C. 1348, 1354(a), 1421 and 1510; 49 U.S.C. 106(g) (Revised Pub. L. 97-449, January 12, 1983); and 14 CFR 11.49(b)(2).

2. Part 97 is amended to read as follows:

§§ 97.23, 97.25, 97.27, 97.29, 97.31, 97.33, 97.35 [Amended]

By amending: Section 97.23 VOR, VOR/DME, VOR or TACAN, and VOR/DME or TACAN; § 97.25 LOC, LOC/DME, LDA, LDA/DME, SDF, SDF/DME; § 97.27 NDB, NDB/DME; § 97.29 ILS, ILS/DME, ISMLS, MLS, MLS/DME, MLS/RNAV; § 97.31 RADAR SIAPs; § 97.33 RNAV SIAPs; and § 97.35 COPTER SIAPs, identified as follows:

BILLING CODE 4910-13-M

DEPARTMENT OF INTERIOR

Office of Surface Mining Reclamation and Enforcement

30 CFR Part 914

Indiana Regulatory Program; Self-Bonding

AGENCY: Office of Surface Mining Reclamation and Enforcement (OSM), Interior.

ACTION: Final rule; approval of amendment.

SUMMARY: OSM is announcing the approval of a proposed amendment to the Indiana Permanent Regulatory Program (hereinafter referred to as the Indiana program) under the Surface Mining Control and Reclamation Act of 1977 (SMCRA). The proposed amendment concerns revision of the Indiana surface mining statute to authorize self-bonding by permit applicants. The intent of the amendment is to provide coal mine operators with an alternative means to ensure that the reclamation requirements of the Indiana program and their surface coal mining permits are met.

EFFECTIVE DATE: April 23, 1990.

FOR FURTHER INFORMATION CONTACT: Mr. Richard D. Rieke, Director, Indianapolis Field Office, Office of Surface Mining Reclamation and Enforcement, room 300, Minton-Capehart Federal Building, 575 N. Pennsylvania Street, Indianapolis, Indiana 46204; Telephone (317) 226–6166.

SUPPLEMENTARY INFORMATION:

I. Background on the Indiana program.
II. Submission of amendments.
III. Director's findings.
IV. Disposition of comments.
V. Director's decision.
VI. Procedural determinations.

I. Background on the Indiana Program

The Secretary of the Interior conditionally approved the Indiana program effective July 29, 1982. Information on the background of the Indiana program, including the Secretary's findings, the disposition of public comments and a detailed explanation of the conditions of approval can be found in the July 26, 1982, **Federal Register** (47 FR 32071). Subsequent actions concerning the conditions of approval and program amendments are identified in 30 CFR 914.15 and 914.16.

II. Submission of Amendments

On March 18, 1988, (Administrative Record No. IND–0559A), the Indiana Department of Natural Resources (IDNR) submitted to OSM pursuant to 30 CFR 732.17, a proposed State program amendment. The provisions of the amendment were included in three laws enacted by the 1988 Indiana General Assembly: Senate Enrolled Acts (SEA) Nos. 45, 121, and 231. By letter dated October 19, 1988, Indiana requested that OSM process each of the three laws separately as individual program amendments (Administrative Record No. IND–0611). By an undated letter received by OSM on May 9, 1989, the IDNR requested that the self-bonding and the bond pool fund provisions of SEA 231 be processed separately as individual State program amendments (Administrative Record No. IND-0643).

This notice pertains only to self-bonding which is set forth in sections 2 and 3 of SEA 231. Section 2 of SEA 231 amends IC 13–4.1–6–5 to authorize the director of the IDNR to accept self-bonds under IC 13–4.1–6.3. Section 3 of SEA 231 adds IC 13–4.1–6.3 as a new chapter to the Indiana Code (IC). Chapter 6.3 sets forth the provisions governing self-bonding including the conditions to be met by applicants and their corporate guarantors, the terms of acceptance for corporate guarantee and the requirements for indemnity agreements.

OSM announced receipt of the proposed amendment in the May 10, 1988, **Federal Register** (53 FR 16560) and, in the same notice, opened the public comment period and provided opportunity for a public hearing on its adequacy. The public comment period ended June 9, 1988. There were two requests for a public hearing concerning the March 18, 1988, submittal, and a hearing was held on June 6, 1988.

During the review of Indiana's proposed self-bonding amendment, OSM identified several concerns which were communicated to the State during a meeting held on September 21, 1989, (Administrative Record No. IND–0700). Indiana responded in a letter dated October 18, 1989, by submitting modifications to its proposed amendment (Administrative Record No. IND–0696). These modifications were introduced in the Indiana State legislature on January 3, 1990, as sections 5 and 6 of Senate Bill No. 52.

In the January 25, 1990, **Federal Register** (55 FR 2538) OSM reopened and extended the public comment period for Indiana's proposed amendment to provide the public an opportunity to reconsider the amendment's adequacy in light of the revisions submitted by IDNR. This extension of the public comment period closed on February 9, 1990.

III. Director's Findings

Set forth below, pursuant to SMCRA and the Federal regulations at 30 CFR 732.15 and 732.17, are the Director's findings concerning the proposed amendment to the Indiana program.

1. IC 13–4.1–6–5 Deposit of Cash, etc., in Lieu of Bond

Indiana has amended its program at IC 13–4.1–6–5 to authorize the director of the IDNR to accept a self-bond from an applicant for a permit under proposed IC 13–4.1–6.3, given the applicant has a suitable agent to receive service of process and a history of financial solvency and continuous operation. This provision is substantively identical to section 509(c) of SMCRA and the Secretary's rules at 30 CFR 800.23(b). OSM, therefore, finds that the State's revision at IC 13–4.1–6–5 is no less stringent than SMCRA and no less effective than the Federal regulations.

2. IC 13–4.1–6.3 Self-Bonding

Chapter 6.3 has been added to the Indiana code to govern self-bonding by the applicant for a permit or its corporate guarantor. Sections 1 through 7 of Chapter 6.3 set forth definitions of terms. These definitions are substantively identical to those found at 30 CFR 800.23(a). The definition of parent corporation has been omitted by the State because the self-bonding amendment does not make a distinction between parent and non-parent corporate guarantors. OSM, therefore, finds the proposed definitions no less effective than those at 30 CFR 800.23(a).

Section 8, which repeats the proposed provisions of IC 13–4.1–6–5, lists the conditions under which the director of the IDNR may accept a self-bond from the applicant or its corporate guarantor. To be acceptable, the applicant or its guarantor must (1) designate a suitable agent to receive service of process, (2) have been in continuous operation as a business entity for a period of not less than five years immediately preceding the time of application, (3) have met certain financial criteria and (4) submitted financial statements for the most recently completed fiscal year and any remaining completed quarters in the current fiscal year.

The amendment would authorize the director to accept an applicant for self-bonding if the applicant met one of the three following financial criteria:

(1) A current rating for its most recent bond issuance of "A" or higher;

(2) A tangible net worth of at least ten million dollars, a ratio of total liabilities to net worth of 2.5:1 or less, and a ratio

of current assets to current liabilities of 1.2:1 or greater; or

(3) Fixed assets in the United States of at least twenty million and a ratio of total liabilities to net worth of 2.5:1 or less, and a ratio of current assets to current liabilities of 1.2:1 or greater.

Financial statements for the most recently completed fiscal year must be accompanied by a report prepared by an independent certified public accountant that contains the accountant's audit or review opinion of the financial statements with no adverse opinion.

There are no substantive differences between Indiana's proposed conditions for acceptance of an applicant or its corporate guarantor and those found at 30 CFR 800.23(b). OSM, therefore, finds section 8 of the proposed amendment to be no less effective than the Federal rules.

Section 9 of chapter 6.3 sets the conditions under which the director may accept a written guarantee for an applicant's self-bond from a corporate guarantor. The guarantor must meet all requirements in section 8 which are discussed above. The applicant must meet all requirements in section 8 except for the financial test. These provisions are similar to the Federal rules at 30 CFR 800.23(c), however, the State's amendment does not make a distinction between parent and non-parent corporate guarantors.

The terms which must be included in the corporate guarantee are substantively equivalent to those in 30 CFR 800.23(c)(1)(i)-(iii). The guarantor must provide funds to the regulatory authority in an amount sufficient to complete the reclamation plan but not to exceed the bond amount in the event that the applicant fails to complete the reclamation plan. Cancellation of the corporate guarantee may occur if the guarantor sends notice to the director at least 90 days in advance of the cancellation date and the director accepts the cancellation. OSM finds that section 9 which sets forth the conditions and terms of corporate guarantee are no less effective than 30 CFR 800.23(c).

Section 10 of chapter 6.3 limits the total amount of outstanding and proposed self-bonds of both the applicant and the corporate guarantor equal to 25 percent of tangible net worth in the United States. This requirement is the same as found at 30 CFR 800.23(d). Section 10 is, therefore, no less effective than its Federal counterpart.

Section 11 of chapter 6.3 sets forth the requirements for indemnity agreements when the director accepts an applicant's self-bond. Paragraph (1) of section 11 requires the indemnity agreement to be executed by all persons and parties who are bound by it including the corporate guarantor. Paragraph (2) requires corporations applying for a self-bond and corporate guarantors guaranteeing a subsidiary's self-bond to have an indemnity agreement signed by two corporate officers who are authorized to bind the corporation. A copy of this authorization must be provided to the director. Paragraph (3) requires that if the applicant is a partnership, joint venture or syndicate, the agreement must bind each partner or party who has a beneficial interest, directly or indirectly, in the applicant. And finally, the proposed amendment specifies that the indemnity agreement is subject to the applicant or corporate guarantor completing the approved reclamation plan for lands in default or the payment to the director of an amount necessary to complete the approved reclamation plan, not to exceed the bond amount.

Indiana's requirements for indemnity agreements as modified by the State's October 18, 1989, letter and proposed Senate Bill No. 52 are similar to those in 30 CFR 800.23(e). The Federal rule at 30 CFR 800.23(e)(2) requires both the applicant and the corporate guarantor to submit an indemnity agreement. By definition, a self-bond under 30 CFR 800.5(c) means an indemnity agreement in a sum certain executed by the applicant or by the applicant and any corporate guarantor. The State's proposed amendment requires the corporate guarantor, if one is present, along with the applicant, to submit an indemnity agreement signed by two corporate officers authorized to bind their respective corporations.

The Federal rules at 30 CFR 800.23(e)(2) require authorizations for corporate officials to sign an indemnity agreement to be accompanied by an affidavit certifying that such an agreement is valid under all applicable Federal and State laws. The proposed amendment as modified by the State's October 18, 1989, letter and the proposed Senate Bill No. 52 also requires an affidavit of this type. This provision was included in the Federal rules because the signing of an indemnity agreement by a utility or other non-parent guarantor might not be legally enforceable. A discussion of this issue was reported in the January 14, 1988, **Federal Register** (53 FR 996). For the reasons given above, OSM finds that the provisions of the proposed modified amendment which apply to indemnity agreements are no less effective than those at 30 CFR 800.23(e).

Section 12 of chapter 6.3 requires self-bonded applicants and corporate guarantors to submit updated financial information within 90 days after the close of each fiscal year following the issuance of the self-bond or corporate guarantee. This provision is substantively identical to the corresponding Federal rules at 30 CFR 800.23(f).

Section 13 of chapter 6.3 requires immediate notification be provided to the director where the financial conditions of the applicant or the corporate guarantor for self-bonding are not satisfied. In this case, the applicant has 90 days following notification to post an alternative form of bond in the same amount. Federal rules at 30 CFR 800.23(g) contain a similar requirement with the statement that if the permittee fails to post an adequate substitute bond the provisions of 30 CFR 800.16(e) shall apply. Under 30 CFR 800.16(e), the operator would have to cease coal extraction and immediately begin reclamation operations. The proposed amendment as modified by the State's October 18, 1989, letter and proposed Senate Bill 52 would also require operators who fail to post an adequate substitute bond within 90 days to cease coal extraction and immediately begin reclamation. For this reason, OSM finds that section 13 is no less effective than 30 CFR 800.23(g).

IV. Disposition of Comments

As discussed in the section of this notice entitled "Discussion of Amendment," OSM solicited public comment and provided opportunity for a public hearing on the proposed amendment. The Indiana Coal Council, Inc. (ICC) submitted comments during the public comment period which closed on June 9, 1988, (Administrative Record No. IND—0590). No other comments pertaining to SEA 231 were received by mail or presented during the hearing which was held on June 6, 1988.

The ICC expressed support for SEA 231. They considered it an innovative, well-balanced and sensible piece of legislation and provided specific comments on the self-bonding provisions.

The ICC commented on two differences between the proposed amendment and 30 CFR 800.23 which governs self-bonding. The Federal rules at 30 CFR 800.23(e)(2) require corporations applying for a self-bond and corporations guaranteeing an applicant's self-bond to submit an indemnity agreement to the regulatory authority signed by two corporate officers who are authorized to bind their corporations. A copy of such authorization must be provided to the regulatory authority along with an affidavit certifying that such an

agreement is valid under all applicable Federal and State laws. As discussed above under OSM's evaluation of section 11 of IC 13–4.1–6.3, the State's proposed amendment as modified on October 18, 1989, and proposed Senate Bill No. 52 also requires an accompanying affidavit. The ICC believed that as long as such an affidavit is submitted by the ultimate guarantor, the interests of the public would be protected. Furthermore, they had no objections to both the applicant and guarantor being required to submit an affidavit as a matter of IDNR policy.

OSM agrees with the ICC's comment that the public interest will be served by requiring the corporate guarantor to submit an affidavit certifying that the indemnity agreement is valid under State and Federal laws. The State's amendment now contains a provision requiring such an affidavit.

The ICC commented that the State's self-bonding amendment does not contain a provision whereby the indemnity agreement under forfeiture will operate as a judgment against those parties liable under the indemnity agreement. Under 30 CFR 800.23(e)(4), an indemnity agreement is to operate as a judgment if permitted under State law. The ICC stated that IC 34–2–25–1 and IC 34–2–26–1 do not allow agreements confessing judgment in Indiana. OSM agrees that Indiana law prohibits confessing judgments and, therefore, has not required the State to include such a provision in the proposed amendment.

V. Director's Decision

Based upon the above findings, the Director is approving proposed self-bonding amendments to IC 13–4.1–6.3 and 13–4.1–6.5 of the Indiana program as submitted to OSM by IDNR on March 18, 1988, and modified on October 18, 1989. The Federal rules at 30 CFR part 914 codifying decisions concerning the Indiana program are being amended to implement this decision. This amendment to the Federal rules is being made effective upon the enactment of Senate Bill No. 52 into Indiana State law in a form identical to the version reviewed by OSM as embodied in the October 18, 1989, letter from the State (Administrative Record No. IND–0696).

VI. Procedural Determinations

1. National Environmental Policy Act:

The Secretary has determined that, pursuant to section 702(d) of SMCRA, 30 U.S.C. 1292(d), no environmental impact statement need be prepared on this rulemaking.

2. Executive Order 12291 and the Regulatory Flexibility Act:

On July 12, 1984, the Office of Management and Budget (OMB) granted OSM an exemption from sections 3, 4, 7, and 8 of Executive Order 12291 for actions directly related to approval or conditional approval of State regulatory programs. Therefore, this action is exempt from preparation of a regulatory impact analysis and regulatory review by OMB.

The Department of the Interior has determined that this rule will not have a significant economic effect on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*). This rule will not impose any new requirements; rather, it will provide coal mine operators an alternative means not previously available to ensure that the reclamation requirements established by SMCRA will be met.

3. Paperwork Reduction Act:

This rule does not contain information collection requirements which require approval by the Office of Management and Budget under 44 U.S.C. 3507.

Dated: April 11, 1990.

Carl C. Close,

Assistant Director, Eastern Field Operations.

For the reasons set out in the preamble, title 30, chapter VII, subchapter T of the Code of Federal Regulations is amended as set forth below:

PART 914—INDIANA

1. The authority citation for part 914 continues to read as follows:

Authority: 30 U.S.C. 1201 *et seq.*

2. In § 914.15, paragraph (z) is added to read as follows:

§ 914.15 Approval of regulatory program amendments.

* * * * *

(z) The following amendment, which concerns self-bonding requirements, is approved effective April 23, 1990, provided the State promulgates the rules in a form substantively identical to that submitted on March 18, 1988, and as clarified and modified on October 18, 1989: Revised Indiana IC 13–4.1–6–5 and new Indiana statute IC 13–4.1–6.3.

[FR Doc. 90–9261 Filed 4–20–90; 8:45 am]
BILLING CODE 4310–05–M

PANAMA CANAL COMMISSION

35 CFR Part 119

RIN 3207–AA25

Licensing of Officers

AGENCY: Panama Canal Commission.

ACTION: Final rule.

SUMMARY: The Panama Canal Commission is revising subpart F "Engineers" of part 119, title 35 Code of Federal Regulations, to create a new license for the position of Assistant Engineer (Watch Standing). Other sections of the subpart are revised where appropriate. This change reflects the agency's desire to bring the licensing program more into line with the functions actually needed to be performed by certain marine personnel employed by the Panama Canal Commission.

EFFECTIVE DATE: April 23, 1990.

FOR FURTHER INFORMATION CONTACT: Mr. Michael Rhode, Jr., Secretary, Panama Canal Commission, Telephone (202) 634–6441 or Captain George Hull, Marine Director, telephone in Balboa Heights, Republic of Panama, 011–507–52–4500.

SUPPLEMENTARY INFORMATION: On February 12, 1990, a notice of an interim rule with request for comments was published in the **Federal Register** (55 FR 4837). Comments were invited from the public to be submitted on or before March 14, 1990. No comments were received. As a result of an internal review, editorial changes of a nonsubstantial nature have been made to § 119.226(e). The changes will have no impact on the public; therefore, the interim rule is adopted with some changes.

List of Subjects in 35 CFR Part 119

Panama Canal, Towboats, Marine engineers.

PART 119—LICENSING OF OFFICERS

Accordingly, the interim rule amending 35 CFR part 119 which was published at 55 FR 4837 on February 12, 1990, is adopted as a final rule with the following change:

1. The authority citation for part 119, subpart F, continues to read as follows:

Authority: 22 U.S.C. 3811, E.O. 12215, 45 FR 36043.

2. Section 119.226(e) is revised to read as follows:

§ 119.226 Assistant engineer (watch standing), motor vessel; experience required.

* * * * *

(e) Have three years of service in the engine room of a steam and/or motor vessel, eighteen months of which must have been as a qualified member of the engine department or equivalent supervisory position. (A qualified member of the engine department is any person below the rating of license officer and above the rating of coal passer, wiper or assistant electrician, who holds a current, valid permanent certificate of service as a qualified member of the engine department issued by the U.S. Coast Guard or a currently valid equivalent certificate of service issued by the Government of Panama. Ratings included are those of donkeyman, refrigerating engineer, oiler, deck engineer, fireman, electrician, water tender, junior engineer, machinist, pumpman, deck engine mechanic, and engineman.)

* * * * *

Dated: March 29, 1990.

Fernando Manfredo, Jr.,

Acting Administrator, Panama Canal Commission.

BILLING CODE 3640-04-M

FEDERAL EMERGENCY MANAGEMENT AGENCY

44 CFR Part 64

[Docket No. FEMA 6869]

List of Communities Eligible for the Sale of Flood Insurance

AGENCY: Federal Emergency Management Agency.

ACTION: Final rule.

SUMMARY: This rule lists communities participating in the National Flood Insurance Program (NFIP). These communities have applied to the program and have agreed to enact certain floodplain management measures. The communities' participation in the program authorizes the sale of flood insurance to owners of property located in the communities listed.

EFFECTIVE DATES: The dates listed in the fourth column of the table.

ADDRESSES: Flood insurance policies for property located in the communities listed can be obtained from any licensed property insurance agent or broker serving the eligible community, or from the National Flood Insurance Program (NFIP) at: Post Office Box 457, Lanham, Maryland 20706, Phone: (800) 638-7418.

FOR FURTHER INFORMATION CONTACT: Frank H. Thomas, Assistant Administrator, Office of Loss Reduction, Federal Insurance Administration, (202) 646-2717, Federal Center Plaza, 500 C Street, SW., Room 417, Washington, DC 20472.

SUPPLEMENTARY INFORMATION: The National Flood Insurance Program (NFIP), enables property owners to purchase flood insurance at rates made reasonable through a Federal subsidy. In return, communities agree to adopt and administer local floodplain management measures aimed at protecting lives and new construction from future flooding. Since the communities on the attached list have recently entered the NFIP, subsidized flood insurance is now available for property in the community.

In addition, the Director of the Federal Emergency Management Agency has identified the special flood hazard areas in some of these communities by publishing a Flood Hazard Boundary Map. The date of the flood map, if one has been published, is indicated in the fifth column of the table. In the communities listed where a flood map has been published, section 102 of the Flood Disaster Protection Act of 1973, as amended, requires the purchase of flood insurance as a condition of Federal or federally related financial assistance for acquisiton or construction of buildings in the special flood hazard area shown on the map.

The Director finds that the delayed effective dates would be contrary to the public interest. The Director also finds that notice and public precedure under 5 U.S.C. 553(b) are impracticable and unnecessary.

The Catalog of Domestic Assistance Number for this program is 83.100 "Flood Insurance."

Pursuant to the provisions of 5 U.S.C. 605(b), the Administrator, Federal Insurance Administration, to whom authority has been delegated by the Director, Federal Emergency Management Agency, hereby certifies that this rule, if promulgated will not have a signficant economic impact on a substantial number of small entities. This rule provides routine legal notice stating the community's status in the NFIP and imposes no new requirements or regulations on participating communities.

List of Subjects in 44 CFR Part 64

Flood Insurance and floodplains.

1. The authority citation for part 64 continues to read as follows:

Authority: 42 U.S.C. 4001 et. seq., Reorganization Plan No. 3 of 1978, E.O. 12127.

2. Section 64.6 is amended by adding in alphabetical sequence new entries to the table.

In each entry, a complete chronology of effective dates appears for each listed community. The entry reads as follows:

§ 64.6 List of eligible communities.

State and location	Community No.	Effective date authorization/cancellation of sale of Flood Insurance in community	Current effective map date

FEDERAL COMMUNICATIONS COMMISSION

47 CFR Part 73

[MM Docket No. 88-126; RM-6142]

Radio Broadcasting Services; Philpot, KY

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: This document allots Channel 234A to Philpot, Kentucky, in response to a petition filed by Ted H. Johnson ("petitioner"), as that community's first local FM service. See 53 FR 12168, April 13, 1988. Channel 234A can be allotted to Philpot in compliance with the Commission's minimum distance separation requirements with a site restriction. The coordinates for this allotment are 37-43-03 and 86-57-32. With this action, this proceeding is terminated.

DATES: Effective June 1, 1990; The window period for filing applications will open on June 4, 1990, and close on July 5, 1990.

FOR FURTHER INFORMATION CONTACT: Nancy J. Walls, Mass Media Bureau (202) 634–6530.

SUPPLEMENTARY INFORMATION: This is a synopsis of the Commission's Report and Order, MM Docket No. 88–126, adopted March 20, 1990, and released April 17, 1990. The full text of this Commission decision is available for inspection and copying during normal business hours in the FCC Dockets Branch (Room 230), 1919 M Street NW., Washington, DC. The complete text of this decision may also be purchased from the Commission's copy contractors, International Transcription Service, (202) 857–3800, 2100 M Street, NW., Suite 140, Washington, DC 20037.

Proposed Rules

Federal Register
Vol. 55, No. 78
Monday, April 23, 1990

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

DEPARTMENT OF AGRICULTURE

Animal and Plant Health Inspection Service

7 CFR Part 352

[Docket No. 89-193]

Untreated Oranges, Tangerines, and Grapefruit From Mexico Transiting the U.S. to Foreign Countries

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Proposed rule.

SUMMARY: We are proposing to amend the Plant Quarantine Safeguard Regulations to allow certain movements of untreated oranges, tangerines, and grapefruit from Mexico through Galveston, Texas, for export. This action appears warranted because it can be done without posing an increased pest risk to plants and plant products in the United States. It would give shippers the alternative of moving untreated Mexican oranges, tangerines, and grapefruit to the port at Galveston, Texas, by water route or truck for export from Galveston by water route, or, for bonded rail movements, moving the fruit from the port of entry through a slightly enlarged corridor northward for export.

DATES: Consideration will be given only to comments received on or before May 8, 1990.

ADDRESSES: To help ensure that your written comments are considered, send an original and three copies to Chief, Regulatory Analysis and Development, PPD, APHIS, USDA, Room 866, Federal Building, 6505 Belcrest Road, Hyattsville, MD 20782. Please state that your comments refer to Docket No. 89-193. Comments received may be inspected at USDA, Room 1141, South Building, 14th and Independence Avenue, SW., Washington, DC, between 8 a.m. and 4:30 p.m., Monday through Friday, except holidays.

FOR FURTHER INFORMATION CONTACT: Mr. Frank E. Cooper, Senior Operations Officer, Port Operations, PPQ, APHIS, USDA, Room 632, Federal Building, 6505 Belcrest Road, Hyattsville, MD 20782, 301-436-8645.

SUPPLEMENTARY INFORMATION:

Background

The Plant Quarantine Safeguard Regulations contained in 7 CFR part 352 (the regulations) provide requirements applicable to most plants, plant products, and related articles, including oranges, tangerines, and grapefruit from Mexico, that are moved through the United States for export.

Section 352.30 provides specific requirements for untreated oranges, tangerines, and grapefruit from Mexico. These include requirements concerning permits, notice of arrival, origin and period of entry, inspections, safeguards, and additional conditions for movement overland and by water route.

The ports through which untreated oranges, tangerines, and grapefruit from Mexico may enter for overland movement are: Nogales, Arizona; or Brownsville, Eagle Pass, El Paso, Hidalgo, or Laredo, Texas. (These ports are referred to below as "overland ports of entry.") There are provisions for overland movement from these ports by rail, aircraft, and trucks.

Under the provisions of § 352.30(b)(3)(iii), trucks may be used to haul untreated oranges, tangerines, and grapefruit from Mexico to shipside, or to approved refrigerated storage pending lading aboard ship, in Brownsville, Texas, or alongside refrigerator cars or aircraft at any of the overland ports of entry for movement to a foreign country.

With respect to bonded rail movement, § 352.30(b)(4) specifies the boundaries of a corridor through which the shipments may move by direct route, in Customs bond and under Customs seal, without diversion or change of Customs entry en route, from the overland ports of entry to the port of exit en route to Canada or to an approved North Atlantic port in the United States for export to another foreign country. The southern and eastern boundaries of this corridor are bounded by a line drawn from Brownsville, Texas, through Houston, Texas, and Kinder, Louisiana, to Memphis, Tennessee, and then to Louisville, Kentucky, and due east from Louisville.

Section 352.30(c)(1) names Brownsville as the only Texas port of entry for untreated oranges, tangerines, and grapefruit moving by water route from Mexico through the United States to a foreign country. The regulations include further restrictions, such as stowing requirements, for exportation from Brownsville by water.

All these restrictions were established in the regulations to protect plants and plant products in the United States from the Mexican fruit fly, which is hosted by citrus fruit and widely distributed in Mexico. The Mexican fruit fly is a serious pest of many kinds of fruits that are grown in the United States, including almost all varieties of citrus. These pests could become established in the southeastern and western United States and would pose a significant pest risk in areas of the United States where host fruits are commercially grown.

We have received requests, from shipping companies that transport untreated citrus fruit from Mexico, to allow untreated oranges, tangerines, and grapefruit to move through Galveston, Texas, for export by water route. The shippers desire to use the port at Galveston as an alternative to Brownsville, Texas, since many of the ships that could be used to transport untreated citrus fruit are loaded at the port of Galveston.

We have studied the pest risk attendant to allowing the movement of untreated oranges, tangerines, and grapefruit from Mexico through Galveston, Texas, and we have determined that there would be no increased risk to plants and plant products in the United States if the requested movement through Galveston for export by water route, and, in addition, movement as far southeast as Galveston by bonded rail, were allowed in accordance with the applicable safeguard regulations of part 352. Galveston is located approximately 40 miles southeast of Houston, Texas. Houston is currently listed on the southeast boundary of the corridor for transit by bonded rail. (Further information concerning our analysis can be obtained by contacting the person listed under "**FOR FURTHER INFORMATION CONTACT.**")

Therefore, we are proposing to amend § 352.30. We would add Galveston as an

alternative to Brownsville for export by water route of untreated oranges, tangerines, and grapefruit from Mexico. Also, we would add Galveston as a port of entry for such fruit moving by water route from Mexico through the United States to a foreign country. In addition, we would add Galveston as a port to which trucks may be used to haul such fruit to shipside, or to approved refrigerated storage pending loading aboard ship, for movement to a foreign country. Further, we would replace Houston, Texas, with Galveston on the boundary line for the corridor through which untreated oranges, tangerines, and grapefruit from Mexico would be allowed to transit the United States by bonded rail.

The effect of these actions would be to allow untreated oranges, tangerines and grapefruit from Mexico to transit the port of Galveston, Texas, for the types of movements indicated in the previous paragraph for export to foreign countries, in accordance with the safeguard regulations of part 352, and thereby slightly enlarge the area through which this citrus would be allowed to transit the United States.

In addition, currently the introduction of § 352.30 appears to indicate that the provisions of this section apply only to the movement of oranges, tangerines, and grapefruit from Mexico in transit to foreign countries via United States ports on the Mexico border. Paragraph (a)(1) of § 352.30 also appears to indicate that its requirements also apply to the same type of movement for untreated oranges, tangerines, or grapefruit. We are proposing to amend these provisions to clarify that the provisions of § 352.30, and the requirements of paragraph (a)(1) of this section, apply to all movements permitted by § 352.30. In addition, we are proposing to amend § 352.30(e) to clarify that it applies to treated fruit imported through United States ports, as opposed to United States ports on the Mexican border.

Public Comment Period

James W. Glosser, Administrator of the Animal and Plant Health Inspection Service, has determined that this rulemaking proceeding should be expedited by allowing a 15-day comment period on this proposal. The shipping season for oranges, tangerines and grapefruit from Mexico ends in May. This change should be made promptly so that interested shippers can benefit from the option of using Galveston for the transit of this fruit before the end of this year's shipping season.

Executive Order 12291 and Regulatory Flexibility Act

We are issuing this proposed rule in conformance with Executive Order 12291, and we have determined that it is not a "major rule." Based on information compiled by the Department, we have determined that this rule would have an effect on the economy of less than $100 million; would not cause a major increase in costs or prices for consumers, individual industries, Federal, State, or local government agencies, or geographic regions; and would not cause a significant adverse effect on competition, employment, investment, productivity, innovation, or on the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets.

If implemented, the proposed rule would allow untreated oranges, tangerines and grapefruit from Mexico to transit the port of Galveston, Texas, in accordance with the safeguard regulations of part 352, for export to foreign countries. Persons involved in this process include the citrus owners or exporters, some of which are small entities, and the transporters (trucking, railroad, and shipping companies), all of which are large entities. Economic impacts on small entities would be limited to small increases or decreases to shipping costs paid by the citrus owners or exporters.

Under these circumstances, the Administrator of the Animal and Plant Health Inspection Service has determined that this action would not have a significant economic impact on a substantial number of small entities.

Paperwork Reduction Act

This proposed rule contains no information collection or recordkeeping requirements under the Paperwork Reduction Act of 1980, as amended (44 U.S.C. 3501 *et seq.*).

Executive Order 12372

This program/activity is listed in the Catalog of Federal Domestic Assistance under No. 10.025 and is subject to Executive Order 12372, which requires intergovernmental consultation with State and local officials. (See 7 CFR part 3015, subpart V.).

List of Subjects in 7 CFR Part 352

Agricultural commodities, Customs duties and inspection, Imports, Plant diseases, Plant pests, Plants (Agriculture), Postal Service, Quarantine, Transportation.

PART 352—PLANT QUARANTINE SAFEGUARD REGULATIONS

Accordingly, 7 CFR part 352 would be amended as follows:

1. The authority citation for part 352 would continue to read as follows:

Authority: 7 U.S.C. 149, 150bb, 150dd, 150ee, 150ff, 154, 159, 160, 162, and 2260; 31 U.S.C. 9701; and 7 CFR 2.17, 2.51, and 371.2(c).

§ 352.30 [Amended]

2. In § 352.30, in the introductory text, in paragraph (a)(1), and in paragraph (e), the phrase "on the Mexican border" is removed.

3. In paragraph (b)(3)(iii) of § 352.30, "Brownsville," would be removed and "Brownsville or Galveston," would be added in its place.

4. In paragraph (b)(4)(i) of § 352.30, the word "Houston" would be removed and "Galveston" would be added in its place both times it appears.

5. In paragraph (c)(1) of § 352.30, "or Galveston," would be added immediately following "Brownsville,".

6. In the heading for paragraph (c)(3) and in paragraph (c)(3)(i) of § 352.30, "or Galveston" would be added immediately following "Brownsville".

7. In paragraph (c)(3)(ii) of § 352.30, "Brownsville," would be removed and "Brownsville or Galveston," would be added in its place.

Done in Washington, DC, this 17th day of April 1990.

Larry B. Slagle,

Acting Administrator, Animal and Plant Health Inspection Service.

9 CFR Parts 101 and 113

[Docket No. 89–200]

Viruses, Serums, Toxins, and Analogous Products; Autogenous Biologics

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Proposed rule.

SUMMARY: This document proposes to amend the regulations pertaining to autogenous biologics by: (1) Specifying data that would be required to be submitted to the Animal and Plant Health Inspection Service in support of a request to use an autogenous biologic in herds or flocks that are adjacent to the herd or flock of origin; (2) specifying data which would be required to use such autogenous biologics in herds which are not adjacent to the herd or flock of origin; (3) specifying data that

would be required to be submitted in support of a request to use organisms for the production of an additional serial of an autogenous biologic from cultures which are older than 12 months from the date of isolation.

This action would ensure that persons seeking approval to use an autogenous biologic or an isolate under the circumstances described above are aware of the data that must be submitted in support of their request, and that the Agency is provided sufficient information to properly evaluate and approve the use of autogenous biologics.

DATES: Consideration will be given only to comments received on or before June 22, 1990.

ADDRESSES: Send an original and three copies of written comments to Chief, Regulatory Analysis and Development Staff, APHIS, USDA, Room 866, Federal Building, 6505 Belcrest Road, Hyattsville, MD 20782. Please state that your comments refer to Docket No. 89–200. Comments received may be inspected at USDA, Room 1141, South Building, 14th and Independence Avenue SW., Washington, DC, between 8 a.m and 4:30 p.m., Monday through Friday, except holidays.

FOR FURTHER INFORMATION CONTACT: Dr. David A Espeseth, Deputy Director, Veterinary Biologics, Biotechnology, Biologics, and Environmental Protection, Animal and Plant Health Inspection Service, U.S. Department of Agriculture, Room 838, Federal Building, 6505 Belcrest Road, Hyattsville, MD 20782, (301) 436–8245.

SUPPLEMENTARY INFORMATION:

Background

The regulations concerning the production of autogenous biologics are found in 9 CFR 113.98. Autogenous biologics (vaccines, bacterins, and toxoids) are prepared from cultures of microorganisms which are inactivated and nontoxic. The seed organisms used to produce such autogenous biologics are organisms isolated from sick or dead animals which are judged to be the causative agents of the diseases affecting such animals. More than one isolate may be used in the production of an autogenous biologic.

Use of Autogenous Biologics in Herds or Flocks Adjacent or Not Adjacent to the Herd or Flock of Origin

The regulations provide that under normal circumstances, an isolate from one herd or flock may not be used to prepare an autogenous biologic for another herd or flock. Permission to use an autogenous biologic derived from a particular infected herd outside that herd must be granted by the Deputy Administrator of the Animal and Plant Health Inspection Service.

The Deputy Administrator may authorize preparation of an autogenous biologic for use in adjacent herds or flocks which are considered to be at risk. The Deputy Administrator may also authorize the preparation of an autogenous biologic for use in other herds or flocks (not adjacent) which are considered to be at risk, with the written concurrence of the proper State authorities. Presently, the regulations do not specify what information persons requesting such authorization are required to submit in support of their request. Therefore, it is proposed that the regulations be amended to specify the data required to support such requests so that persons seeking authorization to use autogenous biologics in herds or flocks other than the one from which the biologic originated have a clear understanding of Agency requirements. Such amendments are also being proposed to assure that autogenous products used in herds other than the herd of origin are safe, to prevent transmission of disease, and to assure that the Agency is provided with sufficient information to properly evaluate the use of autogenous biologics under various circumstances.

Under the proposed amendments, an applicant would be required to submit the following data in support of a request to use an autogenous biologic in a herd or flock adjacent to the herd or flock of origin of the product.

(1) Name, address, and phone number of the owner of the herd or flock of origin.

(2) Veterinarian's (or other requestee's) name, address, and phone number.

(3) Animal species and number in herd or flock of origin.

(4) Identification of organism(s), at least as to genus.

(5) Diagnosis or clinical signs of the disease observed.

(6) Person that isolated the cultures and date of isolation.

(7) Number of doses requested and vaccination schedule.

(8) Adjacent herd or flock owner's name, address, and phone number.

(9) Number of animals and species in adjacent herd or flock.

(10) Assessment of the involvement or risk of involvement of the adjacent herd or flock with the disease observed.

Such information would enable the Administrator to adequately evaluate the need to use an autogenous biologic in adjacent herds or flocks.

The same information required for the use of autogenous products in an adjacent herd or flock would also be required to use the product in herds or flocks not adjacent to the herd or flock of origin. Because the specific recipient herd or flock may not be known when autogenous biologics are to be used in large geographic areas, the information requirements would be modified as follows: The following information would be substituted for paragraphs (2) and (8) of the previous section.

(2) Identification of practitioners in the area in place of the name, address, and phone number of the adjacent herd owner.

(8) The geographic designation of the area involved.

In addition, the applicant for authorization would be required to provide written concurrence from the State veterinarian or other appropriate State official in the State in which the autogenous biologic is to be used in non-adjacent herds or flocks.

If any of the proposed data required to be submitted in support of a request to use an autogenous biologic in an adjacent or nonadjacent herd or flock are unavailable, the applicant would be required to indicate that such data are unavailable and why.

Request To Produce an Additional Serial From an Isolate Older Than 12 Months

The regulations provide that organisms used to make autogenous biologics shall not be used for production more than 12 months from isolation, unless authorized by the Deputy Administrator. Presently, the regulations do not specify what information is required in order to obtain such authorization. This rulemaking proposes to amend the regulations by specifying the data that would be required to be submitted in support of a request to use the original isolate beyond 12 months for the production of an additional serial of product, as follows:

(1) A current assessment of the continued involvement of a herd or flock with the originally isolated seed organism(s).

(2) Information regarding any non-autogenous biologics which may have been used in an attempt to control the particular disease.

(3) Data or information that demonstrate that a good faith effort has been made to reisolate the organism(s).

(4) Any other information the Administrator may require in order to determine the need to use the isolate to make an additional serial.

Such information would enable APHIS to adequately evaluate the need for the use of the original isolate beyond 12 months.

Ordinarily, an exemption would be permitted for only one additional serial of product. For continued use of the seed organism(s), a licensee may wish to consider applying for a conditional license under 9 CFR 102 of this title.

Definitions

This document also proposes to add definitions of the terms "Administrator" and "Animal and Plant Health Inspection Service (APHIS)" in 9 CFR 101.2.

Executive Order 12291 and Regulatory Flexibility Act

We are issuing this proposed rule in conformance with Executive Order 12291 and Departmental Regulation 1512–1 and have determined that it is not a "major rule." Based on information compiled by the Department, we have determined that this proposed rule would have an effect on the economy of less than $100 million; would not cause a major increase in costs or prices for consumers, individual industries, Federal, State, or local government agencies, or geographic regions, and would not cause a significant adverse effect on competition, employment, investment, productivity, innovation, or on the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets.

Currently, the regulations provide that when authorization is obtained from the Deputy Administrator, an autogenous biologic can be used in an adjacent or non-adjacent herd or flock, and organisms that are older than 12 months can be used to make additional autogenous biologics. The regulations, however, do not specify the data that is required to be submitted in support of such authorization. The changes that are proposed in this document merely specify the data that APHIS has been requiring when the Agency receives requests to use an autogenous biologic in an adjacent or non-adjacent herd or to use organisms older than 12 months for the production of an additional serial.

Thus, the effect of the proposed rule would be to codify in the regulations the type of data that the Agency requires in support of the above referenced requests by practitioners and licensees. The data that would be required to be submitted in support of such requests is data which an applicant should already have readily available. Thus, there should be no additional cost in generating such data. Furthermore, based on information supplied by APHIS' Veterinary Biologics Field Operations in Ames, Iowa, the number of these types of requests is relatively few, less than 10 per year.

Under these circumstances, the Administrator of the Animal and Plant Health Inspection Service has determined that this action would not have a significant economic impact on a substantial number of small entities.

Paperwork Reduction Act

In accordance with section 3507 of the Paperwork Reduction Act of 1980 (44 U.S.C. 3507), the information collection provisions that are included in the proposed rule have been submitted for approval to the Office of Management and Budget (OMB). Written comments concerning any information collection provisions should be submitted to the Office of Information and Regulatory Affairs, OMB, Attention: Desk Officer for APHIS, Washington, DC 20503. A duplicate copy of such comments should be submitted to Chief, Regulatory Analysis and Development Staff, APHIS, USDA, Room 866, Federal Building, 6505 Belcrest Road, Hyattsville, MD 20782.

Executive Order 12372

This program/activity is listed in the Catalog of Federal Domestic Assistance under No. 10.025 and is subject to Executive Order 12372, which requires intergovernmental consultation with State and local officials. (See 7 CFR part 3015, subpart V.)

List of Subjects

9 CFR Part 101

Animal biologics.

9 CFR Part 113

Animal biologics.

PART 101—DEFINITIONS

1. The authority citation for part 101 would continue to read as follows:

Authority: 21 U.S.C. 151.159; 7 CFR 2.17, 2.51, and 371.2(d).

2. In § 101.2. all paragraph designations would be removed, the definitions would be arranged in alphabetical order. To reflect organizational changes within APHIS, the following definitions would be added in alphabetical order to read as follows:

§ 101.2 Administrative terminology.

* * * * *

Administrator. The Administrator, Animal and Plant Health Inspection Service, or any person authorized to act for the Administrator.

Animal and Plant Health Inspection Service (APHIS). The Animal and Plant Health Inspection Service of the United States Department of Agriculture.

* * * * *

PART 113—STANDARD REQUIREMENTS

3. The authority citation for 9 CFR part 113 would be revised to read as follows:

Authority: 21 U.S.C. 151.159; 7 CFR 2.17, 2.51, and 371.2(d).

4. Section 113.98, paragraph (a)(2) would be revised to read as follows:

§ 113.98 Autogenous biologics.

* * * * *

(a) * * *

(2) Under normal circumstances, organisms from one herd or flock shall not be used to prepare an autogenous biologic for another herd flock. However, the Administrator may authorize preparation of such autogenous biologic for use in herds or flocks, adjacent to the herd or flock from which the isolate is derived, which are considered to be at risk. The following information must be submitted to the Administrator (in c/o the Deputy Director, Veterinary Biologics Field Operations. 223 South Walnut Avenue, Ames, Iowa 50010), for authorization to prepare a product for use in herds or flocks adjacent to the herd or flock of origin. (If any of the data is unavailable, the applicant should indicate that such data is unavailable and why.)

(i) Name, address, and phone number of the owner of the herd or flock of origin.

(ii) Veterinarian's (or other requestee's) name, address, and phone number.

(iii) Animal species and number in herd or flock of origin

(iv) Identification of organism(s), at least as to genus.

(v) Diagnosis or clinical signs of the disease observed.

(vi) Person that isolated the cultures and the date of isolation.

(vii) Number of doses requested and vaccination schedule.

(viii) Adjacent herd or flock owner's name, address, and phone number.

(ix) Number of animals and species in adjacent herd or flock.

(x) Assessment of the involvement or risk of involvement of the adjacent herd or flock with the disease observed.

5. Section 113.98, paragraph (a)(3) would be redesignated as paragraph (a)(4) and a new paragraph (a)(3) would be added to read as follows:

§ 113.98 Autogenous biologics.

* * * * *

(a) * * *

(3) The Administrator may authorize preparation of an autogenous biologic for use in herds or flocks which are not adjacent to the herd or flock from which the isolate is derived, but which he or she considers to be at risk. The same information required for such preparation for use in herds or flocks adjacent to the herd or flock of origin must be submitted to the Administrator (in c/o the Deputy Director, Veterinary Biologics Field Operations, 223 South Walnut Avenue, Ames, Iowa 50010) for authorization to prepare a product for use in herds or flocks not adjacent to the herd or flock of origin. Because the recipient flock involved may not be known when autogenous biologics are to be used in large geographic areas, the following data may be used in lieu of the data required in paragraphs (a)(2)(ii) and (a)(2)(viii) of this section:

(i) Identification of practitioners in the area in place of the name, address, and phone number of the adjacent herd owner.

(ii) The geographic designations of the area involved.

In addition, an applicant for authorization under this paragraph shall provide written concurrence from the State veterinarian or other appropriate State official in the State in which the autogenous biologic is to be used in non-adjacent herds or flocks.

6. Section 113.98, paragraph (b)(2) would be redesignated as paragraph (b)(3) and a new paragraph (b)(2) would be added to read as follows:

§ 113.98 Autogenous biologics.

* * * * *

(b) * * *

(2) The Administrator may authorize the preparation of autogenous biologics from organisms older than 12 months from the date of isolation, provided the person requesting such authorization submits the following information:

(i) A current assessment of the continued involvement of a herd or flock with the originally isolated seed organism(s).

(ii) Information that licensed biologics are known to be ineffective in controlling the particular disease problem.

(iii) Data or information that demonstrate that a good faith effort has been made to reisolate the organism(s).

(iv) Any other information the Administrator may require in order to determine the need to use the isolate to make an additional serial.

Done in Washington, DC, this 17th day of April 1990.

Larry B. Slagle,

Acting Administrator, Animal and Plant Health Inspection Service.

BILLING CODE 3410-34-M

---

9 CFR Part 166

[Docket No. 89-122]

Swine Health Protection

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Proposed rule.

SUMMARY: We are proposing to amend the Swine Health Protection regulations by (1) removing Indiana from the list of States that permit the feeding of treated garbage to swine and adding it to the list of States that prohibit garbage feeding, (2) removing Maryland from the list of States that prohibit garbage feeding and adding it to the list of States that permit the feeding of treated garbage to swine, and (3) removing Alaska from the list of States that issue garbage treating licenses under cooperative agreements with the Animal and Plant Health Inspection Service, United States Department of Agriculture. These proposed actions are necessary to reflect changes in the status of these States, and thereby facilitate the administration of the Swine Health Protection regulations.

DATES. Consideration will be given only to comments received on or before June 22, 1990.

ADDRESSES. To help ensure that your written comments are considered, send an original and three copies to Chief, Regulatory Analysis and Development, PPD, APHIS, USDA, Room 866, Federal Building, 6505 Belcrest Road, Hyattsville, MD 20782. Please state that your comments refer to Docket 89-122. Comments received may be inspected at USDA, Room 1141, South Building, 14th Street and Independence Avenue SW., Washington, DC, between 8 a.m. and 4:30 p.m., Monday through Friday, except holidays.

FOR FURTHER INFORMATION CONTACT: Dr. William C. Stewart, Chief Staff Veterinarian, Swine Diseases Staff, VS, APHIS, USDA, Room 736, Federal Building, 6505 Belcrest Road, Hyattsville, MD 20782, 301-436-7767.

SUPPLEMENTARY INFORMATION:

Background

The "Swine Health Protection" regulations (contained in 9 CFR part 166 and referred to below as the regulations) were established under the Swine Health Protection Act (contained in 7 U.S.C. 3801 *et seq.*, and referred to below as the Act). The Act and the regulations contain provisions concerning the treatment of garbage to be fed to swine and the feeding of that garbage to swine. These provisions operate as safeguards against the spread of certain swine diseases in the United States.

Some States prohibit the feeding of garbage to swine. Other States permit the feeding of treated garbage to swine. The Act provides that garbage may be fed to swine only if it is treated to kill disease organisms at a facility holding a valid license. This license may be issued by the Secretary of Agriculture, or it may be issued by the State in which the facility is located.

A State may issue a license if it is a State that has primary responsibility for enforcing the Act, or has entered into a cooperative agreement with the Animal and Plant Health Inspection Service (APHIS) for administering and enforcing the Act. A State has primary enforcement responsibility if, among other things, it (1) has adopted adequate laws and regulations regulating the treatment of garbage to be fed to swine and the feeding thereof which laws and regulations meet the minimum standards of the Act and the regulations, (2) has adopted and is implementing adequate procedures for the effective enforcement of its garbage feeding laws and regulations, and (3) will keep records and make reports showing compliance with its garbage feeding laws and regulations and their enforcement as the Secretary may require by regulation.

A State that does not have primary enforcement responsibility may enter into a cooperative agreement with APHIS for administering and enforcing the Act if the Secretary of Agriculture determines that the State has facilities, personnel, and procedures adequate to assist APHIS in administering and enforcing the Act.

The regulations at § 166.15 categorize States according to the respective status of each. We are proposing to change the status of Indiana, Maryland, and Alaska to reflect changes in the status of these States, and thereby facilitate the administration of the Swine Health Protection regulations.

Indiana

Indiana is listed in § 166.15(b) as a State that permits the feeding of treated garbage to swine. However, Indiana State law now prohibits the feeding of garbage to swine. We are therefore proposing to remove Indiana from the

list of States in § 166.15(b) that permit the feeding of treated garbage to swine and add it to the list of States in § 166.15(a) that prohibit the feeding of garbage to swine.

Maryland

Maryland is listed in § 166.15(a) as a State that prohibits the feeding of garbage to swine. However, Maryland State law permits the feeding of treated garbage to swine. We are therefore proposing to remove Maryland from the list of States in § 166.15(a) that prohibit the feeding of garbage to swine and add it to the list of States in § 166.15(b) that permit the feeding of treated garbage to swine.

Alaska

Alaska is listed as a State that, under cooperative agreements with APHIS, issues licenses to persons desiring to operate a treatment facility for garbage that is to be treated and fed to swine. Alaska no longer has such an agreement with APHIS. We are therefore proposing to remove it from the list in § 166.15(d) of States that have cooperative agreements with APHIS. Alaska, therefore, would no longer have authority to issue licenses for garbage treatment facilities, but would remain on the list in § 166.15(b) of States that permit the feeding of treated garbage to swine. Licenses for garbage treatment facilities in Alaska would be issued by the Area Veterinarian in Charge, APHIS, USDA.

Miscellaneous

We are also proposing to make nonsubstantive changes to the regulations in § 166.15(b) for the purposes of clarity.

Executive Order 12291 and Regulatory Flexibility Act

We are issuing this proposed rule in conformance with Executive Order 12291, and we have determined that it is not a "major rule." Based on information compiled by the Department, we have determined that this rule would have an effect on the economy of less than $100 million; would not cause a major increase in costs or prices for consumers, individual industries, Federal, State, or local government agencies, or geographic regions; and would not cause a significant adverse effect on competition, employment, investment, productivity, innovation, or on the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets.

Almost all persons who operate facilities for the treatment of garbage to be fed to swine or who permit the feeding of garbage to swine are considered small entities.

Indiana has no licensed garbage feeders; therefore, prohibiting the feeding of garbage to swine in Indiana would have no economic impact there. Our proposed action simply reflects changes that Indiana has already made with respect to Swine Health Protection.

Maryland has one licensed garbage feeder, and Alaska has two. Changing the status of Maryland and Alaska would have no effect on the business operations of these entities; our proposed action simply reflects changes that Maryland and Alaska have already made with respect to swine health protection. Therefore, it is not anticipated that the licensed garbage feeders operating in Maryland and Alaska would experience any economic impact as a result of our proposed rule.

Under these circumstances, the Administrator of the Animal and Plant Health Inspection Service has determined that this action would not have a significant economic impact on a substantial number of small entities.

Paperwork Reduction Act

This rule contains no information collection or recordkeeping requirements under the Paperwork Reduction Act of 1980 (44 U.S.C. 3501 *et seq.*).

Executive Order 12372

This program/activity is listed in the Catalog of Federal Domestic Assistance under No. 10.025 and is subject to Executive Order 12372, which requires intergovernmental consultation with State and local officials. (See 7 CFR part 3015, subpart V.)

List of Subjects in 9 CFR Part 166

African swine fever, Animal diseases, Foot-and-mouth disease, Garbage, Hog cholera, Hogs, Swine vesicular disease, Vesicular exanthema of swine.

PART 166—SWINE HEALTH PROTECTION

Accordingly, 9 CFR part 166 would be amended as follows:

1. The authority citation for part 166 would continue to read as follows:

Authority.: 7 U.S.C. 3802, 3803, 3804, 3808, 3809, 3811; 7 CFR 2.17, 2.51, and 371.2(d).

§ 166.15 [Amended]

2. Paragraph (a) of § 166.15 would be amended by adding "Indiana," immediately after "Iowa," and by removing "Maryland".

3. Paragraph (b) of § 166.15 would be amended by correcting the spelling of "Main" to "Maine"; by adding "Maryland," immediately after "Maine"; and by removing "Indiana".

4. Paragraph (d) of § 166.15 would be amended by removing "Alaska,".

Done in Washington, DC, this 17th day of April 1990.

Larry B. Slagle,

Acting Administrator, Animal and Plant Health Inspection Service.

[FR Doc. 90-9265 Filed 4-20-90; 8:45 am]

BILLING CODE 3410-34-M

DEPARTMENT OF ENERGY

10 CFR Part 725

Permits for Access to Restricted Data; Atomic Vapor Laser Isotope Separation (U-AVLIS) Uranium Enrichment

AGENCY: Office of Uranium Enrichment, Department of Energy (DOE).

ACTION: Notice of proposed rulemaking.

SUMMARY: DOE is proposing to amend the regulation concerning permits for access to uranium isotope separation Restricted Data, 10 CFR part 725. The regulation establishes procedures and standards for the issuance of access permits to those private sector persons or groups who require access to Restricted Data for use in their business. Access permits are divided into separate technology categories. Category C-24 pertains to access to the gaseous diffusion and gas centrifuge processes for the separation of uranium isotopes, and for purposes other than uranium enrichment. The proposed rulemaking (1) updates Category C-24 to include the U-AVLIS technology for the separation of uranium isotopes, and (2) provides for an applicant qualifying for a permit pursuant to § 725.15(b)(3)(ii) to pay $100,000 for an access permit authorizing access to Restricted Data in subcategory A or $200,000 for an access permit authorizing access to Restricted Data in subcategory B.

The purpose of the first proposed change allows expansion of Category C-24 to include access to the Government funded U-AVLIS uranium isotope separation technologies. It is the Department's intent to initiate an industrial participation program to encourage private sector participation in the Government's uranium enrichment enterprise. This would be accomplished by executing contracts consistent with the terms and conditions set forth in the revised rule. Without the amendment, the Department could not establish a U.S. U-AVLIS industrial base to support

the future development, construction, and/or operation of U–AVLIS uranium facilities by the private sector. The purpose of the second proposed change, the alteration of access permit fees, is to offset increased Government costs to administer the access program.

The rulemaking is intended to assure that industrial expertise is incorporated into the U–AVLIS program to facilitate transition to commercial application.

DATES: Written comments (eight copies) must be submitted no later than June 22, 1990. DOE will hold a public hearing on the proposed rulemaking on May 22, 1990. Requests for an opportunity to speak at the public hearing must be received by DOE on or before May 18, 1990.

ADDRESSES: Written comments (eight copies) and requests to speak at the hearing should be addressed to: U.S. Department of Energy, Dr. Norton Haberman, Director, Office of Advanced Technology Projects and Technology Transfer (NE–35), Office of Uranium Enrichment, Washington, DC 20545, (301) 353–4781.

Hearing Location and Time: 9:30 a.m., U.S. Department of Energy, Forrestal Building Room 1E–245, 1000 Independence Avenue SW., Washington, DC 20585.

FOR FURTHER INFORMATION CONTACT: Mr. Arnold P. Litman, USDOE, Office of Advanced Technology Projects and Technology Transfer (NE–35), Washington, DC 20545, (301) 353–5777. Mr. Lawrence Leiken, USDOE, Office of General Counsel (GC–31), Washington, DC 20585, (202) 586–6975.

SUPPLEMENTARY INFORMATION:

I. Background
II. Analysis
III. Public Comment Procedures
  A. Written Comments
  B. Public Hearing
IV. Procedural Requirements
  A. Review Under Executive Order 12291
  B. Review Under the Regulatory Flexibility Act
  C. Paperwork Reduction Act
  D. National Environmental Policy Act

I. Background

The establishment of an industrial access program is an integral part of efforts by DOE to identify potential private participants interested in investing equity, technical, and managerial resources in the U.S. uranium enrichment enterprise. The goal of the access program is to provide the data base needed by the private sector to assess its levels of interest and terms and conditions for future participation in the enrichment enterprise's development, demonstration, and/or production programs. Also, an ongoing industrial access program would provide important information to the Government in exercising its decisionmaking responsibilities. The participants would provide the Department with independent reviews of the U–AVLIS program. This would include, but not be limited to, evaluations of the experimental program, transition plans, production plant cost estimates, and deployment options. The Department intends to augment existing mechanisms by which DOE's uranium enrichment program can benefit from industrial expertise in return for providing industrial firms access to the U–AVLIS technology.

In the conference report accompanying the Energy and Water Development Appropriations Act, FY 1990, (H.R. REP. NO. 235; 101st Cong., 1st Sess. 53 1989), Congress encouraged DOE to take steps to assure that an industrial perspective is incorporated into the U–AVLIS program. This proposed amendment to 10 CFR part 725 is an essential step in accelerating transfer of the U–AVLIS technology for uranium enrichment to an industrial organization that would take the technology from the laboratory to production.

The Department grants access to uranium isotope separation Restricted Data through Category C–24 access permits, currently applicable to only gaseous diffusion or gas centrifuge technology. Access to Restricted Data for isotopic separation of elements other than uranium requires either a Category C–44, "Nuclear Technology" or a Category C–65, "Plutonium Production," access permit. The Department has extensive experience in issuing permits under Category C–24. In June 1971, the Atomic Energy Commission, a predecessor agency of DOE, announced an industrial participant program to allow U.S. companies access to classified gaseous diffusion and gas centrifuge technology with the goal of transferring enrichment technology to the private sector.

Category C–24 defines the terms and conditions that must be satisfied to obtain uranium isotope separation information. Based upon existing regulations, applicants may apply for two subcategories of permits, A or B. Subcategory A includes technical information in summary form concerning the status and potential of Government funded processes for separating uranium isotopes. Subcategory B provides for up to full technical disclosure on any aspect of the uranium isotope separation process, including facility design, construction, and operation as well to all subcategory A information. To qualify for either access permit under existing regulations, an applicant is required to (1) demonstrate adequate technical, managerial, and financial qualifications, and (2) for subcategory A, agree to determine its interest in, or for subcategory B, propose to participate in, a large scale effort leading to the construction of additional gas centrifuge or gaseous diffusion production facilities. Regulations pertinent to this category were last amended in 1987, 52 FR 30138 (August 13, 1987).

In seeking to expand the scope of the access permit program, the Department emphasizes the legitimate interests and prerogatives that are recognized in the current regulations of the existing enrichment enterprise. The uranium enrichment organization currently must compete as a business against other suppliers of uranium enrichment services. Thus, the Department emphasizes that permit holders are to protect from public disclosure certain business information that is likely to cause serious competitive harm to DOE. 10 CFR 725.23(d)(9); 52 FR 30138 (August 13, 1987).

In the exercise of its discretion, the Department may attach additional conditions on access, as permitted by § 725.30, "Exceptions and Additional Requirements," to protect the public interest or the common defense and security. In the context of expanding access to U–AVLIS technology, the Department points out that among the factors to be considered under § 725.30 are the interests of the U.S. taxpayers who financed the development of the U–AVLIS technology as well as any foreign ownership in the entity requesting access.

Additionally, under the general authority of § 725.30, access permits may be conditioned to require industrial firms to provide DOE with independent reviews of the U-AVLIS program including evaluation of demonstration activities, transition plans, financing and capital venture schemes, and deployment options.

The Department intends to give priority to private sector persons or groups that apply for access permits to subcategory B. This would help assure the accelerated transfer of the U-AVLIS technology into the private sector.

II. Analysis

A brief description of the proposed changes to 10 CFR part 725, Permits for Access to Restricted Data, follows:

Subsection 725.23, Terms and Conditions of Access, would be modified to include altered annual

access fees. For subcategory A, the annual fee would be $100,000. For subcategory B, the annual fee would be $200,000. The fees would offset increased Government costs for additional personnel to administer the access program.

Appendix A to part 725, Categories of Restricted Data Available, Subcategory C–24 Isotope Separation, would be expanded to include access to U–AVLIS isotope separation technology, in addition to the gaseous diffusion and gas centrifuge technologies already provided for.

III. Public Comment Procedures

A. Written Comments

The public is invited to participate in this rulemaking by submitting comments on the proposed changes set forth in this notice. All comments should be submitted by the date specified in the "**DATES**" section of this notice and to the address in the "**ADDRESSES**" section of this notice. The outside envelope and the documents submitted should be identified with the designation "Comments on Permits for Access to Restricted Data." Eight copies should be submitted. All comments received by DOE will be available for public inspection in the DOE Freedom of Information Office, Room 1E–190, Forrestal Building, 1000 Independence Avenue SW., Washington, DC 20585, between the hours of 9 a.m. and 4 p.m., Monday through Friday, except Federal holidays.

Any information or data submitted that is considered to the Business Confidential must be so identified and submitted in writing, one copy only. DOE reserves the right to determine the confidential status of the information or data and if DOE determines that such information is not appropriately considered Business Confidential, it will advise the provider of such information 5 days in advance. If the provider of such Business Confidential information does not request its return, DOE shall treat such information according to DOE's determination.

B. Public Hearing

1. Requests to speak at the hearing must be submitted to the address indicated in the "**ADDRESSES**" section of this notice and received by DOE by the date indicated in the "**DATES**" section of this notice. Requests for oral presentations should contain a telephone number where you may be contacted prior to the hearing. Speakers will be notified before the date of the hearing as to the time for their presentations. Speakers are requested to submit eight copies of their statement to DOE at the hearing.

2. Conduct of the hearing. DOE reserves the right to schedule a person's respective presentations, and to establish the procedures governing the conduct of the hearing. The length of each presentation may be limited, based upon the number of persons requesting to be heard. The hearing begins at 9:30 a.m.

A DOE official will be designated to preside at the hearing, which will be held at DOE's Forrestal Building, 1000 Independence Ave., SW. This will not be an adjudicatory hearing. Questions may be asked only by those conducting the hearing. At the conclusion of all initial statements, each person who has made a statement will be given the opportunity, if he or she so desires, to make a rebuttal statement. The rebuttal statements will be given in the order in which the initial statements were made and will be subject to time limitations.

Any further procedural rules needed for the proper conduct of the hearing will be announced by the presiding officer.

A transcript of the hearing will be made. The entire record of the hearing, including the transcript, will be retained by DOE and made available for inspection in the DOE Freedom of Information Office, Room 1E–190, Forrestal Building, 1000 Independence Avenue, SW., Washington, DC, 20585, between the hours of 9 a.m. and 4 p.m., Monday through Friday, except Federal holidays. Transcripts may be purchased from the court reporter.

IV. Procedural Requirements

A. Executive Order 12291

Executive Order 12291 (46 FR 13193, February 19, 1981), requires an agency to prepare a regulatory impact analysis for any proposed major rule. DOE has determined that this proposal does not constitute a "major rule," as defined in the Executive Order, because: (1) The proposed revisions in the access program will not directly result in the level of impact necessary to meet the definition of a "major rule," and (2) in keeping with the purpose and intent of the Executive Order, the proposed revisions will not increase the regulatory burdens on American society.

Pursuant to section 3(c)(3) of E.O. 12291 these rules were submitted to the Director of the Office of Mangement and Budget (OMB) for review. The Director has concluded his review under that Executive Order.

B. Review Under the Regulatory Flexibility Act

Pursuant to section 605(b) of the Regulatory Flexibility Act, 5 U.S.C. 601 *et seq.*, DOE certifies that the proposal will not have a significant economic impact on a substantial number of small entities because: (1) The proposed criteria will not directly result in the level of impact required to meet the standard set forth in the Regulatory Flexibility Act, (2) to the extent the proposed criteria may have any direct impact, such impact will not be adverse to small entities, and (3) the number of small entities that may be affected by the proposed criteria is not large enough to meet the standard set forth in the Regulatory Flexibility Act.

C. Paperwork Reduction Act

The proposed granting of access permits to the U–AVLIS technology does not directly provide for the collection of new information. Should the need to collect new information arise, DOE will submit any new information collection requests concerning the proposed rulemaking to the Office of Management and Budget for approval in accordance with the Paperwork Reduction Act of 1980, 44 U.S.C. 3501.1 *et seq.*, and the procedures implementing that Act, 5 CFR 1320.1 *et seq.*

D. National Environmental Policy Act

DOE has determined that this proposed rulemaking, which permits additional access to the enrichment information data base, and does not involve alteration of existing facilities, clearly will not significantly affect the quality of the human environment. Further, as information dissemination, the proposed rulemaking is within a category of actions specifically excluded from preparation of either an Environmental Assessment or an Environmental Impact Statement by DOE's Guidelines for Compliance with the National Environmental Policy Act. The proposed rulemaking is not a major Federal action significantly affecting the quality of the human environment and is within a categorical exclusion provided by DOE's NEPA Guidelines. Therefore, neither an Environmental Assessment nor an Environmental Impact Statement is required.

List of Subjects in 10 CFR Part 725

Classified information, Nuclear materials, Security measures.

For reasons set forth in the preamble, 10 CFR part 725 is proposed to be amended as set forth below.

Issued in Washington, DC on April 17, 1990.

William H. Young,

Assistant Secretary for Nuclear Energy.

PART 725—PERMITS FOR ACCESS TO RESTRICTED DATA

1. The authority citation for part 725 continues to read as follows:

Authority: Sec. 161 of the Atomic Energy Act of 1954, as amended, 68 Stat. 943, 42 USC 2201.

2. Section 725.23 is amended by revising paragraph (d)(8) to read as follows:

§ 725.23 Terms and conditions of access.

* * * * *

(d) * * *

(8) The permittee agrees to pay such reasonable compensation as DOE may elect to charge for the commercial use of its inventions and discoveries including related data and technology. Additionally, the permittee agrees to pay an annual participation fee. The fee shall be $100,000 for the annual access permit authorizing access to Restricted Data in subcategory A. The fee shall be $200,000 per year for an annual access permit authorizing access to Restricted Data in subcategory B.

* * * * *

3. Category C–24 of appendix A to part 725, Categories of Restricted Data Available, is revised to read as follows:

Appendix A to Part 725—Categories of Restricted Data Available

C–24 Isotope separation.—This category is divided into subcategories A and B.

Subcategory A includes information in summary form concerning the status and potential of the gaseous diffusion process, the U–AVLIS process, and the gas centrifuge process for the separation of uranium isotopes.

Subcategory B includes all subcategory A information as well as the following information:

a. Any aspect of separating one or more isotopes of uranium from a composition containing a mixture of isotopes of that element by the gaseous diffusion process, the U–AVLIS process, or the gas centrifuge process.

b. Design, construction, and operation of any plant, facility or device capable of separating by the gaseous diffusion process, the U–AVLIS process, or the gas centrifuge process, one or more isotopes of uranium from a composition containing a mixture of isotopes of that element, including means and methods of transporting materials from one to another device.

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Chapter I

[Summary Notice No. PR–90–8]

Petition for Rulemaking; Summary of Petitions Received; Dispositions of Petitions Issued

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of petitions for rulemaking received and of dispositions of prior petitions.

SUMMARY: Pursuant to FAA's rulemaking provisions governing the application, processing, and disposition of petitions for rulemaking (14 CFR part 11), this notice contains a summary of certain petitions requesting the initiation of rulemaking procedures for the amendment of specified provisions of the Federal Aviation Regulations and of denials or withdrawals of certain petitions previously received. The purpose of this notice is to improve the publics awareness of, and participation in, this aspect of FAA's regulatory activities. Neither publication of this notice nor the inclusion or omission of information in the summary is intended to affect the legal status of any petition or its final disposition.

DATES: Comments on petitions received must identify the petition docket number involved and must be received on or before: June 22, 1990.

ADDRESSES: Send comments on any petition in triplicate to: Federal Aviation Administration, Office of the Chief Counsel, Attn: Rules Docket (AGC–10), Petition Docket No. 26144, 800 Independence Avenue, SW., Washington, DC 20591.

FOR FURTHER INFORMATION CONTACT: The petition, any comments received, and a copy of any final disposition are filed in the assigned regulatory docket and are available for examination in the Rules Docket (AGC–10), Room 915G, FAA Headquarters Building (FOB 10A), 800 Independence Avenue, SW., Washington, DC 20591; telephone (202) 267–3132.

This notice is published pursuant to paragraphs (b) and (f) of § 11.27 of part 11 of the Federal Aviation Regulations (14 CFR part 11).

Issued in Washington, DC on April 16, 1990.

Denise Donohue Hall,

Manager, Program Management Staff, Office of the Chief Counsel.

Petitions for Rulemaking

Docket No.: 26144.

Petitioner: Long Island Pilots Association.

Regulations Affected: 14 CFR Section 71.401(b).

Description of Petition: The petitioner proposes to modify the New York terminal control area (TCA) to include a "V" shaped east-west VFR corridor as follows: Between 2000 and 3000 feet m.s.l. from Deer Park VOR, Victor 1–16, JFK VOR, direct Colts Neck VOR. Between 2000 and 3000 feet m.s.l. from Deer Park VOR, direct LaGuardia VOR, direct Sparta VOR. Altitude encoded transponders should be required. There should be no requirement for air traffic control clearance into the corridor.

Petitioner's Reason for the Request: The petitioner states that since clearance for corridor use will not be necessary, frequency clutter will be greatly reduced, especially at peak periods when flight following service is impossible anyway. The petitioner believes that will vastly improve clarity of communication and will also help avoid controller distraction of the kind that was instrumental in the Cerritos tragedy.

BILLING CODE 4910–13–M

14 CFR Chapter I

[Docket No. 25784; PR 90–9]

Petition of Steven J. Wolff, et al.

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Petition for rulemaking.

SUMMARY: This notice publishes for public comment a summary of the petition of Steven J. Wolff, et al., as provided by the petitioners. The petition relates primarily to the FAA's enforcement practices and policies involving civil penalty actions and certificate suspension and revocation. An FAA summary of the petition was previously published November 28, 1989 (54 FR 48912) and February 21, 1990 (55 FR 6002).

The purpose of this notice is to improve the public's awareness of this aspect of FAA's regulatory activities. Publication of this notice is not intended to affect the legal status of the petition or its final disposition.

DATES: Comments must be received on or before October 22, 1990.

ADDRESSES: Send comments on this petition in triplicate to: Federal Aviation Administration, Office of the Chief Counsel, Attn: Rules Docket (AGC–204), Docket No. 25784, 800 Independence

Avenue, SW., Washington, DC 20591, or deliver in triplicate to room 916, 800 Independence Avenue, SW., Washington, DC. Comments delivered must be marked: Docket No. 25784. Comments may be inspected at room 916 weekdays, except holidays, between 8:30 a.m. and 5 p.m.

FOR FURTHER INFORMATION CONTACT: Sheilah Kleiman, Office of Chief Counsel, (AGC–250), Federal Aviation Administration, 800 Independence Avenue, SW., Washington, DC 20591, telephone (202) 267–9956.

SUPPLEMENTARY INFORMATION:

Comments Invited

On November 28, 1989 (54 FR 48912) and February 21, 1990 (55 FR 6002), the FAA published a summary of the subject petition. The summary was prepared by the FAA. The FAA did not publish the summary submitted by the petitioners. It did not comply with § 11.25, which requires that the summary submitted by the petitioner contain "a brief description of the general nature of the rule requested and a brief description of the pertinent reasons presented in the petition for instituting rulemaking procedures." The petitioners' summary was verbose in discussing the reasoning presented in support of the petition and contained numerous assertions arguably not related to the specific request being made.

Subsequent to the publication of the summary, one petitioner brought suit against the FAA in *Clark* v. *Busey*, No. CIV 90 0164 TUC RMB (D. Ariz. filed Mar. 27, 1990). That petitioner seeks an order of the Court requiring the FAA to publish verbatim the summary the petitioners submitted with their petition.

The FAA maintains that it has an obligation to ensure that the summaries of petitions for rulemaking that it publishes in the **Federal Register** are accurate and concise. For this reason it has the discretion to reject a petitioner's summary and to compose and publish one of its own in accordance with § 11.27(b). However, defending the suit brought against the FAA could expend a considerable amount of public resources, perhaps more than the cost to the government of publishing the petitioner's summary in full in the **Federal Register.**

Interested persons are invited to submit such written data, views, or arguments on the petition as they may desire. Communications should identify the docket and petition notice number and be submitted in triplicate to the address indicated above. All communications received on or before the closing date will be considered before taking action on the petition. All comments submitted will be available for examination in the FAA docket. Persons wishing the FAA to acknowledge receipt of comments received in response to this notice should submit a self-addressed stamped postcard which states "Comments to Docket No. 25784." The postcard will be date/time stamped and returned to the commenter.

The Summary of Petition for Rulemaking

Accordingly, the Federal Aviation Administration publishes verbatim for public comment the following summary of petition for rulemaking of Steven J. Wolff, et al.

Issued in Washington, DC, on April 18, 1990.

Denise Donohue Hall,

Manager, Program Management Staff, Office of the Chief Counsel.

Summary—Petition for Rulemaking

Subject: Creation of a comprehensive enforcement rule.

Petitioners: Fountain FAA certificate holders.

Prepared by: Lawrence B. Smith, Attorney, 3938 E. Grant Rd., Box 191, Tucson, Arizona; 602/326–0283.

Purpose: (1) To consolidate FARs 13.15 (civil penalty action) and 13.19 (certificate action) into a single rule, which will also incorporate related policies not found in either.

(2) To correctly state the law for civil penalties. The Federal Aviation Act of 1958 (FA Act) provides that any safety violator "*shall be*" subject to a civil penalty, with right to jury trail in district court. FAR 13.15 says he "*is*" subject to a civil penalty "*if contemplated.*"

(3) To advise airmen that licenses may be suspended or revoked as punishment for safety violations. These comprise perhaps 95% of cases against pilots, yet FAR 13.19 says nothing of violations or penalties, it speaks only of *reinspection* of aircraft and *reexamination* of airmen.

(4) To explain that FAA may choose either civil penalty or certificate action and, once started, may shift to the other; that the FA Act provides no hearing in which to challenge use of the emergency power.

(5) *In its 30 years,* FAA has *never* involved the public in making enforcement policy. The NPRN will allow public comment on key issues: *e.g.,* whether as much as 95% of pilot violations should suffer suspension, rather than a money fine.

Authority to impose certificate penalties is in doubt, the NPRM provides a means for legal challenge. *The proposal does not add or change any policy, but states them as they are.* The Administrative Conference of the U.S. (ACUS), an independent watchdog agency, has urged Congress to look into FAA's failure to tell the public how enforcement works.

Hazardous materials and aircraft registration matters should be treated separately and are not included. Nor is the new test program of in-house FAA civil penalty hearings; if made permanent, it can easily be worked into the final rule. Any omissions or inaccuracies in this proposal can be remedied in the final rule.

Summary of Proposed Rule

A. Two systems of justice
B. Choice of systems
C. How case initiated
D. Civil penalty action
E. Certificate action—lack of qualifications
F. Certificate action—punitive sanctions
G. Certificate action—NTSB appeals
H. Shift in sanctions
I. Emergency power
J. Delegration of authority and restrictions

¶ *A* FAA uses two separate systems of justice to punish safety violations:

(1) Civil penalty with right to jury trial in district court.

(2) Certificate suspension or revocation tried before NTSB law judge.

(3) Suspension and revocation also used for qualifications purposes.

¶ *B* (1) In a violation case, FAA chooses either civil penalty or certificate action.

(2) May shift certificate action to money fine.

(3) May use both in same case, but seldom does.

(4) May suspend for lack of qualifications, and also use as punishment in same case.

(5) Administrator delegates enforcement authority.

¶ *C* (1) Letter of investigation invites supect to explain incident but does not tell him which regulation thought violated; explains that statements thus made may be used in later trial.

(2) Case initiated by civil penalty letter or notice of proposed certificate action; information solicited may be used in later trial.

(3) Accused has right to informal conference with FAA lawyer; information provided there *will not* be used in later trial.

(4) Accused has right to attorney, or other representative, but not required.

(5) Other options: turn in certificate and take punishment; ask order be issued to expedite appeal.

(6) Process served by certified mail or personally.

(7) Air Safety Reporting Program may provide penalty waiver.

¶ *D* (1) FA Act, § 901, provides that "*any* person who violates *any* rule *shall be* subject to a civil penalty not to exceed $1,000" ($10,000 for air carriers).

(2) One incident may involve several rules at $1,000 each, or $1,000 for each day violation continues.

(3) Penalty may be compromised; payment not an admission of guilt; but letter placed in file.

(4) If not settled, case sent to U.S. Attorney, who may also try compromise. Even if FAA offered $200, suit is for $1,000. Have right to jury trial; penalty collected by civil procedures.

¶ *E* (1) FA Act, section 609, authorizes suspension/revocation after reinspection and reexamination to assure qualifications continue to be met during lawful use of certificate.

(2) Suspension used where holder resists reexamination; issue on appeal is if FAA is reasonable.

(3) (a) Revocation used when FAA convinced holder lacks qualifications and problems cannot be corrected; issue is if holder meets requirements.

(b) Revocation used where repeated offenses show lack of "care, judgment and responsibility" required of any certificate holder. Mechanic's license, for instance, can be revoked, although violation unrelated to that certificate.

(4) One year limit, then holder can be reexamined and issued a similar certificate.

(5) Qualification issues, and penalty may be pursued in same case.

(6) May appeal to NTSB.

¶ *F* (1) FAA interprets section 609 to authorize the Administrator to suspend or revoke solely as punishment anytime he declares it is in the interests of air safety and the public.

(2) One-year limit on length of a punitive suspension; if revoked, may apply after that to be reexamined. No such limit for operators.

(3) NTSB doesn't allow suspension penalty if notice issued more than six months from date of violation.

(4) Once suspension is proposed, FAA won't increase it or upgrade to revocation, nor any NTSB.

(5) Prior offenses used to justify longer suspension, or to upgrade to revocation. No age limit or prior offense so used.

(6) FAA may use retroactive suspension orders where pilot or mechanic has already served company discipline, if equivalent.

(7) If person commits flying offense, but has no certificate, is subjected to civil penalty with right to jury trial; stop order placed on future application for pilot certificate.

¶ *G* (1) Explains NTSB appeal procedure.

(2) On appeal, get automatic stay of FAA order, unless emergency power used.

(3)(a) Appeal is two-steps: Trial by law judge, usually held in convenient city; no court costs; may use attorney, other person, or represent self.

(b) Either airman or FAA may appeal initial decision to full Board, which acts much like court of appeals.

(4) Only airman may appeal from NTSB to appeals court; must secure stay from Board, or court.

(5) Board does not revoke as punishment, only lack of qualifications; it recognizes lack of "care, judgment and responsbility" as qualifications matter, although no such FAR exists.

(6) Board admits evidence of prior certificate penalties without prior notice, to support more severe penalty.

¶ *H* FAA may shift punitive certificate action to civil penalty if convinced penalty more severe than warranted, *e.g.*, pilot files for business or profession. If suspension settled by money fine, airman waives right to jury trial.

¶ *I* (1) Section 609 authorizes emergency suspension and revocation for lack of regulatory qualifications. Power also used where repeated offenses indicate lack of "care, judgment and responsibility." Board has 60 days to dispose of case.

(2) Explains expedited Board procedure.

(3) Board considers only unerlying charges, does not determine if emergency is justified. There is no recourse to use of that power, like the prompt hearing provided for a judicial temporary restraining orders.

(4) Emergency justified only if conduct indicates immediate danger of injury to person or property.

¶ *J* (1) Administrator must specifically delegate enforcement authority.

(2) Lists officials to whom authority delegated.

(3) Regional counsels' authority restricted; significant cases must be coordinated with Hqs.

Supporting Arguments

Foreword: Agency enforcement manuals are the source of most of those policies contained in the proposed rule which have heretofore never been published or promulgated. The arguments that FAA has no authority for suspension/revocation penalties are abstracted from Smith, FAA PUNITIVE CERTIFICATE SANCTIONS: THE EMPEROR WEARS NO CLOTHES; OR, HOW DO YOU PUNISH A PROPELLER?, 14 Transp. L.J. 59–100 (1985) ["Emperor"]. The Administrative Procedure Act (APA) requires that FAA promulgate (NPRM) the sort of policies incorporated into the proposed rule. FAA policy states "that the public interest is best served when regulatory affairs are open to the public to the fullest extent possible." FAA, in its 30 years has never allowed the public to participate in making enforcement policy or in promulgating the few rules contained in the Code of Federal Regulations (CFR).

A. *Two systems of justice* No FAA rule informs the public it can use two disparate tracks of justice: civil penalty with right to "demand" jury trail; suspension/revocation with one-man administrative hearing. Or that it claims the right to take away the citizen's right to jury trial.

B. *Choice of systems* Makes clear the consequences of having the two systems of justice.

C. *How case initiated and options* The suspect should know that FAA fails to tell him in the letter of investigation what rule they think he violated; that the response solicited will be used against him, but *not* what he says in an informal conference with an agency lawyer.

D. *Civil penalty action* FAA's civil penalty rule misrepresents the law: Section 901 says "*any* person who violates *any* rule *shall be* subject to a civil penalty"; FAR 13.15 says "*a* person *is* subject to * * * *if* * * * contemplated." Noting the statutory right to jury trial underscores FAA's claim it can deny the right to jury trial.

E. *Certificate action—lack of qualifications* Any comprehensive rule should spell out the dichotomy in certification action: (a) Qualifications matters; (b) suspension/revocation as punishment for violations. Alleging lack of "care, judgment and responsibility," rather than FAR qualification standards and criteria, is the basis for the vast majority of revocations, especially of operators, yet there is no such FAR. That is a violation of the APA. FAA officials once began but dropped a project to create such a rule, an admission they should have one.

F. *Certificate action—punitive sanctions* Need for a rule The FA Act doesn't even hint that suspension and revocation may be used for punitive purposes. FAA has never promulgated any such rule, though decades ago one did exist, but disappeared. Common sense dictates the agency should have a rule that tells pilots and mechanics their licenses are at risk for the violation of a safety regulation. Failure to do so

violates the APA and is an absolute defense against such action.

Airmen should be told that once proposed FAA will not increase a suspension; that it factors in prior offenses so the airman is punished twice; for professional pilots, FAA can tailor its order to match company discipline, retroactively, or in futuro.

Lack of authority Appeals courts have upheld the punitive certificate sanction power, but their decisions are based on a fundamental mistake of fact which renders them valueless as precedent: they hold that Congress authorized the system in 1938, when, in fact, it started in 1926. The only system of justice Congress has ever considered—or adopted—is the civil money fine with right to demand jury (in 1926, readopted in 1938 and 1958); no bill has ever been introduced to allow suspension penalties, no congressional hearings ever held on whether to add this second system of justice. *Emperor* traces this history in detail. It is contrary to common sense that Congress, having selected a system where one could "demand" jury trial, would turn right around and authorize the official who initiates the case to deny that right. The asserted power is based only on vague language about public interest and air safety in section 609, thus it is FAA which has created the sanction. This is an unconstitutional delegation of power and violates the APA: Only *Congress* may create benefits or sanctions.

G. *Certificate actions—NTSB appeals* This information is vital to an overall understanding how the enforcement system works.

H. *Shift in sanctions* Need for a rule FAA officials claim the power to shift a suspension to a money fine; they've done it a thousand times. But they've never put this in a rule. Airmen should at least be told they can *ask*.

Lack of authority This power highlights the question: why are the vast majority of violation cases begun as certificate actions in the first place? FAA officials should have to explain what happens to the right to jury trial when they shift to a money fine, and could have used that system from the start.

I. *Emergency power* Need for a rule FAA has never had a rule for its emergency power, though the old CAA did. This is a violation of the APA. The power is draconian. FAA officials should have to explain in detail in an affidavit why there is an emergency. An alternate system could be devised to license the key officials already required by the FARs, then suspend or revoke them rather than shut down the entire operation and harm innocent employees, creditors, bankers, stockholders.

Power unconstitutional The power is an executive temporary restraining order (TRO); failure to provide a prompt hearing on whether the airman or operator is truly a threat to air safety violates due process. The NTSB only makes findings on the underlying charges, and that takes 60 days, which few operators can survive. Congress authorized the FAA to go to federal court, but it is easier for FAA lawyers to dictate a letter than sell the case to a U.S. Attorney and tough district judge.

J. *Delegation of authority and restrictions* It is customary for FAA to list in the FARs those officials to whom the Administrator's authority is delegated. Lately, this authority has been spread around. Airmen should know who makes the decisions.

BILLING CODE 4910-13-M

---

14 CFR Part 39

[Docket No. 90-NM-48-AD]

Airworthiness Directives; Boeing Model 727 Series Airplanes

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking (NPRM).

SUMMARY: This notice proposes to supersede an existing airworthiness directive (AD), applicable to certain Boeing Model 727 series airplanes, which currently requires inspection and repair, if necessary, of the wing center section front spar web. That AD provided for two different optional modifications which, if incorporated, terminated the required repetitive inspections. This action would require additioanl inspections of airplanes modified with angle stiffeners, one of the optional modifications. This proposal is prompted by sevearl reports of cracking found after the modification was installed. This condition, if not corrected, could result in loss of cabin pressure.

DATES: Comments must be received no later than June 18, 1990.

ADDRESSES: Send comments on the proposal in duplicate to Federal Aviation Administration, Northwest Mountain Region, Transport Airplane Directorate, ANM-103, Attention: Airworthiness Rules Docket No. 90-NM-48-AD, 17900 Pacific Highway South, C-68966, Seattle, Washington 98168. The applicable service information may be obtained from Boeing Commercial Airplanes, P.O. Box 3707, Seattle, Washington 98124. This information may be examined at the FAA, Northwest Mountain Region, Transport Airplane Directorate, 17900 Pacific Highway South, Seattle, Washington, or Seattle Aircraft Certification Office, 9010 East Marginal Way South, Seattle, Washington.

FOR FURTHER INFORMATION CONTACT: Ms. Kathi N. Ishimaru, Airframe Branch, ANM-120S; telephone (206) 431-1525. Mailing address: FAA, Northwest Mountain Region, 17900 Pacific Highway South, C-68966, Seattle, Washington 98168.

SUPPLEMENTARY INFORMATION: Interested persons are invited to participate in the making of the proposed rule by submitting such written data, views, or arguments as they may desire. Communications should identify the regulatory docket number and be submitted in duplicate to the address specified above. All communications received on or before the closing date for comments specified above will be considered by the Administrator before taking action on the proposed rule. The proposals contained in this Notice may be changed in light of the comments received.

Comments are specifically invited on the overall regulatory, economic, environmental, and energy aspects of the proposed rule. All comments submitted will be available, both before and after the closing date for comments, in the Rules Docket for examination by interested persons. A report summarizing each FAA/public contact, concerned with the substance of this proposal, will be filed in the Rules Docket.

Commenters wishing the FAA to acknowledge receipt of their comments submitted in response to this Notice must submit a self-addressed, stamped post card on which the following statement is made: "Comments to Docket Number 90-NM-48-AD." The post card will be date/time stamped and returned to the commenter.

Discussion

On July 29, 1986, the FAA issued AD 86-18-03, Amendment 39-5384 (51 FR 28066; August 5, 1986), to require inspection and repair, if necessary, of the wing center section front spar web on certain Boeing Model 727 series airplanes. That action was prompted by several reports of cracks found in the wing center section front spar web. This condition, if not corrected, could result in loss of cabin pressure.

AD 86-18-03 included two different optional modifications which, if either were installed, terminated the requirement for repetitive inspections. Since issuance of that AD, there have been reports of cracking in areas previously modified. The reported cracks have occurred on airplanes modified with angle stiffeners. The FAA has determined that this terminating modification has proved ineffective in preventing cracks; therefore, airplanes modified in this manner must continue to be inspected for cracks.

The FAA has reviewed and approved Boeing Service Bulletin 727-57-0107, Revision 6, dated November 22, 1989, which describes procedures for inspection and repair of the wing center section front spar web.

Since this condition is likely to exist or develop on other airplanes of this same type design, an AD is proposed which would supersede AD 86-18-03 with a new airworthiness directive that would also require additional inspections of airplanes modified with angle stiffeners and repair, if necessary, in accordance with the service bulletin previously described. This proposed rule would also revise one of the previously specified terminating modifications.

There are approximately 191 Model 727 series airplanes of the affected design in the worldwide fleet. It is estimated that 153 airplanes of U.S. registry would be affected by this AD, that it would take approximately 8 manhours per airplane to accomplish the required actions, and that the average labor cost would be $40 per manhour. Based on these figures, the total cost impact of the AD on U.S. opeartors is estimated to be $48,960.

The regulations proposed herein would not have substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government. Therefore, in accordance with Executive Order 12612, it is determined that this proposal would not have sufficient federalism implications to warrant the preparation of a Fedearlism Assessment.

For the reasons discussed above, I certify that this proposed regulation (1) is not a "major rule" under Executive Order 12291; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) if promulgated, will not have a significant economic impact, positive or negative, on a substantial number of small entities under the criteria of the Regulatory Flexibility Act. A copy of the draft evaluation prepared for this action is contained in the regulatory docket. A copy of it may be obtained from the Rules Docket.

List of Subjects in 14 CFR Part 39

Air transportation, Aircraft, Aviation safety, Safety.

The Proposed Amendment

Accordingly, pursuant to the authority delegated to me by the Administrator, the Federal Aviation Administration proposes to amend 14 CFR part 39 of the Federal Aviation Regulations as follows:

PART 39—[AMENDED]

1. The authority citation for part 39 continues to read as follows:

Authority: 49 U.S.C. 1354(a), 1421 and 1423; 49 U.S.C. 106(g) (Revised Pub. L. 97-449, January 12,1983); and 14 CFR 11.89.

§ 39.13 [Amended]

2. Section 39.13 is amended by superseding Amendment 39-5384 (51 FR 28066; August 5, 1986), AD 86-18-03, with the following new airworthiness directive:

Boeing: Applies to Model 727 series airplanes, listed in Boeing Service Bulletin 727-57-0107, Revision 6, dated November 22, 1989, certificated in any category. Compliance required as indicated, unless previously accomplished.

To detect cracks in the wing center section front spar web, accomplish the following:

A. Except as provided in paragraphs F. and G., below, prior to the accumulation of 15,000 landings since manufacture, or prior to the accumulation of 500 additional landings after September 11, 1986 (the effective date of Amendment 39-5384), whichever occurs later, visually inspect the wing center section for cracks in accordance with Figure 1 of Boeing Service Bulletin 727-57-107, Revision 6, dated November 22, 1989 (hereafter referred to as "the service bulletin"). If no cracks are detected, repeat the visual inspection at intervals not to exceed 1,000 landings.

B. If a single crack less than two inches in length is detected on either side of Body Buttock Line (BBL) 0.0, before further flight, the crack must be stop-drilled at each end in accordance with the Boeing 727 Structural Repair Manual (SRM), and visually reinspected at intervals not to exceed 10 landings for crack growth beyond the stop holes. If crack growth occurs beyond any stop hole, accomplish the procedures required by paragrpah C. or D., below.

C. If a single crack between two and five inches in length is detected on either side of BBL 0.0, before further flight, the crack must be stop-drilled at each end in accordance with the Boeing 727 SRM, and the crack must be repaired in accordance with Boeing Drawing Number 69-62491-2. Visually reinspect the affected area at intervals not to exceed 200 landings for crack growth beyond any stop hole. If crack growth occurs beyond any stop hole, accomplish the procedures required by paragraph D., below.

D. If any crack greater than five inches is detected, or if more than one crack on either side of BBL 0.0 is detected, they must be stop-drilled in accordance with the Boeing 727 SRM, and modified in accordance with paragraph E., below.

E. To terminate the repetitive inspection requirements of paragraphs A., B., and C., above, and F., below, accomplish one of the following:

1. Accomplish the modification described in Part I.D. of the Accomplishment Instructions of the service bulletin; or

2. Accomplish the interim modification described in Part I.E. of the Accomplishment Instructions of the service bulletin. Prior to the accumulation of 12,000 landings after the incorporation of the interim modification, eddy current inspect the fastener and any stop holes for crack growth, oversize the holes, stop-drill any new cracks in accordance with the Boeing 727 SRM, and incorporate the terminating modification in accordance with Part I.E. of the Accomplishment Instructions of the service bulletin.

F. Airplanes that have been modified prior to accumulating 20,000 landings, by installing angles back-to-back with existing stiffeners, must be inspected prior to the accumulation of 12,000 landings since the modification or within the next 1,000 landings after the effective date of this Amendment, whichever occurs later, in accordance with Figure 1 of the service bulletin. If cracks are found, before further flight, accomplish paragraph B., C., or D., above, as appropriate. If no cracks are found, reinspect thereafter at intervals not to exceed 1,000 landings.

G. Airplanes that have been modified after accumulating more than 19,999 landings, by installing angles back-to-back with existing stiffeners must be inspected within the next 1,000 landings after September 11, 1986 (the effective date of Amendment 39-5384), in accordance with Figure 1 of the service bulletin. If cracks are found, before further flight, accomplish paragraph B., C., or D., above, as appropriate. If no cracks are found, reinspect thereafter at intervals not to exceed 1,000 landings.

H. An alternate means of compliance or adjustment of the compliance time, which provides an acceptable level of safety, may be used when approved by the Manager, Seattle Aircraft Certification Office, FAA, Northwest Mountain Region.

Note: The request should be forwarded through an FAA Principal Maintenance Inspector (PMI), who will either concur or comment, and then send it to the Manager, Seattle Aircraft Certification Office.

I. Special flight permits may be issued in accordance with FAR 21.197 and 21.199 to operate airplanes to a base in order to comply with the requirements of this AD.

All persons affected by this directive who have not already received the appropriate service documents from the manufacturer may obtain copies upon request to Boeing Commercial Airplanes, P.O. Box 3707, Seattle, Washington 98124. These documents may be examined at the FAA,

Northwest Mountain Region, Transport Airplane Directorate, 17900 Pacific Highway South, Seattle, Washington, or Seattle Aircraft Certification Office, 9010 Est Marginal Way South, Seattle, Washington.

Issued in Seattle, Washington, on April 13, 1990.

Leroy A. Keith,

Manager, Transport Airplane Directorate, Aircraft Certification Service.

BILLING CODE 4910-13-M

DEPARTMENT OF THE INTERIOR

Office of Surface Mining Reclamation and Enforcement

30 CFR Part 904

Arkansas Permanent Regulatory Program

AGENCY: Office of Surface Mining Reclamation and Enforcement (OSM), Interior.

ACTION: Proposed rule; reopening and extension of comment period.

SUMMARY: OSM is announcing reopening of the public comment period for a previously-proposed amendment to the Arkansas permanent regulatory program (hereinafter referred to as the Arkansas program) under the Surface Mining Control and Reclamation Act of 1977 (SMCRA). OSM is reopening the comment period in response to Arkansas submitting additional explanatory information and revisions to the previously-proposed amendment. The additional explanatory information and revisions pertain to the requirements for the reporting of violations and ownership and control data, and the criteria and procedures for the identification and rescission of improvidently issued permits. The amendment is intended to revise the State regulations to be consistent with corresponding Federal regulations.

This notice sets forth the times and locations that the Arkansas program and proposed amendment to that program are available for public inspection, and the reopened comment period during which interested persons may submit written comments on the proposed amendment.

DATES: Written comments must be received by 4 p.m., c.d.t. May 8, 1990.

ADDRESSES: Written comments should be mailed or hand delivered to James H. Moncrief at the address listed below.

Copies of the Arkansas program, the proposed amendment, and all written comments received in response to this notice will be available for public review at the addresses listed below during normal business hours, Monday through Friday, excluding holidays. Each requester may receive one free copy of the proposed amendment by contacting OSM's Tulsa Field Office.

James H. Moncrief, Director, Tulsa Field Office, Office of Surface Mining Reclamation and Enforcement, 5100 East Skelly Drive, Suite 550, Tulsa, OK 74135, Telephone: (918) 581-6430.

Arkansas Department of Pollution Control and Ecology, Mining Reclamation Division, 8001 National Drive, Little Rock, AR 72209, Telephone: (501) 570-2170.

FOR FURTHER INFORMATION CONTACT: James H. Moncrief, Director, Tulsa Field Office, (918) 581-6430.

SUPPLEMENTARY INFORMATION:

I. Background on the Arkansas Program

On November 21, 1980, the Secretary of the Interior conditionally approved the Arkansas program. General background information on the Arkansas program, including the Secretary's findings, the disposition of comments, and the conditions of approval of the Arkansas program, were published in the November 21, 1980, **Federal Register** (45 FR 77003). Subsequent actions concerning Arkansas program and program amendments are at 30 CFR 904.12 904.15, and 904.16.

II. Proposed Amendment

By letter dated December 18, 1989, and received in the Tulsa Field Office on January 8, 1990, (administrative record No. AR-386), Arkansas submitted a proposed amendment to its program pursuant to SMCRA. Arkansas submitted the proposed amendment in response to a May 11, 1989, letter that OSM sent to Arkansas in accordance with 30 CFR 732.17(c).

The regulations that Arkansas proposes to amend concern the definition of ownership and control of surface coal mining and reclamation operations, requirements for the reporting of violations and ownership and control data and the effect of that information on various permitting decisions, and criteria and procedures for the identification and rescission of improvidently issued permits. Specifically, Arkansas proposes to amend Arkansas Surface Coal Mining and Reclamation Code (ASCMRC) sections 778.13 and 778.14, respectively the identification of interests and compliance information for surface mining permit applications; 786.5, 786.17, and 786.19, respectively the definition of "owned or controlled and owns and controls," review of permit applications, and criteria of permit review or denial, as they all relate to the review, public participation, and approval or disapproval of permit application and permit terms and conditions; 786.27, general and right-of-entry conditions of permits; 786.30 and 786.31, respectively general procedures and rescission procedures for improvidently issued permits; and 843.11, cessation orders.

OSM published a notice in the January 23, 1990, **Federal Register** (55 FR 2239) announcing receipt of the amendment and inviting public comment on the adequacy of the proposed amendment (administrative record No. AR-393). The public comment period ended February 22, 1990.

During its review of the amendment, OSM identified concerns relating to ASCMRC 778.13(a)(7), identification in the permit application of the person who will pay the abandoned mine land reclamation fee; ASCMRC 778.13(h), format of required permit information; and ASCMRC 786.30(b), the violations review criteria to be used to determine when a permit has been improvidently issued. OSM notified Arkansas of the concerns by letter dated February 28, 1990 (administrative record No. AR-393). Arkansas responded in a letter dated April 2, 1990, by submitting a revised amendment package, which included revisions to Arkansas' proposed rules at ASCMRC 778.13(a)(7) and 778.13(h), and a policy statement concerning ASCMRC 786.30(b) (administrative record No. AR-394).

III. Public Comment Procedures

OSM is reopening the comment period on the proposed Arkansas program amendment to provide the public an opportunity to reconsider the adequacy of the amendment in light of the additional materials submitted. In accordance with the provisions of 30 CFR 732.17(h), OSM is seeking comments on whether the proposed amendment satisfies the applicable program approval criteria of 30 CFR 732.15. If the amendment is deemed adequate, it will become part of the Arkansas program.

Written comments should be specific, pertain only to the issues proposed in this rulemaking, and include explanations in support of the commenter's recommendations. Comments received after the time indicated under "DATES" or at locations other than the Tulsa Field Office will not necessarily be considered in the final rulemaking or included in the administrative record.

BILLING CODE 4310-05-M

DEPARTMENT OF DEFENSE

Office of the Secretary

32 CFR Part 199

Civilian Health and Medical Program of the Uniformed Services (CHAMPUS); Cardiac Rehabilitation

AGENCY: Office of the Secretary, DoD.

ACTION: Proposed amendment of rule.

SUMMARY: This amendment proposes to revise the DoD Regulation 6010.8-R (32 CFR 199) by establishing CHAMPUS benefits for cardiac rehabilitation. This proposed amendment will offer coverage under the CHAMPUS program for cardiac rehabilitation when used as a treatment modality following specific cardiac events.

DATES: Written public comments must be received on or before May 23, 1990.

ADDRESSES: Office of the Civilian Health and Medical Program of the Uniformed Services (OCHAMPUS), Office of Program Development, Aurora, CO 80045.

FOR FURTHER INFORMATION CONTACT: Judith A. Carroll, Office of Program Development, OCHAMPUS, telephone (303) 361-3521.

SUPPLEMENTARY INFORMATION: In FR Doc. 77-7834, appearing in the **Federal Register** on April 4, 1977 (42 FR 17972), the Office of the Secretary of Defense published its regulation, DoD 6010.8-R, "Implementation of the Civilian Health and Medical Program of the Uniformed Services (CHAMPUS)," as part 199 of this title. 32 CFR part 199 (DoD 6010.8-R) was reissued in the **Federal Register** on July 1, 1986 (51 FR 24008). Currently, CHAMPUS does not extend benefits for cardiac rehabilitation programs nor the monitoring of any tests while participating in a cardiac rehabilitation program. Although current regulatory provisions allow payment for medically necessary rehabilitation services designed to restore patients to a normal level of functioning following disease or injury, to date CHAMPUS has not been included coverage for cardiac rehabilitation services. The unresolved controversy over the efficacy and medical necessity of treatment, the lack of uniform standards among programs, the lack of national endorsement by a recognized technology assessing group, and the high costs, resulted in an agency decision to exclude coverage for cardiac rehabilitation.

In October 1987, the Diagnostic and Therapeutic Technology Assessment (DATTA) and in August 1988, the Office of Health Technology and Assessment (OHTA) issued reports which indicate that cardiac rehabilitation services are an integral part of the rehabilitation treatment of patients with coronary artery disease, specifically, patients who have had a myocardial infarction (MI), coronary artery bypass graft (CABG), or chronic stable angina pectoris. Additionally, in October 1988, The American College of Physicians published a report entitled "Cardiac Rehabilitation Services" in the Annals of the Internal Medicine which endorsed cardiac rehabilitation as appropriate for selected patients after MI, and coronary revascularization, or coronary angioplasty. The article further indicated that, although data was limited, patients with debilitating angina pectoris or symptomatic left ventricular dysfunction may also be candidates for cardiac rehabilitation when these disorders fail to respond to standard medical or surgical interventions. These endorsements further establish cardiac rehabilitation as the standard of care within the medical community and support previous premises that cardiac rehabilitation programs can improve the functional capacity of the heart and thus improve overall health outcome.

Since endorsement of cardiac rehabilitation services by several national technology assessing groups, as an effective treatment modality following certain cardiac events, OCHAMPUS feels that continued denial of cardiac rehabilitation services is inappropriate and no longer supportable under current regulatory provisions and has decided to extend benefits for cardiac rehabilitation services. We are proposing an effective date of October 9, 1987, to coincide with the date the DATTA assessment appeared in the Journal of the American Medical Association.

In determining benefit design, the following factors influenced the resultant proposed recommendations for coverage in the proposed rule: (1) Cost, (2) current policies and reimbursement practices and trends of other third party payors, including Medicare, (3) studies which have identified the population best served through cardiac rehabilitation, (4) current and future needs of the CHAMPUS beneficiary population, and (5) current law and regulatory provisions which govern the CHAMPUS program.

The proposed rule incorporates many of the recommendations made by the previously mentioned national technology assessing bodies. The lir 'ts on duration of treatment provide coverage consistent with Medicare and other major third party payors. Provider status is limited to otherwise authorized CHAMPUS participating hospitals based primarily on the fact that relevant professional accreditation programs directed specifically at cardiac rehabilitation programs have not yet been established. Proposed payment methodology is based on a total program concept similar to Medicare's. These limits ensure the expenditure of government funds for medically appropriate treatment found to be medically beneficial while simultaneously controlling government costs. The maximum projected cost of this benefit is 5.8 million dollars during the first full year of benefit coverage. This estimate is based on a user population expected to be afflicted with coronary heart disease. We expect the above projected cost for establishing and maintaining a cardiac rehabilitation benefit will offset some of the costs associated with future medical needs and complications of high risk cardiac patients.

This proposed rule offers coverage for services now unavailable to the CHAMPUS beneficiary population, but which are available to their civilian counterparts. It is an enhancement of military benefits. Section 605(b) of the Regulatory Flexibility Act of 1980 (Pub. L. 96-354) requires that each federal agency prepare and make available for public comment, a regulatory flexibility analysis when the agency issues regulations which would have a significant impact on a substantial number of small entities. The Secretary certifies, pursuant to section 605(b) of Title 5, United States Code, enacted by the Regulatory Flexibility Act (Pub. L. 96-354), that this regulation amendment will not have a significant economic impact on a substantial number of small businesses, organizations, or government jurisdictions. The proposed rule will broaden the scope of CHAMPUS benefits by extending benefits to include coverage for cardiac rehabilitation services. It will not involve any significant burden on CHAMPUS beneficiaries or providers of cardiac rehabilitation services. Cost-containment parameters have been built into the proposed rule. It is not

therefore, a "major rule" under Executive Order 12291.

List of Subjects in 32 CFR Part 199

Claims, Handicapped, Health insurance, and Military personnel.

Accordingly, 32 CFR, chapter I is amended as follows:

PART 199—[AMENDED]

1. The authority citation for part 199 continues to read as follows:

Authority: 10 U.S.C 1079, 1086, 5 U.S.C. 301.

Section 199.4 is amended by adding a new paragraph (e)(18) as follows:

§ 199.4 Basic Program Benefits.

* * * * *

(e) * * *

(18) *Cardiac Rehabilitation.* Cardiac rehabilitation is the process by which individuals are restored to their optimal physical, medical, and psychological status, after a cardiac event. Cardiac rehabilitation is often divided into three phases. Phase I begins during inpatient hospitalization and is managed by the patient's personal physician. Phase II is a medically supervised outpatient program which begins following discharge. Phase III is a lifetime maintenance program emphasizing continuation of physical fitness with periodic followup. Each phase includes an exercise component, patient education, and risk factor modification. There may be considerable variation in program components, intensity and duration.

(i) *Benefits Provided.* CHAMPUS benefits are available on an inpatient or outpatient basis for services and supplies provided in connection with a cardiac rehabilitation program when ordered by a physician and provided as treatment for patients who have experienced the following cardiac events within the preceding twelve (12) months:

(A) Myocardial Infarction.

(B) Coronary Artery Bypass Graft.

(C) Coronary Angioplasty.

(D) Percutaneous Transluminal Coronary Angioplasty.

(E) Chronic Stable Angina (see limitations below).

(ii) *Limitations.* Payable benefits include separate allowance for the initial evaluation and testing. Outpatient treatment following the initial intake evaluation and testing is limited to a maximum of thirty-six (36) sessions per cardiac event, usually provided 3 sessions per week for twelve (12) weeks. Patients diagnosed with chronic stable angina are limited to one treatment episode (36 sessions) in a calendar year.

(iii) *Exclusions.* Phase III cardiac rehabilitation lifetime maintenance programs performed at home or in medically unsupervised settings are not covered.

(iv) *Providers.* A provider of cardiac rehabilitation services must be a CHAMPUS authorized hospital. (Refer to Section 199.6, "Authorized Providers.") All cardiac rehabilitation services must be ordered by a physician.

(v) *Payment.* Payment for outpatient treatment will be based on an all inclusive allowable charge per session. Inpatient treatment will be paid based upon the reimbursement system in place for the hospital where the services are rendered.

(vi) *Implementation Guidelines:* The Director of CHAMPUS shall issue guidelines as are necessary to implement the provisions of this paragraph.

Dated: April 17, 1990.

L.M. Bynum,

Alternate OSD Federal Liaison Officer, Department of Defense.

BILLING CODE 6712–01–M

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

50 CFR Part 20

RIN 1018-AA93

Migratory Bird Hunting; Zones In Which Lead Shot Will Be Prohibited for the Taking of Waterfowl, Coots and Certain Other Species in the 1990-91 Hunting Season

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Proposed rule.

SUMMARY: The use of lead shot in waterfowl hunting poses an unnecessary risk to certain migratory birds because when the spent shot is consumed it often produces lead poisoning and death. Accordingly, this proposed rule describes the zones in which the use of lead shot would be prohibited for hunting waterfowl, coots and certain other species in the 1990-91 season. The zones described consist of: (1) The same areas that were already identified as nontoxic shot zones for waterfowl and coot hunting in sec. 20.108 of Title 50 of the Code of Federal Regulations (50 CFR) for the 1989-90 hunting season; (2) the added counties identified for 1990-91 in Appendix N of the Final Supplemental Environmental Impact Statement (SEIS) on the Use of Lead Shot for Hunting Migratory Birds in the United States (see Table 1 in Supplementary Information); and (3) those additional areas identified by the States where acceleration of the nontoxic shot phase-in schedule is considered appropriate because of potential administrative, enforcement and/or lead poisoning problems. States that have declared a statewide ban on the use of lead shot for waterfowl and coot hunting are so noted.

DATES: Comments on this proposal will be accepted until May 23, 1990.

ADDRESSES: Submit comments to Director (FWS/MBMO), U.S. Fish and Wildlife Service, Department of the Interior, 634 Arlington Square, Washington, DC 20240.

FOR FURTHER INFORMATION CONTACT: Thomas Dwyer, Chief, Office of Migratory Bird Management, U.S. Fish and Wildlife Service, 634 Arlington Square, Washington, DC 20240 (703/358-1714).

SUPPLEMENTARY INFORMATION: This rule implements the fourth year (1990-91) of the 5-year component of the strategy to phase-in a nontoxic shot requirement for waterfowl hunting nationwide by the 1991/92 season, as set out by the preferred alternative of the Final SEIS on the Use of Lead Shot for Hunting Migratory Birds in the United States published in June 1986 (FES 86-16). The SEIS and consequent rulemakings imposing nontoxic shot requirements result from the Secretary of Interior's responsibilities under the Migratory Bird Treaty Act (MBTA), as amended (16 U.S.C. 703 *et seq.*; 40 Stat. 755), and the Endangered Species Act (ESA) of 1973, as amended (16 U.S.C. 1531-1543; 87 Stat. 884), to decide whether, where and how migratory bird hunting will be allowed. A critical element in the Department of the Interior's deliberations and decision to implement and enforce regulations establishing nontoxic shot zones nationwide has been the determination that lead poisoning resulting from watewrfowl hunting is a significant annual mortality factor in certain migratory birds.

Information detailing the scientific basis for concluding that lead shot from waterfowling is causing lead poisoning in certain migratory birds and the development of the strategy to eliminate lead toxicity as a major mortality factor, including discussions of the issues for and against lead/steel shot, appears in the SEIS and the preamble to the proposed rule on the criteria and schedule for implementing nontoxic shot zones for 1987-88 and subsequent years published in the **Federal Register** on June 27, 1986 (51 FR 23444). The final rule for that proposed rule was published in the **Federal Register** on November 21, 1986 (51 FR 42103). Information on the justification for selecting this strategy has also been set out in the Final SEIS (Alternative VII_3), the June 27, 1986, proposed rule and in the Record of Decision confirming the preferred alternative and published in the **Federal Register** on August 20, 1986 (51 FR 29673). Additional information relating to the imposition of nontoxic shot zones nationwide, according to the 5-year schedule, is contained in the final rules for the 1987-88, 1988-89 and 1989-90 waterfowl hunting seasons published in the **Federal Register** on Tuesday, July 21, 1987 (52 FR 27352), Tuesday, June 28, 1988 (53 FR 24284) and Thursday, April 13, 1989 (54 FR 14814), respectively.

Counties scheduled to convert in their entireties to nontoxic shot in the 1990-91 waterfowl season are those counties having had an average annual waterfowl harvest of 5 or more per square mile over the 10-year period 1971-80. As scheduled, approximately 85-90 percent of the waterfowl harvest nationwide will occur in nontoxic shot zones in the 1990-91 waterfowl hunting season. However, the conversion of many entire States ahead of the schedule is estimated to increase to over 90 percent the percentage of the total waterfowl harvest occurring in nontoxic shot zones in the upcoming waterfowl hunting season.

In summary, this rule proposes to amend section 20.108 of 50 CFR to expand existing nontoxic shot zones for the 1990-91 waterfowl hunting season.

Economic Effect

Executive Order 12291, "Federal Regulation," of February 17, 1981, requires the preparation of regulatory impact analyses for major rules. A major rule is one likely to result in an annual effect on the economy of $100 million or more; a major increase in costs or prices for consumers, individual industries, government agencies or geographic regions; or significant adverse effects on the ability of United States-based enterprises to compete with foreign-based enterprises. The Regulatory Flexibility Act of 1980 (5 U.S.C. 601 *et seq.*) further requires the preparation of flexibility analyses for rules that will have a significant effect on a substantial number of small entities, which includes small businesses, organizations and/or governmental jurisdictions.

In accordance with Executive Order 12291, a determination has been made that this rule is not a major rule. In accordance with the Regulatory Flexibility Act, a determination has been made that this rule, if implemented without adequate notice, could result in lead shot ammunition supplies for which there would be no local demand. Conversely, nontoxic shot zones could conceivably be established where little or no nontoxic shot ammunition would be available to hunters. The Service believes, however, that adequate notice has been provided and that sufficient supplies of nontoxic shot ammunition will be available to hunters. Therefore, this rule would not have a significant economic effect on a substantial number of small entities.

Paperwork Reduction Act

This rule will not result in the collection of information from, or place recordkeeping requirements on, the public under the Paperwork Reduction Act of 1980 (44 U.S.C. 3501 *et seq.*).

Environmental Consideration

Pursuant to the requirements of section 102(2)(C) of the National Environmental Policy Act of 1969 (42 U.S.C. 4332(C)), a Final Environmental Statement (FES) on the use of steel shot for hunting waterfowl in the United States was published in 1976. As stated above, a supplement to the FES was

completed in June 1986. In this supplement, pursuant to the Endangered Species Act, a "section 7" consultation was done on the potential impacts of the provisions of this rule on bald eagles. The "section 7" opinion concluded that implementation of the preferred alternative would not be likely to jeopardize the continued existence of the bald eagle. Also, a "section 7" opinion has concluded that the action being carried out is not likely to jeopardize the continued existence of the Aleutian Canada goose.

(1) Counties listed are taken from the Final Supplemental Environmental Impact Statement on the Use of Lead Shot for Hunting Migratory Birds in the United States, Appendix N. Counties listed are those that have 5 or more waterfowl harvested per square mile, as referenced by Carney et al. 1983 (Distribution of waterfowl species harvested in states and counties during 1971–80 hunting seasons. U.S. Fish and Wildlife Service, Spec. Sci. Rpt.-Wildl. No. 254, Washington, DC). "Certain other sepcies" refers to those species, other than waterfowl or coots, that are affected by reason of being included in aggregate bag limits and concurrent seasons. Differences between this Table and the Appendix N schedule reflect changes initiated by the States to accelerate county nontoxic shot conversions.

Authorship

The primary author of this final rule is Keith A. Morehouse, Office of Migratory Bird Management, working under the direction of Thomas Dwyer, Chief.

List of Subjects in 50 CFR Part 20

Exports, Hunting, Imports, Transportation, Wildlife.

Accordingly, part 20, subchapter B, chapter I of title 50 of the Code of Federal Regulations is proposed to be amended as follows:

PART 20—[AMENDED]

1. The authority citation for part 20 would continue to read as follows:

Authority: Migratory Bird Treaty Act, sec. 3, Pub. L. 65–186, 40 Stat. 755 (16 U.S.C. 701–708h); sec. 3(h), Pub L. 95–616, 92 Stat. 3112 (16 U.S.C. 712).

2. Section 20.108 would be revised to read as follows:

§ 20.108 Nontoxic shot zones.

The areas described within the States indicated below are designated for the purpose of § 20.21(j) as nontoxic shot zones for hunting waterfowl, coots and certain other species.

Atlantic Flyway

Connecticut

All lands and waters within the State of Connecticut have been designated for nontoxic shot use.

Delaware

All lands and waters within the State of Delaware have been designated for nontoxic shot use.

Florida

1. Brevard, Broward, Citrus, Collier, Dade, Escambia, Hamilton, Indian River, Jefferson, Leon, Okeechobee, Osceola, Palm Beach, Polk, Seminole, St. Johns and Volusia Counties.

2. Those portions of Gadsden and Liberty Counties, adjacent to Leon County, that include the floodplains of Lake Talquin and the Ochlockonee River.

3. Orange Lake and Lochloosa Lake in Alachua County.

4. The area lying lakeward of and bounded by the Lake Okeechobee levee, by the State Road 78, Kissimmee River bridge, and by State Road 78 from its intersection with the Lake Okeechobee levee at points near Lakeport and the Old Sportsman's Village site.

5. That portion of Glades County outside of the area described in No. 4 above.

6. That area formerly known as the M–K Ranch public waterfowl area in Gulf County.

7. Hickory Mound Impoundment within the Aucilla Wildlife Management Area in Taylor County.

8. That portion of Lake George lying in Putnam County.

9. That portion of the St. Johns River floodplain lying in Lake and Orange Counties.

10. That portion of Lake Rousseau lying in Levy and Marion Counties.

11. Chassahowitzka Wildlife Management Area in Hernando County, and the State waters of the Gulf of Mexico in Hernando County north of Raccoon Point designated by posted signs.

12. Chassahowitzka National Wildlife Refuge in Hernando County and Lower Suwannee National Wildlife Refuge in Dixie and Levy Counties.

Georgia

1. Clay, Coweta, Dougherty, Elbert, Jackson, Lincoln, Long, McIntosh and Quitman Counties.

2. The managed waterfowl impoundments on Oconee and West Point Wildlife Management Areas and Lake Juliette on Rum Creek Wildlife Management Area. These Wildlife management Areas are in Putnam; Heard and Troop; and Monroe Counties, respectively.

3. Eufala National Wildlife Refuge in Stewart County and Savannah National Wildlife Refuge in Chatham and Effingham Counties.

Maine

All lands and waters within the State of Maine have been designated for nontoxic shot use.

Maryland

1. Ann Arundel, Calvert, Caroline, Cecil, Dorchester, Harford, Kent, Queen Annes, Somerset, St. Marys, Talbot, Wicomico and Worcester Counties.

Massachusetts

All lands and waters within the State of Massachusetts have been designated for nontoxic shot use.

New Hampshire

All lands and water within the State of New Hampshire have been designated for nontoxic shot use.

New Jersey

1. Atlantic, Bergen, Burlington, Camden, Cape May, Cumberland, Gloucester, Hudson, Hunterdon, Mercer, Middlesex, Monmouth, Morris, Ocean, Passaic, Salem, Somerset and Sussex Counties, and any adjacent State-owned tidal waters.

New York

All lands and waters within the State of New York have been designated for nontoxic shot use.

North Carolina

1. Beaufort, Bertie, Carteret, Chowan, Craven, Currituck, Dare, Hyde, New Hanover, Pamlico, Pasquotank, Robeson and Washington Counties.

2. New Hope Game Land, Butner-Falls of Neuse Game Land and posted waterfowl impoundments on other game lands.

Pennsylvania

All lands and waters within the State of Pennsylvania have been designated for nontoxic shot use.

Rhode Island

All lands and waters within the State of Rhode Island have been designated for nontoxic shot use.

South Carolina

All lands and waters within the State of South Carolina have been designated for nontoxic shot use.

Vermont

1. Addison, Chittenden, Franklin and Grand Isle Counties.
2. Missisquoi National Wildlife Refuge.

Virginia

1. Counties of Accomack, Charles City, Chesterfield, Essex, Gloucester, Henrico, James City, King George, King William, Lancaster, Louisa, Mathews, Middlesex, Montgomery, New Kent, Northampton, Northumberland, Powhatan, Richmond, Surry, Westmoreland and York.
2. Cities of Chesapeake, Hampton, Newport News, Norfolk, Poquoson, Portsmouth, Suffolk, Virginia Beach and Williamburg.

Mississippi Flyway

Alabama

1. Baldwin, Jackson, Limestone, Madison, Mobile and Morgan Counties.
2. Eufaula National Wildlife Refuge.

Arkansas

All lands and waters within the State of Arkansas have been designated for nontoxic shot use.

Illinois

1. Mississippi River and adjacent areas in the following counties bordered by the roads and/or lines indicated as follows:

A. All of Alexander, Calhoun, Carrol, Hancock, Henderson, Jackson, Jersey, Jo Daviess, Madison, Mercer, Monroe, Pike, Randolph, Rock Island, St. Clair, Union and Whiteside Counties.

B. Adams County; IL–96 (Lima), County Hwy–41, County Hwy–7, County Hwy–8 and Lock & Dam 20. The Mark Twain NWR, Bear Creek Unit, is also a nontoxic shot zone.

C. Henry County; I–80 and I–74/280.

2. Illinois River and adjacent areas in the following counties bordered by the roads and/or lines indicated as follows:

A. All of Bureau, Calhoun, Cass, Fulton, Greene, Grundy, Jersey, Marshall, Mason, Peoria, Pike, Putnam, Tazewell and Woodford Counties.

B. Brown County; County Hwy–3/FAS–582, FAS–582, County Hwy–12 and IL–99.

C. Morgan County; IL–104 (Meredosia) and IL–100/US–67.

D. Schuyler County; IL–100 (Bluff City), IL–103 and County Hwy–9.

3. Southern Goose Quota Zone: All of Alexander, Jackson, Union and Williamson Counties.

4. Rend Lake Goose Quota Zone: All of Franklin and Jefferson Counties.

5. Other Areas: All of Bond, Christian, Clinton, Coles, Cook, DuPage, Fayette, Kane, Kendall, Lake, McHenry, Moultrie, Perry, Will and Winnebago Counties.

Indiana

All lands and waters within the State of Indiana have been designated for nontoxic shot use.

Iowa

All lands and waters within the State of Iowa have been designated for nontoxic shot use.

Kentucky

1. Bracken and Oldham Counties.
2. Western Zone. That area of western Kentucky west of an eastern boundary described by the lines and/or roads as follows: The Purchase Parkway from Fulton, Kentucky, on the Kentucky-Tennessee border northeast to the Interstate 24-Purchase Parkway junction; northeast on I–24 to the Lyon county line; then on a line including all of Lyon, Caldwell and Hopkins Counties to Fredonia; north from Fredonia on US 641 to US 60 at Marion; north on US 60 to the Union County line; northeast and north along the Union County and Henderson County lines to the Indiana-Kentucky border north of Newman, Kentucky.

Louisiana

1. Acadia, Ascension, Assumption, Avoyelles, Bienville, Bossier, Caddo, Calcasieu, Caldwell, Cameron, Catahoula, Caliborne, Concordia, De Soto, Evangeline, Franklin, Grant, Iberia, Iberville, Jefferson, Jefferson Davis, LaFayette, LaFourche, LaSalle, Morehouse, Natchitoches, Orleans, Ouachita, Plaquemines, Rapides, Red River, Richland, Sabine, St. Bernard, St. Charles, St. James, St. John the Baptist, St. Landry, St. Martin, St. Mary, St. Tammany, Tangipahoa, Terrebonne, Union, Vermilion and Vernon Parishes.

Michigan

All lands and waters within the State of Michigan have been designated for nontoxic shot use.

Minnesota

All lands and waters within the State of Minnesota have been designated for nontoxic shot use.

Mississippi

All lands and waters within the State of Mississippi have been designated for nontoxic shot use.

Missouri

All lands and waters within the State of Missouri have been designated for nontoxic shot use.

Ohio

1. Ashtabula, Auglaize, Cuyahoga, Delaware, Erie, Geauga, Holmes, Huron, Lake, Lorain, Lucas, Mahoning, Mercer, Ottawa, Pickaway, Sandusky, Summit, Trumbull, Wayne and Wood Counties.

Tennessee

1. Benton, Carroll, Coffee, Crockett, Dyer, Franklin, Gibson, Hamblem, Haywood, Henry, Jefferson, Lake, Lauderdale, Meigs, Obion, Perry, Rhea, Roane, Shelby, Stewart, Tipton, Weakley and Wilson Counties.

Wisconsin

All lands and waters within the State of Wisconsin have been designated for nontoxic shot use.

Central Flyway

Colorado

1. Adams, Alamosa, Boulder, Conejos, Costilla, Larimer, Logan, Morgan, Rio Grande, Sedgwick, Weld and Washington Counties.
2. Hinsdale, Mineral and Saguache Counties east of the Continental Divide.
3. Turk's Pond portion of Baca County.

Kansas

All lands and waters within the State of Kansas have been designated for nontoxic shot use.

Montana

All land and waters within the State of Montana have been designated for nontoxic shot use.

Nebraska

All land and waters within the State of Nebraska have been designated for nontoxic shot use.

New Mexico

All land and waters within the State of New Mexico have been designated for nontoxic shot use.

North Dakota

All land and waters within the State of North Dakota have been designated for nontoxic shot use.

Oklahoma

1. Bryan, Cleveland, Comanche, Jackson, Johnston, Lincoln, Love, Marshall, Mayes, Nowata, Oklahoma, Payne, Rogers and Washington Counties.

Caddo County. That portion of Ellsworth Lake and adjoining City of Lawton property.

3. That area described within the boundary as follows: South on US 77 from the Kansas border to US 177; US 177 south to State Highway 15; State Highway 15 east to State Highway 18; State Highway 18 south to US 64; US 64 east to State Highway 99; State Highway 99 south to State Highway 51; State Highway 51 east to State Highway 97; State Highway 97 north to its junction with unnamed county roadway; northwestward on the county roadway to its junction with State Highway 20; State Highway 20 west to State Highway 18; and State Highway 18 north to the Kansas border. That portion of Noble County outside of the area described above is designated for nontoxic shot use also.

4. Those portions of Cherokee, Haskell, Latimer, Le Flore, McIntosh, Muskogee, Okmulgee, Pittsburg and Wagoner Counties described within the boundary as follows: Interstate 40 from the Arkansas border west to State Highway 82; State Highway 82 north to State Highway 100; State Highway 100 west to State Highway 10A; State Highway 10A west to State Highway 10; State Highway 10 north to State Highway 80; State Highway 80 north to State Highway 251A;

State Highway 251A southwest to Muskogee Turnpike; Muskogee Turnpike south to Interstate 40; Interstate 40 west to US Highway 69; US Highway 69 north to US Highway 266; US Highway 266 west to US Highway 62; US Highway 62 south to Indian Nation Turnpike; Indian Nation Turnpike south to US Highway 270; US Highway 270 east to State Highway 2; State Highway 2 north to State Highway 31; State Highway 31 west to State Highway 71; State Highway 71 north to State Highway 9; State Highway 9 to State Highway 9A; and State Highway 9A north and east to the Arkansas border. Those portions of Haskell, McIntosh, Muskogee, Sequoyah and Wagoner Counties outside of the area described above are designated for nontoxic shot use also.

5. All state waterfowl/wetland areas, including:

A. Copan in Osage County
B. Hajek Marsh in Kingfisher County
C. Hugo in Choctaw County
D. Hulah in Osage County
E. Mt. Park in Kiowa County
F. Okmulgee in Okmulgee County
G. Waurika in Jefferson/Stephens County
H. Wister in Le Flore County

6. Fort Cobb Lake and all adjoining Federal lands in Caddo County.

7. Salt Plains and Washita National Wildlife Refuges, in Alfalfa County and Custer County, respectively.

South Dakota

All land and waters within the State of South Dakota have been designated for nontoxic shot use.

Texas

1. Baylor, Bosque, Brazos, Burleson, Castro, Collin, Comanche, Deaf Smith, Denton, Eastland, Erath, Hood, Hopkins, Hunt, Moore, Red River, Robertson, Rockwall, Shelby, Smith, Titus, Trinity, Walker, Washington, Wise and Wood Counties.

2. That area lying within boundaries beginning at the Louisiana State line, thence westward along IH 10 to the junction of US Highway 90 and IH 10 in Beaumont, thence westward along US 90 to its junction with IH 610 in Houston, thence north and west along IH 610 to its junction with US Highway 290 in Houston, thence westward along US Highway 290 to its junction with State Highway 159 in Hempstead, thence southwestward along State Highway 159 to its junction with State Highway 36 in Bellville, thence eastward along State Highway 36 to its junction with Farm-to-Market (FM) 2429, thence southward along FM 2429 to its junction with FM 949, thence southwestward along FM 949 to its junction with IH 10, thence westward along IH 10 to its junction with US Highway 77 at Schulenburg, thence southward along US Highway 77 to its junction with the US-Mexico international boundary at Brownsville, thence eastward along the US-Mexico international boundary to the Gulf of Mexico, thence east and seaward to the three marine league limit, thence northeastward along the three marine league limit to the Louisiana State line, thence northward along the Texas-Louisiana State line to its junction with IH 10. Those portions of Austin, Cameron, Colorado, Harris, Jefferson, Kleberg, Liberty, Neuces, Refugio, San Patricio, Waller and Willacy Counties outside of the area described above are designated for nontoxic shot use also.

3. The portions of Cooke, Fannin and Grayson Counties lying within boundaries beginning at the Oklahoma State line, thence southward along I–35 to its junction with US Highway 82 at Gainesville, thence eastward along US Highway 82 to its junction with US Highway 78 at Bonham, thence northward along State Highway 78 to its junction with the Oklahoma State line, thence westward along the Oklahoma-Texas State line to its junction with I–35. That portion of Grayson County lying outside of the area described above is designated for nontoxic shot use also.

4. The portions of Cass, Harrison, Marion, Morris and Upshur Counties lying within boundaries beginning at the Louisiana State line, thence westward along State Highway 49 to its junction with US Highway 259 at Daingerfield, thence southward along US Highway 259 to its junction with State Highway 450 at Ore City, thence eastward on State Highway 450 to its junction with State Highway 154 at Harleton, thence southeastward along State Highway 154 to its junction with US Highway 80 at Marshall, thence eastward along US Highway 80 to its junction with State Highway 43, thence northeastward along State Highway 43 to its junction with FM 2682 at Karnack, thence eastward along FM 2682 to its junction with FM 134, thence southward along FM 134 to its junction with FM 1999 at Leigh, thence eastward along FM 1999 to its junction with the Louisiana State line, thence northward along the Louisiana-Texas border to its junction with State Highway 49. That portion of Marion County outside of the area described above is designated for nontoxic shot use also.

5. The portions of Anderson, Henderson and Kaufman Counties lying within boundaries beginning at the junction of State Highway 31 and FM 2661, thence westwardly along State Highway 31 to its junction with US Highway 175 at Athens, thence northwestward along US Highway 175 to its junction with FM 90, thence northward along FM 90 to its junction with FM 1391, thence westward along FM 1391 to its junction with US Highway 175 at Kemp, thence southward along US Highway 175 to its junction with State Highway 274, thence south along State Highway 274 to its junction with State Highway 31 at Trinidad, thence eastward along State Highway 31 to its junction with FM 3441 at Malakoff, thence southward along FM 3441 to its junction with FM 59 at Cross Roads, thence southward along FM 59 to its junction with US Highway 287 at Cayuga, thence southeastward along US Highway 287 to its junction with FM 860, thence northward along FM 860 to its junction with FM 837, thence northeastward along FM 837 to its junction with US Highway 175 at Frankston, then eastward along US Highway 175 to its junction with FM 855, thence northward along FM 855 to its junction with FM 346, thence northward along FM 346 to its junction with FM 344, thence northward along FM 344 to its junction with FM 2661, thence northward along FM 2661 to its junction with State Highway 31. That portion of Henderson County lying outside of the area described above is designated for nontoxic shot use also.

Wyoming

1. Sweetwater County.

2. Big Horn County: Along and within one mile either side of the waterline of the Big Horn River, Yellowtail Reservoir, Shoshone River, Nowood River and portions of Medicine Lodge Creek and Paintrock Creek where they flow into the Nowood River, beginning from their confluence to where they flow from the mountains.

3. Goshen County:

A. North Platte River/Laramie River—Beginning where US 25 crosses the Wyoming-Nebraska State line; south along said State line to Goshen County Road No. 7–108; west along said road to Wyoming Highway 92, west, then north along said highway to US 85; north along said highway to Wyoming Highway 156; west and north along said highway to Goshen County Road No. 7–62; west along said road to the Fort Laramie Canal Road; northwest along said road to Goshen County Road No. 7–48; southwest along said road to the Goshen-Platte County line; north along said line to US 26; and southeast along said highway to the point of beginning.

B. Table Mountain—Beginning where Wyoming Highway 92 intersects Wyoming Highway 158; south along said highway to Goshen County Road No. 7–171; west along said road to the Fort Laramie Canal Road; northwesterly along said road to Goshen County Road No. 7–160; east along said road to Goshen County Road No. 7–166; north along said road to Goshen County Road No. 7–114; each along said road to Wyoming Highway 92; and east along said highway to the point of beginning.

Pacific Flyway

Arizona

1. Game Mangement Unit 5B, Upper Lake Mary, Lower Lake Mary and Mormon Lake.

2. Hopi Indian Reservation lands in Coconino and Navajo Counties.

3. Navajo Indian Reservation lands in Apache, Coconino and Navajo Counties.

4. Cibola National Wildlife Refuge.

California

1. Alameda, Amador, Butte, Colusa, Contra Costa, Fresno, Glenn, Humboldt, Imperial, Kern, Kings, Marin, Merced, Napa, Riverside, Sacramento, San Joaquin, San Mateo, Santa Clara, Solano, Stanislaus, Sutter, Ventura, Yolo and Yuba Counties.

2. Northeastern Zone. Those portions of Lassen, Plumas, Shasta, Sierra, Siskiyou and Tehama Counties, and all of Modoc County, bounded by the following line: Beginning at I–5 at the Oregon border, south on I–5 to State Highway 89, and southeast on State Highway 89 to State Highway 70, and east on State Highway 70 to US 395, and south on US 395 to the Nevada border.

3. Siskiyou County south of State Highway 89 and west of I–5.

Colorado

1. Montrose County.

Idaho

1. Panhandle Zone. All of Benewah, Bonner, Boundary and Kootenai Counties.

2. Southwestern Zone. All of Ada, Canyon, Gem and Payette Counties. That part of Elmore County lying south and west of I–84, and that part of Owyhee County lying north and east of a line running from the Idaho-Oregon border along State Highway 19, then east on State Highway 19 to US 95 near Homedale, then south and east on US 95 to State Highway 55 west of Marsing, then east on State Highway 55 to State Highway 78 at Marsing, then southeast on State Highway 78 to I–84 Business Highway at Hammett, then east on I–84 Business Highway to I–84 at Cold Springs Creek.

3. Southcentral Zone. All of Gooding, Jerome, Minidoka and Twin Falls Counties.

4. Southeastern Zone.

A. The lands within the Fort Hall Indian Reservation boundary in Caribou County;

B. All of Bannock, Bingham, Franklin, Fremont, Jefferson, Madison, Oneida and Power Counties;

C. That part of Bonneville County west of a line running northeast on US 91 to its junction with State Highway 26 approximately five miles northeast of Shelly, then northeast on US 26 to the spot directly above the Heise measuring cable (about 1.5 miles upstream from Heise Hot Springs), then north across the South Fork of the Snake River to the Heise-Archer-Lyman Road (Snake River Road), the northwest on then Heise-Archer-Lyman Road to US 191/20, then north on US 191/20 to the US 191/20–Jefferson County line; and

D. That part of Cassia County within a line running from the Blaine County-Cassia County junction west on the Cassia County line to the Snake River-Raft River confluence, then upstream on the Raft River to I–86, then northeast on I–86 to the Power County line.

Montana

All lands and waters within the State of Montana have been designated for nontoxic shot use.

Nevada

1. Churchill, Douglas and Lincoln Counties.

2. Humboldt Wildlife Management Area in Pershing County.

3. Mason Valley Wildlife Management Area in Lyon County.

4. Overton Wildlife Management Area in Clark County.

5. Ruby Lake National Wildlife Refuge in White Pine and Elko Counties.

New Mexico

All lands and waters within the State of New Mexico have been designated for nontoxic shot use.

Oregon

1. Benton, Clatsop, Coos, Columbia, Lincoln, Marion, Multnomah, Polk, Tillamook, Washington and Yamhill Counties.

2. Southcentral Zone—All of Klamath County, excluding Davis Lake, and that portion of Lake County lying west of Highway 395.

3. Malheur County Zone—That portion of Malheur County bounded by a line beginning at I–84 at the Oregon-Idaho State line, northwest on I–84 to State Highway 201, south on State Highway 201 to State Highway 19, east on State Highway 19 to the Oregon-Idaho State line and back to the point of origin.

4. Columbia Basin Zone—Those portions of Gilliam, Morrow and Umatilla Counties bounded by the following line: Beginning at the town of Arlington on I–84, east on I–84 to US 730, northeast on US 730 to the Oregon-Washington State border, and west along the Columbia River, Oregon-Washington border to point of origin.

Utah

1. Box Elder, Cache, Davis, Salt Lake, Utah and Weber Counties.

2. Navajo Indian Reservation lands in San Juan County.

Washington

1. Western Washington Zone—All areas west of the Pacific Coast National Scenic Trail and west of (and including) the Big White Salmon River in Klickitat County.

2. Columbia Basin Zone—

A. Those portions of Adams, Benton, Chelan, Douglas, Franklin, Grant, Kittitas, Klickitat, Lincoln, Okanogan and Yakima Counties bounded by the following line: Beginning at the Washington-Oregon State border on the Celilo 1 ridge on US 97, north on US 97 to State Highway 14, east on State Highway 14 to US 395/I–82, north on US 395/I–82 (formerly a continuation of State Highway 14) to Kennewick, west on State Highway 240, north on State Highway 240 to State Highway 24, west on State Highway 24 to US 97, north on US 97 to State Highway 155 at Omak, east and south on State Highway 155 to State Highway 174 at Grand Coulee, southeast on State Highway 174 to US 2, west on US 2 to State Highway 17, south on State Highway 17 to US 395, south on US 395 to US 12, south on US 12 and US 730 to the Oregon border (including the entire McNary National Wildlife Refuge), and west along the Columbia River and the Washington-Oregon border to the point of origin.

B. The portions of Adams, Benton, Franklin, Grant, Lincoln (including the Columbia and Spokane Rivers) and Yakima Counties, not including in the description (A.) above; and all of Spokane and Walla Walla Counties, including the Spokane River and Snake River, respectively.

Dated: March 20, 1990.

Constance B. Harriman,

Assistant Secretary for Fish and Wildlife and Parks.

DEPARTMENT OF AGRICULTURE

Agricultural Research Service

Intent To Grant an Exclusive License

AGENCY: Agricultural Research Service, USDA.

ACTION: Notice of intent.

SUMMARY: Notice is hereby given that the U.S. Patent Application Serial No. 07/431,348, "Hybridomas and Monoclonal Antibodies Therefrom Reactive Toward Antigens from *Edwardsiella ictaluri*," filed November 3, 1989, is available for licensing and that the U.S. Department of Agriculture, Agricultural Research Service, intends to grant an exclusive license to Athens Research and Technology, Inc., 1180 East Broad Street, Athens, Georgia 30604.

DATES: Comments must be received on or before June 22, 1990.

ADDRESSES: Send comments to: USDA–ARS–Office of Cooperative Interactions, Beltsville Agricultural Research Center, Baltimore Boulevard, Building 005, Room 401, BARC–W, Beltsville, Maryland 20705.

FOR FURTHER INFORMATION CONTACT: M. Ann Whitehead of the Office of Cooperative Interactions at the Beltsville address given above; telephone: 301/344–2786, (FTS) 344–2786.

SUPPLEMENTARY INFORMATION: The patent rights in this invention have been assigned to the United States of America as represented by the Secretary of Agriculture. It is in the public interest to so license said invention bringing it to practical application and public use within a specified period of time. The applicant has submitted a complete and sufficient application for a license, committing itself to do so.

The prospective exclusive license will be royalty-bearing and will comply with the terms and conditions of 35 U.S.C. 209 and 37 CFR 404.7. The prospective exclusive license may be granted unless, within sixty days from the date of this published Notice, ARS receives written evidence and argument which establishes that the grant of the license would not be consistent with the requirements of 35 U.S.C. 209 and 37 CFR 404.7.

William H. Tallent,
Assistant Administrator.

BILLING CODE 3410–03–M

Animal and Plant Health Inspection Service

[Docket No. 90–033]

U.S. Veterinary Biological Product and Establishment Licenses Issued, Suspended, Revoked, or Terminated

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Notice.

SUMMARY: The purpose of this notice is to advise the public of the issuance of veterinary biological product and establishment licenses by the Animal and Plant Health Inspection Service during the month of December 1989. These actions are taken in accordance with the regulations issued pursuant to the Virus-Serum-Toxin Act.

FOR FURTHER INFORMATION CONTACT: Joan Montgomery, Program Assistant, Veterinary Biologics, Biotechnology, Biologics, and Environmental Protection, Animal and Plant Health Inspection Service, U.S. Department of Agriculture, room 838, Federal Building, 6505 Belcrest Road, Hyattsville, MD 20782, (301) 436–8674.

SUPPLEMENTARY INFORMATION: The regulations in 9 CFR part 102, "Licenses For Biological Products," require that every person who prepares certain biological products that are subject to the Virus-Serum-Toxin Act (21 U.S.C. 151 *et seq.*) shall hold an unexpired, unsuspended, and unrevoked U.S. Veterinary Biological Product License. The regulations set forth the procedures for applying for a license, the criteria for determining whether a license shall be issued, and the form of the license.

Pursuant to these regulations, the Animal and Plant Health Inspection Service (APHIS) issued the following

U.S. Veterinary Biological Product Licenses during the month of December 1989:

Product license code	Date issued	Product	Establishment	Establishment license No.
1015.00	12-04-89	Autogenous Vaccine	Central Biologics, Inc.	334
1381.20	12-04-89	Canine Distemper-Hepatitis-Parainfluenza Vaccine, Modified Live Virus.	Rhone Merieux, Inc	298
15A1.20	12-06-89	Feline Infectious Peritonitis Vaccine, Modified Live Virus.	SmithKline Beckman Corp.	189
1871.04	12-14-89	Pasteurella Multocida Vaccine, Avirulent Live Culture, Avian Isolates.	Keevet Laboratories	280
18P5.20	12-28-89	Parvovirus Vaccine, Killed Virus	Rhone Merieux, Inc	298
2051.00	12-04-89	Autogenous Bacterin	Brinton Laboratories, Inc	343
2051.00	12-22-89	Autogenous Bacterin	Kadel Vaccine Company	323
2051.00	12-28-89	Autogenous Bacterin	Immuno-Dynamics, Inc	379
2051.00	12-28-89	Autogenous Bacterin	Jensen Research Laboratories	383
2051.00	12-29-89	Autogenous Bacterin	American Animal Health, Inc	315
2100.01	12-28-89	Bordetella Bronchiseptica Bacterin	Rhone Merieux, Inc	298
2641.00	12-14-89	Erysipelothrix Rhusiopathiae Bacterin	Rhone Merieux, Inc	298
2648.55	12-14-89	Escherichia Coli Bacterin	Rhone Merieux, Inc	298
2671.01	12-04-89	Leptospira Canicola-Icterohaemo-rrhagiae Bacterin.	Rhone Merieux, Inc	298
47P9.21	12-28-89	Canine Distemper-Hapatitis-Parainfluenza-Parvovirus Vaccine—Leptospira Bacterin, Modified Live Virus.	Rhone Merieux, Inc	298
4809.20	12-04-89	Canine Distemper-Hapatitis-Parainfluenza Vaccine—Leptospira Bacterin, Modified Live Virus.	Rhone Merieux, Inc	298
4960.00	12-28-89	Parvovirus Vaccine—Leptospira Bacterin, Modified Live Virus.	Rhone Merieux, Inc	298
4BA9.20	12-06-89	Parvovirus Pseudorabies Vaccine—Erysipelothrix Rhusiopathiae Leptospira Bratislaval-Canicola-Grippotyphosa-Hardjo-Icterohaemorrhagiae-Pomona Bacterin Modified Live and Killed Virus.	SmithKline Beckman Corp	189
4BC5.20	12-06-89	Parvovirus Vaccine—Erysipelothrix Rhusiopathiae Leptospira Bratislaval-Canicola-Grippotyphosa-Hardjo-Icterohaemorrhagiae-Pomona Bacterin Killed Virus.	SmithKline Beckman Corp	189
8601.00	12-06-89	Tetanus Toxoid	SmithKline Beckman Corp	189

The regulations in 9 CFR part 102 also require that each person who prepares biological products that are subject to the Virus-Serum-Toxin Act (21 U.S.C. 150 *et seq.*) shall hold a U.S. veterinary Biologics Establishment License. The regulations set forth the procedures for applying for a license, the criteria for determining whether a license shall be issued, and the form of the license.

Pursuant to these regulations, APHIS issued the following U.S. Veterinary Biological Establishment Licenses during the month of December 1989:

Establishment	Establishment license No.	Date issued
Brinton Laboratories, Ind	343	12-04-89
Kadel Vaccine Company	323	12-22-89
Immuno-Dynamics, Inc	379	12-28-89
Jensen Research Laboratories	383	12-28-89
American Animal Health, Inc	315	12-29-89

No licenses were suspended, revoked, or terminated during December 1989.

Done in Washington, DC., this 17th day of April 1990.

Larry B. Slagle,

Acting Administrator, Animal and Plant Health Inspection Service.

[FR Doc. 90-9287 Filed 4-20-90; 8:45 am]

BILLING CODE 3410-34-M

Forest Service

Newspapers Used for Publication of Legal Notice of Appealable Decisions for Pacific Northwest Region, Oregon and Washington

AGENCY: Forest Service, USDA.

ACTION: Correction notice.

SUMMARY: This is a correction to the notice which appeared in the March 14, 1990, **Federal Register** (55 FR 9476-9478). The notice stated that one of the newspapers providing additional notice of Willamette National Forest Supervisor and District Rangers decisions was the Salem Stateman Hearald in Salem, Oregon. The title of this newspaper should have been the Statesman-Journal.

FOR FURTHER INFORMATION CONTACT: Elton Thomas, Regional Appeals Coordinator, Pacific Northwest Region, P.O. Box 3623, Portland, OR 97208-3623, phone (503) 326-2322.

Dated: April 16, 1990.

Richard A Ferraro,

Deputy Regional Forester.

[FR Doc. 90-9280 Filed 4-20-90; 8:45 am]

BILLING CODE 3410-11-M

Soil Conservation Service

Regional Water Quality Demonstration RC&D Measure, Moore County, NC

AGENCY: Soil Conservation Service, USDA.

ACTION: Notice of a finding of no significant impact.

SUMMARY: Pursuant to Section 102(2)(C) of the National Environmental Policy Act of 1969; the Council on Environmental Quality Guidelines (40 CFR part 1500); and the Soil Conservation Service Guidelines (7 CFR part 650); the Soil Conservation Service, U.S. Department of Agriculture, gives notice that an environmental impact statement is not being prepared for the Regional Water Quality Demonstration

Composting Dead Chickens, RC&D Measure; Moore County, North Carolina.

FOR FURTHER INFORMATION CONTACT: Mr. Bobbye J. Jones, State Conservationist, Soil Conservation Service, 4405 Bland Road, suite 205, Raleigh, NC 27609, Phone (919) 790–2888.

SUPPLEMENTARY INFORMATION: The environmental assessment of this federally assisted action indicates that the project will not cause significant local, regional, or national impacts on the environment. As a result of these findings, Mr. Bobbye J. Jones, State Conservationist, has determined that the preparation and review of an environmental impact statement are not needed for this project. The measure concerns a plan for demonstrating the environmental and economic value of composting dead chickens lost on poultry farms to normal and seasonal mortality. It will demonstrate that these chickens can be readily recycled and used as an environmentally safe and economic source of nutrients for plants. A small building will be constructed containing approximately five composting bins made or pressure treated lumber and a small area approximately 8′×40′ for secondary composting. This project has been approved and permitted by the North Carolina Department of Agriculture's State Veterinarian.

The Notice of a Finding of No Significant Impact (FONSI) has been forwarded to the Environmental Protection Agency and to various Federal, State, and local agencies and interested parties. A limited number of copies of the FONSI are available to fill single copy requests at the above address. Basic data developed during the environmental assessment are on file and may be reviewed by contacting Mr. Bobbye J. Jones.

(This activity is listed in the Catalog of Federal Domestic Assistance under No. 10.901)—Resource Conservation and Development—and is subject to the provisions of Executive Order 12372 which requires intergovernmental consultation with State and local officials.)

Dated: April 10, 1990.

Bobbye J. Jones,

State Conservationist.

BILLING CODE 3410–16–M

COMMISSION ON CIVIL RIGHTS

Pennsylvania Advisory Committee; Public Meeting

Notice is hereby given, pursuant to the Rules and Regulations of the U.S. Commission on Civil Rights, that a meeting and forum of the Pennsylvania Advisory Committee to the Commission will be convened at 1 p.m. on Wednesday, May 16, 1990, in the Conference Room of the ILGWU Building, 35 South 4th Street, in Philadelphia. The main purpose of the meeting and forum is to discuss the status of the agency and to hear presentations regarding recent U.S. Supreme Court decisions. Representatives of the Delaware Advisory Committee to the Commission on Civil Rights will also take part in the forum.

Persons desiring additional information, or planning to make a presentation to the Committee, should contact the Committee's Chairperson, Dr. Susan M. Wachter (215/898–6355), or John I. Binkley, Director of the Eastern Regional Division, at (202/523–5264; TDD 202/376–8117). Hearing impaired persons who will attend the meeting and require the services of a sign language interpreter should contact the Eastern Regional Division at least five (5) working days before the scheduled date of the meeting.

The meeting will be conducted pursuant to the Rules and Regulations of the Commission.

Dated at Washington, DC, April 16, 1990.

Wilfredo J. Gonzalez,

Staff Director.

BILLING CODE 6335–01–M

DEPARTMENT OF COMMERCE

Minority Business Development Agency

Business Development Center Applications; Little Rock, AR

AGENCY: Minority Business Development Agency, Commerce.

ACTION: Notice.

SUMMARY: The Minority Business Development Agency (MBDA) announces that it is soliciting competitive applications under its Minority Business Development Center (MBDC) Program to operate an MBDC for approximately a three-year period, subject to the availability of funds. The cost of performance for the first 12 months is estimated at $165,000 in Federal funds and a minimum of $29,118 in non-Federal contributions for the budget period August 1, 1990 to July 31, 1991. Cost-sharing contributions may be in the form of cash contributions, client fees for services, in-kind contributions, or combinations thereof. The MBDC will operate in the Little Rock, Arkansas Standard Metropolitan Statistical Area (SMSA).

The funding instrument for the MBDC will be a cooperative agreement. Competition is open to individuals, non-proft and for-profit organizations, local and state governments, American Indian tribes, and educational institutions.

The MBDC program is designed to provide business development services to the minority business community for the establishment and operation of viable minority businesses. To this end, MBDA funds organizations that can coordinate and broker public and private resources on behalf of minority individuals and firms, offer a full range of management and technical assistance, and serve as a conduit of information and assistance regarding minority business.

Applications will be evaluated on the following criteria: the experience and capabilities of the firm and its staff in addressing the needs of the business community in general and, specifically, the special needs of minority businesses, individuals and organizations (50 points); the resources available to the firm in providing business development services (10 points); the firm's approach (techniques and methodology) to performing the work requirements included in the application (20 points); and the firm's estimated cost for providing such assistance (20 points). An application must receive at least 70% of the points assigned to any one evaluation criteria category to be considered programmatically acceptable and responsive.

MBDC's shall be required to contribute at least 15% of the total project cost through non-Federal contributions. Client fees for billable management and technical assistance (M&TA) rendered must be charged by MBDCs. Based on a standard rate of $50 per hour, MBDCs will charge client fees at 20% of the total cost for firms with gross sales of $500,000 or less and 35% of the total cost for firms with gross sales of over $500,000

The MBDC may continue to operate after the initial competitive year for up to two additional budget periods. Periodic reviews culminating in year-to-date quantitative and qualitative evaluations will be conducted to determine if funding for the project should continue. Continued funding will be at the discretion of MBDA based on such factors as a MBDC's satisfactory performance, the availability of funds and Agency priorities.

CLOSING DATES: The closing date for applications is May 27, 1990. Applicants should mail the completed applications

to the office specified in the project announcement. MBDA will accept only those applications (1) which are received by the closing date *or* (2) which show acceptable evidence of mailing on or before the closing date. Acceptable evidence consists of (1) a legible U.S. Postal Service postmark or (2) a legible mail or courier service receipt dated on or before the closing date. Applications must be post marked on or before May 27, 1990.

ADDRESSES: Dallas Regional Office, 1100 Commerce Street, Suite 7B23, Dallas, Texas 75242–0790, (214) 767–8001.

FOR FURTHER INFORMATION CONTACT: Yvonne Guevara, Dallas Regional Office.

SUPPLEMENTARY INFORMATION: Executive Order 12372 "Intergovernmental Review of Federal Programs" is not applicable to this program. Questions concerning the preceding information, copies of application kits and applicable regulations can be obtained at the above address. A pre-bid conference will be held. Please call Ms. Guevara to be advised of date, time and place.

11.800 Minority Business Development

(Catalog of Federal Domestic Assistance)

Melda Cabrera,

Regional Director, Dallas Regional Office, Regional Office.

Section B—Project Specifications

(To be completed by the Regional Offices)

PROJECT IDENTIFICATION

1. Program Number and Title: 11.800 Minority Business Development.
2. Project Name: Little Rock MBDC (Geographic Area or SMSA).
3. Project Identification Number: 06–10–90005–01.

BUDGET PERIOD DURATION

1. Budget Period (Check One): First X Second ____ Third ____.
2. Start Date: August 1, 1990.
3. End Date: July 31, 1991.
4. Budget Period Duration (Months): Twelve.

PROJECT COST

1. Required Federal Funding Level: $165,000.
2. Minimum Non-Federal Contribution: $29,118.
3. Total Project Cost: $194,118.

PROJECT MINIMUM PERFORMANCE GOAL LEVELS

1. Combined Financial Package and Procurement Minimum Goal Level: $11,148,000.
2. Billable SM&TA Minimum Goal Level: $112,000.
3. Number of Clients Minimum Goal Level: 112.

OTHER PROJECT SPECIFICATIONS

1. Closing Date for Submission of this Application: May 27, 1990.
2. *Geographic Specification:* The Minority Business Development Center shall offer assistance in the geographic area of: Little Rock, Arkansas.
3. *Eligibility Criteria:* There are no eligibility restrictions for this project. Eligible applicants may include individuals, non-profit organizations, for-profit firms, local and state governments, American Indian tribes and educational institutions.
4. *Budget Period:* The competitive award period will be for approximately three (3) years consisting of three (3) separate budget periods. Performance evaluations will be conducted, and funding levels will be established for each of three (3) budget periods. The MBDC will receive continued funding, after the initial competitive year, at the discretion of MBDA based upon the availability of funds, the MBDC's performance and Agency priorities.

BILLING CODE 3510–21–M

National Oceanic and Atmospheric Administration

South Atlantic Fishery Management Council; Public Hearings

AGENCY: National Marine Fisheries Service (NMFS), NOAA, Commerce.

ACTION: Notice of public hearings and request for comments.

SUMMARY: The South Atlantic Fishery Management Council (Council) will hold a series of public hearings and provide a comment period to solicit public input into proposed Amendments 2 and 3 to the Snapper-Grouper Fishery Management Plan (FMP).

DATES: See **"SUPPLEMENTARY INFORMATION"** for dates and locations of the hearings. All hearings will begin at 7 p.m. Written comments will be accepted until June 4, 1990.

ADDRESSES: All written comments should be sent to Robert K. Mahood, Executive Director, South Atlantic Fishery Management Council, One Southpark Circle, suite 306, Charleston, SC 29407–4699.

FOR FURTHER INFORMATION CONTACT: Robert K. Mahood, Executive Director, South Atlantic Fishery Management Council, 803–571–4366.

SUPPLEMENTARY INFORMATION: Amendment 2 addresses jewfish (*Epinephelus itajara*) and proposes to (1) revise the optimum yield; (2) define overfishing; and (3) prohibit the harvest or possession of jewfish. Amendment 3, which addresses wreckfish (*Polyprion americanus*), proposes to (1) add wreckfish to the management unit; (2) require an annual permit to fish for/land/sell wreckfish; (3) collect data necessary for effective management; (4) establish a control date of March 28, 1990, after which there would be no guarantee of inclusion in a limited entry program, should one be developed; (5) establish a fishing year beginning April 1; and (6) establish a process whereby annual total allowable catch (TAC) would be specified, with the initial TAC between 2 and 8 million pounds.

The hearings are scheduled as follows:

1. May 7, 1990—Holiday Inn Beachside, 1111 N. Roosevelt Boulevard, Key West, Florida.
2. May 8, 1990—Sheraton at Brickell Point, 495 Brickell Avenue, Miami, Florida.
3. May 9, 1990—Holiday Inn Oceanfront, 1617 N. First Street, Jacksonville Beach, Florida.
4. May 10, 1990—Hyatt Regency, Two West Bay Street, Savannah, Georgia.
5. May 11, 1990—Holiday Inn, 1706 Lumina Avenue, Wrightsville Beach, North Carolina.
6. May 14, 1990—South Carolina Wildlife & Marine Resources Center, Fort Johnson Road, Charleston, South Carolina.

Dated: April 17, 1990.

Richard H. Schaefer,

Director of Office of Fisheries, Conservation and Management, National Marine Fisheries Service.

BILLING CODE 3510–22–M

Pacific Fishery Management Council; Public Meeting

AGENCY: National Marine Fisheries Service, NOAA, Commerce.

The Pacific Fishery Management Council will hold a public meeting on May 1–2, 1990, of its committee to oversee final revisions to the draft Amendment #4 of the Pacific Coast Groundfish Fishery Management Plan. On May 1 the meeting will begin at 8 a.m., at the Alaska Fisheries Science Center, room 2079, National Marine Fisheries Service, 7600 Sand Point Way NE., Seattle, WA. After the meeting, a final draft of the amendment package will be prepared for public review and adoption by the Pacific Council at its July 9–11, 1990, meeting.

For more information contact Lawrence D. Six, Executive Director, Pacific Fishery Management Council, 2000 SW First Avenue, Portland, OR 97201; telephone: (503) 326–6352.

Dated: April 17, 1990.

David S. Crestin,

Deputy Director, Office of Fisheries Conservation and Management, National Marine Fisheries Service.

BILLING CODE 3510–22–M

National Technical Information Service

Prospective Grant of Exclusive Patent License

This is notice in accordance with 15 U.S.C. 209(c)(1) and 37 CFR 404.7(a)(1)(i) that the National Technical Information Service (NTIS), U.S. Department of Commerce, is contemplating the grant of an exclusive license in the United States and certain foreign countries to practice the invention embodied in U.S. Patent Application Serial Number 7–148,692 entitled, "A Synthetic Antigen Evoking Anti-HIV Response, "to Molecular Vaccines Inc., having a place of business in Gaithersburg, MD. The patent rights in this invention have been assigned to the United States of America.

The prospective exclusive license will be royalty-bearing and will comply with the terms and conditions of 35 U.S.C. 209 and 37 CFR 404.7. The prospective exclusive license may be granted unless, within sixty days from the date of this published Notice, NTIS receives written evidence and argument which establishes that the grant of the license would not be consistent with the requirements of 35 U.S.C. 209 and 37 CFR 404.7.

The invention is related generally to the field of vaccines and diagnostic or prognostic reagents for AIDS. More particularly, the present invention is related to a synthetic oligopeptide which elicits cytotoxicity by T cells against human immunodeficiency virus (HIV) antigens and proliferation of HIV-specific CTL's.

The availability of the invention for licensing was published in the **Federal Register**, Vol. 53, No. 79, p. 13433 (1988). A copy of the instant patent application may be purchased from the NTIS Sales Desk by telephoning 703/487–4650 or by writing to Order Department, NTIS, 5285 Port Royal Road, Springfield, VA 22161.

Inquiries, comments and other materials relating to the contemplated license must be submitted to Papan Devnani, Center for Utilization of Federal Technology, NTIS, Box 1423, Springfield, VA 22151. Properly filed competing applications received by the NTIS in response to this notice will be considered as objections to the grant of the contemplated license. This notice supersedes an earlier notice in the **Federal Register**, Vol. 53, No. 131, p. 25649 (July 8, 1988) which is withdrawn hereby.

Douglas J. Campion,

Associate Director, Office of Federal Patent Licensing, Center for Utilization of Federal Technology, National Technical Information Service, U.S. Department of Commerce.

BILLING CODE 3510–04–M

COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

Establishment, Admendment and Cancellation of Import Limits and Sublimits, Amendment to a Restraint Period and Amendment of Visa Requirements for Certain Cotton, Wool and Man-Made Fiber Textile Products Produced or Manufactured in the United States

April 17, 1990.

AGENCY: Committee for the Implementation of Textile Agreements (CITA).

ACTION: Issuing a directive to the Commissioner of Customs establishing, amending and cancelling certain limits and sublimits, amending a restraint period and amending visa requirements.

EFFECTIVE DATES: May 1, 1990 and June 1, 1990.

FOR FURTHER INFORMATION CONTACT: Jerome Turtola, International Trade Specialist, Office of Textiles and Apparel, U.S. Department of Commerce, (202) 377–4212. For information on the quota status of these limits, refer to the Quota Status Reports posted on the bulletin boards of each Customs port or call (202) 535–9481. For information on embargoes and quota re-openings, call (202) 377–3715.

SUPPLEMENTARY INFORMATION:

Authority: Executive Order 11651 of March 3, 1972, as amended; section 204 of the Agricultural Act of 1956, as amended (7 U.S.C. 1854).

During negotiations between the Governments of the United States and the United Mexican States, agreement was reached, effected by a Memorandum of Understanding (MOU) dated February 9, 1990, to amend further the Bilateral Cotton, Wool and Man-Made Fiber Textile Agreement of February 13, 1988, as amended. A formal exchange of diplomatic notes will follow.

Under the terms of the MOU, limits and sublimits are being amended and cancelled for certain cotton, wool and man-made fiber textile products and the restraint period for Categories 336/636 is being amended. In addition, a new limit is being established for Category 643 for the 1990 agreement period. Visa requirements are being amended for products in certain part and merged categories, produced or manufactured in Mexico and exported from Mexico on and after May 1, 1990.

With regard to Special Regime categories, the two governments agreed to cancel certain sublimits and establish separate limits for Normal Regime categories (products not qualifying for entry under the Special Regime Program).

For goods assembled in Mexico and re-exported from Mexico during the period July 1, 1990 through December 31, 1990, the U.S. Customs Service, begining June 1, 1990, will start signing the first section of form ITA–370P for shipments of U.S. formed and cut fabric in Categories 336/636 that are destined for Mexico and subject to the Special Regime. These products which are assembled in Mexico from parts cut in United States from fabric formed in the United States, are governed by Harmonized Tariff item number 9802.00.8010 and chapter 62 Statistical Note 3 of the Harmonized Tariff Schedule.

Interested parties should be aware that shipments of cut parts in Categories 336/636 must be accompanied by a form ITA–370P, signed by a U.S. Customs officer, prior to export from the United States for assembly in Mexico in order to qualify for entry under the Special Regime.

A description of the textile and apparel categories in terms of HTS numbers is available in the CORRELATION: Textile and Apparel Categories with the Harmonized Tariff Schedule of the United States (see **Federal Register** notice 54 FR 50797, published on December 11, 1989). Also see 54 FR 51446, published on December 15, 1989.

Requirements for participation in the Special Regime are available in **Federal Register** notices 53 FR 15724, published on May 3, 1988; 53 FR 32421, published on August 25, 1988; and 54 FR 50425, published on December 6, 1989.

The letter to the Commissioner of Customs and the actions taken pursuant to it are not designed to implement all of the provisions of the MOU dated February 9, 1990, but are designed to

assist only in the implementation of certain of its provisions.

Auggie D. Tantillo,

Chairman, Committee for the Implementation of Textile Agreements.

Committee for the Implementation of Textile Agreements

April 17, 1990.

Commissioner of Customs
Department of the Treasury
Washington, DC 20229

Dear Commissioner: This directive amends, but does not cancel, the directive issued to you on December 11, 1989 by the Chairman, Committee for the Implementation of Textile Agreements. That directive concerns imports of certain cotton, wool and man-made fiber textiles and textile products, produced or manufactured in the United Mexican States and exported during the period which began on January 1, 1990 and extends through December 31, 1990.

Effective on May 1, 1990, you are directed to amend the current restraint period for Categories 336/636 to extend through June 30, 1990 at the following level:

Category	Amended Limit; [1] January 1, 1990—June 30, 1990
336/636	200,000 dozen

[1] The limit has not been adjusted to account for any imports exported after December 31, 1989.

Also, you are directed to cancel the limits and sublimits for Categories 201–C/669–C, 222, 223pt., 229–F, 229–O, 237, 239, 245, 349/649, 350, 359–O, 369–B, 369–D, 369–U, 369–O, 442, 447, 459, 621, 632, 645/646, 650, 659–H, 659–S, 659–O, 666 and 669–O.

Categories 239, 349/649, 369–U, 369–B, 634, 659–S, and 666 shall no longer be subject to the Special Regime when assembled in Mexico and exported from Mexico on or after May 1, 1990. Merchandise in the above categories may be entered with either a Special Regime or non-Special Regime visa number if exported from Mexico during the period May 1, 1990 through May 31, 1990. A non-Special Regime visa number will be required to enter these products into the United States if exported from Mexico on or after June 1, 1990. Other categories subject to the Special Regime will remain.

Further, you are directed to amend the December 11, 1989 directive to amend and establish limits for the following categories, produced or manufactured in Mexico and exported during 1990. Categories 334 and 634 are being merged. Category 634 will no longer be subject to the Special Regime. Charges already made to the categories shall be applied to the newly merged Categories 334/634. The coverage of Categories 359–C/659–C is being amended to include insulated coveralls.

Category	New and Amended Limits [1] (Jan. 1, 1990—Dec. 31, 1990)
218—220, 225—227, 313—326, 611—617 and 625—629, as a group	45,000,000 sq. m. equiv.
Sublevels within the Group	
218	939,472 sq. m.
219	14,000,000 sq. m.
313	25,000,000 sq. m.
317	12,500,000 sq. m.
326	939,472 sq. m.
Limits not in a Group	
300/301/607–Y [2]	7,000,000 kgs. of which not more than 3,800,000 kgs. shall be in Category 300.
334/634	150,000 dz.
335	135,000 dz.
338/339/638/639	1,400,000 dz.
342/642	300,000 dz.
347/348/647/648	4,500,000 dz.
351/651	350,000 dz.
352/652	2,800,000 dz.
359–C/659–C [3]	1,800,000 kgs.
435	12,000 dz.
443	115,000 nos.
604–0/607–0 [4]	2,200,000 kgs.
633	100,000 dz.
643	155,556 nos.
670	3,000,000 kgs.

[1] The limits have not been adjusted to account for any imports exported after December 31, 1989.

[2] Categories 300 and 301: all HTS numbers; Category 607–Y: only HTS numbers 5509.53.0030 and 5509.53.0060.

[3] Category 359–C: only HTS numbers 6103.42.2010, 6103.42.2025, 6103.49.3034, 6104.62.1010, 6104.62.1020, 6104.69.3010, 6114.20.0042, 6114.20.0048, 6114.20.0052, 6203.42.2005, 6203.42.2010, 6203.42.2090, 6204.62.2005, 6204.62.2010, 6211.32.0005, 6211.32.0010, 6211.32.0025, 6211.42.0005 and 6211.42.0010; and Category 659–C: only HTS numbers 6103.23.0055, 6103.43.2015, 6103.43.2020, 6103.49.2000, 6103.49.3038, 6104.63.1010, 6104.63.1020, 6104.69.1000, 6104.69.3014, 6114.30.3040, 6114.30.3050, 6203.43.2005, 6203.43.2010, 6203.43.2090, 6203.49.1005, 6203.49.1010, 6203.49.1090, 6204.63.1505, 6204.63.1510, 6204.69.1005, 6204.69.1010, 6210.10.4015, 6211.33.0005, 6211.33.0010, 6211.33.0017, 6211.43.0005 and 6211.43.0010.

[4] Category 604–O: all HTS numbers except 5509.32.0000; and Category 607–O, all HTS numbers except 5509.53.0030 and 5509.53.0060.

Textile products in Category 643 which have been exported to the United States prior to January 1, 1990 shall not be subject to this directive.

Textile products in Category 643 which have been released from the custody of the U.S. Customs Service under the provisions of 19 U.S.C. 1448(b) or 1484(a)(1)(A) prior to the effective date of this directive shall not be denied entry under this directive.

For the import period January through March 1990, charge 101,943 kilograms for insulated coveralls to Special Regime Category 359–C and zero to Special Regime Category 659–C. There are no charges to be made to Category 643 for goods imported in January 1990. Additional charges to Categories 359–C/659–C and 643 will be provided as data become available.

Effective on May 1, 1990, the sublimits for Categories 342/642, 347/348/647/648, 351/651 and 352/652 are eliminated and separate limits are being established for products in these Special Regime categories which are not subject to the Special Regime. Charges already made to the sublimits shall be retained.

Normal regime category (not subject to the special regime)	
335 (sublimit)	35,000 dozen.
338/339/638/639 (sublimit).	650,000 dozen.
342/642	100,000 dozen.
347/348/647/648	650,000 dozen.
351/651	75,000 dozen.
352/652	1,600,000 dozen.
359–C/659–C (sublimit)	250,000 kilograms.
633 (sublimit)	10,000 dozen.

Beginning on June 1, 1990, U.S. Customs is directed to start signing the first section of the form ITA–370P for shipments of U.S. formed and cut parts in Categories 336/636 that are destined for Mexico and re-exported to the United States during the period July 1, 1990 through December 31, 1990.

For visa purposes, effective on May 1, 1990, you are directed to amend further the directive of August 22, 1988, as amended, to include and eleminate the coverage of certain merged and part-categories. Following is a complete list of merged and part-categories currently included in the Bilateral Cotton, Wool and Man-Made Fiber Textile Agreement of February 13, 1988, as amended, between the Governments of the United States and the United Mexican States.

300/301/607–Y [1]
334/634
336/636 (also under Special Regime)
338/339/638/639 (also under Special Regime)
340/640 (also under Special Regime)
341/641
341–Y/641–Y [2]
342/642 (also under Special Regime)
347/348/647/648 (also under Special Regime)
349/649
350/650
351/651 (also under Special Regime)
352/652 (also under Special Regime)
359–C/659–C [3] (also under Special Regime)

[1] Categories 300 and 301: all HTS numbers; Category 607–Y: only HTS numbers 5509.53.0030 and 5509.53.0060.

[2] Category 341–Y: only HTS numbers 6204.22.3060, 6206.30.3010 and 6206.30.3030; Category 641–Y: only HTS numbers 6204.23.0050, 6204.29.2030, 6206.40.3010 and 6206.40.3025.

[3] Category 359–C: only HTS numbers 6103.42.2010, 6103.42.2025, 6103.49.3034, 6104.62.1010, 6104.62.1020, 6104.69.3010, 6114.20.0042, 6114.20.0048, 6114.20.0052, 6203.42.2005, 6203.42.2010, 6203.42.2090, 6204.62.2005, 6204.62.2010, 6211.32.0005, 6211.32.0010, 6211.32.0025, 6211.42.0005 and 6211.42.0010; Category 659–C: only HTS numbers 6103.23.0055, 6103.43.2015, 6103.43.2020, 6103.49.2000, 6103.49.3038, 6104.63.1010, 6104.63.1020, 6104.69.1000, 6104.69.3014, 6114.30.3040, 6114.30.3050, 6203.43.2005, 6203.43.2010, 6203.43.2090, 6203.49.1005, 6203.49.1010, 6203.49.1090, 6204.63.1505, 6204.63.1510, 6204.69.1005, 6204.69.1010, 6210.10.4015, 6211.33.0005, 6211.33.0010, 6211.33.0017, 6211.43.0005 and 6211.43.0010.

359–O/659–O [4]
445/446
447/448
604–A [5]
604–O/607–O [6]
645/646
669–B [7]
669–O [8]

You are directed to permit entry of shipments of these products exported from Mexico on and after January 1, 1990 which list on the visa or accompanying Shippers Export Declaration (form ITA–370P) either the correct merged category or the correct category corresponding to the actual shipment.

The Committee for the Implementation of Textile Agreements has determined that these actions fall within the foreign affairs exception to the rulemaking provisions of 5 U.S.C. 553(a)(1).

Sincerely,

Auggie D. tantillo,

Chairman, Committee for the Implementation of Textile Agreements.

Extension of Import Limits for Certain Cotton and Man-Made Fiber Textile Products Produced or Manufactured in Thailand

April 17, 1990.

AGENCY: Committee for the Implementation of Textile Agreements (CITA).

ACTION: Issuing a directive to the Commissioner of Customs extending limits.

EFFECTIVE DATE: April 24, 1990.

FOR FURTHER INFORMATION CONTACT: Ross Arnold, International Trade Specialist, Office of Textiles and Apparel, U.S. Department of Commerce, (202) 377–4212. For information on the quota status of these limits, refer to the Quota Status Reports posted on the bulletin boards of each Customs port or call (202) 343-6581. For information on categories on which consultations have been requested, call (202) 377-3740.

SUPPLEMENTARY INFORMATION:

Authority. Executive Order 11651 of March 3, 1972, as amended; Section 204 of the Agricultural Act of 1956, as amended (7 U.S.C. 1854).

Inasmuch as no mutually agreed solution has been reached and to avoid continued market disruption, the limits for Categories 313, 315 and 638/639 are being extended for the period which began on March 31, 1990 and extends through March 30, 1991.

A description of the textile and apparel categories in terms of HTS numbers is available in the CORRELATION: Textile and Apparel Categories with the Harmonized Tariff Schedule of the United States (see **Federal Register** notice 54 FR 50797, published on December 11, 1989). Also see 54 FR 33050, published on August 11, 1989; and 54 FR 50797, published on December 11, 1989.

Auggie D. Tantillo,

Chairman, Committee for the Implementation of Textile Agreements.

Committee for the Implementation of Textile Agreements

April 17, 1990.

Commissioner of Customs,

Department of the Treasury, Washington, DC 20229

Dear Commissioner: Under the terms of Section 204 of the Agricultural Act of 1956, as amended (7 U.S.C. 1854), and the Arrangement Regarding International Trade in Textiles done at Geneva on December 20, 1973, as further extended on July 31, 1986; and in accordance with the provisions of Executive Order 11651 of March 3, 1972, as amended, you are directed to prohibit, effective on April 24, 1990, entry into the United States for consumption and withdrawal from warehouse for consumption of cotton and man-made fiber textile products in the following categories, produced or manufactured in Thailand and exported during the twelve-month period beginning on March 31, 1990 and extending through March 30, 1991, in excess of the following limits:

Category	12-mo. restraint limit [1]
313	12,415,579 square meters.
315	16,297,979 square meters.
638/639	1,773,959 dozen.

[1] The limits have not been adjusted to account for any imports exported after March 30, 1990.

Imports charged to these category limits for the period March 31, 1989 through March 30, 1990 shall be charged against the levels of restraint to the extent of any unfilled balances. In the event the limits established for that period have been exhausted by previous entries, such goods shall be subject to the levels set forth in this directive.

In carrying out the above directions, the Commissioner of Customs should construe entry into the United States for consumption to include entry for consumption into the Commonwealth of Puerto Rico.

The Committee for the Implementation of Textile Agreements has determined that these actions fall within the foreign affairs exception to the rulemaking provisions of 5 U.S.C. 553(a)(1).

Sincerely,

Auggie D. Tantillo,

Chairman, Committee for the Implementation of Textile Agreements.

[8] Category 669–O: all remaining HTS numbers in Category 669.

Department of the Treasury, Washington, DC 20229

Dear Commissioner: This directive amends but does not cancel, the directive issued to you on June 23, 1989, as amended, by the Chairman, Committee for the Implementation of Textile Agreements. That directive concerns imports of certain cotton and man-made fiber textile products, produced or manufactured in Turkey and exported during the period which began on July 1, 1989 and extends through June 30, 1990.

Effective on April 24, 1990, the directive of June 23, 1989 is being amended further to adjust the limits for cotton textile products in the following categories, as provided under the provisions of the current bilateral agreement between the Governments of the United States and Turkey:

Category	Adjusted 12-mo. limit [1]
338/339	1,479,140 dozen of which not more than 1,089,998 dozen shall be in Categories 338-S/339-S.[2]
341	585,480 dozen of which not more than 215,943 dozen shall be in Category 341-Y.[3]
347/348	1,587,085 dozen of which not more than 793,543 dozen shall be in Categories 347-T/348-T.[4]
350	166,494 dozen.
361	598,900 numbers.

[1] The limits have not been adjusted to account for any imports exported after June 30, 1989.

[2] Category 338-S' only HTS number 6103.22.0050, 6105.10.0010, 6105.10.0030, 6105.90.3010, 6109.10.0027, 6110.20.1025, 6110.20.2040, 6110.20.2065, 6110.90.0068, 6112.11.0030 and 6114.20.0005; Category 339-S: only HTS numbers 6104.22.0060, 6104.29.2046, 6106.10.0010, 6106.10.0030, 6106.90.2010, 6106.90.3010, 6109.10.0070, 6110.20.1030, 6110.20.2045, 6110.20.2075, 6110.90.0070, 6112.11.0040, 6114.20.0010 and 6117.90.0022.

[3] Category 341-Y: only HTS numbers 6204.22.3060, 6206.30.3010 and 6206.30.3030.

[4] Category 347-T: only HTS numbers 6103.19.2015, 6103.19.4020, 6103.22.0030, 6103.42.1020, 6103.42.1040, 6103.49.3010, 6112.11.0050, 6113.00.0035, 6203.19.1020, 6203.19.4020, 6203.22.3020, 6203.42.4005, 6203.42.4010, 6203.42.4015, 6203.42.4025, 6203.42.4035, 6203.42.4045, 6203.49.3020, 6210.40.2030, 6211.20.1520, 6211.20.3010 and 6211.32.0040; Category 348-T: only HTS numbers 6104.12.0030, 6104.19.2030, 6104.22.0040, 6104.29.2034, 6104.62.2010, 6104.62.2025, 6104.69.3022, 6112.11.0060, 6113.00.0040, 6117.90.0042, 6204.12.0030, 6204.19.3030, 6204.22.3040, 6204.29.4034, 6204.62.3000, 6204.62.4005, 6204.62.4010, 6204.62.4020, 6204.62.4030, 6204.62.4040, 6204.62.4050, 6204.69.3010, 6204.69.9010, 6210.50.2030, 6211.20.1550, 6211.20.6010, 6211.42.0030 and 6217.90.0050.

The Committee for the Implementation of Textile Agreements has determined that these actions fall within the foreign affairs exception to the rulemaking provisions of 5 U.S.C. 553(a)(1).

Sincerely,

Auggie D. Tantillo,

Chairman, Committee for the Implementation of Textile Agreements.

BILLING CODE 3510-DR-M

CONSUMER PRODUCT SAFETY COMMISSION

Notification of Proposed Collection of Information; General Order Issued to Manufacturers, Importers, Packages and Private Labelers of Methylene Chloride-Containing Consumer Products

AGENCY: Consumer Product Safety Commission.

ACTION: Notice.

SUMMARY: In accordance with the Paperwork Reduction Act of 1981 (44 U.S.C. Chapter 35), the Consumer Product Safety Commission has submitted to the Office of Management and Budget a request for approval of a proposed collection of information in the form of a General Order posing questions to manufacturers, importers, packagers and private labelers of consumer products containing 1% or more of methylene chloride ("DCM"). The requested expiration date is December 30, 1990.

The purpose of the information collection is to obtain information concerning the characteristics, labeling, and marketing of products containing DCM in order to evaluate the Commission's policy regarding labeling of these consumer products. Information regarding the extent to which methylene chloride is currently used in consumer products will enable the Commission to determine what, if any, additional steps are needed to protect consumers. Information concerning labeling of DCM-containing products will enable the Commission to evaluate industry's response to the Commission's statement of policy concerning requirements for labeling of household products containing DCM published in the **Federal Register** of September 14, 1987 (52 FR 34698). This information is sought pursuant to the Commission's authority under section 27(b)(1) of the Consumer Product Safety Act to issue General Orders, 15 U.S.C. 2076(b)(1), and its regulations at 16 CFR 1118.8.

Additional Details About the Request for Approval of a Collection of Information

Agency address: Consumer Product Safety Commission, Washington, DC 20207.

Title of information collection: General Order for Submission of Information on Methylene Chloride-Containing Products.

Type of request: Approval of a new plan.

Frequency of collection: One time.

General description of respondents: manufacturers, importers, packagers and private labelers of consumer products containing 1% or more of methylene chloride.

Total number of respondents: approximately 150 firms producing approximately 450 products.

Hours per response: approximately 2 hours per product.

Total hours for all respondents: not more than 900 hours.

Comments

Comments about this request for approval of a collection of information should be addressed to Elizabeth Harker, Desk Officer, Office of Information and Regulatory Affairs, Office of Management and Budget, Washington, DC 20503; telephone: (202) 395-7340. Copies of the request for approval of a collection of information are available from Francine Shacter, Office of Planning and Evaluation, Consumer Product Safety Commission, Washington, DC 20207; telephone: (301) 492-6416.

Dated: April 13, 1990.

Sheldon D. Butts,

Deputy Secretary, Consumer Product Safety Commission.

[FR Doc. 90-9320 Filed 4-20-90; 8:45 am]

BILLING CODE 6355-01-M

DEPARTMENT OF DEFENSE

Department of the Army

Environmental Impact Statement for the Proposed Construction and Operation of the Aerial Cable Test Capability at White Sands Missile Range, NM.

AGENCY: DOD, U.S. Army, White Sands Missile Range, NM.

Commanding General, U.S. Army White Sands Missile Range has been designated the functional staff proponent. For Headquarters Department of the Army, the Army Staff (ARSTAF) proponent and lead office is Director, Test and Evaluation Management Agency.

SUMMARY AND PROPOSED ACTION: The U.S. Army White Sands Missile Range (WSMR) is proposing to construct and operate an Aerial Cable Test Capability (ACTC) from mountain peaks at WSMR using a large-scale aerial tramway on which vehicles will traverse in captive flight. The vehicles act as targets for testing ground-to-air and air-to-air missiles or launch platforms for air-to-ground munitions. This testing

technique, developed at Sandia National Laboratories, Albuquerque, NM, has demonstrated technical and economic advantages over tests using manned or droned aircraft. The Sandia Facility is limited in capability and satisfies only a small number of the DOD's programmatic requirements.

Four alternatives are being considered. The first three alternatives are to install the proposed ACTC at one of three WSMR sites. The fourth alternative is to do nothing. The no action alternative would preclude adverse environmental impacts arising from the erection and operation of this facility. However, this type of testing would continue to be conducted with manned and droned aircraft, using more costly and frequently less technically rewarding techniques.

Three sites on WSMR were selected as alternatives after an evaluation of a total of ten sites. The sites were (1) Coso Peak, China Lake, CA; (2) Cactus Peak, Nellis Air Force Base (AFB), NV; (3) Trigo Peak, Yuma Proving Grounds, AZ; (4) Gila Mountain, Goldwater Bombing Range, AZ; (5) Rattlesnake Ridge, Fort Bliss, TX; (6) Madera Canyon, Kirtland AFB, NM; (7) two towers on Eglin AFB, FL; (8) South Oscura Peak, WSMR, NM; (9) Fairview Mountain West, WSMR, NM; and (10) Fairview Mountain South, WSMR, NM.

Each site was evaluated based on available mountain support for the aerial cable, resulting span length, and cable clearance above ground. Sites 1, 2, and 4 were eliminated from consideration because they had mountain support at one end of the cable but would require a tower at the other end, resulting in potential interference with ongoing operations. Sites 3 and 5 were eliminated from consideration because of an insufficient safety footprint to support the proposed testing. Site 7 was eliminated from consideration because it required tower supports at both ends of the cable. The remaining three sites are potential sites, with South Oscura Peak (site 8) providing the greatest cable clearance above ground at the desired span with mountain-to-mountain support. A more detailed description of the siting process will be addressed in the EIS.

SCOPING PROCESS: Comments received as a result of this notice will be used to assist the Army in identifying potential impacts to the quality of the environment. Individuals or organizations may participate in the scoping process by written comments or by attending a public scoping meeting to solicit inputs of significant environmental issues associated with the construction and operation of the ACTC at WSMR. This scoping meeting is scheduled for 9 May 1990, at the Carbine Auditorium, Physical Science Laboratory, New Mexico State University, Corner of Espina and Stewart Streets, Las Cruces, NM, from 7 to 10 p.m. In addition to this scoping meeting, written inputs to the scoping process are solicited. Comments in response to this Notice of Intent (NOI) or as part of the scoping process are requested in writing within 30 calendar days from publication of this notice in the **Federal Register.**

Questions concerning the proposed action or the National Environmental Policy Act (NEPA) process for the action or comments on this NOI, should be addressed to Commander, U.S. Army White Sands Missile Range, ATTN: STEWS–ID–DC (Mr. Henry B. Stephenson), White Sands Missile Range, NM, 88002. Other written inputs concerning the scoping process should be mailed to the contracted consulting firm, Physical Science Laboratory, ATTN: Mr. Roy A. Cunniff, Box 30002, New Mexico State University, Las Cruces, NM, 88003–0002.

Lewis D. Walker,

Deputy Assistant Secretary of the Army (Environment, Safety and Occupational Health), OASA (I,L&E).

BILLING CODE 3710–08–M

Army Child/Adolescent Mental Health CHAMPUS Funded Demonstration Project

AGENCY: U.S. Army Health Services Command, Department of the Army, DOD.

ACTION: Notice of implementation of the Army Child/Adolescent Mental Health CHAMPUS funded Demonstration Project to be conducted at Fort Bragg, North Carolina.

SUMMARY: This action implements an approved Army CHAMPUS benefits demonstration. The Assistant Secretary of Defense (Health Affairs) approved this demonstration under title 10 U.S.C. 1092. Further, the authority and responsibility to conduct the demonstration was delegated to the Department of the Army. The Fort Bragg Mental Health Demonstration is an innovative approach through a federal-state contract with the state of North Carolina, to provide comprehensive mental health services to children and adolescents who reside in the Fort Bragg, North Carolina catchment area.

EFFECTIVE DATE: June 1, 1990.

FOR FURTHER INFORMATION CONTACT: Major Samuel H. Robinson, CHAMPUS Division, Deputy Chief of Staff for Clinical Services, Fort Sam Houston, TX 78234–6000, telephone (512) 221–6791.

SUPPLEMENTARY INFORMATION: The Army has a contract with the State of North Carolina, Department of Human Resources, which will last a maximum of 57 months, to test the efficacy of using managed care techniques and an alternative delivery system to control costs and assure clinical outcomes in the provision of mental health services to children and adolescents. The project will use a continuum of community based services to augment existing authorized CHAMPUS mental health benefits. The alternative delivery system includes therapeutic homes, specialized foster care, group homes, supervised apartment living, in home services, residential/day camps, vocational counseling, day treatment and partial hospitalization.

Services will be tailored to specific patient clinical needs and will be provided at the most appropriate level of care, in terms of safety, effectiveness, and efficiency. The contractor is expected to control the use of restrictive treatment settings and reduce the amount of care that is not medically and/or psychologically necessary, particularly in the area of acute inpatient and residential care.

Persons included in the demonstration are all CHAMPUS eligible beneficiaries who are between the ages of zero to eighteen and reside in the Fort Bragg catchment area. The catchment area is defined in the Defense Management Information System Catchment Area Directory. Persons enrolled in the CHAMPUS Program for the Handicapped, the State of North Carolina "Willie M." program and those generally diagnosed as mentally retarded and/or from the state of North Carolina are excluded from receiving services provided under this contract.

The contractor will waive standard CHAMPUS cost-share and deductible requirements for patients enrolled in the contractors continuum of care system. This waiver only applies to mental health services. Cost shares and deductibles required by law for other than mental health services will continue for eligible patients. Coordination with OCHAMPUS fiscal intermediary for the Mid-Atlantic Region has been accomplished.

The contractor provided continuum of care is an exclusive provider arrangement. The contractor shall be responsible for providing all mental health services residing in the target

area. Eligible beneficiaries shall obtain all mental health services from providers authorized by the contractor. Services obtained without authorization from the contractor will not be cost shared from CHAMPUS funds. Persons temporarily residing in the catchment area may use the contractors system, however, claims for services will be filed with the FI for the Mid-Atlantic region and will not be part of the demonstration. These temporary residents are not eligible for the alternative delivery system's augmented benefits or waiver of cost share and deductible.

The contractor will provide a centrally managed system for planning, budgeting and staffing, which includes diagnostic assessment, development and implementation of individualized treatment plans, provision of treatment services, case management services, and post discharge follow-up. The contractor shall provide 24 hour emergency services. Twenty-four hour a day crisis services will be available within reasonable time and distance requirements from patients' residences. The contractor will provide sufficient case managers, management, and treatment team personnel to meet patient demand and for the proper performance of the provisions of this contract.

The contractor shall develop and implement a quality assurance program which will monitor the quality and appropriateness of care provided. This program will review all treatment plans to ensure they are directed to establishing a correct diagnosis, prescribing appropriate medications and treatment settings, and ensures the initial and continued qualifications of health care providers under contract or agreement with the prime contractor. An integral part of the quality monitoring system is the Project Coordinating Committee. This committee is composed of contractor and government provider representatives and will monitor the progress of the system of care.

The contractor shall develop a Marketing Plan which addresses issues pertinent to the demonstration. The plan shall include provisions for notifying beneficiaries of the demonstrations provisions, patient access to the system, patient cost and relationship to other CHAMPUS benefits. The plan shall include information for health care providers regarding the provision of services under the contract, case management system, payment system changes, patient preauthorization, quality assurance, and credentialling provisions. The marketing plan shall include provisions for information briefings conducted by the contractor for patients and providers (including military providers), phase in of services where applicable and pertinent phone numbers and addresses where questions may be directed. The plan will also include provisions for liaison meetings with the Mid-Atlantic Region FI and OCHAMPUS is required to properly implement the provisions of the demonstration.

The contractor will develop and operate a unit cost reimbursement system. No claims forms will be filed by patients using the system for mental health services. The contractor will operate a grievance and appeals system containing the same provisions and patient rights as chapter 10 DODI 6010.8–R, The Civilian Health and Medical Program of the Uniformed Services.

The contractor has subcontracted with Vanderbilt University, Nashville, Tennessee to conduct an evaluation of the continuum of care system to determine if the contractor arrangement between U.S. Army Health Services Command and the State of North Carolina, Department of Human Resources can provide a cost effective alternative to regular CHAMPUS mental health benefits. Vanderbilt University will also conduct a cost effectiveness evaluation and quality assurance analysis of the continuum of care. Data will be collected from the Fort Bragg catchment area and two control sites, Fort Campbell, KY and Fort Stewart, GA. Data collection will be accomplished by trained mental health professionals. Patient participation in the evaluation is voluntary. Both participating patients and providers will be compensated for their time and effort. Vanderbilt University will furnish periodic progress reports quarterly, a baseline report at month 27, interim cost and quality reports at months 24 and 36, interim outcome repots at months 30 and 40, and a final report at month 46.

Estimated savings over the life of the contract when compared with current methods of treatment and of CHAMPUS payment is six million dollars on an aggregate basis. However, per case savings is estimated to approach forty percent. This is a result of providing services to a greater number of patients at a lower total cost. The contractor will furnish status reports beginning at month 10 and quarterly thereafter. Additionally, the monthly meeting of the project advisory committee will provide concurrent evaluation of the contract status.

Kenneth L. Denton,

Alternate Army Liaison Officer With the Federal Register.

BILLING CODE 3710–08–M

Corps of Engineers, Department of the Army

Coastal Engineering Research Board; Meeting

In accordance with section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92–463), announcement is made of the following committee meeting:

Name of Committee: Coastal Engineering Research Board (CERB).

Date of Meeting: June 5–7, 1990.

Place: Fort Lauderdale Airport Hilton, Dania, Florida.

Time: 7:30 a.m. to 6 p.m. on June 5; 8 a.m. to 4:30 p.m. on June 6; 8:15 a.m. to 11:30 a.m. on June 7.

Theme: Coastal Inlets.

Proposed Agenda: The morning session on June 5 will consist of a review of CERB business; presentations entitled Interagency Coordination on Hurricane Response; Expansion of the Field Wave Gage Program—Plans for South Atlantic Division; Update of the Dredging Research Program—Oil Spill Initiative; Changing Role of Inlets in Coastal Management; and an overview of the field trip.

The afternoon of June 5 will be devoted to a bus tour of South Lake Worth Sand Transfer Plant; Delray Beach; Pompano Beach; and Hallendale Beach.

The session on June 6 will consist of three panel discussions with several presentations under each topic. The first topic will be Determining Benefits for Coastal Projects which includes presentations entitled Benefits for Coastal Projects; Recommended Modifications in Benefit/Cost Management Practices; and Economic Evaluation of Corps Protection Projects. The second topic will be Effects of Tidal Inlets on Shorelines, which includes presentations entitled Impacts on Coastal Erosion; Kings Bay Monitoring Study; and Nearshore Berms. The third topic will be Sand Bypass Systems for Inlets, which includes State of Florida Position on Sand Bypass Systems; Political and Institutional Impacts of Sand Bypass Systems; Oceanside, California, Demonstration; Indian River—Corps Newest Bypass System; and Nerang River, Australia—An Automated, Integral Bypass System. Other presentations to be discussed are Coast of Florida Study; Report on Engineering Manual "Coastal Inlet Hydraulics and Sedimentation"; and After GITI—the Next Phase of CERC's Tidal Inlet Research.

On June 7 there will be presentations on CERC's New Nearshore Directional Wave Gage; Scanning Hydrographic Operational Airborne Laser Survey (SHOALS) System;

and recommendations by members of the Board.

This meeting is open to the public; participation by the public is scheduled for 9:50 a.m. on June 7.

The entire meeting is open to the public subject to the following:

1. Since seating capacity of the meeting room is limited, advance notice of intent to attend, although not required, is requested in order to assure adequate arrangements for those wishing to attend.

2. Oral participation by public attendees is encouraged during the time scheduled on the agenda; written statements may be submitted prior to the meeting or up to 30 days after the meeting.

Inquiries and notice of intent to attend the meeting may be addressed to Colonel Larry B. Fulton, Executive Secretary, Coastal Engineering Research Board, U.S. Army Engineer Waterways Experiment Station, 3909 Halls Ferry Road, Vicksburg, Mississippi 39180–6199.

Larry B. Fulton,

Colonel, Corps of Engineers, Executive Secretary.

Meeting of Environmental Advisory Board

AGENCY: U.S. Army Corps of Engineers, DOD.

ACTION: Notice of open meeting.

SUMMARY: In accordance with section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92–463), this notice sets forth the schedule and proposed agenda of the forthcoming meeting of the Chief of Engineers Environmental Advisory Board (EAB). The meeting is open to the public.

DATES: The meeting will be held from 8 a.m., Wednesday, May 16, 1990 to 11 a.m., Friday, May 18, 1990.

ADDRESSES: The meeting will be held at the U.S. Army Corps of Engineers Waterways Experiment Station, Vicksburg, Mississippi 39180–0631.

FOR FURTHER INFORMATION CONTACT: Dr. William L. Klesch, Chief, Office of Environmental Policy, Office of the Chief of Engineers, Washington, DC 20314–1000, (202) 272–0166.

SUPPLEMENTARY INFORMATION: The schedule and proposed agenda of the 48th Meeting of the EAB, "Ecosystems and Their Human Value," is:

May 16, 1990

0800–0820	Welcome	COL Larry Fulton COL Frank Skidmore
820–0850	Chief's Charge to EAB.	MG Patrick Kelly
0850–0905	EAB Reply to Chief's Charge.	Dr. L. Eugene Cronin

BILLING CODE 3710–08–M

Defense Nuclear Agency

Privacy Act of 1974; New Record System

AGENCY: Defense Nuclear Agency, DOD.

ACTION: Notice of a proposed new record system notice.

SUMMARY: The Defense Nuclear Agency proposes to add a new system of records notice to its inventory of systems of records subject to the Privacy Act of 1974, as amended, (5 U.S.C. 552a). The record system notice for the proposed new system is set forth below.

DATES: The record system will be effective without further notice on May 23, 1990, unless comments are received that would result in a contrary determination.

ADDRESSES: Comments should be forwarded to Robert L. Brittigan, General Counsel, Defense Nuclear Agency, 6801 Telegraph Road, Alexandria, VA 22310–3398. Telephone (703) 325–7681.

SUPPLEMENTARY INFORMATION: The Defense Nuclear Agency notices of systems of records subject to the Privacy Act of 1974, as amended, (5 U.S.C. 552a), were published in the **Federal Register** as follows:

50 FR 22596, May 29, 1985 (DoD Compilation, changes follow)
52 FR 23333, Jun 19, 1987

A new system report, as required by 5 U.S.C. 552a(r) of the Privacy Act, was

submitted on April 12, 1990, to the Committee on Governmental Operations of the House of Representatives, the Committee on Governmental Affairs of the Senate, and the Office of Management and Budget (OMB) pursuant to paragraph 4b of Appendix I to OMB Circular No. A–130, "Federal Agency Responsibilities for Maintaining Records About Individuals," dated December 12, 1985 (50 FR 52730, December 24, 1985)

L.M. Bynum,

OSD Federal Register Liaison Officer, Department of Defense.

April 17, 1990.

HDNA 003

SYSTEM NAME:

Drug-Free Workplace Files.

SYSTEM LOCATION:

Drug Program Coordinator, Civilian Personnel Management Division, Headquarters, Defense Nuclear Agency (HQ, DNA), 6801 Telegraph Road, Alexandria, VA 22310–3398.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Employees of, and applicants for positions in Headquarters, Defense Nuclear Agency.

CATEGORIES OF RECORDS IN THE SYSTEM:

Records relating to the selection, notification, and testing for illegal drug abuse (includes documents related to selection and notification procedures, collection of urine specimens, laboratory testing, review of test results, and chain of custody documents).

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Pub. L. 100–71, 5 U.S.C. 7301; Executive Order 12564, "Drug-Free Federal Workplace" and Executive Order 9397.

PURPOSE(S):

This system is for the purpose of maintaining Drug Program Coordinator records on the selection, notification, and testing for illegal drug abuse by employees of HQ, DNA and applicants for positions at HQ, DNA.

Records may be used by authorized contractors for the collection process; assigned Medical Review Officers; the Administrator of any Employee Assistance Program in which the employee is receiving counseling or treatment or is otherwise participating; and agency supervisory or management officials having authority to take adverse personnel action against such an employee when test results are positive.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSE OF SUCH USES:

In order to comply with the provisions of 5 U.S.C. 7301, the Defense Nuclear Agency "Blanket Routine Uses" published at the beginning of DNA's compilation of systems of records notices do not apply to this system of records.

Records may be released to a court of competent jurisdiction when required by the United States Government to defend against a challenge to related adverse personnel action.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records are maintained in file folders. Electronic records exist on magnetic tape, diskette, or other machine readable media.

RETRIEVABILITY:

Records are retrieved by employee or applicant name and/or social security number.

SAFEGUARDS:

Paper records are stored in a locked file cabinet or are locked in a combination safe when not being used. Electronic records are accessed on computer terminals in supervised areas using a system with password access safeguards. All employee and applicant records are maintained and used with the highest regard for employee and applicant privacy. Only persons on a need-to-know basis and trained in the handling of information protected by Privacy Act have access to the system.

RETENTION AND DISPOSAL:

Files on applicants for positions are maintained for a period not to exceed six months.

Files on employees are retained for two years. In instances of a positive test finding resulting in the reassignment or separation of an employee, files are destroyed two years after the case is closed.

SYSTEM MANAGER(S) AND ADDRESS:

Drug Program Coordinator, Civilian Personnel Management Division, Headquarters, Defense Nuclear Agency, 6801 Telegraph Road, Alexandria, VA 22310–3398.

NOTIFICATION PROCEDURE:

Individuals seeking to determine whether this system of records contains information about themselves should address written inquiries to the Drug Program Coordinator, Civilian Personnel Management Divison, Headquarters, Defense Nuclear Agency, 6801 Telegraph Road, Alexandria, VA 22310–3398.

The request should contain the full name, Social Security Number, and the notarized signature of the subject individual.

RECORD ACCESS PROCEDURES:

Individuals seeking access to records about themselves contained in this system of records should address written inquiries to the Drug Program Coordinator, Civilian Personnel Management Division, Headquarters, Defense Nuclear Agency, 6801 Telegraph Road, Alexandria VA 22310–3398.

The request should contain the full name, Social Security Number, and the notarized signature of the subject individual.

CONTESTING RECORD PROCEDURES:

The Defense Nuclear Agency's rules for contesting contents and appealing initial agency determinations are published in DNA Instruction 5400.11A; 32 CFR Part 291a; or may be obtained from the system manager.

RECORD SOURCE CATEGORIES:

The test subject, Medical Review Officer, collection personnel, and others on a case-by-case basis.

EXEMPTIONS CLAIMED FOR THE SYSTEM:

None.

BILLING CODE 3810–01–M

DEPARTMENT OF EDUCATION

[CFDA No.: 84.103]

Training Program for Special Programs Staff and Leadership Personnel; Inviting Applications for New Awards for Fiscal Year 1990

Purpose of Program: Provides grants to institutions of higher education, and other public and private nonprofit institutions and organizations, for projects that improve the operation of the Special Programs for Students from Disadvantaged Backgrounds (Student Support Services, Upward Bound, Talent Search, Educational Opportunity Centers, and the Ronald E. McNair Post-Baccalaureate Achievement Program) by providing training for staff and leadership personnel employed in, or preparing for, employment in such projects.

Deadline for Transmittal of Applications: June 29, 1990.

Application Availability: April 23, 1990.

Available Funds: $1,535,018.

Estimated Range of Awards: $50,000–$250,000.

Estimated Average Size of Awards: $100,000.

Estimated Number of Awards: 15.

Project Period: 24 months.

Applicable Regulations: (1) The Training Program for Special Programs Staff and Leadership Personnel Regulations, 34 CFR part 642, and (b) the Education Department General Administrative Regulations, 34 CFR parts 74, 75, 77, 79, 81, and 85.

Funding Priorities: In accordance with 34 CFR 75.105(c)(2) and 34 CFR 642.34 of the program regulations, the Secretary has established the following priorities:

(1) Basic skills instruction in reading, mathematics, written and oral communication, and study skills;

(2) Student financial aid;

(3) Support services for persons of limited proficiency in English;

(4) Support services for physically handicapped persons; and

(5) General project management for new directors.

The Secretary awards up to 8⅓ points to applicants that propose to carry out one or more of the funding priorities. The Secretary will consider applications for a Training Program project on topics other than those given priority if the applicant addresses another significant training need in the local area being served by the Special Programs. However, such topics are not eligible to receive funding priority under 34 CFR 642.31(f)(2)(iii).

For Application or Information Contact: May J. Weaver, Chief, Special Services Branch, Division of Student Services, U.S. Department of Education, 7th & D Streets SW., Mail Stop 5249, room 3060, Washington, DC 20202–5249.

Program Authority: 20 U.S.C. 1070d, 100d–1d.

Dated: April 12, 1990.

Leonard L. Haynes III,

Assistant Secretary for Postsecondary Education.

[FR Doc. 90–9270 Filed 4–20–90; 8:45 am]

BILLING CODE 4000–01–M

DEPARTMENT OF ENERGY

Savannah River Operations Office; Financial Assistance Award; Intent To Award a Noncompetitive Grant

AGENCY: U.S. Department of Energy.

ACTION: Notice of noncompetitive award of grant.

SUMMARY: The Department of Energy (DOE) announces that it plans to award a renewal grant to Claflin College, Orangeburg, SC, for the conduct of a Student Science Enrichment Training Program, with special emphasis on chemical and computer science fields. The grant will be awarded for a two-year period at a DOE funding level of $62,924. Pursuant to § 600.7(b)(2)(i)(A) of the DOE Assistance Regulations (10 CFR part 600), DOE 600.7(b)(2)(i)(A) of the DOE Assistance Regulations (10 CFR part 600), DOE has determined that the activity to be funded is necessary to the satisfactory completion of an activity presently being funded by DOE and eligibility for this grant award shall be limited to Claflin College.

PROCUREMENT REQUEST NUMBER: 09–09–90SR18048.001.

PROJECT SCOPE: For the past two summers, Claflin College conducted a Student Science Enrichment Training Program for thirty participants selected from a pool of applicants, generated by the high school senior and juniors and the freshmen classes at Claflin. The program primarily focused on high ability students, with potential for science, mathematics and engineering careers. The programs placed emphasis on laboratory experience and some research participation. Visits to scientific laboratories and other points of scientific interest were arranged to stimulate scientific career goals among the participants. The progress of the participants after training was monitored by Claflin through visits and the exchange of letters. A survey indicated that 79% of the participants opted for careers in science, computer science and mathematics.

Claflin College is a Historically Black College or University (HBCU) and falls within the meaning and intent to Executive Orders 12320 and 12677 pertaining to Government assistance to HBCUs. The participation of HBCUs in federally supported programs is relatively limited. In order to overcome some of these limitations, the Orders directed federal agencies to increase the participation of HBCUs in federally-funded programs and to strengthen their capabilities to provide quality education. This award represents an effort to strengthen the HBCU community.

DOE has determined that this award to Claflin College on a noncompetitive basis is appropriate.

FOR FURTHER INFORMATION CONTACT: Ronald D. Simpson, Chief, Contracts Management Branch, U.S. Department of Energy, Savannah River Operations Office, P.O. Box A, Aiken, SC 29802, Telephone: (803) 725–2096.

Issued in Aiken, South Carolina on April 11, 1990.

John D. Wagoner,

Deputy Manager, Head of Contracting Activity Designee, Savannah River Operations Office.

[FR Doc. 90–9338 Filed 4–20–90; 8:45 am]

BILLING CODE 6450–01–M

Financial Assistance Award; Intent To Award Grant to Florida Solar Energy Center (FSEC)

AGENCY: Department of Energy.

ACTION: Notice of non-competitive financial assistance award.

SUMMARY: The Department of Energy (DOE) announces that pursuant to 10 CFR 600.7(b)(2)(i)(A), it plans to make a noncompetitive financial assistance award to FSEC to fund the first budget period of a 5-year project period under Grant Number DE–FG01–90CE21048 to FSEC, in the estimated amount of $90,000.

SCOPE: The objectives of this work are to advance the state-of-the-art of daylighting and fenestration design and performance evaluation in the following areas not adequately covered by other programs: (1) Contribute to the development of an international standard practice for daylight availability measurements and to planning for the International Commission of Illumination for International Daylight Measurement Program (CIEIDMP); (2) perform analyses of availability data collected at FSEC and use this to verify and extend existing theoretical models of daylight availability; (3) write papers, and develop improved design tools based upon the solar radiation and daylight availability data collected at FSEC and elsewhere; (4) continue supporting LBL work in design tool development and evaluation; (5) evaluate the relative merits of competing fenestration design options and products, using DOE–2 runs and special, simplified software designed for this purpose; and (6) support the work of the Joint Canada/U.S. Fenestration Technical Committee through reviews of plans and documents, advice on directions, and continued development of fenestration performance evaluation tools.

ELIGIBILITY: Eligibility for this award is being limited to FSEC because of its unique qualifications and expertise and its involvement in this research for the last 5 years. Dr. Ross McCluney, the principal investigator, holds B.A., M.S.,

and Ph.D., degrees in physics, specializing in optics and has extensive experience in the field of fenestration and illumination evaluation. The FSEC has an optical laboratory designed for indoor and outdoor tests of the Solar radiant heat gain and light transmittance and distribution of various fenestration materials and components. This combination of qualifications in the fields of optical physics and fenestration system design and evaluation are unique and critical to the achievement of the stated objectives.

FOR FURTHER INFORMATION CONTACT: U.S. Department of Energy, Office of Procurement Operations, ATTN: Rosemarie H. Marshall, PR-542, 1000 Independence Avenue, SW., Washington, DC 20585.

Thomas S. Keefe,

Director, Contract Operations Division "B", Office of Procurement Operations.

BILLING CODE 6450-01-M

Geothermal Resource Council.

AGENCY: Department of Energy.

ACTION: Determination of noncompetitive financial assistance.

SUMMARY: Research and Development of Geothermal International Symposium.

The Department of Energy, Idaho Operations Office, intends to award a grant noncompetitively to the Geothermal Resource Council (GRC) in the amount of $75,000 for two conference activities for their International Sysposium to be held in August, 1990. Specifically this grant will provide financial support for the development and publication of conference proceedings and administrative activities for the conference. The GRC brings reseachers together from all over the world, to discuss the current geothermal research and development. The merit of such a conference is substantial; and, it will be the only international symposium on Geothermal Energy to be held this year. The authority for the proposed award is the Geothermal Research, Development, and Demonstration Act of 1974 (Pub. L. 93-40). This action is justified under DOE Financial Assistance Rule 10 CFR 600.7(b)(2)(i)(B) in that the activity is being or would be conducted by the applicant using its own resources or those donated or provided by the third parties. However, DOE support of that activity will enhance the public benefits to be derived and DOE knows of no other entity which is conducting or is planning to conduct such an activity.

PROCUREMENT REQUEST NUMBER: DE-FG07-90ID12956.

CONTACT: U.S. Department of Energy, Idaho Operations Office, 785 DOE Place,, Idaho Falls, Idaho 83402, Elizabeth M. Bowhan, Contracting Officer.

Dated: April 11, 1990.

BILLING CODE 6450-01-M

Determination of Noncompetitive Financial Assistance

AGENCY: Department of Energy.

ACTION: Notice.

SUMMARY: DOE announces that pursuant to 10 CFR 600.7(b)(2), it intends to award on a noncompetitive basis a grant to the President and Fellows of Harvard College to arrange and conduct all aspects of the 21st DOE/NRC Nuclear Air Cleaning Conference. The grant award will continue the project through October 14, 1991. The estimated amount is $52,000.

PROCUREMENT REQUEST NO.: 05900R21919.000.

PROJECT SCOPE: This grant award is to continue a biennial conference which has been sponsored by DOE and its predecessor agencies (i.e., ERDA and AEC) for the past 40 years. This conference has been used to disseminate and obtain information related to waste management and air treatment systems, and has provided an international forum for prompt introduction of new technology, exchanges of technical information, stimulation of research in matters of current regulatory concern, and evaluation of research results and design proposals for improving safety. Activities in support of this program include the preparation of a conference agenda, arrangement for the date and location of the conference, solicitation and selection of papers for presentation, conduct of the conference over a four day period, and preparation of camera ready manuscript of the conference proceedings.

FOR FURTHER INFORMATION CONTACT: Martha J. Rohr, Research Management Branch, Energy Programs Division, U.S. Department of Energy, P.O. Box 2001, Oak Ridge, Tennessee 37831-8611, (615) 576-0717.

Peter D. Dayton,

Director, Procurement and Contracts Division, Oak Ridge Operations.

BILLING CODE 6450-01-M

Grants and Cooperative Agreement Award; Oregon Institute of Technology Geo-Heat Center

AGENCY: Department of Energy.

ACTION: Determination of noncompetitive financial assistance with Oregon Institute of Technology Geo-Heat Center (OIT), Klamath Falls, Oregon.

SUMMARY: Research and Development of Hydrothermal and Geopressured Geothermal Technologies.

The Department of Energy announces that it plans to award a grant noncompetitively to the Oregon Institute of Technology Geo-Heat Center (OIT), for hydrothermal-geothermal and geopressured-geothermal research and development. This award will be for a period of five years at a total cost of approximately $1 million. This action is authorized by Public Law 93-40, Geothermal Research, Development, and Demonstration Act of 1974. The proposed activity will provide services to state and federal agencies, engineering consultants, planners and developers who request assistance for the development of geothermal direct uses. These activities will further advance the knowledge to meet the public need to help reduce dependence upon foreign energy sources and help reduce atmospheric pollution. The award of this noncompetitive assistance is justified under subparagraphs (A) and (D) of 10 CFR 600.7(b)(2)(i) as follows: (A) The activity to be funded is necessary to the satisfactory completion of research and the continuation of direct use assistance presently being funded by DOE under DE-FG07-90ID12693, and for which competition for support would have a significant adverse effect on continuity of the activity; (D) The applicant has exclusive domestic capability to perform the activity successfully, based upon its technical expertise.

PROCUREMENT REQUEST NUMBER: DE-FG07-87ID12952.

CONTACT: U.S. Department of Energy, Idaho Operations Office, 785 DOE Place, Idaho Falls, Idaho 83402, Elizabeth M. Bowhan, (208) 526-1229, Contracting Officer.

Dated: April 11, 1990.

J. Roger Gonzales,

Director, Contracts Management Division.

BILLING CODE 6450-01-M

Bonneville Power Administration

East Fork Salmon River Fish Habitat Improvement Project; Floodplain Action

AGENCY: Bonneville Power Administration (BPA), DOE.

ACTION: Notice of proposal to enhance spawning and rearing habitat for anadromous fish within a floodplain of the two tributaries of Idaho's East Fork Salmon River.

SUMMARY: BPA proposes to fund measures designed to enhance spawning and rearing habitat for anadromous fish in two tributaries of Idaho's East Fork Salmon River. Due to the nature of the proposed activities, some may be located within the 100-year floodplain. This project is part of the Northwest Power Planning Council's Columbia River Basin Fish and Wildlife Program adopted in 1982 (revised in 1984 and 1987) under measure 704(d)(1). The purpose of the Program is to work toward rebuilding fish and wildlife population harmed by the development and operation of the Federal Columbia River Power System. The East Fork Salmon River project concepts were developed following 4 years of investigation by the Shoshone-Bannock Indian Tribe.

FOR FURTHER INFORMATION CONTACT: Anthony R. Morrell, Assistant to the Administrator for Environment, Bonneville Power Administration, P.O. Box 3621–AJ, Portland, Oregon 97208; (503) 230–5136. Maps and additional information are available from Kevin Ward, (503) 230–5373.

SUPPLEMENTARY INFORMATION: The proposed activities would take place on two tributaries of the East Fork Salmon River, Big Boulder Creek, and Herd Creek. The proposed plan for Big Boulder Creek would consist of removing a small dam that was used at one time to generate electricity for a mining operation in the area. Additional work on Big Boulder Creek would consist of excavating high cut banks and using some of this material to stabilize erosion of the bank and reduce movement of the channel. Activities on Herd Creek would consist of fencing and revegetating areas along the stream to stabilize the bank. These activities would be located in the floodplain of both Big Boulder Creek and Herd Creek.

DOCUMENTS AVAILABLE: An Environmental Assessment (EA) on the project is being prepared. A draft of the EA was distributed for public review in August through October 1989. The EA will include a floodplain assessment, an evaluation of the proposed activities, and other information on potential environmental effects. You may obtain copies of the EA (48 pages plus appendices) by calling BPA's toll-free numbers: (800) 841–5867 for Oregon; or (800) 624–9495 for other Western States. You will reach a recorded message where you may leave a request for the East Fork Salmon River Habitat Enhancement Project.

Issued in Portland, Oregon, on April 10, 1990.

Jack Robertson,

Deputy Administrator, Bonneville Power Administration.

BILLING CODE 6450–01–M

Federal Energy Regulatory Commission

[Docket No. RM87–17–000]

Natural Gas Data Collection System; Availability of Certificate Software and Revised Instructions Relating to Certificate Record Formats

April 16, 1990.

AGENCY: Federal Energy Regulatory Commission, DOE.

ACTION: Notice of Availability of Certificate Software and Revised Instructions Relating to the Certificate Record Formats.

SUMMARY: New software for data entry and edit checking of the structured data file and revised software to print certificate filings required to be submitted on electronic medium in accordance with Order Nos. 493 (53 FR 15025 (Apr. 27, 1988)), 493–A (53 FR 30027 (Aug. 10, 1988)), and 493–B (53 FR 49652 (Dec. 9, 1988)) is now available. Both PC and mainframe versions of the edit-checking module and the hard copy print module of the certificate application software are available at this time. The data entry module is available for execution in a PC environment only. The PC version of each module is available on diskette and the mainframe version on magnetic tape. A Users/Operations Manual for all modules and versions of the certificate application software is also available. This notice identifies revisions and corrections to the certificate application electronic filing instructions and formats. Separate order forms are attached for requesting either the PC version (executable code and/or source code) or the mainframe version (source code) of the software.

DATES: The PC software, mainframe source code, Users/Operations Manual, and the revised instructions relating to the record formats are available on April 6, 1990.

ADDRESSES: Requests for the PC version of the various software modules should be directed to: Reference and Information Center, Federal Energy Regulatory Commission, 941 North Capitol Street NE., Room 3308, Washington, DC 20426, (202) 208–1371 (New phone numbers effective April 16, 1990).

FOR FURTHER INFORMATION CONTACT:

For general information contact: Robert Czarick, (202) 208–0995 or George D. Dornbusch, (202) 208–1181. For information related to the mainframe version of the software contact Annette Raiford at (202) 208–2153.

Office of Pipeline and Producer Regulation, Federal Energy Regulatory Commission, 825 North Capitol Street NE., Room 6106, Washington, DC 20426.

SUPPLEMENTARY INFORMATION: Software is now available to provide for data entry and edit checking of the structured data file (FILE 1) for certificate filings submitted in accordance with the instructions and record formats for certificate applications issued June 8, 1989, revised August 31, 1989, and updated with this issuance. In addition, revised print software is also being made available at this time.

The programming language used for the software is ANSI 1974 Standard COBOL. The Users/Operations Manual for Certificate Applications Software, and the updated set of record formats, including revised instructions, is available in WordPerfect 4.2 and ASCII format. The PC version of the software modules can be run on an IMB-comptaible PC with at least 640K RAM and DOS 3.0 (or later version). The PC software is available on 3.5″ (1.44MB) or 5.25″ (1.2MB) double-sided, high density diskettes. The PC version of the certificate applications software consists of three separate packages for: data entry, edit check, and hardcopy print. Each module is available as a separate package. The PC edit-check and print software packages include test data. The PC source code, the Users/Operations Manual and the updated set of record formats, including revisions to the instructions are available in separate packages. The latest revisions and corrections to the instructions for the record formats for certificate filings are described in appendix A. Appendix B describes the directory of files for each package.

All software modules have been initially tested by staff. If problems occur relating to the PC version of the

software modules, the Commission staff encourages users to provide written comments as to the exact nature of the problem and submit them to Robert R. Czarick, Office of Pipeline and Producer Regulation, Federal Energy Regulatory Commission, 825 North Capitol Street NE., Room 6106, Washington, DC 20426. If any problems are encountered relating to the mainframe source code, the company is requested to submit a written description of the problem to Annette Raiford, Federal Energy Regulatory Commission, 825 North Capitol Street NE., Room 6001, Washington, DC 20426.

The mainframe source code for the certificate edit-check and hard copy print modules is available on 9-track magnetic tape (1600 BPI or 6250 BPI) or 18-track cartridge (6250 BPI). There is no charge for the source code, however, all requests must be accompanied by a 9-track magnetic tape of 18-track tape cartridge with an external label affixed containing company name, mailing address, telephone number and a contact person. FERC will initialize the requestor's tape or cartridge, and copy the source code for edit-check and hard copy print modules to the tape/cartridge. Please specify either IBM or ANSI Standard labels. Requests for the mainframe source code should be directed to Annette Raiford, Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Room 6001, Washington, DC 20426. Persons requesting the mainframe source code should fill out the attached Order Form for the Certificate Mainframe Source Code.

This notice is available through the Commission Issuance Posting System (CIPS), an electronic bulletin board service that provides access to formal documents issued by the Commission. CIPS is available at no charge to the user and may be accessed on a 24-hour basis using a personal computer with a modem by dialing (202) 208–1397. To access CIPS, set your communications software to use 300, 1200 or 2400 baud, full duplex, no parity, eight data bits and one stop bit. The text of the notice will be available on CIPS for 30 days from the date of issuance.

In addition to publishing the text of this notice in the **Federal Register**, the Commission also provides all interested persons an opportunity to inspect or copy the contents of this notice and the revised record formats during normal business hours in the Reference and Information Center (Room 3308) located at 941 North Capitol Street NE., Washington, DC 20426.

The PC software packages are available from the Commission's copy contractor, LaDorn Systems Corporation, located in Room 3308, 941 North Capitol Street NE., Washington, DC 20426. Persons requesting the PC software packages should fill out the attached Order Form For The PC Version Of The Certificate Software. The software is available without charge. However, the Commission's copy contractor has a copy fee of $6.00 per 3.5″ diskette and $5.00 per 5.25″ diskette. The certificate record formats and the User/Operations Manual are available in hard copy form at 20 cents per page.

Lois D. Cashell,

Secretary.

Appendix A—Corrections, Modifications and Additions to Instructions for Natural Gas Pipeline Company Certificate Filings Revised April 16, 1990

1. Page 3: III(g)—Typo, 385 changed to 388. Also, the words "data response" were added to IV. When To Submit. Further, a new number "VI. FOR INFORMATION CALL:" was added to General Information.

2. Page 5: General Instruction No. 3. Numeric Fields—This instruction was modified to reinforce the concept that the conventions included in this instruction must be adhered to when filing on electronic media. In addition, old instruction No. 21 is now included in instruction No. 3.

3. Page 6: General Instruction No. 4. Footnotes—The word "report" is changed to "filing."

4. Page 6: General Instruction No. 6. Character Data—This instruction has been modified to include the handling of privileged character data in the structured data records.

5. Page 7: General Instruction No. 7. Mile Post—This instruction has been modified to indicate that, although the field is a character field, numeric data and math symbols are the only acceptable data for entry.

6. Page 8: General Instruction No. 19. Source of Codes—(A) Pipeline Company ID has been added as Exhibit I to these instructions and includes codes derived from the DOE/EIA's Buyer Seller Code List.

7. Page 9: General Instruction No. 22. Records Required—This instruction was No. 23, and has been modified to explicitly instruct the applicant not to insert blank or zero-filled records in FILE 1 if the Schedule/Record is not required.

8. Pages 9 and 10: General Instruction Nos. 23 and 24 are renumbered from Nos. 24 and 25, respectively.

9. Page 10: A new general instruction number "25. Negative Volumes" has been added to indicate how potential negative volumes must be treated in Schedule/Records CA/04, 05, 06, and 07.

10. Page 13: Schedule/Record CA/01—A new NOTE 1B was added to Item 4, Type of Filing describing the procedure for filing a supplement or data response in a consolidated filing. The NOTE 1B is found on Page 15.

11. Page 17: Schedule/Record CA/02—NOTE 2; typo is corrected and now reads "19, 20 and 21." NOTE 3 is also modified to give some examples of how the name and location of a receipt and/or delivery point should be indicated.

12. Page 32: Schedule/Record CA/09—NOTE 9—This is a new note to describe how Items 109, 110, and 113 are to be treated depending on the code for Item 111.

13. Page 34: Schedule/Record CA/10—NOTE 10—This is a new note to describe how Items 129 and 130 are to be treated depending on the code for Item 131. This instruction is to be used in conjunction with NOTE 9 above.

14. Page 40: Exhibit A, 5.d)—The first sentence has been modified to reflect real life situations that applications are not always filed in the exact order of the regulation codes specified in Exhibit C of these instructions.

15. Page 40: Exhibit A, 5.f)—This paragraph has ben modified to indicate that the applicant must use the file name numbering system and file name extensions correctly.

16. Page 43: Exhibit B, 2.c) and 5.d)—These two paragraphs have been modified to be consistent with Exhibit A above.

17. Page 46: Exhibit C, Code 119—has been modified by deleting 157.14(a)(11) (xi), (xii), and (xiii).

18. Page 85: Exhibit G, Resource Report 4(b)—typo "(ii)" replaced by "(a)."

19. Page 94: Exhibit H, Hard Copy Filing Formats—Several typos have been corrected on the output formats and are reflected in the revised software issued with these instructions.

BILLING CODE 6717-01-C

[Docket Nos. CP62-205-001, *et al.*]

Washington Gas Light Company, et al.; Natural Gas Certificate Filings

Take notice that the following filings have been made with the Commission:

1. Washington Gas Light Company

[Docket No. CP62-205-001]

April 11, 1990.

Take notice that on April 9, 1990, Washington Gas Light Company (WGL), 1100 H Street NW., Washington, DC 20080, filed in Docket No. CP62-205-001, a petition to amend its service area determination, made in Docket No. CP62-205 pursuant to section 7(f) of the Natural Gas Act, by enlarging WGL's existing service area, all as more fully set forth in the petition to amend which is on file with the Commission and open to public inspection.

WGL states that the existing area which it is authorized to serve includes the District of Columbia; Montgomery, Prince George's and Charles Counties in Maryland; and Arlington, Fairfax, Loudoun and Prince William Counties in Virginia.

WGL proposes to enlarge the service area to include Calvert County, Maryland, and St. Mary's County, Maryland. WGL explains that since no natural gas service is currently being provided in these counties, distribution service by WGL would provide residential, commercial, and industrial concerns with a clean, safe and economical energy alternative. WGL states that it would make no sales for resale in the area proposed to be added. WGL further states that its rates, services and facilities in Maryland are and would be regulated by the Maryland Public Service Commission.

Comment date: May 29, 1990, in accordance with Standard Paragraph G at the end of this notice.

2. Equitrans, Inc., El Paso Natural Gas Company, Colorado Interstate Gas Company

Docket Nos. CP90-1054-000, CP90-1164-000, CP90-1166-000]

April 11, 1990.

Take notice that the above referenced companies (Applicants) filed in the respective dockets prior notice requests pursuant to §§ 157.205 and 284.223 of the Commission's Regulations under the Natural Gas Act for authorization to transport natural gas on behalf of various shippers under blanket certificates issued pursuant to Section 7 of the Natural Gas Act, all as more fully set forth in the prior notice requests which are on file with the Commission and open to public inspection.[1]

Information applicable to each transaction, including the identity of the shipper, the type of transportation service, the appropriate transportation rate schedule, the peak day, average day and annual volumes, and the initiation service dates and related docket numbers of the 120-day transactions under § 284.223 of the Commission's Regulations, has been provided by the Applicants and is summarized in the attached appendix.

Applicants state that each of the proposed services would be provided under an executed transportation agreement, and that Applicants would charge the rates and abide by the terms and conditions of the referenced transportation rate schedules.

Docket number (date filed)	Applicant	Shipper name	Peak day [2] average day, annual	Receipt points	Delivery points	Start up date, rate schedule, service type	Related dockets,[3] contract date
CP90-1054-000 (4-9-90) [4]	Equitrans, Inc., 4955 Steubenville Pike, Pittsburgh, PA 15205.	Phonenix Diversified Ventures, Inc.	10,000 1,500 360,000	WV	PA, WV	11-2-89, ITS Interruptible.	CP86-553-000 ST90-2243-000, 12-18-89.
CP90-1164-000 (4-9-90)	El Paso Natural Gas Company, P.O. Box 1492, El Paso, TX 79978.	Shell Gas Trading Company (broker).	154,500,[5] 77,250, 28,196,250	Any System Point	AZ, CO, NM, OK, TX.	2-25-90, T-1, Interruptible.	CP88-433-000, ST90-2309-000, 10-3-89.
CP90-1166-000 (4-9-90)	Colorado Interstate Gas Company, P.O. Box 1087, Colorado Springs, CO 80944.	Anadarko Trading Corporatioin (marketer).	25,000 10,000 3,650,000	KS, OK	KS	3-21-90, TI-1, Interruptible.	CP86-589-000, ST90-2455-000, 1-1-90.

[2] Quantities are shown in Mcf unless otherwise stated.
[3] The CP docket corresponds to the blanket transportation certificate. Applicant states that 120-day transportation service was reported in the ST docket.
[4] The request under blanket authorization was tendered for filing March 30, 1990. However, the required fee (18 CFR 381.207) was not paid until April 9, 1990. Section 381.103 of the Commission's Rules provides that the filing date is the date on which the fee is paid.
[5] El Paso's quantities are shown in MMBtu.

3. Great Lakes Gas Transmission Company

[Docket No. CP88-542-004, et al.]

April 12, 1990.

Take notice that on April 2, 1990, Great Lakes Gas Transmission Company (Great Lakes), 2100 Buhl Building, Detroit, Michigan 48226, filed in Docket No. CP88-542-004, a petition to amend the order issued in Docket No. CP88-542-000 pursuant to Section 7(c) of the Natural Gas Act, to authorize an assignment of the previously-authorized transportation arrangement between Great Lakes and POCO Petroleums Ltd. (POCO), from POCO to the Midland Cogeneration Venture Limited Partnership (MCV), all as more fully set forth in the petition to amend which is on file with the Commission and open to public inspection.

Great Lakes states that in the July 28, 1989, order issued in Docket No. CP88-542-000, the Commission issued a certificate of public convenience and necessity authorizing Great Lakes to transport 55,000 Mcf per day and 25,000 Mcf per day for the accounts of MCV and POCO, respectively. It is further stated that the subject volumes would be received by Great Lakes at a point on the international border near Emerson, Manitoba (Emerson Interconnection), where the facilities of Great Lakes interconnect with those of TransCanada

[1] These prior notice requests are not consolidated.

PipeLines Limited. Great Lakes indicates that it would transport and deliver the subject volumes to Michigan Gas Storage Company (Michigan Gas) for the respective accounts of MCV and POCO, at a point of interconnection between the facilities of Great Lakes and Michigan Gas being constructed in Chippewa Township, Isabella County, Michigan (Chippewa Delivery Point). Michigan Gas would transport the subject gas to its interconnection with the facilities of the MCV Project, it is stated.

Great Lakes states that MCV and POCO have requested that Great Lakes consent to and implement a "total assignment" of the Transportation Service Agreement between POCO and Great Lakes, dated May 25, 1988 (POCO Agreement) from POCO to MCV. Great Lakes further states that MCV and Great Lakes have entered into a Letter Agreement, dated March 13, 1990, which reflects the parties' agreement to seek regulatory authority for assignment of the POCO Agreement from POCO to MCV. It is indicated that administratively, to implement the assignment, the Letter Agreement provides that the contract quantity under the Transportation Service Agreement between Great Lakes and MCV, dated May 25, 1988, would be increased by 25,000 Mcf per day, and simultaneously, the POCO Agreement would be terminated. Great Lakes states that the total firm contract quantity of 80,000 Mcf per day, to be received by Great Lakes at the Emerson Interconnection and transported to the Chippewa Delivery Point, for use in the MCV Project, remains unchanged. Great Lakes indicates that the assignment would provide MCV with increased flexibility in meeting the gas supply needs of the MCV Project.

Comment date: May 3, 1990, in accordance with the first subparagraph of Standard Paragraph F at the end of this notice.

4. Equitrans, Inc., Northern Natural Gas Company, Division of Enron Corp.

[Docket No. CP90–1074–000,[2] CP90–1076–000, CP90–1077–000, CP90–1078–000]

April 12, 1990.

Take notice that on March 30, 1990, (Applicants) filed in the above referenced dockets, prior notice requests pursuant to §§ 157.205 and 284.223 of the Commission's Regulations under the Natural Gas Act for authorization to transport natural gas on behalf of various shippers under its blanket certificate issued pursuant to section 7 of the Natural Gas Act, all as more fully set forth in the prior notice requests which are on file with the Commission and open to public inspection and in the attached appendix.

Information applicable to each transaction including the identity of the shipper, the type of transportation service, the appropriate transportation rate schedule, the peak day, average day and annual volumes, and the docket numbers and initiation dates of the 120-day transactions under Section 284.223 of the Commission's Regulations has been provided by the Applicant and is included in the attached appendix.

The Applicant also states that it would provide the service for each shipper under an executed transportation agreement, and that the applicant would charge rates and abide by the terms and conditions of the referenced transportation rate schedule(s).

Comment date: May 29, 1990, in accordance with Standard Paragraph G at the end of this notice.

[2] These prior notice requests are not consolidated.

5. Arkla Energy Resources a division of Arkla, Inc. Northwest Pipeline Corporation

[Docket No. CP90–1151–000, CP90–1152–000, CP90–1153–000]

April 12, 1990.

Take notice that Arkla Energy Resources, a division of Arkla, Inc., 525 Milam Street, Shreveport, Louisiana 71151, and Northwest Pipeline Corporation, 295 Chipeta Way, Salt Lake City, Utah 84108, (Applicants) filed in the respective dockets prior notice requests pursuant to §§ 157.205 and 284.223 of the Commission's Regulations under the Natural Gas Act (NGA), for authorization to transport natural gas on behalf of various shippers under blanket certificates issued at Docket Nos. CP88–820–000 and CP86–578–000 respectively, pursuant to section 7 of the NGA, all as more fully set forth in the prior notice requests which are on file with the Commission and open to public inspection.[3]

Information applicable to each transaction, including the identity of the shipper, the type of transportation service, the appropriate transportation rate schedule, the peak day, average day and annual volumes, and the initiation service dates and related docket numbers of the 120-day transactions under § 284.223 of the Commission's Regulations, has been provided by the Applicants and is summarized in the attached appendix.

Applicants state that each of the proposed services would be provided under an executed transportation agreement, and that Applicants would charge the rates and abide by the terms and conditions of the referenced transportation rate schedules.

Comment date: May 29, 1990, in accordance with Standard Paragraph G at the end of this notice.

6. Transcontinental Gas Pipe Line Corporation

[Docket No. CP89–522–001]

April 13, 1990.

Take notice that on April 9, 1990, Transcontinental Gas Pipe Line Corporation (Transco), Post Office Box 1396, Houston, Texas 77251, filed in Docket No. CP89–522–001 an amendment pursuant to section 7(c) of the Natural Gas Act (NGA), for Certificate of Public Convenience and Necessity, to its previously filed application on December 30, 1988, requesting authorization (1) to construct and operate certain pipeline and related facilities, and (2) to transport natural gas through such facilities, all as more fully set forth in the amendment which is on file with the Commission and open to public inspection.

Transco states that this Amendment is being filed to address environmental circumstances that arose subsequent to the filing of its original Application and to request expedited authorization to construct approximately 17 miles of its proposed pipeline.

Transco proposes, to construct (1) 27.60 miles of 30-inch diameter pipeline extending from the vicinity of an onshore gas treatment facility to be constructed and operated by Shell Offshore, Inc. (Shell) in Mobile County, Alabama (Shell Plant), to a junction platform to be constructed by Transco in Block 955, Mobile Area and (2) 49.66 miles of 24-inch diameter pipeline from the junction platform to be constructed in Block 955, Mobile Area, to a metering and regulating station to be constructed on Shell's production platform in Block 252, Main Pass Area East Addition. More specifically, Transco proposes to construct and operate the pipeline facilities in the manner described below.

Phase I–1990 Construction Season

During Phase I, Transco proposes to construct 16.68 miles of 30-inch diameter pipeline from a location immediately east of the Shell Plant to Block 113, Mobile Area (Phase I Facilities). Transco requests that authorization to construct the Phase I facilities be granted not later than June 15, 1990. Transco does not propose to operate the Phase I Facilities unless and until authority is provided to construct and operate the entire 77.26 miles of pipeline and related facilities that are the subject of this amendment.

Phase II–1991 Construction Season

During Phase II, Transco proposes to construct the following facilities:

(1) 0.5 mile of 30-inch diameter pipeline interconnecting the Phase I Facilities with a 2.5 mile pipeline to be constructed between Transco's existing pipeline at Coden, Alabama and the Shell Plant.

(2) 10.42 miles of 30-inch diameter pipeline from an interconnection to be built with Phase I facilities in Block 113, Mobile Area to a junction platform to be built by Transco in Block 955, Mobile area.

(3) 49.66 miles of 24-inch diameter pipeline from the junction platform to be constructed by Transco in Block 955, Mobile Area, to a metering and regulating station to be built by Transco on Shell's production platform in Block 252, Main Pass Area East Addition. It is anticipated that Shell and/or other producers will construct gathering lines to bring gas to Shell's production platform.

In May 1990, Transco and a partnership that will be formed between subsidiaries of Transco Energy Company and Mobile Oil, Inc., will file an Amendment to Transco's application in Docket No. CP89–523–000, which will include a proposal to construct 2.5 miles of 30-inch diameter pipeline from the tailgate of Shell's gas treatment plant to an interconnection with the existing

[3] These prior notice requests are not consolidated.

123.4-mile pipeline at Coden, Alabama (Mobile Bay Lateral).

Transco proposes to construct these Phase II facilities during the 1991 construction season.

Transco states that the design capability of the facilities under the pressure conditions shown in Exhibit G, is 431 MMcf per day and that the maximum capability of the facilities under the pressure conditions shown in Exhibit G–1 is 493,810 Mcf per day. Transco states that the estimated facilities cost of Phase I is $16,437,280; Phase II is $55,426,000, for a total project cost of $71,863,280.

Transco further states that it would transport gas for others through the subject facilities and is willing to transport for all shippers requesting service in accordance with Transco's FERC Gas Tariff. Transco would render such transportation services pursuant to its existing Rate Schedules IT (interruptible service) and FT (firm service). The firm and interruptible capacity on these facilities initially would be allocated to Shippers during a 21-day Open Season period in accordance with Transco's FERC Gas Tariff. Shippers would be required to execute FT or IT service agreements, in the forms contained in Transco's currently effective FERC Gas Tariff, and such service agreements would apply specifically to transportation services on this offshore pipeline. Shippers executing such agreements would pay the applicable rates for firm or interruptible transportation within Zone 3 as those rates are determined pursuant to Transco's tariff filing in Docket No. RP90–8. Such charges shall be in addition to charges for transportation services provided on Transco's pipeline facilities currently in service.[4] Transco states that customers obtaining firm transportation rights would execute such agreements for point-to-point transportation, and any remaining unallocated capacity would be available for interruptible transportation including the use of such capacity in connection with IT-Feeder rights as are provided on the remainder of Transco's system.

Transco states that from an environmental standpoint, this proposal contains three distinct advantages: (1) Rather than crossing Dauphin Island, as originally proposed by Transco, the first 17.18 miles of the proposed pipeline would have no environmental impact on either the oyster beds located near Dauphin Island or any barrier islands; (2) the proposed pipeline would be constructed in the same corridor with other pipelines that may be constructed in the Mobile Bay area thereby lessening the geographic area affected by pipeline construction; and (3) if the Commission authorizes Transco to construct the Phase I Facilities on the expedited basis requested herein, Shell as noted above, would cause the pipeline for Transco to be constructed at the same time it constructs its own gathering facilities, and Shell would cause the offshore portion of Transco's pipeline to be laid in the same trench being excavated for the construction of Shell's gathering lines. Transco believes that the net environmental impact attendant to the construction of the Phase I Facilities would be insignificant.

Transco states that it recognizes that the Commisison may be reluctant to issue certificates authority to construct the Phase I Facilities prior to its consideration of the project as a whole. Consequently, to address any such concern, and because of the substantial advantages to be gained by constructing the Phase I Facilities as proposed herein, Transco states that it is willing to risk for the recovery of its construction costs in the event that the Commission does not issue a certificate for Transco to construct the Phase II Facilities needed to make the Phase I Facilities operational. Transco submits that the Commission should authorize construction of the Phase I Facilities not later than June 15, 1990.

Comment date: May 4, 1990, in accordance with Standard Paragraph F at the end of this notice.

7. ANR Pipeline Company, ANR Pipeline Company, Colorado Interstate Gas Company, Southern Natural Gas Company

[Docket No. CP90–1155–000, CP90–1156–000, CP90–1157–000, CP90–1158–000, CP90–1159–000, CP90–1160–000, CP90–1161–000]

April 13, 1990.

Take notice that the above referenced companies (Applicants) filed in the respective dockets prior notice requests pursuant to §§ 157.205 and 284.223 of the Commission's Regulations under the Natural Gas Act for authorization to transport natural gas on behalf of various shippers under blanket certificates issued pursuant to section 7 of the Natural Gas Act, all as more fully set forth in the prior notice requests which are on file with the Commission and open to public inspection.[5]

Information applicable to each transaction, including the identity of the shipper, the type of transportation service, the appropriate transportation rate schedule, the peak day, average day and annual volumes, and the initiation service dates and related docket numbers of the 120-day transactions under Section 284.223 of the Commission's Regulations, has been provided by the Applicants and is summarized in the attached appendix.

Applicants state that each of the proposed services would be provided under an executed transportation agreement, and that Applicants would charge the rates and abide by the terms and conditions of the referenced transportation rate schedules.

Comment date: May 29, 1990, in accordance with Standard Paragraph G at the end of this notice.

Docket number (date filed)	Applicant	Shipper name	Peak day [1] average annual	Points of		Startup date, rate schedule	Related[2] dockets
				Receipt	Delivery		
CP90–1155–000, 4/6/90	ANR Pipeline Company, 500 Rennaissance Center, Detroit, MI 48243.	Amron	5,000 5,000 1,825,000	KS, TX, LA, OK, Off TX, Off LA.	WI	ITS (Interruptible) 2/8/90.	ST90–2181–000, CP88–532–000.

8. Northern Natural Gas Company Division of Enron Corp. and K N Energy, Inc.

[Docket No. CP90-1097-000]

April 13, 1990.

Take notice that on April 2, 1990, Northern Natural Gas Company, Division of Enron Corp. (Northern), 1400 Smith Street, Houston, Texas 77002 and K N Energy, Inc. (K N), P.O. Box 15265, Lakewood, Colorado 80215, filed jointly in Docket No. CP90-1097-000 an application, as supplemented April 10, 1990, pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the transportation and exchange of natural gas between Northern and K N, pursuant to a Gas Exchange Agreement dated October 11, 1989 (1989 Agreement), between Northern and K N. Northern and K N also request authority to eliminate any current imbalance under a Gas Exchange Agreement dated July 15, 1954 (1954 Agreement) by carrying such imbalances forward under the 1989 Agreement and off-setting them through the delivery of gas volumes within a reasonable period of time after the certificate authority is granted. In addition, Northern and K N request authority to add and delete wells or other delivery and balancing points as required from time to time, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Northern and K N state that they are parties to the 1989 Agreement which provides for the gathering, delivery and exchange of natural gas in the Kansas and Oklahoma portions of the Hugoton Field. It is further stated that the 1989 Agreement would consolidate and replace the 1954 Agreement which was entered into between the parties in an effort to maximize utilization of gathering facilities and in order to avoid the unnecessary and expensive duplication of facilities. It is indicated that natural gas produced in the Hugoton Field and sold to Northern is delivered into K N's system at the K N receipt points while natural gas produced in the Hugoton Field and sold to K N is delivered into Northern's system at the Northern receipt points. It is further stated that the 1954 Agreement has over sixty-two amendments, and, therefore, has become overly burdensome to administer. Accordingly, Northern and K N state that they have consolidated all of the amendments into the 1989 Agreement.

Northern and K N state that the 1989 Agreement provides that thermally equivalent volumes of natural gas, on a Btu basis, would be exchanged and that the benefits derived from this exchange would be substantially equal and mutually beneficial. Therefore, it is stated, no transportation fees would be charged to either party by the other.

Northern and K N state that it has become physically impossible to stay in zero balance on their respective systems in the Kansas and Oklahoma portions of the Hugoton Field and accordingly, have agreed to utilize existing interconnections (Balancing Points) between their facilities in Kearny County, Kansas and Seward County, Kansas for balancing purposes. It is stated that in the past, exchanges pursuant to the 1954 Agreement have taken place only within the field gathering systems. Northern and K N indicate that utilization of the Balancing Points in Kansas, however, would involve jurisdictional transportation and exchange requiring Commission certification.

Comment date: May 4, 1990, in accordance with Standard Paragraph F at the end of this notice.

9. ANR Pipeline Company

[Docket No. CP90-1165-000]

April 13, 1990.

Take notice that on April 9, 1990, ANR Pipeline Company (ANR), 500 Renaissance Center, Detroit, Michigan 48243, filed in Docket No. CP90-1165-000, a request pursuant to section 7(b) of the Natural Gas Act, for an order permitting and authorizing it to abandon an emergency exchange service it was authorized to provide for Consumers Power Company (Consumers), all as more fully set forth in the application o.

file with the Commission and open to public inspection.

It is stated that the emergency exchange service and the construction and operation of the Allegan County, Michigan, interconnection were authorized solely for emergency purposes. It is stated that the exchange agreement provides for either party to deliver up to 125,000 Mcf of natural gas per day to the other at the interconnection, but within a period of 60 days thereafter, the receiving party is required to redeliver thermally equivalent volumes to the deliverer at the same interconnection point. ANR states that the facilities were never used to perform any emergency exchanges. It is further stated that by letter dated March 20, 1990, ANR and Consumers have agreed that the emergency exchange service originally authorized, in Docket No. CP84–94–000, by order issued July 25, 1984, is no longer required by either party. ANR states that the service proposed would not have a significant impact on its mainline operations. ANR would cancel Rate Schedule X–145, which is currently included in Original Volume No. 2 of its FERC Gas Tariff, upon issuance of an order permitting and approving abandonment, it is stated. It is also stated that ANR and Consumers have recently completed a new interconnection in St. Joseph County, Michigan.

ANR states that it is currently evaluating its future utilization of the subject facilities. Although it does not intend physically to abandon them in place, ANR states that it would obtain all necessary regulatory authorizations before reactivating the interconnection.

Comment date: May 4, 1990, in accordance with Standard Paragraph F at the end of this notice.

10. Columbia Gas Transmission Corporation

[Docket No. CP90–1171–000]

April 13, 1990.

Take notice that on April 10, 1990, Columbia Gas Transmission Corporation (Columbia), 1700 MacCorkle Avenue, SE., Charleston, West Virginia 25314, filed in Docket No. CP90–1171–000 a request pursuant to section 157.205 of the Commission's Regulations (18 CFR 157.205) to construct and operate facilities for 9 additional delivery points for existing wholesale customers, to establish 2 new delivery points to replace an existing delivery point, and to abandon 3 delivery points for mainline taps, all under Columbia's blanket certificate issued in Docket No. CP83–76–000, all as more fully set forth in the request which is on file with the Commission and open to public inspection.

Columbia proposes to construct and operate interconnecting facilities in order to make deliveries of the volumes of gas to the existing wholesale customers as detailed below:

Customer	Number of delivery points	Volume (dt equivalent) peak day
Annual		
Columbia Gas of Kentucky, Inc., 150	1	1.5
Columbia Gas of Ohio, Inc., 53,005	5	334
Columbia Gas of Pennsylvania, Inc., 3,100	2	100
Dayton Power & Light Company, 23,725	1	65
Orwell Natural Gas Company, 730,000	1	2,000
Washington Gas Light Company, 220	1	1.5

Columbia states that the proposed deliveries would be within all customers' currently authorized daily and annual entitlements and would have no impact on peak day and annual deliveries to the existing customers. It is stated that the gas would be used for residential, commercial and industrial service. It is further stated that the sales at the proposed delivery points would be made under Columbia's Rate Schedule CDS.

Columbia also proposes to abandon three delivery points to existing wholesale customers on Columbia's mainline in Pennsylvania. It is stated that the customers would continue to receive gas through replacement facilities and that no customers would lose service as a result of the proposed abandonment.

Comment date: May 29, 1990, in accordance with Standard Paragraph G at the end of this notice.

11. Northern Natural Gas Company, Division of Enron Corp.

[Docket No. CP90–1177–000]

April 13, 1990.

Take notice that on April 10, 1990, Northern Natural Gas Company, Division of Enron Corp. (Northern), 1400 Smith Street, Houston, Texas 77251–1188, filed in Docket No. CP90–1177–000 a request pursuant to §§ 157.205 and 284.223 of the Commission's Regulations for authorization to transport natural gas on behalf of Enron Gas Marketing Inc. (Enron), a marketer of natural gas, under Northern's blanket certificate issued in Docket No. CP86–435–000 pursuant to section 7 of the Natural Gas Act, all as more fully set forth in the request which is on file with the Commission and open to public inspection.

Northern proposes to transport on a firm basis up to 12,500 MMBtu of natural gas on a peak day, 9,375 MMBtu on an average day, and 4,562,500 MMBtu on an annual basis for Enron. Northern states that it would perform the firm transportation service for Enron under Northern's Rate Schedule FT–1. According to the service agreement included in the application, Northern agrees to receive and transport gas in excess of the transportation demand quantity set forth above on an interruptible basis subject to the terms and conditions of Northern's Rate Schedule IT–1. Northern indicates that it would receive the gas at a point located in Beaver County, Oklahoma and then would deliver the gas to a point located in Hockley County, Texas.

It is explained that the service commenced March 1, 1990, under the automatic authorization provisions of § 284.223 of the Commission's Regulations, as reported in Docket No. ST90–2314. Northern indicates that no new facilities would be necessary to provide the subject service.

Comment date: May 29, 1990, in accordance with Standard Paragraph G at the end of this notice.

12. Mississippi River Transmission Corporation

[Docket Nos. CP90–1172–000, CP90–1173–000, CP90–1174–000, CP90–1175–000, CP90–1176–000]

April 13, 1990.

Take notice that on April 10, 1990, Mississippi River Transmission Corporation (Applicant), 9900 Clayton Road, St. Louis, Missouri 63124, filed in the respective dockets prior notice requests pursuant to §§ 157.205 and 284.223 of the Commission's Regulations under the Natural Gas Act for authorization to transport natural gas on behalf of various shippers under the blanket certificate issued in Docket No. CP89–1121–000, pursuant to section 7 of the Natural Gas Act, all as more fully set forth in the requests that are on file with the Commission and open to public inspection.[6]

[6] These prior notice requests are not consolidated.

Information applicable to each transaction, including the identity of the shipper, the type of transportation service, the appropriate transportation rate schedule, the peak day, average day and annual volumes, and the initiation service dates and related docket numbers of the 120-day transactions under § 284.223 of the Commission's Regulations, has been provided by Applicant and is summarized in the attached appendix.

Applicant states that each of the proposed services would be provided under an executed transportation agreement, and that Applicant would charge the rates and abide by the terms and conditions of the referenced transportation rate schedules.

Comment date: May 29, 1990, in accordance with Standard Paragraph G at the end of this notice.

13. Equitrans. Inc.

[Docket No. CP90-1189-000]

April 13, 1990.

Take notice that on April 13, 1990, Equitrans, Inc. (Equitrans), 4955 Steubenville Pike, Pittsburgh, Pennsylvania 15205, filed in Docket No. CP90-1189-000 a request pursuant to § 157.205 of the Commission's Regulations under the Natural Gas Act (18 CFR 157.205) for authorization to transport natural gas on behalf of Catamount Natural Gas, Inc. (Catamount) under its blanket authorization issued in Docket No. CP86-553-000 pursuant to section 7 of the Natural Gas Act, all as more fully set forth in the request which is on file with the Commission and open to public inspection.

Equitrans would perform the proposed interruptible transportation service for Catamount, pursuant to a transportation service agreement applicable to interruptible transportation service under rate schedule ITS dated December 13, 1989 (Contract #ITS-75). It is stated that the term of the transportation agreement became effective as of December 13, 1989, and shall remain in effect for one year and then month-to-month thereafter. Equitrans proposes to transport on a peak day up to 48,543 Mcf; on an average day up to 4,530 Mcf; and on an annual basis 135,900 Mcf for Catamount. Equitrans proposes to receive the subject gas at the following existing receipt points: (1) interconnection with Tennessee Gas Pipeline (TGP) at TGP's Measuring Station No 20078 and Equitrans' Bradford Woods Measuring Station located in Allegheny County, Pennsylvania, (2) interconnection with Columbia Gas Transmission Corporation (Columbia) at Equitrans' Rhinehart Measuring Station located in Waynesburg, Greene County, Pennsylvania; and (3) interconnection with Columbia at Equitrans' Fallen Timber connection in Grant District, Wetzel County, West Virginia. Equitrans will transport the subject volumes for Catamount to the following delivery points: (1) interconnection with Texas Eastern Corporation (TETCO) at TETCO's Measuring Station No. 009 and Equitrans' Crayne Farm Measuring Station, located in Greene County, Pennsylvania and (2) interconnection with Equitrans and Consolidated Gas Transmission (Consolidated) at Equitrans' Pratt Compressing Station, Franklin Township, Greene County, Pennsylvania. It is stated that Catamount shall pay Equitrans for service rendered under the December 13, 1989, transportation service agreement in accordance with Equitrans' Rate Schedule ITS, or superseding rate schedule(s) on file with and subject to the jurisdiction of the Commission and lawfully in effect from time to time. It is alleged that no new or non-jurisdictional facilities were constructed in order to provide the proposed transportation service for Catamount. It is further alleged that the volumes involved in this proposal were received by TETCO and Consolidated on behalf of Catamount.

It is explained that the proposed service is currently being performed pursuant to the 120-day self implementing provision of § 284.223(a)(1) of the Commission's Regulations. Equitrans commenced such self-implementing service on February 2, 1990, as reported in Docket No. ST90-1293-000.

Comment date: May 29, 1990, in accordance with Standard Paragraph G at the end of this notice.

14. Mississippi River Transmission Corporation

[Docket Nos. CP90-1181-000, CP90-1182-000, CP90-1183-000, CP90-1184-000, CP90-1185-000, CP90-1186-000, CP90-1187-000]

April 13, 1990.

Take notice that Mississippi River Transmission Corporation, 9900 Clayton Road, St. Louis, Missouri 63124, (Applicant), filed in the above-referenced dockets prior notice requests pursuant to §§ 157.205 and 284.223 of the Commission's Regulations under the Natural Gas Act for authorization to transport natural gas on behalf of various shippers under its blanket certificate issued in Docket No. CP89-1121-000, pursuant to section 7 of the Natural Gas Act, all as more fully set forth in the requests that are on file with

the Commission and open to public inspection.[1]

Information applicable to each transaction, including the identity of the shipper, the type of transportation service, the apropriate transportation rate schedule, the peak day, average day and annual volumes, and the initiation service dates and related docket numbers of the 120-day transactions under Section 284.223 of the Commission's regulations, has been provided by Applicant and is summarized in the attacked appendix.

Applicant states that each of the proposed services would be provided under and executed transportation agreement, and that Applicant would charge the rates and abide by the terms and conditions of the referenced transportation rate schedules.

Comment date: May 29, 1990, in accordance with Standard Paragraph G at the end of this notice.

Standard Paragraphs

F. Any person desiring to be heard or make any protest with reference to said filing should on or before the comment date file with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426, a motion to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a motion to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to jurisdiction conferred upon the Federal Energy Regulatory Commission by sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this filing if no motion to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a motion for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for the applicant to appear or be represented at the hearing.

G. Any person or the Commission's staff may, within 45 days after the issuance of the instant notice by the Commission, file pursuant to Rule 214 of the Commission's Procedural Rules (18 CFR 385.214) a motion to intervene or notice of intervention and pursuant to § 157.205 of the Regulations under the Natural Gas Act (18 CFR 157.205) a protest to the request. If no protest is filed within the time allowed therefore, the proposed activity shall be deemed to be authorized effective the day after the time allowed for filing a protest. If a protest is filed and not withdrawn within 30 days after the time allowed for filing a protest, the instant request shall be treated as an application for authorization pursuant to section 7 of the Natural Gas Act.

Lois D. Cashell,

Secretary.

BILLING CODE 6717-01-M

[1] These prior notice requests are not consolidated.

[Docket No. TM90-10-20-000, TM90-7-20-002; and TM90-8-20-001]

Algonquin Gas Transmission Co.; Proposed Changes in FERC Gas Tariff

April 16, 1990.

Take notice that Algonquin Gas Transmission Company ("Algonquin") on April 9, 1990, tendered for filing proposed changes in its FERC Gas Tariff, Second Revised Volume No. 1, as set forth in the revised tariff sheets:

Proposed to be Effective November 1, 1989

Second Substitute Twenty-third Revised Sheet No. 211
Second Substitute Nineteenth Revised Sheet No. 214

Proposed to be Effective December 1, 1989

Substitute First Revised Substitute Twenty-third Revised Sheet No. 211
Second Substitute First Revised Nineteenth Revised Sheet No. 214

Proposed to be Effective January 1, 1990

Substitute Second Revised Substitute Twenty-third Revised Sheet No. 211
Substitute Second Revised Nineteenth Revised Sheet No. 214

Proposed to be Effective February 1, 1990

Substitute Third Revised Substitute Twenty-third Revised Sheet No. 211
Substitute Third Revised Nineteenth Revised Sheet No. 214

Algonquin states that those above-named sheets are being filed to concurrently track the rate changes contained in Texas Eastern Corporation's March 15, 1990 filing in Docket No. TA90–6–17–000.

Algonquin notes that copies of this filing were served upon each of the affected parties and interested state commissions.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, DC 20426, in accordance with §§ 385.214 and 385.211 of the Commission's Rules and Regulations. All such motions or protests should be filed on or before April 23, 1990. Protests will be considered by the Commission in determining the appropriate action to be taken but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection in the Public Reference Room.

[Docket No. CI87–433–002]

Texaco Gas Marketing Inc.; Application To Amend a Blanket Certificate With Pregranted Abandonment

April 17, 1990.

Take notice that on April 9, 1990, Texaco Gas Marketing Inc., (TGMI) of 1111 Rusk Avenue, room 1301–N, Houston, Texas 77002, filed an application pursuant to section 7 of the Natural Gas Act and the Federal Energy Regulatory Commission's (Commission) regulations thereunder to amend its blanket unlimited-term certificate with pregranted abandonment previously issued by the Commission in Docket No. CI87–433–001 to authorize sales for resale of imported gas and gas sold to TGMI by an interstate pipeline as surplus system supply, all as more fully set forth in the application which is on file with the Commission and open for public inspection.

Any person desiring to be heard or to make any protest with reference to said application should on or before May 7, 1990, file with the Federal Energy Regulatory Commission, Washington, DC 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party in any proceeding herein must file a petition to intervene in accordance with the Commission's rules.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for TGMI to appear or to be represented at the hearing.

BILLING CODE 6717–01–M

[Docket No. TQ90–3–29–001]

Transcontinental Gas Pipe Line Corp.; Supplemental Filing

April 16, 1990.

Take notice that Transcontinental Gas Pipeline Corporation (Transco) tendered for filing on April 10, 1990, Schedule D1 as a supplement to its March 30, 1990 quarterly PGA filing in Docket No. TQ90–3–29–000 proposed to be effective May 1, 1990. Such schedule provides supporting detail for Transco's projected system-wide average cost of gas of 229.4¢/dt reflected in March 30 filing. Such rate is proposed to be effective for the quarterly period May 1, 1990 through July 1, 1990. Transco requests a waiver of § 22.4 of the General Terms and Conditions of its FERC Gas Tariff, Second Revised Volume No. 1 and § 154.308 (a) and (c) of the Federal Energy Regulatory Commission's (Commission) regulations in order to calculate the commodity Current Gas Cost Adjustment to its PGA affected rate schedules in the manner reflected in the March 30 filing.

Transco further states that it has filed Schedule D1 in the format required by FERC Form 542. Transco is also filing a 9-track magnetic tape containing Schedule D1.

Transco states that copies of the filing are being mailed to customers, State Commissions and other interested parties to Docket No. TQ90–3–29. In accordance with provisions of § 154.16 of the Commission's Regulations, copies of this filling are available for public inspection, during regular business hours, in a convenient form and place at Transco's main offices at 2800 Post Oak Boulevard, Houston, Texas.

Any person desiring to protest said filing should file a protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, DC 20426, in accordance with Rules 214 and 211 of the Commission's Rules of Practice and Procedure (18 CFR 385.214, 385.211 (1989). All such protests should be filed on or before April 23, 1990. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Persons that are already parties to this proceeding need not file a motion to intervene in this matter. Copies of this filling are on file with the Commission and are available for public inspection.

April 17, 1990.

Take notice that on April 6, 1990, Trans Marketing Houston, Inc. (TMHI) of 5200 Republican Center, 700 Louisiana Street, Houston, Texas 77002, filed a supplement to its pending application filed July 6, 1989, in Docket

No. CI89–455–000 pursuant to Sections 4 and 7 of the Natural Gas and the Federal Energy Regulatory Commission's (Commission) regulations thereunder for an unlimited term blanket certificate with pregranted abandonment. TMHI indicates that it is supplementing its application to clarify that it is seeking authorization to resell natural gas subject to the Commission's jurisdiction including imported gas and gas purchased under pipeline discount sales programs, all as more set forth in the supplement to the application which is on file with the Commission and open for public inspection.

Any person desiring to be heard or to make any protest with reference to said application should or or before May 7, 1990, file with the Federal Energy Regulatory Commission, Washington, DC 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party in any proceeding herein must file a petition to intervene in accordance with the Commission's rules.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for TMHI to appear or to be represented at the hearing.

Lois D. Cashell,

Secretary.

BILLING CODE 6717–01–M

[Docket No. CI90–81–000]

Western Gas Processors, Ltd. (Successor-in-interest to MGPC, Inc.); Application To Abandon an Exchange

April 17, 1990.

Take notice that on March 29, 1990, Western Gas Processors, Ltd., successor-in-interest to MGPC, Inc., (Western) of 12200 North Pecos Street, Suite 230, Denver, Colorado 80234, filed an application pursuant to section 7 of the Natural Gas Act and the Federal Energy Regulatory Commission's (Commission) regulations thereunder to terminate its certificate in Docket No. CI85–649–000 and cancel the related FERC Gas Rate Schedule No. 1 which cover an exchange between Western and MIGC, Inc. in the Powder River Basin, Campbell County, Wyoming. Western states that the parties have terminated their transportation and exchange agreement by mutual consent, all as more fully set forth in the application which is on file with the Commission and open for public inspection.

Any person desiring to be heard or to make any protest with reference to said application should on or before May 7, 1990, file with the Federal Energy Regulatory Commission, Washington, DC 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party in any proceeding herein must file a petition to intervene in accordance with the Commission's rules.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Western to appear or to be represented at the hearing.

Lois D. Cashell,

Secretary.

[FR Doc. 90–9380 Filed 4–23–90; 8:45 am]

BILLING CODE 6717–01–M

[Docket No. GP88–22–001]

Woods Petroleum Corp.; Petition for Reconsideration or Alternatively Petition for Adjustment and Request for Stay

April 16, 1990.

On March 26, 1990, Woods Petroleum Corporation (Woods) filed a petition requesting the Commission to vacate the order issued December 11, 1989 (49 FERC ¶ 61,315 (1989)) in the above-docketed proceeding and to accept the Oklahoma Corporation Commission's (Oklahoma) November 8, 1988 retroactive determination that gas produced from the Dewees-Lacy No. 27–1 well, located in Custer County, Oklahoma, qualified for the Natural Gas Policy Act of 1978 (NGPA) section 102(c)(1)(C) price as of November 1979. The December 11 order held that gas produced from the Dewees-Lacy well as recompleted into the Red Fork Sand Formation never qualified for the section 102 price and ordered refunds of the overcollections. Alternatively, Woods requests adjustment relief from the refund requirements. Finally, Woods requests a stay of its refund obligation until the Commission acts on the petition or until Woods provides a more precise statement regarding uncollectible overpayments.

Woods contends that Oklahoma's retroactive determination accords with Commission precedent and with the NGPA. Woods also states that the NGPA has been repealed and that strict enforcement of the technical filing requirement thereunder would only provide its purchaser, Natural Gas Pipeline Company of America, a windfall. Woods asserts that it will suffer a special hardship, inequity, and unfair distribution of burdens if it is required to make full refund. Woods asserts that the reasons that support its other requests for relief also support its request for a stay.

Any person desiring to be heard or to protest this petition should file a motion to intervene or protest in accordance with Rules 214 or 211 of the Commission's Rules of Practice and Procedure, 18 CFR 385.214 and 385.211 (1989). All motions to intervene or protests should be submitted to the Federal Energy Regulatory Commission. 825 North Capitol Street NE., Washington, DC 20426, not later than 30 days following publication of this notice in the **Federal Register**. All protests will be considered by the Commission but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene in accordance with Rule 214. Copies of this petition are on file with the Commission and are available for public inspection.

Lois D. Cashell,

Secretary.

BILLING CODE 6717–01–M

Office of Fossil Energy

[FE Docket No. 90–17–NG]

Midland Cogeneration Venture Limited Partnership Poco Petroleum, Inc.; Applications to Transfer and Amend Natural Gas Import Authorization

AGENCY: Office of Fossil Energy, Department of Energy.

ACTION: Notice of application to transfer authorization to import Canadian natural gas from Poco Petroleum, Inc. to Midland Cogeneration Venture Limited Partnership and for approval of revised import arrangement.

SUMMARY: The Office of Fossil Energy (FE) of the Department of Energy (DOE) gives notice of receipt on February 16, 1990, of requests filed by Midland Cogeneration Venture Limited Partnership (Midland), and Poco Petroleum, Inc. (Poco). In their requests ,

Midland and Poco ask that the authorization to import Canadian gas for sale to Midland which was previously granted to Poco in DOE/ERA Opinion and Order No. 287–A [Order 287–A] be transferred to Midland. The requested transfer would grant Midland authority to import up to 25,000 Mcf per day of Canadian natural gas beginning on the date of first delivery in 1990 through October 31, 2004. It would also terminate Poco's existing authority to import gas on behalf of Midland but would not result in any net change in volumes authorized for import.

Under the revised import proposal, Midland would import up to 15,000 Mcf per day of natural gas directly from Poco's parent, Poco Petroleums Ltd. (Poco Ltd.), rather than through Poco, and up to 10,000 Mcf per day of natural gas from North Canadian Oils Limited (NCO).

The applications were filed under section 3 of the Natural Gas Act and DOE Delegation Order Nos. 0204–111 and 0204–127. Protests, motions to intervene, notices of intervention and written comments are invited.

DATES: Protests, motions to intervene or notices of intervention, as applicable, requests for additional procedures and written comments are to be filed at the address listed below no later than 4:30 p.m., e.d.t., May 23, 1990.

ADDRESSES: Office of Fuels Programs, Fossil Energy, U.S. Department of Energy, Forrestal Building, room 3F–056, FE–50, 1000 Independence Avenue, SW., Washington, DC 20585.

FOR FURTHER INFORMATION:

Stanley Vass, Office of Fuels Programs, Fossil Energy, U.S. Department of Energy, Forrestal Building, room 3F–056, 1000 Independence Avenue, SW., Washington, DC 20585, (202) 586–1302.

Diane J. Stubbs, Natural Gas and Mineral Leasing, Office of General Counsel, U.S. Department of Energy, Forrestal Building, room 6E–042, 1000 Independence Avenue, SW., Washington, DC 20585, (202) 586–6667.

SUPPLEMENTARY INFORMATION: Poco, a Delaware corporation, is a wholly-owned subsidiary of Poco Ltd., a Canadian corporation, and is primarily active as a marketer of gas in the U.S. Poco Ltd. is one of several suppliers of Canadian gas to Midland. Midland is a limited partnership formed to acquire and convert a portion of the idled Midland nuclear project into a 1370 megawatt (MW) cogeneration facility.

Order 287 granted Poco authority to import Canadian natural gas on a final and on a conditional basis, for sale, respectively, to Consumers Power Company (Consumers) and to Midland. Order 287 granted Poco authority to import for sale to Consumers up to 15 MMcf per day of natural gas beginning December 23, 1988, through October 31, 1989, and up to 25 MMcf per day beginning on November 1, 1990, (sic) through March 31, 2005. (In its request, Poco correctly notes that the above-referenced date in the import authorization of November 1, 1990, contains a typographical error and should be November 1, 1989). Order 287–A removed the condition with respect to Midland and granted Poco final authority to import up to 25 MMcf per day of Canadian natural gas for sale to Midland beginning on the date of first delivery in 1990 through October 31, 2004. Poco's request for transfer of its import authority is limited to those volumes related to the gas supply arrangement with Midland. Midland's current request is for an import authorization of up to 25,000 Mcf per day corresponding to the volumes which Poco seeks to transfer to Midland.

Midland and Poco also request approval of other changes in the gas supply arrangement between them from that proposed when Order 287–A was issued. In several letter agreements attached to Midland's application, Midland and Poco Ltd. agreed to replace 10,000 Mcf per day of natural gas out of the 25,000 Mcf per day Poco originally was to have supplied to Midland with natural purchased from NCO under a September 1, 1989, contract between Midland and NCO. The remaining 15,000 Mcf per day would be supplied directly to Midland by Poco Ltd. In addition, the point of delivery of gas to Midland would be changed from Midland's pipeline facilities to a point on the U.S.-Canadian border near Emerson, Manitoba so that Midland would be responsible for domestic transportation of the imported gas from the border to its cogeneration plant in Midland, Michigan. Poco's firm transportation entitlement on Great Lakes Gas Transmission Company's system to move the imported gas to Midland's facilities would be transferred to Midland.

The electricity produced by Midland's cogeneration plant would, as originally planned, be sold primarily to Consumers over a term of thirty-five years with the steam and remaining electricity being sold to the Dow Chemical Company.

According to Midland, the proposed import under the revised arrangement would be competitive since both its amended gas supply contract with Poco Ltd. and its contract with NCO contain provisions comparable to those found in Midland's contracts with other Canadian suppliers that were approved by the DOE in Orders 305 and 305–A. Midland asserts that the price terms of each contract includes an index which is designed to track Consumers' monthly energy charges so that the price of the imported gas would reflect changes in the net fuel equivalent of Consumers' avoided cost for generated power. This is accomplished by use of a reference price in Midland's gas supply contracts with NCO and Poco Ltd. computed by multiplying $1.95 (U.S.) per MMBtu by a fraction consisting of Consumers' monthly fixed and variable expenses of producing electric power for the last month of the previous calendar quarter in the numerator and 2.29 cents per kilowatt hour (U.S.) in the denominator.

In support of their requests, both Poco and Midland indicate that the gas is needed to fuel Midland's cogeneration plant operations. Midland also states that security of supply is shown by the proximity of Midland's cogeneration facility to Canada and by corporate warranties under which Poco Ltd. and NCO are obligated to reimburse Midland for certain costs of acquiring alternate supplies in the event of delivery shortfalls. Since the volumes being imported under the proposed transfer of import authority would remain the same as originally proposed, the applicants state that need for the gas and security of supply have already been demonstrated in Order 287–A.

The decision on Midland and Poco applications will be made consistent with the DOE's gas import policy guidelines, under which the competitiveness of an import arrangement in the markets served is the primary consideration in determining whether such transfer of import authority is in the public interest (49 FR 6684, February 22, 1984). Other matters that may be considered in making a public interest determination include need for the gas and security of the long-term supply. Parties that may oppose this application should comment in their responses on the issues of competitiveness, need for the gas, and security of supply as set forth in the policy guidelines. The applicant asserts that this import arrangement is in the public interest because the volumes are needed for Midland's system supply, the price of the gas is competitive, and its Canadian supply is reliable. Parties opposing the import arrangement bear the burden of overcoming these assertions.

NEPA Compliance

The National Environmental Policy Act (NEPA), (42 U.S.C. 4321 *et seq.*) requires DOE to give appropriate

consideration to the environmental affects of its proposed actions. No final decision will be issued in this proceeding until DOE has met its NEPA responsibilities.

Public Comment Procedures

In response to this notice, any person may file a protest, motion to intervene or notice of intervention, as applicable, and written comments. Any person wishing to become a party to the proceeding and to have the written comments considered as the basis for an decision on the applicant must, however, file a motion to intervene or notice of intervention, as applicable. The filing of a protest with respect to this application will not serve to make the protestant a party to the proceeding, although protests and comments received from persons who are not parties will be considered in determining the appropriate action to be taken on the application. All protests, motions to intervene, notices of intervention, and written comments must meet the requirements that are specified by the regulation in 10 CFR part 590. Protests, motions to intervene, notices of intervention, requests for additional procedures, and written comments should be filed with the Office of Fuels Programs at the above address.

It is intended that a decisional record will be developed on the application through responses to this notice by parties, including parties' written comments and replies thereto. Additional procedures will be used as necessary to achieve a complete understanding of the facts and issues. A party seeking intervention may request that additional procedures be provided, such as additional written comments, an oral presentation, a conference, or trial-type hearing. Any request to file additional written comments, should explain why they are necessary. Any request for an oral presentation should identify the substantial question of fact, law, or policy at issue, show that it is material and relevant to a decision in the proceeding, and demonstrate why an oral presentation is needed. Any request for a conference should demonstrate why the conference would materially advance the proceeding. Any request for a trial-type hearing must show that there are factual issues genuinely in dispute that are relevant and material to a decision and that a trial-type hearing is necessary for a full and true disclosure of the facts.

If an additional procedure is scheduled, notice will be provided to all parties. If no party requests additional procedures, a final opinion and order may be issued based on the official record, including the application and responses filed by parties pursuant to this notice, in accordance with 10 CFR 590.316.

A copy of Midland's and Poco's applications is available for inspection and copying in the Office of Fuels Programs Docket Room, 3F–056 at the above address. The docket room is open between the hours of 8 a.m. and 4:30 p.m., Monday through Friday, except Federal holidays.

Issued in Washington, DC., on April 12, 1990.

Constance L. Buckley,

Deputy Assistant Secretary for Fuels Programs, Office of Fossil Energy.

[FR Doc. 90–9343 Filed 4–20–90; 8:45 am]

BILLING CODE 6450–01–M

[Docket No. FE C&E 90–09; Certification Notice 57]

Filing Certification of Compliance: Coal Capability of New Electric Powerplant

AGENCY: Office of Fossil Energy, DOE.

ACTION: Notice of Filing.

SUMMARY: Title II of the Powerplant and Industrial Fuel Use Act of 1978, as amended, ("FUA" or "the Act") (42 U.S.C. 8301 *et seq.*) provides that no new electric powerplant may be constructed or operated as a base load powerplant without the capability to use coal or another alternate fuel as a primary energy source (section 201(a), 42 U.S.C. 8311 (a), Supp. V. 1987). In order to meet the requirement of coal capability, the owner or operator of any new electric powerplant to be operated as a base load powerplant proposing to use natural gas or petroleum as its primary energy source may certify, pursuant to section 201(d), to the Secretary of Energy prior to construction, or prior to operation as a base load powerplant, that such powerplant has the capability to use coal or another alternate fuel. Such certification establishes compliance with section 201(a) as of the date it is filed with the Secretary. The Secretary is required to publish in the **Federal Register** a notice reciting that the certification has been filed. Three owners and operators of proposed new electric base load powerplants have filed self certifications in accordance with section 201(d). Further informaiton is provided in the **SUPPLEMENTARY INFORMATION** section below.

SUPPLEMENTARY INFORMATION: The following companies have filed self certifications:

Name	Date received	Type of facility	Megawatt capacity	Location
Saranac Energy Co., Inc., Houston, TX	4–30–90	Topping cycle	80	Plattsburgh, NY.
Adirondack Power, Inc., Houston, TX	4–30–90	Topping cycle	80	Plattsburgh, NY.
Pedricktown Cogeneration Limited Partnership, Cherry Hill, NJ	4–30–90	Combined cycle	117	Pedricktown, NJ.

Amendments to the FUA on May 21, 1987, (Public Law 100–42) altered the general prohibitions to include only new electric base load powerplants and to provide for the self certification procedure.

Copies of this self certification may be reviewed in the Office of Fuels Programs, Fossil Energy, Room 3F–056, FE–52, Forrestal Building, 1000 Independence Avenue, SW., Washington, DC 20585, phone number (202) 586–6769.

Issued in Washington, DC, on April 16, 1990.

Constance L. Buckley,

Deputy Assistant Secretary for Fuels Programs, Office of Fossil Energy.

[FR Doc. 90–9344 Filed 4–20–90; 8:45 am]

BILLING CODE 6450–01–M

Office of Hearings and Appeals

Issuance of Decisions and Orders

Week of November 13 through November 17, 1989.

During the week of November 13 through November 17, 1989, the decisions and orders summarized below were issued with respect to appeals and applications for other relief filed with the Office of Hearings and Appeals of the Department of Energy. The following

summary also contains a list of submissions that were dismissed by the Office of Hearings and Appeals.

Appeals

Franc Pajek Co., 11/14/89, KFA–0299

On October 26, 1989, Franc Pajek Company (Pajek) filed an Appeal from a determination issued to it on September 26, 1989 by the Assistant Manager for Administration (Assistant Manager) of the Department of Energy's (DOE) San Francisco Operations Office. In that determination, the Assistant Manager denied a request for information filed pursuant to the Freedom of Information Act (FOIA). Specifically, the Assistant Manager denied, pursuant to FOIA Exemption 4, Pajek's request for a copy of all of the bids submitted for the Lawrence Livermore National Laboratory's Labor Only Contract REQ #5724900A. In considering the Appeal, the DOE affirmed the determination to withhold bid information because the contract bid proposals were still under evaluation so that release of the material could cause competitive injury to the bidding firms if the bidding process were reopened. Accordingly, the DOE denied Pajek's Appeal.

The Radiation Research Project, 11/13/89, KFA–0319

The Radiation Research Project (RRP) filed an Appeal from a denial by the DOE's Oak Ridge Operations Office (ORO) of a Request for Information which the firm had submitted under the Freedom of Information Act (FOIA). In considering the Appeal, the DOE found that the RRP's Request lacked a sufficient description of the information requested to allow the ORO to be responsive to the request. Accordingly, the Appeal was remanded to the ORO for a further determination on the RRP's Request.

Remedial Orders

LaJet, Inc., Economic Regulatory Administration, 11/15/89, HRO–0297, KRZ–0086

The DOE issued a Remedial Order to LaJet, Inc., (LaJet) the successor-in-interest to North America Petroleum Company. In the Remedial Order, the DOE found that at various times during the period October 1975 through November 1977 LaJet violated the entitlements reporting regulations codified at 10 CFR 211.66 and 211.67 and the circumvention regulation set forth at 10 CFR 205.202. Specifically, the DOE found that LaJet entered into a series of crude oil sales, processing, and refined product transactions which permitted the firm to shift the reporting of large volumes of price-controlled crude oil from itself to a refiner which was excepted from 100% of its entitlement purchase obligations under the Entitlements Program. According to the DOE, LaJet masterminded a scheme to circumvent the letter and spirit of the DOE regulations by using an excepted refiner as title holder to the crude oil and interjecting unnecessary intermediaries into the crude oil distribution chain. The DOE determined that the scheme was designed to enable LaJet to mask its exclusive physical control and possession of the crude oil and to exclude the crude oil from its crude oil runs to stills on its Refiners' Monthly Reports. By excluding the crude oil from its Refiners' Monthly Reports, LaJet was able to circumvent the entitlements reporting regulations and concomitantly reap a profit at the expense of the Entitlements Program. In determining the extent to which LaJet's actions injured the Entitlements Program, however, the DOE determined that LaJet must be viewed in the position it would have been in had it properly reported the price-controlled crude oil in the first instance. Under these circumstances, the DOE found that LaJet would have received a credit for its runs to still and the small refiner bias. Accordingly, the DOE reduced the violation amount in the case by almost one-half after making the two adjustments referred to above. The DOE ordered LaJet to refund the sum, $1,837,785.61, plus interest, which represents the amount of profit LaJet unjustly received as the result of its scheme to reduce its costs under the Entitlements Program.

McWhirter Distributing Co., Inc., 11/17/89, KRO–0380

The DOE issued a Remedial Order to McWhirter Distributing Company, Inc. (McWhirter). In the Remedial Order, the DOE found that, during the period April through September 1979, McWhirter violated the DOE price regulations at 10 CFR 212.93 by charging prices for regular, premium, and unleaded gasoline which exceeded its maximum lawful selling price. In making its determination, the DOE found that McWhirter did not contemporaneously separate its customers into classes of purchasers as required by the regulations. The DOE therefore accepted the Economic Regulatory Administration's (ERA) request to revise the Proposed Remedial Order (PRO) by combining all of McWhirter's May 15, 1973 customers into a single class of purchaser and to recalculate McWhirter's base period selling prices for premium and regular gasoline. The DOE also found that the ERA correctly calculated McWhirter's weighted average selling price and that McWhirter was not entitled to an additional non-product cost allowance. The DOE refused to allow McWhirter to offset the price overcharges by the debts owed to McWhirter by its customers on the grounds that McWhirter had failed to show that these debts were related to McWhirter's gasoline sales. Finally, the DOE rejected McWhirter's defense of laches and its objections concerning the assessment of interest on the overcharges. The DOE therefore issued a final Remedial Order to McWhirter which required the firm to refund a total of $128,171 plus interest.

Refund Application

Atlantic Richfield Co./Deull Fuel Co., J.S. Hough Fuel Service, Inc., 11/17/89, RF304–2100, RF304–2101

The DOE issued a Decision and Order concerning Applications for Refund filed by Deull Fuel Company and J.S. Hough Fuel Service, Inc., in the Atlantic Richfield Company (ARCO) special refund proceeding. The firms submitted information which indicated that they were spot purchasers of ARCO products and, thus, ineligible for a refund under the procedures outlined in ARCO. Although allowed an opportunity to rebut this presumption, the applicants did not do so. Accordingly, both applications were denied.

Atlantic Richfield Co./Ed & Erv's Service, 11/15/89, RF304–2313

The DOE issued a Decision and Order concerning an Application for Refund filed in the Atlantic Richfield Company (ARCO) special refund proceeding on behalf of Ed & Erv's Service, an ARCO retail station. The applicant firm was owned in partnership during the consent order period, and one of the partners is deceased. The DOE determined that the refund should be split between the surviving partner and the heirs of the deceased partner. As a retail station whose allocable share was then $5,000, Ed & Erv's was presumed injured. The refund granted in this Decision totalled $1,400, including $350 in accrued interest.

Atlantic Richfield Co./Gilray Oil Co., et al., 11/14/89, RF304–2910, et al.

The DOE issued a Decision and Order concerning forty Applications for Refund filed by an end-user and various retailers or resellers of refined petroleum products covered by a consent order that the DOE entered into with Atlantic Richfield Company (ARCO). Each applicant submitted

information indicating the volume of its purchases from ARCO. In thirty-two of these claims, the applicants were eligible for a refund below the small claims threshold of $5,000. In the remaining eight (8) claims, each of the applicants elected to limit its claim to $5,000. The sum of the refunds approved in this Decision is $104,992, representing $78,481 in principal and $26,511 in accrued interest.

Belridge Oil Co./New Hampshire Palo Pinto Oil & Gas/New Hampshire, 11/14/89, RQ8–520 RQ5–521

The State of New Hampshire requested permission to use its remaining second-stage Belridge and Palo Pinto consent order funds for the following uses: (1) Publication of energy preparedness guidelines, (2) the Northeast Regional Energy Emergency Planning seminar scheduled for 1990, and (3) the Comprehensive Energy Plan. New Hampshire's proposals were approved because they should provide restitutionary benefits to the State's residents. The total amount of second-stage refunds approved in the decision was $5,078.

City of Chesapeake, (Virginia), 11/17/89, RF272–51497

The DOE's Office of Hearings and Appeals considered and granted an application for a subpart V crude oil refund filed by the City of Chesapeake, Virginia. The total refund granted was $9,088.

Exxon Corp./B's Exxon, et al., 11/17/89, RF307–26, et al.

The DOE issued a Decision and Order concerning 26 Applications for Refund filed in the Exxon Corporation special refund proceeding. Each of the Applicants purchased indirectly from Exxon and were retailers whose allocable share is less than $5,000. Each applicant is eligible to receive a refund equal to its full allocable share. The sum of the refunds granted in this Decision is $8,882 ($7,138 principal plus $1,744 interest).

Exxon Corp./Charles Fred Bailey, et al., 11/17/89, RF307–4917, et al.

The DOE issued a Decision and Order concerning seven Applications for Refund filed in the Exxon Corporation special refund proceeding. Each applicant purchased directly from Exxon and was a reseller of Exxon products. Each firm's maximum refund would have exceeded $5,000. However, rather than making a detailed showing of injury, each applicant elected to receive either 40 percent of its allocable share or $5,000, whichever was greater. The sum of the refunds granted in this Decision is $42,847 ($35,000 in principal and $7,847 in interest).

Exxon Corp./Consolidated Edison Co. of N.Y., Inc., 11/14/89, RF307–7638

The DOE issued a Decision and Order concerning an Application for Refund filed by Consolidated Edison Co. of N.Y., Inc. (Con Edison), a public utility, in the Exxon Corporation special refund proceeding. Con Edison purchased products directly from Exxon. Since Con Edison certified that it would notify the appropriate regulatory body of any refund received and would pass through the entire refund to its customers, it was granted a refund equal to its full allocable share. The refund granted in this Decision is $386,066 ($312,655 principal plus $73,411 interest).

Exxon Corp./Talk of the Town Car Wash, et al., 11/14/89, RF307–1834, et al.

The DOE issued a Decision and Order concerning 15 Applications for Refund filed in the Exxon Corporation special refund proceeding. Each of the Applicants purchased directly from Exxon and was a retailer of Exxon products whose allocable share is less than $5,000. All of the applicants disagreed with the gallonage information recorded on their Exxon volume sheets and submitted alternative gallonage figures. They requested that the DOE accept the figures either in lieu of or in combination with Exxon's figures. The DOE accepted the purchase figures submitted by 10 applicants who had derived their figures from their invoices or monthly sales records. In the remaining five cases, the Exxon figures were considered to be more accurate. The DOE determined that each applicant was eligible to receive a refund equal to its full allocable share. The sum of the refunds granted in this Decision is $20,234 ($16,264 principal plus $3,970 interest).

Exxon Corp./Teague's Exxon, et al., 11/15/89, RF307–1806, et al.

The DOE issued a Decision and Order concerning 18 Applications for Refund filed in the Exxon Corporation special refund proceeding. Each of the applicants purchased indirectly from Exxon, and was supplied by a firm that either (i) did not apply for an Exxon refund, (ii) had been granted an Exxon refund under a presumption of injury, or (iii) had indicated in its Exxon refund application that it did not intend to make a showing of injury. In accordance with prior Decisions, the claims of the applicants were, therefore, considered under the procedures used to evaluate direct purchaser claims. Each applicant was a retailer whose allocable share is less than $5,000 or an end-user of Exxon products. The DOE determined that each applicant was eligible to receive a refund equal to it full allocable share. The sum of the refunds granted in this Decision is $7,373 ($5,926 principal plus $1,447 interest).

Exxon Corp./Walline's Exxon, 11/15/89, RF307–1922 RF307–9872

The DOE issued a Decision and Order concerning two Applications for Refund filed in the Exxon Corporation special refund proceeding. Both Applications were based on purchases of Exxon products made by Walline's Exxon. On May 24, 1989, the DOE issued a Proposed Decision and Order that tentatively denied both refund requests. In the present Decision, the DOE determined that the application filed by McMickle & Edwards, Inc. (Case No. RF307–9872) should be denied because the application contained a false certification. However, the application filed by Energy Refunds, Inc. (Case No. RF307–1922) was granted and Walline's Exxon was found to be eligible to receive a refund equal to its full allocable share. The refund granted to Walline's is $483 ($388 principal, plus $95 interest).

Getty Oil Co./Enron Corp., 11/15/89, RF265–2870

The DOE issued a Supplemental Order rescinding the refund specified for Enron Corporation in *Getty Oil Co./Enron Corp.*, 19 DOE ¶ 85,693 (October 30, 1989) and granting a revised refund amount of $103,899.

Getty Oil Co./T.N.T. Service, et al., 11/15/89, RF2065–2836, et al.

The DOE issued a Decision and Order concerning six (6) applications for refund filed by purchasers of motor gasoline in the Getty Oil Company special refund proceeding. All of the applicants were retailers and indirect purchasers of Getty motor gasoline who documented their respective purchases and established eligibility for a refund claim of less than $5,000. The refunds totaled $6,124 and included $3,178 in interest.

Gulf Oil Corp./Ralph D. Schmidt, et al., 11/14/89, RF300–10473, et al.

The DOE issued a Decision and Order concerning 25 Applications for Refund submitted in the Gulf Oil Corporation special refund proceeding. Each application was approved using a presumption of injury. The sum of the refunds granted in this Decision, including interest, is $48,538.

Gulf Oil Corp./Ray Walker Trucking Co., Inc.,, 11/17/89, RF300–10322

The DOE issued a Decision and Order concerning an Application for Refund submitted by Ray Walker Trucking Co., Inc. (Walker) in the Gulf Oil Corporation special refund proceeding. Walker's application was approved using a presumption of injury. The amount of the refund granted in this Decision, including accrued interest, was $2,244.

Krueger Ringier, Inc., 11/14/89, RF272–51266

The DOE's Office of Hearing and Appeals considered and granted an application for a subpart V crude oil refund filed by Krueger Ringier, Inc., a printing firm located in Itasca, Illinois. The total refund granted was $10,212.

Murphy Oil Corp./Ron's Spur, et al.,, 11/15/89, RF309–1152, et al.

The DOE issued a Decision and Order granting a refund to Ron's Spur (RF309–1152) and denying the refund Applications of Badgerland Oil Co. (RF309–1172 and RF309–1173) and College Ave. ARCO (RF309–1174). Each of these Applications was filed by Ronald Dieg. Ron's Spur adequately documented its purchases of covered Murphy petroleum products and was granted a refund under the small claims injury presumption. *See Murphy Oil Corporation,* 17 DOE ¶ 85,782 (1988). The refund applications of Badgerland Oil Co. and College Ave. ARCO contained unsubstantiated gallonage figures and, therefore, were denied. The total gallonage approved in this Decision was 5,936,711 gallons, and the refund granted was $5,924 (comprised of $4,850 in principal and $1,074 in interest).

Panhandle Eastern Pipeline Co./Western Petroleum Co, 11/17/89, RR15–2

The DOE's Office of Hearings and Appeals (OHA) granted, in part, a Motion for Reconsideration filed by Western Petroleum Company (Western) in the Panhandle Eastern Pipeline Company subpart V refund proceeding. Western had previously applied for an above-volumetric refund, but OHA had limited the award to the volumetric amount. In the present case, Western submitted photocopies of audit workpapers which it claimed indicated that it was disproportionately injured. OHA did not accept the validity of these audit workpapers, but located the complete audit file. This audit file indicated that Western was disproportionately injured. OHA granted a refund based upon the amount of injury shown by the audit. The decision discussed the limited circumstances in which audit materials might form the basis for a refund in excess of the volumetric amount. OHA reduced the refund amount to reflect its finding that Western was able to pass some of its injury through to its customers. This amount was further reduced to reflect the fact that the consent order, on which the Panhandle proceeding was based, only recovered 77% of the amount charged in the Notice of Probable Violation. The amount of the refund granted was $126,221, plus interest.

Pennzoil Co./Arkansas OKC Corp./Arkansas Coline Gasoline Corp./Arkansas National Helium Corp./Arkansas, 11/17/89, RQ10–532 RQ13–533 RQ2–534 RQ3–535

The DOE issued a Decision and Order granting the second-stage refund application filed by the State of Arkansas in the Pennzoil, OKC, Coline, and National Helium special refund proceedings. Arkansas requested a total of $517,505 for four programs. The first program explores energy conservation as a means to avoid the construction of new generating facilities. The second program conducts waste heat recovery, cogeneration, and waste minimization studies and audits for Arkansas businesses. All these studies will increase the energy efficiency and competitiveness of the Arkansas businesses that incorporate the new techniques. Arkansas third program will enhance the computerization of the existing rideshare program. Arkansas' final program, energy efficient improvement for The Meadowcreek Project, will help educate Arkansans about options for energy conservation. The DOE found that these programs would provide restitution to injured petroleum consumers by saving them money through energy conservation.

Renville County (Minn.) Highway Department, 11/17/89, RF272–51064

The DOE's Office of Hearings and Appeals considered and granted an application for a subpart V crude oil refund filed by the Renville (Minnesota) County Highway Department. The total refund granted was $8,769.

Rock of Ages, et al., 11/17/89, RF272–44065, et al.

The DOE issued a Decision and Order granting 124 Applications for Refund filed in the crude oil special refund proceeding. Each of the Applicants was an end-user of petroleum products. Accordingly, each applicant was granted a refund equal to its full allocable share plus a proportionate share of the interest that has accrued on the crude escrow account. The Decision granted was $439,762 in refunds for 549,708,090 gallons.

Shell Oil Co./Azeka's Enterprises, Inc., et al., 11/14/89, RF315–7500, et al.

The DOE issued a Decision and Order granting 82 Applications for Refund filed in the Shell Oil Company special refund proceeding. Each of the Applicants purchased directly from Shell and was either a reseller whose allocable share was less than $5,000 or an end-user of Shell products. Accordingly, each applicant was granted a refund equal to its full allocable share, plus a proportionate share of the interest that has accrued on the Shell escrow account. The Decision granted included $68,537 ($56,978 principal, plus $11,559 interest) in refunds for 252,142,042 gallons of refined product.

Shell Oil Co./Oits Magaha Shell Service, 11/17/89, RF315–268

The DOE issued a Decision and Order granting a refund to Otis Magaha Shell Service (Magaha Service), which was an indirect purchaser of Shell petroleum products during the consent order period. Since there has not been a showing that Magaha Service's supplier of Shell motor gasoline, King Oil Company, Inc., did not pass through the alleged overcharges, Magaha Service was presumed to have been injured by Shell's alleged overcharges. Magaha Service adequately documented its purchases of 1,259,250 gaollons of covered petroleum products from Shell and was granted a refund of $345 (comprised of $285 in principal and $60 in interest) under the small claims injury presumption. *See Shell Oil Company,* 18 DOE ¶ 85,492 (1989).

Shell Oil Co./Phoenix Utilities Corp., 11/15/89, RF315–7897

The DOE issued a Supplemental Order granting an additional refund of $120 (consisting of $99 in principal plus $21 in accrued interest) to Phoenix Utilities Corp. in the Shell Oil Company special refund proceeding. Due to a clerical error, Phoenix Utilities Corp. had been underpaid by that amount in the Decision approving its refund application.

Webster Oil. Co./Missouri, 11/17/89, RQ48–537

The DOE issued a Supplemental Order granting the State of Missouri an additional $781.25 ($779.50 in principal plus $1.75 in interest) in funds in the Webster Oil Co. special refund proceeding. It was determined that this money, which remained in the Webster account after all claims had been paid, should be disbursed to Missouri, the only eligible second-stage claimant, for use in programs previously approved by OHA.

Dismissals

The following submissions were dismissed:

Name	Case No.
Barnick's Gulf	RF300-10723
Carolina Poultry, Inc	RF300-620
Corner Grocery	RF300-7631
Gordon Ericson	RF309-590
Kirk's Services, Inc	RF314-34
Snell Isle Gulf Service	RF300-6640
Worth County Cooperative Oil Co	RF272-75890
Young's Drive in #1	RF300-7049
Witco Corp	RF300-9629

Copies of the full text of these decisions and orders are available in the Public Reference Room of the Office of Hearings and Appeals, room 1E-234, Forrestal Building, 1000 Independence Avenue, SW., Washington, DC 20585, Monday through Friday, between the hours of 1 p.m. and 5 p.m., except federal holidays. They are also available in Energy Management: Federal Energy Guidelines a commercially published loose leaf reporter system.

Dated: April 17, 1990.

BILLING CODE 6718-02-M

FEDERAL TRADE COMMISSION

[Docket No. 9229]

Outdoor World Corporation; Prohibited Trade Practices, and Affirmative Corrective Actions

AGENCY: Federal Trade Commission.

ACTION: Consent order.

SUMMARY: In settlement of alleged violations of federal law prohibiting unfair acts and practices and unfair methods of competition, this consent order requires, among other things, a membership campground promoter,

based in Bushkill, Pa., to cease and desist from representing that any consumer will receive a prize, award, gift, bonus, premium, or any other good or service at no cost without disclosing any cost the consumer must pay to receive such good or service. The consent order also requires the respondent to retain accurate records, for a period of 3 years, of all advertising and promotional materials containing representations regarding prize or gift offerings, and records of all prizes and gifts awarded. In addition, respondent is required to notify the Commission of any proposed corporate changes.

DATES: Complaint issued July 17, 1989. Order issued April 2, 1990.[1]

FOR FURTHER INFORMATION CONTACT: Lawrence Hodapp, FTC/H–238A, Washington, DC 20580. (202) 326–3105.

SUPPLEMENTARY INFORMATION: On Thursday, January 25, 1990, there was published in the **Federal Register**, 55 FR 2554, a proposed consent agreement with analysis In the Matter of Outdoor World Corporation, for the purpose of soliciting public comment. Interested parties were given sixty (60) days in which to submit comments, suggestions or objections regarding the proposed form of order.

No comments having been received, the Commission has ordered the issuance of the complaint in the form contemplated by the agreement, made its jurisdictional findings and entered an order to cease and desist in disposition of this proceeding.

Authority: (Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interprets or applies sec. 5, 38 Stat. 719, as amended; 15 U.S.C. 45)

Donald S. Clark,

Secretary.

BILLING CODE 6750–01–M

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Food and Drug Administration

[Docket No. 90E–0104]

Determination of Regulatory Review Period for Purposes of Patent Extension; Zoladex®

AGENCY: Food and Drug Administration, HHS.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) has determined the regulatory review period for Zoladex® and is publishing this notice of that determination as required by law. FDA has made the determination because of the submission of an application to the Commissioner of Patents and Trademarks, Department of Commerce, for the extension of a patent which claims that human drug product.

ADDRESSES: Written comments and petitions should be directed to the Dockets Management Branch (HFA–305), Food and Drug Administration, Rm. 4–62, 5600 Fishers Lane, Rockville, MD 20857.

FOR FURTHER INFORMATION CONTACT: I. David Wolfson, Office of Health Affairs (HFY)–20), Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857, 301–443–1382.

SUPPLEMENTARY INFORMATION: The Drug Price Competition and Patent Term Restoration Act of 1984 (Pub. L. 98–417) and the Generic Animal Drug and Patent Term Restoration Act (Pub. L. 100–670) generally provide that a patent may be extended for a period of up to 5 years so long as the patented item (human drug product, animal drug product, medical device, food additive, or color additive) was subject to regulatory review by FDA before the item was marketed. Under these acts, a product's regulatory review period forms the basis for determining the amount of extension an applicant may receive.

A regulatory review period consists of two periods of time: a testing phase and an approval phase. For human drug products, the testing phase begins when the exemption to permit the clinical investigations of the drug becomes effective and runs until the approval phase begins. The approval phase starts with the initial submission of an application to market the human drug product and continues until FDA grants permission to market the drug product. Although only a portion of a regulatory review period may count toward the actual amount of extension that the Commissioner of Patents and Trademarks may award (for example, half the testing phase must be subtracted as well as any time that may have occurred before the patent was issued), FDA's determination of the length of a regulatory review period for a human drug product will include all of the testing phase and approval phase as specified in 35 U.S.C. 156(g)(1)(B).

FDA recently approved for marketing the human drug product Zoladex® (goserelin acetate) which is indicated in the palliative treatment of advanced carcinoma of the prostate. Subsequent to this approval, the Patent and Trademark Office received a patent term restoration application for Zoladex® (U.S. Patent No. 4,100,274) from Imperial Chemical Industries PLC and requested FDA's assistance in determining the patent's eligibility for patent term restoration.

---

[1] Copies of the Complaint and the Decision and Order are available from the Commission's Public Reference Branch, H–130, 6th Street & Pennsylvania Avenue NW., Washington, DC 20580.

[1] Copies of the Complaint and the Decision and Order are available from the Commission's Public Reference Branch, H–130, 6th Street & Pennsylvania Avenue NW., Washington, DC 20580.

FDA, in a letter dated March 27, 1990, advised the Patent and Trademark Office that the human drug product had undergone a regulatory review period and that the approval of the active ingredient, goserelin acetate, represented the first permitted commercial marketing or use of the product. Shortly thereaftr, the Patent and Trademark Office requested that FDA determine the product's regulatory review period.

FDA has determined that the applicable regulatory review period for Zoladex® is 2,037 days. Of this time, 1,168 days occurred during the testing phase of the regulatory review period, while 869 days occurred during the approval phase. These periods of time were derived from the following dates:

1. *The date an exemption under section 505(i) of the Federal Food, Drug, and Cosmetic Act became effective:* June 3, 1984. FDA has verified the applicant's claim that June 3, 1984, was the date the investigational new drug application for Zoladex® became effective.

2. *The date the application was initially submitted with respect to the human drug product under section 505(b) of the Federal Food, Drug, and Cosmetic Act:* August 14, 1987. FDA has verified the applicant's claim that August 14, 1987, was the date the new drug application (NDA) for Zoladex® (NDA 19–726) was initially submitted.

3. *The date the application was approved:* December 29, 1989. FDA has verified the applicant's claim that NDA 19–726 was approved on December 29, 1989.

This determination of the regulatory review period establishes the maximum potential length of a patent extension. However, the U.S. Patent and Trademark Office applies several statutory limitations in its calculations of the actual period for patent extension. In its application for patent extension, this applicant seeks 730 days of patent extension.

Anyone with knowledge that any of the dates as published is incorrect may, on or before June 22, 1990, submit to the Dockets Management Branch (address above) written comments and ask for a redetermination. Furthermore, any interested person may petition FDA, on or before October 23, 1990, for a determination regarding whether the applicant for extension acted with due diligence during the regulatory review period. To meet its burden, the petition must contain sufficient facts to merit an FDA investigation. (See H. Rept. 857, Part 1, 98th Cong., 2d Sess., pp. 41–42, 1984.) Petitions should be in the format specified in 21 CFR 10.30.

Comments and petitions should be submitted to the Dockets Management Branch (address above) in three copies (except that individuals may submit single copies) and identified with the docket number found in brackets in the heading of this document. Comments and petitions may be seen in the Docket Management Branch between 9 a.m. and 4 p.m., Monday through Friday.

Dated: April 17, 1990.

Stuart L. Nightingale,

Associate Commissioner for Health Affairs.

BILLING CODE 4160–01–M

National Institutes of Health

National Institute on Deafness and Other Communication Disorders; Meeting of the National Deafness and Other Communication Disorders Advisory Board

Pursuant to Public Law 92–463, notice is hereby given of the meeting of the National Deafness and Other Communication Disorders Advisory Board on May 7, 1990. The meeting will take place from 9 a.m. to 5 p.m. in Conference room 6, Building 31C, National Institutes of Health, 9000 Rockville Pike, Bethesda, Maryland 20892.

The meeting which will be open to the public, is being held to discuss the Board's activities and will include reports from the Board's subcommittees. Attendance by the public will be limited to space available.

Ms. Monica Davies, Executive Director, National Deafness and Other Communication Disorders Advisory Board, room 1B62, Building 31, NIH Campus, Bethesda, Maryland 20892, (301) 496–7243, will provide on request an agenda and roster of the members. Summaries of the meeting may also be obtained by contacting her office.

Dated: April 16, 1990.

Betty J. Beveridge,

NIH Committee Management Officer.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[NV–03–90–4830–02–24–10]

Meeting; Carson City District Advisory Council

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of Meeting of the Carson City District Advisory Council.

DATES: May 24, 1990.

ADDRESSES: 1535 Hot Springs Road, suite 300, Carson City, Nevada.

SUMMARY: The Council will meet at 8 a.m. The agenda will include minutes of the last meeting, an overview of the Grimes Point/Hidden Cave field trip and at 8:30 a.m. comments from the public will be heard. At 9 a.m., the Council will depart for Fallon to begin the field tour. The first stop will be at 10:30 a.m. at the Churchill County Museum with lunch to follow at 11:30 a.m. in Fallon. At 1 p.m., the Council will depart from Fallon to continue the tour with visits to Grimes Point/Hidden Cave, Sand Mountain and the Pony Express Station near Sand Mountain. The general public may attend the meeting and field trip, but must provide their own lunch and transportation.

FOR FURTHER INFORMATION CONTACT: Chuck Pope, BLM Public Affairs Officer, 1535 Hot Springs Road, suite 300, Carson City, Nevada 89706–0638, phone: (702) 885–6000.

Dated this 17th day of April 1990.

James W. Elliott,

District Manager, Carson City District.

BILLING CODE 4310–HC–M

Bureau of Reclamation

Proposed Stanislaus River Basin and Calaveras River Water Use Program; California

AGENCY: Bureau of Reclamation, Interior.

ACTION: Notice of intent to prepare a draft envionmental impact report/environmental impact statement (EIR/EIS).

SUMMARY: Pursuant to section 102(2)(c) of the National Environmental Policy Act of 1969, as amended, the Council on Environmental Quality Guidelines (40 CFR part 1500), and section 21002 of the California Environmental Quality Act, the Bureau of Reclamation (Reclamation) and the California Department of Water Resources (DWR) plan to prepare a combined planning report and joint EIR/EIS. This program is a joint study by Reclamation and DWR to determine the best uses of ground-water and surface water resources in the Stanislaus and Calaveras River Basins in California. The program is being conducted in accordance with the March 1989 Memorandum of Understanding which was approved by 17 local water agencies within the Calaveras and Stanislaus River Basins.

Two meetings have been scheduled to solicit public input, determine alternatives, determine the scope of the EIR/EIS, and identify significant issues related to the potential proposed action.

DATES AND LOCATIONS: There will be two public meetings, held at the following times and locations:

- May 15, 1990, at 7 p.m. at the Agricultural Extension Auditorium, 420 South Wilson Way, Stockton, CA.
- May 16, 1990, at 7 p.m. at the Tuolumne Regional Water District, Board room, 1460 Mono Way, Sonora, CA.

FOR FURTHER INFORMATION CONTACT: Mr. Chip Bruss, Environmental Specialist, Bureau of Reclamation (Code MP-750), 2800 Cottage Way, Sacramento, CA 95825-1898, telephone: (916) 978-5130; Mr. Jim Denny, Study Manager, Bureau of Reclamation (Code MP-720), 2800 Cottage Way, Sacramento, CA 95825-1898, telephone: (916) 978-4967; Mr. Chuck Vogelsang, Environmental Specialist IV, Department of Water Resources, Division of Planning, 1416 Ninth Street, PO Box 942836, Sacramento, CA 94236-0001, telephone: (916) 445-8669; or Mr. Donald W. Fisher, Study Manager, Department of Water Resources, Division of Planning, 1416 Ninth Street, PO Box 942836, Sacramento, CA 94236-0001, telephone: (916) 322-7198.

SUPPLEMENTARY INFORMATION: The purpose of the program is to prepare a plan for the long-term use of water resources (both surface and ground water) in the Stanislaus and Calaveras River Basins to meet the following goals:

(1) Meet current and projected local agricultural, municipal, industrial, and water quality needs.

(2) Provide increased instream flows for fishery and wildlife purposes in the Stanislaus and San Joaquin Rivers.

(3) Improve water quality in the Stanislaus, lower San Joaquin River, and South Delta channels.

(4) Increase the yield of the Federal Central Valley Project and the State Water Project while meeting Delta outflow requirements.

(5) Preserve and protect water resources for future growth and projected uses in areas of origin.

The study area includes parts of Alpine, Calaveras, Tuolumne, Stanislaus, and San Joaquin Counties. Alternatives that will be considered include the following:

(1) Diversion and conveyance facilities for delivery of water to Stockton East Water District and Central San Joaquin Water Conservation District.

(2) Offstream storage reservoirs to store New Melones Reservoir supply and spills for release in dry and critically dry years.

(3) Water supply projects to meet the municipal and industrial demands in south San Joaquin County.

(4) Conjunctive use of surface and ground-water resources in the study area.

(5) Providing instream fishery flows above currently required levels.

(6) Flows to improve water quality in the Stanislaus and lower San Joaquin Rivers.

(7) Measures to meet inbasin water demands above and below New Melones Reservoir.

A planning study of the alternative operational scenarios and/or facilities required to meet the study area demands most efficiently will be conducted concurrently with the EIR/EIS. Information contained in the final planning report and EIR/EIS will form the basis for the following actions: negotiation of agreements and contracts, amendments to the State Water Project, legislative proposals, and construction of facilities.

Anyone interested in more information concerning the proposed program or who has suggestions or comments related to potential significant environmental issues should contact the people listed above.

Dated: April 17, 1990.

D.W. Webber,

Assistant Commissioner, Engineering and Research.

BILLING CODE 4310-09-M

Geological Survey

Advisory Committee on Water Data for Public Use; Meeting

Pursuant to Public Law 92-463, effective January 5, 1973, notice is hereby given that an open meeting of the Advisory Committee on Water Data for Public Use (ACWDPU) will be held May 29-June 1, 1990, at the Red Lion Inn, Columbia River, 1401 North Hayden Island Drive, Portland, Oregon, 97217. The ACWDPU consists of representatives of water resources-oriented groups, including national, State, and regional organizations, professional and technical societies, and the academic community. Its principal responsibility is to advise the Secretary of the Interior, through the Director of the Geological Survey, on the views of the non-Federal community regarding plans, policies, and procedures related to water-data programs. The Director of the U.S. Geological Survey (USGS) chairs the Committee.

The meeting convene at 8:30 a.m. on Wednesday, May 30, 1990, and will adjourn at 11:30 a.m. on Friday, June 1, 1990. The theme of the meeting will be "Water-Resources Information for Confronting Natural Hazards." Primary areas of discussion will include coordinated planning, event operations and data collection, and post-event response and management. Group discussion will focus on floods, droughts, earthquakes and volcanoes using recent events as case studies. In addition, presentations will be provided on the President's Water Quality Initiative and the USGS's National Water Quality Assessment Program. The meeting will include a field trip to Mount St. Helens volcano.

The meeting is open to the public, and anyone wishing to attend or desiring additional information should contact Nancy Lopez, Chief, Office of Water Data Coordination, U.S. Geological Survey, 417 National Center, Reston, Virginia 22092. Her telephone number is (703) 648-5014. Proceedings of the meeting will be available on request.

Dated: March 20, 1990.

Nancy Lopez,

Chief, Office of Water Data Coordination.

INTERNATIONAL DEVELOPMENT COOPERATION AGENCY

Agency for International Development

Public Information Collection Requirements Submitted to OMB for Review

The Agency for International Development (A.I.D.) submitted the following public information collection requirements to OMB for review and clearance under the Paperwork Reduction Act of 1980, Public Law 96-511. Comments regarding these information collections should be addressed to the OMB reviewer listed at the end of the entry no later than ten days after publication. Comments may also be addressed to, and copies of the submissions obtained from the Reports Management Officer, John H. Elgin, (703) 875-1608, IRM/PE, room 1100B, SA-14, Washington, DC 20523-1407.

Date Submitted: April 12, 1990.

Submitting Agency: Agency for International Development.

OMB Number: 0412-0520.

Type of Submission: Reinstatement.

Title: Information Collection Elements in the A.I.D. Acquisition Regulations (AIDAR).

Purpose: A.I.D. is authorized to make contracts with any corporation, international organization, or other body of persons whether within or without the United States in furtherance of the purposes and within the limitations of the Foreign Assistance Act (FAA). Information collections and recordkeeping requirements placed on the public by the A.I.D. Acquisition Regulation (AIDAR), are published as 48 CFR 7. These are all A.I.D. unique procurement requirements which have not otherwise been submitted to OMB for approval. The preaward requirements are based on a need for prudent management in the determination that an offeror either has or can obtain the ability to competently manage development assistance programs utilizing public funds. The requirements for information during the post-award period are based on the need to administer public funds prudently.

Respondents will have a submission burden of three responses and an estimated annual recordkeeping burden of 12 hours per recordkeeping.

Reviewer: Marshall Mills (202) 395–7340, Office of Management and Budget, room 3201, New Executive Office Building, Washington, DC 20503.

Dated: April 12, 1990.

Wayne H. Van Vechten,

Planning and Evaluation Division.

INTERSTATE COMMERCE COMMISSION

[Finance Docket No. 31613; Sub-No. 1]

David L. Durbano and Phillip D. Scott; Continuance in Control Exemption

David L. Durbano and Phillip D. Scott have filed a notice of exemption to continue in control of Southwestern Railroad Company, Inc. (SWR). Messrs. Durbano and Scott currently control non-connecting Class III rail carriers Wyoming and Colorado Railroad, Inc. (WCR), which operates over two branch lines of 104.5 and 24 miles in Colorado and Wyoming, respectively; Oregon Eastern Railroad Company, Inc. (OER), which operates over a 155.32-mile branch line in Oregon; Arizona Central Railroad Company, Inc. (ACR), which operates over a 38.74-mile branch line in Arizona; and Intermountain western Railroad (IWR), which operates over a 4-mile branch line in Oregon.

Applicants formed SWR to acquire and operate the Atchison, topeka and Santa Fe Railroad Company's 25.8-mile Whitewater Branch in New Mexico and its 103.2-mile Shattuck Branch in Texas and Oklahoma. SWR has concurrently filed a notice of exemption in Finance Docket No. 31613, *Southwestern Railroad Company, Inc.—Acquisition and Operation Exemption—Whitewater and Shattuck Branches of The Atchison, Topeka and Santa Fe Railway Company.*

Messrs. Durbano and Scott indicate that (1) the SWR, WCR, OER, ACR, and IWR will not connect with each other or with any other railroad in their corporate family; (2) the continuance in control is not part of a series of anticipated transactions that would connect the railroads with each other or with any other railroad in their corporate family; and (3) the transaction does not involve a Class I carrier.

This transaction involves the continuance in control of a non-connecting carrier and comes within the class exemption in 49 CFR 1180.2(d)(2).

As a condition to use of this exemption, any employees affected by the transaction will be protected by the conditions set forth in *New York Dock. Ry.—Control—Brooklyn Eastern Dist.*, 360 I.C.C. 60 (1979).

Petitions to revoke the exemption under 49 U.S.C. 10505(d) may be filed at any time. The filing of a petition to revoke will not automatically stay the transaction. Pleadings must be filed with the Commission and served on: Douglas M. Durbano, Durbano & Associates, 4185 Harrison Boulevard, Suite 320, Ogden, UT 84403.

Decided: April 16, 1990.

By the Commission, Jane F. Mackall, Director, Office of Proceedings.

Noreta R. McGee,

Secretary.

BILLING CODE 7035–01–M

[Finance Docket No. 31613]

Southwestern Railroad Co., Inc.; Acquisition and Operation Exemption

Southwestern Railroad Company, Inc. (SWR), has filed a notice of exemption to acquire and operate the Whitewater and Shattuck Branches of The Atchison, Topeka and Santa Fe Railway Company. The Whitewater Branch extends from Whitewater, NM (near milepost 0 + 0750 feet) to the end of the Santa Rita Subdivision line (near milepost 16 + 1500 feet) at Santa Rita, NM; from the connecting rail line at Hanover Junction, NM (near milepost 14 + 1345.4 feet) to the end of the connecting rail line at Fierro industrial Spur at the Sharon Steel Plant (near milepost 6 + 1804 feet); and from Whitewater (near milepost 30 + 2972 feet) to the Tyrone Industrial Spur at Burro Mountain Junction, NM (near milepost 33 + 5256 feet), a total distance of 25.8 miles. In addition, SWR will acquire ancillary overhead trackage rights to permit interchange at the Whitewater Yard, near Whitewater. The Shattuck Branch extends between Shattuck, OK, at Shattuck Subdivision Main Track Engineering Station 5 + 44 (near milepost 0.1) and Shattuck Subdivision Main Track Engineering Station 5455 + 67 (near milepost 103 + 1685 feet) near Morse, TX, a total distance of 103.2 miles. In addition, SWR will acquire ancillary overhead trackage rights to permit interchange at the Shattuck Yard near Shattuck.

This transaction is related to a notice of exemption filed concurrently in Finance Docket No. 31613 (Sub-No. 1), *David L. Durbano and Phillip D. Scott—Continuance in Control Exemption—Southwestern Railroad Company, Inc.*, for the continued control by SWR's owners of SWR and four non-connecting Class III rail carriers.

Any comments must be filed with the Commission and served on: Douglas M. Durbano, Durbano & Associates, 4185 Harrison Boulevard, Suite 320, Ogden, UT 84403; and Dennis W. Wilson, The Atchison, Topeka and Santa Fe Railroad Company, 80 East Jackson Boulevard, Chicago, IL 60604.

Applicant shall retain its interest in and take no steps to alter the historic integrity of all sites and structures on the line that are 50 years old or older until completion of the section 106 process of the National Historic Preservation Act, 16 U.S.C. 470.[1]

This notice is filed under 49 CFR 1150.31. If the notice contains false or misleading information, the exemption is void *ab initio*. Petitions to revoke the exemption under 49 U.S.C. 10505(d) may be filed at any time. The filing of a petition to revoke will not automatically stay the transaction.

Decided: April 16, 1990.

By the Commission, Jane F. Mackall, Director, Office of Proceedings.

Noreta R. McGee,

Secretary.

BILLING CODE 7035-01-M

[Finance Docket No. 31617]

Chesapeake and Albemarle Railroad Co., Inc.; Lease, Acquisition, and Operation Exemption; Southern Railway Co.

Chesapeake and Albemarle Railroad Company, Inc. (C&A), has filed a notice of exemption to lease (with option to purchase) and operate 73.5 miles of rail line owned by Southern Railway Company (Southern) extending between milepost NS-8.0, at Chesapeake, VA, and milepost NS-74.0, at Edenton, NC, with a branch line extending between milepost WK-0.0 (NS-46.7), at Elizabeth City, NC, and milepost WK-7.48, near Weeksville, NC.

The transaction also involves C&A obtaining incidental trackage rights over approximately 8.5 miles of track in Chesapeake from Southern and its affiliate, Norfolk and Western Railway (NW). The trackage rights extend: (1) Over Southern's track between mileposts NS-8.9 and NS-2.3/V-4.5; (2) over NW's track between mileposts NS-2.3/V-4.5 and V-5.1/N-3.4; and (3) over NW's track between mileposts V-5.1/N-3.4 and N-5.6. The transaction will be effective immediately after the effectiveness of this notice.

Any comments must be filed with the Commission and served on: Frank J. Pergolizzi, Slover & Loftus, 1224 17th Street NW., Washington, DC 20036.

Applicant shall retain its interest in and take no steps to alter the historic integrity of all sites and structures on the line that are 50 years old or older until completion of the section 106 process of the National Historic Preservation Act, 16 U.S.C. 470.[1]

This notice is filed under 49 CFR 1150.31. If the notice contains false or misleading information, the exemption is void *ab initio*. Petitions to revoke the exemption under 40 U.S.C. 10505(d), may be filed at any time. The filing of a petition to revoke will not automatically stay the transaction.

Decided: April 17, 1990.

BILLING CODE 7035-01-M

[Docket No. AB-290 (Sub-No. 71X)]

Southern Railway Co.; Abandonment Exemption in Polk County, GA, and Calhoun and Cherokee Counties, AL

Applicant has filed a notice of exemption under 49 CFR 1152 Subpart F—Exempt Abandonments to abandon its 18-mile line of railroad between milepost 16.0-N, at Cave Springs, GA, and milepost 34.0-N, at Piedmont, AL, in Polk County, GA, and Calhoun and Cherokee Counties, AL.

Applicant has certified that: (1) No local traffic has moved over the line for at least 2 years; (2) any overhead traffic on the line can be rerouted over other lines; and (3) no formal complaint filed by a user of rail service on the line (or a State or local government entity acting on behalf of such user) regarding cessation of service over the line either is pending with the Commission or with any U.S. District Court or has been decided in favor of the complainant within the 2-year period. The appropriate State agency has been notified in writing at least 10 days prior to the filing of this notice.

As a condition to use of this exemption, any employee affected by the abandonment shall be protected under *Oregon Short Line R. Co.—Abandonment—Goshen*, 360 I.C.C. 91 (1979). To address whether this condition adequately protects affected employees, a petition for partial revocation under 49 U.S.C. 10505(d) must be filed.

Provided no formal expression of intent to file an offer of financial assistance has been received, this exemption will be effective on May 23, 1990 (unless stayed pending reconsideration). Petitions to stay that do not involve environmental issues,[1] formal expressions of intent to file an offer of financial assistance under 49 CFR 1152.27(c)(2),[2] and trail use/rail banking statements under 49 CFR 1152.29 must be filed by May 3, 1990.[3] Petitions for reconsideration or requests for public use conditions under 49 CFR 1152.28 must be filed by May 14, 1990, with: Office of the Secretary, Case Control Branch, Interstate Commerce Commission, Washington, DC 20423.

A copy of any petition filed with the Commission should be sent to applicant's representative: Virginia K. Young, Norfolk Southern Corporation, Three Commercial Place, Norfolk, VA 23510.

If the notice of exemption contains false or misleading information, use of the exemption is void *ab initio*.

Applicant has filed an environmental report which addresses environmental or energy impacts, if any, from this abandonment.

The Section of Energy and Environment (SEE) will prepare an environmental assessment (EA). SEE will issue the EA by April 27, 1990. Interested persons may obtain a copy of the EA from SEE by writing to it (room 3219, Interstate Commerce Commission, Washington, DC 20423) or by calling Elaine Kaiser, Chief, SEE at (202) 275-7684. Comments on environmental and energy concerns must be filed within 15 days after the EA becomes available to the public.

Environmental, public use, or trail use/rail banking conditions will be

---

[1] SWR certifies that it has identified to the appropriate State Historic Preservation Officers all sites and structures 50 years old or older that will be transferred as a result of this transaction.

[1] Applicant certifies that it has identified to the appropriate State Historic Preservation Officer all sites and structures 50 years old and older that will be transferred as a result of this transaction.

[1] A stay will be routinely issued by the Commission in those proceedings where an informed decision on environmental issues (whether raised by a party or by the Section of Energy and Environment in its independent investigation) cannot be made prior to the effective date of the notice of exemption. *See Exemption of Out-of-Service Rail Lines*, 5 I.C.C.2d 377 (1989). Any entity seeking a stay involving environmental concerns is encouraged to file its request as soon as possible in order to permit this Commission to review and act on the request before the effective date of this exemption.

[2] *See Exempt. of Rail Abandonment—Offers of Finan. Assist.*, 4 I.C.C.2d 164 (1987).

[3] The Commission will accept a late-filed trail use statement so long as it retains jurisdiction to do so.

imposed, where appropriate, in a subsequent decision.

De :ided: April 16, 1990.

By the Commission, Jane F. Mackall, Director, Office of Proceedings.

DEPARTMENT OF JUSTICE

Antitrust Division

National Cooperative Research Act of 1984; CAD Framework Initiative, Inc.

Notice is hereby given that, pursuant to section 6(a) of the National Cooperative Research Act of 1984, 15 U.S.C. 4301 *et seq.* ("the Act"), CAD Framework Initiative, Inc. ("CFI") on February 15, 1990, filed an additional written notification simultaneously with the Attorney General and the Federal Trade Commission disclosing changes in the membership of CFI. The additional written notification was filed for the purpose of extending the protections of section 4 of the Act, limiting the recovery of antitrust plaintiffs to actual damages under specified circumstances.

The purpose of this notification is to disclose the following changes in the membership of CFI: (1) The addition of corporate members InterAct Corporation, Laboratories De Marcoussis, National Semiconductor Corporation, Toshiba Corporation, and Xidak, Inc.; (2) the addition of associate members Canadian Microelectronics Corporation, CNET-Grenoble, GenRad Ltd., Institute for Information Industry, Object Sciences Corporation, Antoine Bigirimana, Duane Boning, Bob Cottle, John Eurich, Stephen J. Grout, Wei-Cheng Her, Michael Jamiolkowski, Eiji Kawamoto, Doug Neuse, B. Reddy Penumalli, Paul Titchener and Mr. Yui-Hsieh; (3) Apollo Computer, Inc., SCME Foundation Centers for Micro-Electronics, Gateway Design Automation Corp., and Greg Warshawsky have not renewed their membership in CFI; (4) IMEC, VZW and Westinghouse Electric Corporation have changed from Corporate Members to Associate Members of CFI.

On December 30, 1988, CFI filed its original notification pursuant to section 6(a) of the Act. That filing was amended on February 7, 1989. The Department of Justice published a notice concerning the amended filing in the **Federal Register** pursuant to section 6(b) of the Act on March 13, 1989 (54 FR 10456). A correction to this notice was published on April 20, 1989 (54 FR 16013). On May 17, 1989, CFI filed an additional written notification. The Department published a notice in response to this additional notification on June 22, 1989 (54 FR 26265). A correction to the June 22, 1989, notice was published on August 4, 1989 (54 FR 32141); a further correction was published on August 23, 1989 (54 FR 35091). On August 16, 1989, CFI filed an additional written notification. The Department published a notice in response to this additional notification on September 21, 1989 (54 FR 38912). CFI filed a further additional notification on November 15, 1989. The Department published a notice in response to the further additional notification on January 10, 1990 (55 FR 925).

National Cooperative Research Act of 1984 C.R. Bard/E.I. Du Pont

Notice is hereby given that, pursuant to the National Cooperative Research Act of 1984, 15 U.S.C. 4301 *et seq.* ("the Act"), C.R. Bard, Inc. ("Bard") on March 20, 1990, filed written notifications on behalf of itself and E.I. Du Pont de Nemours and Company ("Du Pont") simultaneously with the Attorney General and the Federal Trade Commission disclosing (1) the identities of the parties to the venture, and (2) the nature and objectives of the venture. The notifications were filed for the purpose of invoking the Act's provisions limiting the recovery of antitrust plaintiffs to actual damages under specified circumstances. Pursuant to section 6(b) of the Act, the identities of the parties to the venture, and its general areas of planned activities, are given below.

Bard is a New Jersey corporation with its principal place of business at 730 Central Avenue, Murray Hill, New Jersey 07974.

Du Pont is a Delaware corporation with its principal place of business at 1007 Market Street, Wilmington, Delaware 19898.

On December 22, 1989, Bard and Du Pont entered into an agreement forming a venture for purposes of advanced, long-term research and development. The purpose of the venture is to engage in research, development, experimental production and testing of material and processes relating to the improvement of catheters and other medical devices used within the vessels and channels of the human body, including, but not limited to, coronary, peripheral and neurological arteries, gastric and urological tracts, the reproductive systems, tear ducts, and nerve centers for pain control.

Office of Juvenile Justice and Delinquency Prevention

National Conference of State Juvenile Justice Advisory Groups; Meeting

ACTION: Notice of meeting.

The National Conference of State Juvenile Justice Advisory Groups chartered by the Administrator, Office of Juvenile Justice and Delinquency Prevention (OJJDP), under the authority of sections 241(f) and 247(c) of the Juvenile Justice and Delinquency Prevention Act of 1974, as amended, the provisions of the Federal Advisory Committee Act, and 41 CFR 101-6.1005(a) is holding its annual Conference. The title for this conference is: Mission Revisited: Looking Back to the Future. The goal will be to examine key elements of the Juvenile Justice and Delinquency Prevention Act and to develop consensus among States as to how future activities under the Act should be undertaken. Major activities will include:

—Examination of the purpose for, and the philosophy behind, the creation of the JJDP Act of 1974;

—Consideration of the vision for change which the Act was intended to foster;

—Evaluating of the appropriateness and the effectiveness of our efforts under the Act to date; and

—Formulation of recommendations that will promote improved levels of performance in the coming years.

Individuals and organizations interested in these issues are invited to attend. The conference will take place at the Washington Plaza Hotel, Washington, DC, April 29-May 2, 1990.

For information concerning registration or attendance at business sessions, which will be open to the public, please contact Robert J. Baughman, Executive Director, National Coalition of State Juvenile Justice Advisory Groups, Suite 414, 1211 Connecticut Avenue NW., Washington, DC, (202) 467-0864.

Dated: April 17, 1990.

Approved:

Robert W. Sweet, Jr.,

Administrator, Office of Juvenile Justice and Delinquency Prevention.

BILLING CODE 7555-01-M

Program Solicitation for Statewide Systemic Initiatives in Science, Mathematics, and Engineering Education

The National Science Foundation solicits proposals from states to support statewide systemic initiatives in science, mathematics, engineering, and technology education. Proposals must result from analysis and review, by broadly representative groups, of the current systems of teaching and learning at all levels of these subjects. While some proposals may address the needs of an entire state system including K-12 and college, others will be considered if they take a systemic approach, as described in the following solicitation, to particular parts of the system. Letters of intent to submit proposals are due by July 9, 1990, with formal proposals due October 15, 1990. Awards may be between $1 million and $2 million per year for up to five years.

The following program solicitation provides information on the application process.

PROGRAM SOLICITATION

STATEWIDE SYSTEMIC INITIATIVES IN SCIENCE, MATHEMATICS, AND ENGINEERING EDUCATION

This document is one of a series of targeted program solicitations inviting proposals directed toward problems and opportunities of high priority within science, mathematics, and engineering education. This nationwide effort is intended to broaden the impact, accelerate the pace, and increase the effectiveness of improvements in education in these fields through support of integrated, systemic changes in state education systems.

This solicitation supplements rather than replaces current program announcements of the NSF Directorate for Science and Engineering Education—particularly those of its Division of Teacher Preparation and Enhancement and of the Science and Mathematics Education Networks Program.

This solicitation envisions substantial commitments of local and state resources and private contributions of various kinds, in addition to any support from the National Science Foundation, United States Department of Education, and other Federal agencies.

Letter of Intent: July 9, 1990

Formal Proposals: October 15, 1990

The National Science Foundation (NSF) provides awards for research in the sciences and engineering, and for exemplary projects in science, mathematics and engineering education. The awardee is wholly responsible for the conduct of such research or educational projects and preparation of the results for publication. The Foundation, therefore, does not assume responsibility for such findings or their interpretation.

The Foundation welcomes proposals on behalf of all qualified scientists, engineers, and educators, and strongly encourages women, minorities, and persons with disabilities to compete fully in the education initiative described in this document.

In accordance with Federal statutes and regulations and NSF policies, no

person on grounds of race, color, age, sex, national origin, or disability shall be excluded from participation in, denied the benefits of, or be subjected to discrimination under any program or activity receiving financial assistance from the National Science Foundation.

Facilitation Awards for Handicapped Scientists and Engineers (FAH) provide funding for special assistance or equipment to enable persons with disabilities (investigators and other staff, including student research assistants) to work on an NSF project. See the FAH program announcement (NSF Publication 84–62, rev. 5/87), or contact the FAH Coordinator in the directorate for Scientific, Technological, and International Affairs. The telephone number is (202) 357–7456.

The Foundation has TDD (Telephone Device for the Deaf) capability, which enables individuals with hearing impairment to communicate with the Division of Personnel and Management about NSF programs, employment, or general information. The telephone number is (202) 357–7492.

This initiative is described in the Catalog of Federal Domestic Assistance category 47.066 (*Teacher Preparation and Enhancement*).

Introduction

The National Science Foundation is soliciting proposals for projects intended to broaden the impact, accelerate the pace, and increase the effectiveness of improvements in science, mathematics, and engineering education in both K–12 and post-secondary levels. Such proposals are solicited from states for the support of integrated, systemic changes in their education systems.

The anticipated effects of these changes will be to increase the knowledge of science and mathematics acquired by all students at all educational levels, and to afford every student the maximum opportunity to acquire the habits of mind and critical thinking skills that characterize effective use of mathematics and science. A further effect of such changes would be to enable students to understand the role and influence of technology as one of a number of ways by which science and mathematics are related to the physical world and the human condition. Such changes should benefit education in all subject matter areas, but when implemented will move the United States toward the goal enunciated by the President and the nation's governors of making American students the first in the world in mathematics and science achievement by the year 2000.

The intention of this solicitation is to generate comprehensive statewide systemic initiatives designed to achieve significant improvements in science, mathematics, and engineering education. NSF desires to fund integrated and well-coordinated elements designed to address major components of the system of education of the state.

The scope of this effort by NSF is as broad as that of state education systems and covers all areas of the Foundation's education programming. It is a supplement to current NSF programs and is not intended to replace any part of them. There will be relatively few awards under this solicitation, but some components of a proposal which is not funded may be eligible for support under other NSF programs in education.

The kinds of statewide initiatives that may win support under this solicitation are those that will analyze, review, and improve all or some of the systemic components of education in the proposing state in a coordinated way. States will be expected to integrate into plans for science, mathematics, and engineering education initiatives such components of systemic change as:

(1) Organizational structure and decision making;

(2) Provision and allocation of resources;

(3) Recruitment and preparation of teachers and college faculty;

(4) Retention and continuing professional development of teachers and other professional personnel;

(5) Curriculum content and learning goals;

(6) Delivery of instruction, including the use of educational technology;

(7) Assessment of student achievement;

(8) Facilities and equipment;

(9) Articulation within the system; and

(10) Accountability systems.

The National Science Foundation will provide part of the initial support to stimulate and catalyze selected, high quality, systemic reform efforts designed to move quickly and purposefully to action. Statewide systemic initiatives embracing such efforts may be supported by NSF for terms of up to five years. In the first year, the Foundation expects to make awards to four to eight states for from $1-million to $2-million, totalling from $5-million to $10-million to each receiving state over the life of the project. The amounts awarded each year will vary depending on the particular proposals, on the amount of cost sharing provided by states, and on the availability of funds. The number of initiatives funded in subsequent competitions will depend on the number of continuing awards and the amount of new funds available each year.

The Foundation's role is to initiate, not to implement the major efforts which will result. NSF will not provide funds for future or past planning, nor will funds be provided to replace money which is available from other sources (i.e. NSF support is intended to be incremental to the base funding). Funding by the National Science Foundation will be phased out during the agreed term; at its end, significant systemic changes should be in place and supported through long-term fiscal commitments from state legislatures and from other sources—pubic and private—to assure permanence of the reforms begun under the NSF award.

An important consideration in the awarding and continuation of funding will be the degree to which proposals incorporate the use of state, local, and private resources with funds to be received from NSF and other Federal sources. No proposal will be considered that does not explicitly address the integration of activities to be carried out with state and local funds, private sector funds, and funds received from the Department of Education, e.g., the Eisenhower Mathematics and Science Education Program and other federal funds. Federal funds from all sources can be only a relatively small part of the total effort which this program will initiate. Substantial fiscal commitments from state and local sources must be the major and continuing means to assure long term improvement.

Each proposal will require the commitment of the governor of the state. Therefore, it is expected that proposals will come through either the Office of the Governor or another office or organization designated by the governor and also have the signature of the chief state school officer and/or the commissioner of higher education.

Moreover, the resulting project must be a cooperative effort by many organizations and individuals within each state. If a statewide initiative is to affect the entire system it must involve all those who have a responsibility to the system or to particular parts of it whether at the state or local level. The participation of local school system leaders, supported by leaders of parent and other community-based organizations, must be a strong and integral part of all components of a statewide systemic initiative. (See Appendix B.)

Coalitions such as this program requires may have relatively little collective experience in planning and

preparing proposals for NSF. In order to provide guidance to the process of developing competitive proposals, a number of appendices are provided for the assistance of proposal writing teams:

Appendix A provides the background necessary for proposers to understand the priorities of NSF, the urgency of the needs that those priorities address, and the educational mission and goals of NSF;

Appendix B describes the organizations and individuals essential to the cooperative efforts required for the program;

Appendix C elaborates on the components of statewide systemic initiatives, the substance of any project;

Statewide Systemic Initiatives

The National Science Foundation is soliciting proposals from states to develop statewide systemic initiatives as cooperative ventures that will extend the reach, raise the quality, and increase the effectiveness of science, mathematics, and engineering education at all levels. The National Science Foundation will provide catalytic support for integrated, systemic changes that will accelerate the pace and broaden the impact of such efforts.

In the past, typical NSF education improvement initiatives have addressed individual systemic components, and not necessarily on a statewide scale. For example: The National Science Foundation supports numerous projects that are developing specific new curricula (elementary school mathematics; middle school science; high school chemistry; undergraduate engineering); and, the Foundation supports numerous projects to help those who teach to expand their disciplinary knowledge and sharpen their classroom skills (e.g., elementary school science teachers; middle school mathematics teachers; high school physics teachers; undergraduate biology faculty).

Increasingly, the Foundation supports projects that tie together and sequence effectively the development of new curricula *and* the special activities necessary to prepare teachers to use the new instructional materials imaginatively. The output of such projects might easily founder by running up against systemic barriers to the adoption and use of what might otherwise be an outstanding curriculum improvement backed by well-qualified and enthusiastic teachers.

It is the purpose of this solicitation to encourage statewide systemic initiatives designed to overcome such systemic barriers as may exist.

Scope of Statewide Systemic Initiatives

The National Science Foundation will consider proposals under this solicitation that promise substantial systemic change. It is possible that a state would propose an initiative to reform its whole system for education in science, mathematics, and engineering, K–16; such a proposal would be welcomed.

Less than comprehensive sets of elements may be supported under this solicitation if they nevertheless constitute substantial systemic change and improvement, and if the proposal demonstrates convincingly that such a limited initial effort will be developed to include the whole of a state's system for education in science, mathematics, and engineering.

For example, an initial effort might address one of the following:

- Mathematics through the high school and college;
- High school science and mathematics (Grades 9–12);
- Industrial technology curricula (Grades 11–14);
- Elementary school science (K–6);
- Mathematics for science and engineering (Grades 8–12 and college).

These examples are intended only to illustrate the scope of initiatives that states might propose. Whatever the nature of the elements constituting the initiative, they should be selected in light of the educational goals of both the State and the Foundation. The fact that a project may be statewide in its scope does not, of itself, make it a statewide systemic initiative; for that to be true, it must include consideration of the ten systemic components listed in the Introduction.

Cooperative Efforts in Statewide Systemic Initiatives

Educational systems are complex organizations. Many individuals and groups have significant influence over them and hold stakes in their operation, structure, performance, and outcomes. To bring about educational improvements through integrated, systemic change demands concerted action at many levels, and by many persons.

Project partners, in addition to NSF, would include: state leaders; teachers and other school system leaders; leaders in science-rich institutions, including business and industry; leaders of parent groups and other community-based organizations; leaders in teacher-preparing institutions and programs; and, leaders in national, state, and regional resource organizations.

This listing is not complete; other individuals and groups are in positions of public and private authority and influence with respect to the improvement of education in science, mathematics, and engineering. Each state responding to this solicitation will necessarily reflect its own needs, opportunities, resources, and aspirations in designing its cooperative venture. However, proposals must include leaders from the organizations described above or provide a rationale for their absence. (Appendix B provides a more detailed description of proposed project partners and the roles they might play.)

Components of Statewide Systemic Initiatves

The proposals selected for funding will comprise integrated and well-coordinated elements designed to address as many system components (ten were listed in the introduction) as will launch and sustain systemic change. Each proposal must identify the systemic components to be addressed; describe the objectives and activities which will be implemented within each systemic component; and detail the strategies of coordination among the various components.

Appendix C provides a fuller explanation of some of the components that a statewide systemic initiative might address, beginning with those that provide the organizational and resource base upon which educational systems stand. The statements there are not prescriptions; rather, they are suggestions of issues relating to many of the factors essential to systemic change.

The components which a particular State might include should be the result of an analysis of its needs and the scope of the project that it proposes. While not every one of these components may be a primary factor in every statewide systemic initiative, all must be reviewed in the process of developing a proposal and a rationale provided for those not included.

Essential Thrusts of Statewide Systemic Initiatives

Each statewide systemic initiative selected for funding under this solicitation will propose specific actions and activities to be undertaken during its term. Certain thrusts are essential to the planning, description, and conduct of an initiative intended to yield significant and permanent systemic changes, and will be required in each proposal.

While the components of any statewide systemic initiative are the *substance* of the project, the essential thrusts are the *actions* necessary to

address the components in a coordinated and efficient way.

Each proposal must address:

1. Preparation for Action

Each proposal must include the findings of a thorough analysis of the essential system components and factors affecting science, mathematics, and technical education. Resources, promising ideas, and exemplary practices should be identified; obstacles to desirable change should be surfaced along with plans for their reduction or removal. The analysis must cover those elements of the set of systemic components most directly related to the concept of the statewide initiative.

2. Agenda for Action and Experimentation

Each proposal must describe an explicit management/implementation structure and an agenda of vigorous elements that will confront obstacles to change, nurture strengths and remove weakenesses, achieve planned improvements, and that could serve as examples for education systems of other states. Some elements will be straightforward, others will be experimental and involve risks; many will require active partnership with local school systems.

3. Development of the Resource Base

Each proposal must provide convincing evidence that the fiscal and non-fiscal resources required to implement and, especially, to sustain the planned systemic changes will be provided. Firm committments from key individuals and/or groups may be of political, institutional, and financial support; the provision of various resources and services; or specific personal involvements. Projects whose elements are likely to continue to thrive even when NSF funding is phased out are good candidates for initial support from the Foundation.

Statewide change, like any other, has at least temporary costs; a variety of funding sources should be developed to meet such initial expense. State and local tax-based sources are expected to provide substantial support for the activities carried out under this solicitation. Improvments in the quality and effectiveness of education in mathematics and science are of direct concern to business and industry; their fiscal and intellectual participation should be a feature of every proposal. One federal contribution will be the NSF award; other federal agencies should be approached by the proposers for appropriate support of elements of the initiative, as should private foundations.

Some systemic changes will involve permanent cost increases. It is essential that policy and program changes be matched with adequate fiscal commitments. State and local revenues are the obvious sources of the funds to meet permanent costs. Sustaining quality improvement is important to many segments of the state's body politic, and sharing the costs on a continuing or rotating basis is possible for many of them. The proposal must show how fiscal and non-fiscal resources from *all* sources will be acquired and expended.

4. Long-Term Commitments to Action

Each proposal must describe the commitment made by the officers, offices, agencies, groups, and systems making up the statewide partnership.

To succeed, statewide systemic initiatives must secure long-term commitments to provide continuing support from the members of the partnership and from other appropriate agents and agencies. Fiscal revenues are only part of the support base. Equally important is agreement among the cooperative venturers as to the goals sought, the objectives to be pursued, the responsibilities to be assumed, the systemic changes to be implemented, the measures to be employed to assess progress, the manner of handling unforeseen developments, the time table, and how necessary changes will be made in the original covenant. In the long term, systemic changes as substantial as those sought through this solicitation will likely entail major modifications in the ways that states and subordinate entities operate their education systems. The paths to be followed must be carefully mapped. The commitments and agreements will be reviewed thoroughly in the evaluation process, as described below in the section on Proposal Processing and Evaluation.

5. Public Understanding and Support

Each proposal must include significant efforts to increase public awareness and understanding of the urgent need to support improvements in science, mathematics, and engineering education. Significant changes in the content and means of learning will require an informed public that understands both the need for change and the fact that all students are capable of gaining science and mathematical literacy appropriate to their protential.

Incorporation of Other Education Projects

States already have many Federally funded education projects that address some of the components of the statewide systemic initiatives called for in this solicitation (e.g., projects of NSF, the Department of Education, NASA, the Department of Energy). Where it is appropriate to the objectives of a statewide systemic initiative, results from those projects should be reflected in the plan developed under this solicitation.

Preparation and Submission of Proposals

Who May Submit

To assure the commitment of the governor of the state it is expected that proposals will come through either the Office of the Governor or another office or organization designated by the governor and also have the signature of the chief state school officer and/or the commissioner of higher education.

Steps to Planning and Proposal Preparation

The following paragraphs describe steps believed to be essential to the development of a proposal likely to be competitive for funding by the Foundation:

1. Form a study/planning group composed of those leaders essential to the process of bringing about changes in the educational system of the state, including leaders in local districts with the largest populations of underrepresented groups.

2. Conduct an analysis and develop an outline of a plan for a statewide systemic initiative that is consistent with the objectives, requirements, and expectations described in preceding sections of this solicitation. The planning group should use the earlier section on "Essential Thrusts" as a guide to its activities.

3. Prepare a preliminary proposal in the form of a Letter of Intent—a brief summary of issues, intended actions, participating stakeholders, and needed resources—to be sent to the staff of NSF for comment. This is required prior to submission of a formal proposal.

4. The Foundation staff will review each Letter of Intent and within 6 weeks advise its authors as to the degree to which its content suggests that the statewide systemic initiative contemplated is consistent with the purposes and guidelines of this solicitation. Following consideration of that advice, the authors may prepare and submit a formal proposal to NSF. (In

some cases the staff may suggest other Foundation programs as being more appropriate for the plan submitted, or for parts of it.)

The Formal Proposal

Proposals submitted in response to this solicitation should be prepared and submitted in accordance with the guidelines provided in the NSF brochure, *Grants for Research and Education in Science and Engineering* (GRESE), NSF 83–57 (Revised October, 1989). Single copies of that brochure are available at no cost from the Forms and Publications Unit, phone (202) 357–7668, or via e-mail (Bitnet: pubs@nsf or Internet: pubs@note.nsf.gov).

The Project Description may not exceed 20 single-spaced pages (approximately 400 words per page) or 40 double-spaced pages. These limits supercede those published in GRESE. Appended material must be held to a minimum and must not be used to circumvent the page limit on the length of the project description. Proposals exceeding these limits will not be considered. The Foundation staff will determine the manner in which appended material will be provided to reviewers.

The Project Description, which is the main body of the proposal, is a detailed definition of the project. It must enable reviewers to "follow" the initiative from beginning to end, and must include:

1. A statement of the results of an assessment of the essential components of the system of science, mathematics, and technical education existing within the state and the set of statewide or local policies, laws, rules, traditions, assumptions, and agreements underlying the system. These assessments should guide the selection and structuring of systemic initiative elements.

2. A description of the elements—the components and the essential thrusts—constituting the statewide systemic initiative, and the specific objectives they are intended to achieve including a set of appropriate and valid student outcome goals.

3. A description of the partners who will engage in the initiative and of the pact among them. This exposition of the enabling commitments underlying the initiative is a critical part of the proposal. A successful cooperative venture is complex and requires effective strategies to develop and maintain communication among the partners and mechanisms for informing and involving state and local governments, the various segments of the education system, the private sector, teachers, parents, and the media.

4. A description of the means by which project activities will be evaluated and documented as they are conducted, and how activities will be changed, improved, or discontinued as a result of ongoing evaluations. Proposals must describe plans for assessing the various consequences and impacts of project activities, especially as these measure the benefits (or lack thereof) of the systemic changes undertaken (e.g., improved student achievement in science and mathematics, reform of teacher certification practices). The method and format of data collection should be consistent with accepted research and evaluation procedures, so the data can be shared through the dissemination of results.

5. A plan for the dissemination of information and provision of assistance to other states wishing to implement such programs. Initiatives under this solicitation are expected to yield systemic changes that can be considered and adapted for use by others.

6. A brief narrative explanation of the budget, including all sources of financial support and indicating expenditures for each year. The explanation should describe all cost-sharing and include the schedule for phasing-out support from the National Science Foundation and a specific plan for continuing support for these statewide systemic initiatives when Federal support is concluded. Each initiative is expected to be a cooperative venture with the partners providing both fiscal and in-kind support of goods and services. Official letters that verify specific fiscal and in-kind elements of non-NSF support (and only such letters) should be included in the proposal.

Budget

Forms and documentation required in the Budget section of the proposal are described in GRESE at page 5 and on the reverse of NSF Form 1030. NSF Form 1030 must be provided for each annual budget and for the cumulative budget for all years of the project. Separate "Budget Explanation Pages" should be attached which (1) provide detail supporting the funds requested from NSF on Form 1030, and (2) provide similar detail of the fiscal and in-kind support from other sources.

Proposal Processing and Evaluation

Proposals will be reviewed for scientific and educational merit by practicing scientists and mathematicians, science and mathematics educators, and others having knowledge and expertise in the field(s) represented in the proposal. The evaluations of the independent reviewers are important in establishing the general quality levels of proposals, and are major factors in the decisions to make awards.

Proposals received under this solicitation will be processed and evaluated following procedures described in GRESE, page 9. Every effort will be made to facilitate the process to reach decisions within the normal 6 month period. However, due to the comprehensive nature of the program, processing may take longer, particularly for propsals from organizations which have not previously submitted a proposal to NSF.

The National Science Foundation instructs its reviewers to evaluate proposals on the basis of the four general criteria listed on page 8 of GRESE:

1. *Intrinsic Merit.* This criterion is used to assess the likelihood that the project will lead to systemic changes which will have substantial impact on science, mathematics, and engineering education.

2. *Performance Competence.* This criterion relates to the capability of the proposers, the soundness of the proposed approach, and the adequacy of the resources available to carry out a statewide systemic initiative.

3. *Utility or Relevance of the Project.* This criterion is used to assess the likelihood that the statewide systemic approach can contribute to meeting the nation's needs in mathematics, science, and technical education.

4. *Effect on the infrastructure of science and engineering education.* This criterion relates to the potential of the project to contribute to better understanding or improvement of the quality, distribution, and effectiveness of the Nation's scientific and engineering education, research, and human resources base.

In the evaluation of proposals for statewide systemic initiatives these criteria will form the basis for consideration of the various elements described in this solicitation as they pertain to the education goals of NSF.

The NSF staff may solicit further information through site visits and other means in order to arrive at a decision upon which to make an award. Other factors that will be considered by the NSF staff in selecting the awardees from within substantially similar quality groupings include: (1) The amount and duration of cost-sharing and the degree of certainty that it can be delivered; (2) the relative effort represented by the project in comparison with the aggregate of state education activities; (3) the firmness and substance of the

commitments from the participating entities, groups, and individuals.

Awarding of Grants

In order to provide a diversity of models within this program, other considerations in the final decision will be (1) desirable variations of the scope (grade level and subjects) or of the components of various projects; and (2) desirable variations in the geographic, economic, and demographic characteristics of the applicant states.

Until a decision is announced, no information can be provided on the probability of support. Every effort will be made to reach a decision and inform the applicant promptly. Notification of an award is made in writing by the Division of Grants and Contracts of the Foundation. Organizations whose proposals are unsuccessful will be advised in writing as promptly as possible. Regardless of the proposal action, verbatim copies of the written reviews, not including the identities of the reviewers, will be sent to the applicants.

Proposal Submission

Fifteen (15) copies of each proposal, including one copy bearing original signatures, should be mailed to: Proposal Processing Unit—Room 223, Attention: SEE/DTPE, National Science Foundation, 1800 G Street NW., Washington, DC 20550.

Only one (1) copy of NSF Form 1225, Information about Principal Investigator/Project Director, should be sent, attached to the original signed proposal.

In addition to the fifteen copies mailed to the Proposal Processing Unit, one copy should be sent to the attention of the Program Director at the address given below. This need *not* be a signed copy.

In the interest of reducing paper consumption and mailing costs, proposers are urged to submit proposals printed on both sides of the sheet. However, the original signed copy must be printed only on one side of each sheet.

Proposals may also be submitted electronically. For information, contact the Electronic Proposal Submission Program Director, Office of Information Systems (OIS), phone (202) 357–9767, or via e-mail (Bitnet: gstuck@nsf; or Internet: gstuck@note.nsf.gov).

Proposals submitted in response to this solicitation must be postmarked (or delivered to commercial overnight mail service) no later than October 15, 1990 and received by NSF no later than October 29, 1990.

Proposals submitted electronically must have entered the NSF system no later than October 15, 1990.

Intergovernmental Review

Many states have elected to review proposals submitted to Federal agencies by prospective grantees from that state. Pursuant to Executive Order 12372 ("Intergovernmental Review of Federal Programs") and the implementing NSF regulations (**Federal Register**, Volume 48, No. 123, June 24, 1983, pp. 29358–29366), the NSF has established a procedure for ensuring the review of proposals by states when applicable. Programs described in this announcement are eligible for reviews by electing states under E.O. 12372.

Proposers from states electing to review proposals must submit their proposals to the state's single point of contact (SPOC) for review prior to, or simultaneously with, submission to the NSF. No grant award will be made by the NSF unless the state has had an opportunity to review the proposal for a period not to exceed 60 days.

Questions relating to NSF implementation of E.O. 12372 may be directed to the Intergovernmental Review Officer at (202) 357–9496.

Award Administration

Because of the nature of the statewide systemic initiatives and the sizeable sums involved, the Foundation will be an active partner in each of the initiatives. The NSF award instrument will be a cooperative agreement which includes provisions for substantial technical and management involvement by the Foundation during the performance period. The progress of each statewide systemic initiative will be assessed periodically. In general, oversight and monitoring of each project will be carried out by NSF through site visits by the program officer or other NSF staff, by annual reports, and by other means pertinent to the arrangement made with each organization receiving funds under the cooperative agreement. Of particular interest will be the continued infusion of financial support from state and local sources and its relationship to the phasing-out of NSF funds as set forth in the plan included in the budget narrative.

Awards made as a result of this solicitation will be administered in accordance with the terms and conditions of NSF GC–1, "Grant General Conditions" and NSF CA–1 (10–88), "Cooperative Agreement General Conditions". These documents are available at no cost from the NSF Forms and Publications Unit, phone (202) 357–7668, or via e-mail (Bitnet: pubs@nsf or Internet: pubs@note.nsf.gov). More comprehensive information is contained in the *NSF Grant Policy Manual* (NSF 88–47, July 1989), for sale through the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402.

If the submitting organization has never received an NSF award, it is recommended that appropriate administrative officials become familiar with the policies and procedures in the *NSF Grant Policy Manual* which are applicable to most NSF awards. If a proposal is recommended for an award, the NSF Division of Grants and Contracts will request certain organizational, management, and financial information. These requirements are described in chapter III of the *NSF Grant Policy Manual*.

For More Information

Governors, state education officers, local school system officials, and other leaders of political, educational, and civic groups interested in the opportunities available through this solicitation may obtain additional information by contacting the program director: Mr. Charles R. Eilber, Program Director, Statewide Systemic Initiatives, Room 504, National Science Foundation, 1800 G Street NW., Washington, DC 20550, (202) 357–7751; FAX (202) 375–7009; Bitnet: ceilber@nsf; Internet: ceilber@note.nsf.gov.

Requirements of the Final Project Report

Upon completion of the project a Final Project Report (NSF Form 98A), including the Part IV Summary, will be required. Applicants should review this form prior to proposal submission so that appropriate tracking mechanisms are included in the proposal plan to ensure that complete information will be available at the conclusion of the project.

APPENDICES

Appendix A—Background

The problems or predicaments facing education at every level (and likely in every discipline) have been studied by many groups and individuals. Many carefully drawn recommendations have been put forth that speak to both general and specific steps that could be taken to secure the at desired improvements.

The links between science, mathematics, technology and engineering and the future of the nation are stronger today than ever before. Science and technology literacy are essential for a skilled work force and a

functioning democracy. In a world dependent on technology, there is no more critical need than for success in the efforts to improve the quality, effectiveness, reach and impact of all levels of education in mathematics, engineering and the sciences.

The consensus of the President, the Congress, governors of the states, chief state school officers, commissioners of higher education, college and university presidents, civic leaders, and numerous leading private sector executives is that improvement of education, especially at the elementary and secondary school levels, is at the top of national priorities. Within that priority, all have asserted that greatly improved science and mathematics learning performance is among the most needed reforms if the nation is to achieve the goal enunciated by the President and the nation's governors of making its students first in the world mathematics and science achievement by the year 2000.

A special concern of the National Science Foundation is improvement of education in science, mathematics, and engineering. The Foundation, as well as other agencies and organizations, both public and private, have sponsored and supported a variety of initiatives intended to generate specific betterments in the reach and effectiveness of both instructional materials and teaching personnel in these fields. Because of the centrality of mathematics and science in the whole of education, these improvements should have positive effects on instruction in all other subjects as they contribute to the goal that by the year 2000 every American adult will be a skilled, literate worker and citizen.

The substantial and growing need for well educated scientists, mathematicians, engineers and technologists to do the scientific and technical work of society is well recognized. Equally important is the need for sophisticated science literacy on the part of the American work force as a whole—not just to provide strong support for science and technology, but because the proper and informed exercise of contemporary democratic citizenship is becoming increasingly dependent on the science literacy of all the people.

The educational dimension of these needs are indicated in the figure below. The "High School and Beyond" Surveys (U.S. Department on Education; 1980, 1982) show the steady, year-by-year decline in the number of American youth interested in any kind of career in natural science or engineering. The national well-being demands that these numbers be increased, and efforts to that end are an important NSF mission. But it would be a national disaster if the comprehension of science and the mathematics literacy (sometimes called "numeracy") of the vast majority of our people were to receive less attention. It is for these reasons that the National Science Foundation has a twin mission with regard to education—a mission of excellence to the persons represented by both the shaded and unshaded portions of the figure.

To secure the general and widespread improvement required by the national interest, it is necessary that the results of many successful betterment initiatives be translated nation-wide into comprehensive, integrated, systemic changes in the teaching and learning of science and mathematics at all educational levels, K–16, and of technology and engineering at their places in the high school and college years.

To accomplish these changes the Federal Government and the states must work together. As awareness of the impact of education on economic development has intensified, governors of many states have taken bold steps to provide leadership for educational reform. The critical nature of science, mathematics, and engineering education in particular has been a focal point. This was confirmed at the President's summit meeting with the governors in September 1989: two of the six agreed national goals specify science and mathematics competency and achievement.

On the one had, the States are key agents for reform. The content, housing, and delivery of instruction are regulated by state officers and agencies; the states license and supervise the activities of those who teach and those who administer public education; the states determine criteria and standards for student advancement; the states secure and distribute the funds necessary for the support of the education system; and, ultimately, the states are accountable to their citizens for the results of these efforts.

On the other hand, the National Science Foundation has unique connections to the academic and industrial research institutions whose scientists create much of the new knowledge of nature that is gained in the United States. Historically, the Foundation has served as a catalyst and conduit to bring scientific expertise to bear on efforts to enhance the quality and assure the timeliness and accuracy of new instructional materials, and to contribute special perspectives to the development of innovative educational programs.

In these efforts the National Science Foundation is guided by these educational goals:

- To help ensure that high-quality education in science and mathematics is available to every child in the United States, sufficient to enable those who are interested and talented to pursue technical careers at all levels, especially in science and engineering, as well as to provide a base for understanding by all citizens.
- To help ensure that the educational pipelines carrying students to careers in science, mathematics, and engineering yield sufficient numbers of well-educated individuals to meet the technological needs of the U.S. work force, and to keep the United States at the forefront of scientific achievements;
- To help ensure that those who select scientific and engineering careers have available the best possible professional education in their discipline;
- To help ensure that opportunities are available at the college level for interested nonspecialists to broaden their backgrounds in mathematics, engineering, and the sciences; and
- To support informal science education programs to maintain public interest in, and awareness of, scientific and technological developments.

Throughout all of these run two other goals:

- To increase the representation of women, minorities and disabled persons in both the study and the professional practice of science, mathematics, and engineering; and
- To promote actively the inclusion of the private sector as partners in projects to improve science, mathematics, and engineering education.

The education programs of NSF serve many of the goals recently enunciated by the President and the Governors. For example, many of the programs in Informal Science Education serve all ages and interests and reach even into the pre-school level. Many are designed to increase interest of students in selecting more mathematics and science courses and staying in school to complete them. All grade levels are served by various NSF programs thereby contributing to the improvement in competency to be demonstrated after grades four, eight, and twelve.

The Foundation pursues these goals through educational activities in science, mathematics, and engineering that cover many aspects of teaching and learning. NSF programs:

- Stimulate the improvement of teacher education curricula, and help active teachers and faculty members

maintain and upgrade their disciplinary knowledge and professional skills;

• Support research on the educational applications of advanced technologies, and on the processes of teaching and learning;

• Help pay for the development of innovative courses and curricula, and for the preparation of new instructional materials for schools and colleges;

• Make possible exhibits and media presentations that will reach students of all ages outside of classrooms;

• Support and encourage the interest of young people in considering and then pursuing careers in technical fields; and

• Contribute to efforts to increase the awareness and understanding of science and mathematics by all citizens.

Appendix B—Cooperative Endeavors

The statewide systemic initiatives proposed for support under this solicitation must include the cooperative efforts of at least the following:

• *State leaders*—governors, chief state school officers, commissioners of higher education, legislative and civic leaders, and the heads of key groups representing teachers, administrators, school systems, and commerce and industry—have the authority to change education policy, enact necessary statutes, modify regulations, define broad goals and objectives, and assign programmatic and functional responsibilities, and are positioned to inform and involve the public at large.

• *School system leaders*—teachers, school board members, superintendents, principals, and supervisors—are the ones who will actually restructure their schools, implement necessary changes, provide facilities and funds, serve as conduits and bridges among the statewide policy leadership, the classroom educational leadership, and the manifold constituencies of local schools, and provide the reality tests for experimentation and risk-taking.

• *Leaders in science-rich institutions*—presidents, directors, and other leaders in colleges, universities, industrial laboratories, science centers, museums, and other science and technologically-rich organizations—can mobilize disciplinary expertise, and contribute valuable human and materials resources to improvement efforts and to the improved system.

• *Leaders of parent groups and other community-based organizations* can promote understanding of the need for reforms; must back state and local policy changes; can enlist support for higher standards of achievement; and are vital in making school-site program decisions and implementing innovation.

• *Leaders in teacher-preparing institutions and programs* are positioned to guide efforts to reform undergraduate and graduate teacher curricula; improve school-based internship and induction programs; and strengthen professional development activities for both beginning and experienced teachers.

• *Leaders in National, state, and regional resource organizations*—such as science academies, science and mathematics teachers' associations, professional science associations and societies, research centers and laboratories—can provide schools with information, knowledge, materials, and implementation strategies to improve learning, and must be involved in the creation of statewide systemic initiatives.

Appendix C—Components of Statewide Systemic Initiatives

The following paragraphs describe some of the components that a statewide systemic initiative might address.

1. Organizational Structure and Decision Making

Many elements of organization and decision making will be affected by systemic changes: the physical and social conditions of learning; how teachers and pupils are matched with content, materials, and time allocations; grading and grouping practices; the role of teachers in determining policies and programs; where education program decisions are made, and who makes them; local and state structures and procedures that govern decisions.

2. Provision and Allocation of Resources

The provision and allocation (from all sources) of money, time, talent and other resources is integral to any consideration of educational changes. Personnel and resource allocation patterns may, in particular, affect the learning of underrepresented groups; a cross-cutting goal of NSF education activities is to make sure that women, minorities, and the disabled have engaging opportunities to learn science, mathematics, and technology at all levels of their educational experience.

3. Recruitment and Preparation of Those Who Teach

Students and teachers are the key persons in any educational activity. Among the most critically needed systemic changes are those that will increase the number of highly qualified teachers and faculty members available at all levels. In the schools, there are significant shortages of teachers qualified to offer instruction in science and mathematics. The supply of qualified science, mathematics, and engineering faculty in higher education is falling toward crisis. Special efforts are required to attract qualified minorities and women to teaching science, mathematics, and engineering at all levels.

Systemic changes in curriculum content and delivery of instruction will likely require significant revision of policies and programs related to the initial preparation and continuing education of teachers. Both the number and quality of teachers are affected by the character of undergraduate teacher preparation programs, state certification requirements, regulations governing the employment of teachers with nontraditional backgrounds, etc. These situations may require significant changes in the way in which those who teach gain their science and mathematics knowledge and teaching skills, as well as in the way in which faculty who teach undergraduates are prepared for that responsibility.

4. Retention and Continuing Professional Development of Teaching and Non-teaching Personnel

Statewide policies determine or affect strongly the ability of educational institutions to retain, and sustain highly-qualified personnel. Science and science-related disciplines are rapidly progressive; without continuing professional development, obsolescence of qualified faculty occurs with alarming speed. Changes that take place naturally within a discipline (as the knowledge base grows) and the purposeful changes that may be made in its presentation (by adoption of new instructional materials or application of innovative technologies) both demand that appropriate inservice professional development activities be provided for those who teach.

Systemic change in almost any area will require assessment of current policies governing the induction, promotion, evaluation, professional development, and assignment of instructional personnel. Where school-based decision making and other experiments are in progress, states and school systems will need to develop innovative ways for instructors and administrators to gain access to knowledge and skills from which they will make decisions and design programs. The roles of supporting professionals—principals, counselors, curriculum supervisors—must also be considered.

5. Curriculum Content and Learning Goals

Curriculum content and learning goals are major concerns of this solicitation. Improvements are necessary to assure that those who are planning to prepare themselves for careers in science, mathematics, technology, and engineering—as well as in the teaching of those subjects—receive excellent instruction. Perhaps even more critical at the present time, efforts must be made at every educational level to review and improve curriculum content and to increase the awareness and understanding of science, mathematics, and technology by all students. The learning outcomes expected for students must include the knowledge, skills, beliefs, and attitudes that develop from their mathematics, science, and technological education experience.

Essential Curriculum Content

Improvement of curriculum content and elevation of learning goals are major concerns of this solicitation. Historically, each state has defined its own curriculum needs in science and mathematics. The increased mobility of the population, growth of instant communications, and explosion in use of the computer over the past thirty years place a premium on a broader view. While no state should adopt curricula that ignore its special needs, neither should any state ignore national needs.

Recent national efforts have begun to identify essential learning goals for all students. Most of them call for content knowledge to be matched with development of the skills and attitudes that constitute effective scientific and technological literacy and mathematical "numberacy". Virtually all of them urge that students take part in active learning programs in order to gain needed content knowledge and essential skills necessary for the talented work force the Nation needs to compete in the global market. Some states or school districts may wish to set, for certain populations, teaching and learning goals that exceed this essential content.

Among the reports by national study groups that should be considered seriously by any organization preparing a proposal under this solicitation are: "Everybody Counts" (National Academy of Sciences/Mathematical Science Education Board); "Curriculum and Evaluation Standards" (National Council of Teachers of Mathematics); and "Project 2061—Science for all Americans" (American Association for the Advancement of Science). These and other reports containing recommendations for improving science and mathematics education are suggested reading. Among the important features of certain of these reports are their outlines of the knowledge and skills that every student should command—for example:

Elementary mathematics—Mental arithmetic and estimation; the use of calculators and computers; initial concepts of probability and data analysis; geometical shapes in 1, 2, and 3 dimensions; measurement; the use of symbolism; and the solving of a wide variety of problems.

Secondary mathematics—Develop greater abstraction and ability to reason inductively and deductively; understanding mathematics as a science of patterns; ability to reason algebraically and geometrically; and increased ability to make predictions, analyze data, and draw conclusions in situations involving uncertainty.

The physical sciences—How basic concepts of motion, matter, force, and energy, explain natural physical phenomena including laws of gravitation and energy conservation; the interconversion of matter and energy; the physical features of planet earth: its origin, position, shape, and the dynamics of climate and atmospheric structure and evolution of the universe; the interaction of theory and experiment; and the use of mathematics as a tool to understanding the physical sciences.

Living things—Diversity of type and similarity of cell structure; the interdependence of species and of life and physical environment; and the power of evolution to explain similarity and diversity of life forms. Human beings as organisms and species; life cycles; functions of the human body as a complex system of cells and organs, and their coordination; how biological, physical, chemical, social, psychological, cultural, and environmental factors affect human health; and human population and its interaction with other species and the physical and environmental phenomena of the earth and universe; and the ethics of experimentation.

Social and Behavioral Sciences—How the scientific approach to inquiry is important to the study of human nature and activities in fields of economics, psychology, sociology, anthropology, and others of the social and behavioral sciences; the relationship of these to the biological and physical sciences; and the role of mathematics in their development.

Technology—The synthetic nature of technology and the design of complex systems; the juncture of physical, biological, and human phenomena as they are taken into account by designers and engineers; and the role and influence of technology on the physical world, the environment, and the human condition—from agriculture to biotechnology.

General themes—Awareness of the personal satisfaction in "doing" science, and an appreciation of the preparation needed to pursue a scientific career; and understanding of the contributions of science to the lives of persons and societies; the history and philosophy of science, mathematics, and technology; and inter-disciplinary concepts such as systems, organization, stability and change in systems, and models.

Critical thinking skills and habits of mind—Scientific and mathematical ways of thinking and solving problems; the use of probability and statistics; practice in experimenting, gathering evidence, making and testing hypotheses, and constructing theories; working alone and in groups; practice in discovering patterns, estimating, making conjectures, and proving relationships; applications of practice to real and hypothetical situations; use of evidence and logic in making arguments and solving scientific, mathematical, and technological problems; and developing affirmative value systems and a commitment to ethics in scientific processes.

Encompassing Curriculum Themes

Learners need to be attracted to the study of science and mathematics. To help bring about the expanded knowledge and understanding called for in the reports cited above, significant programmatic strands or encompassing content themes should be employed to stimulate learning and to maintain unity and continuity. Such strands must have widespread appeal and be broadly based, allowing both for learning among discrete disciplines and the integration of content areas. Mathematics, good health and human development, and the environment are examples of encompassing themes.

Mathematics—Mathematics cuts across all levels of education and all disciplines, technical and non-technical. Learning mathematics is essential for all students. An informed electorate must be able to read and interpret complex and sometimes conflicting quantitative information. Professional and technical jobs require mathematically literate workers to understand the complexities of production, assimilate new information, solve unfamiliar problems in unconventional ways, and work cooperatively as well as independently.

Knowledge and skill in mathematics is an increasingly essential job qualification and vital to the enhancement of numerous personal opportunities. Possession of mathematical skills is critical to maintenance of career options. Failure to develop the mathematical abilities of females and minorities is a major cause of their underrepresentation in scientific and technical fields.

Good health and human development—Students need to develop a scientific view of the world and their place in it. The indices of "good health" in the United States are among the poorest in fully developed nations. For some decades its schools have not taught much about the science that underlies good health. Better health and better learning depend on and serve each other. Schools can build excellent science and mathematics education programs on topics such as advances in the nutritional sciences, human biology and individual development, progress in the medical sciences, and the effects of drugs and other substances on mental and physical well-being of self, family, and community.

The environment—The issues of the environment offer multiple and integrated ways to teach science and mathematics. In studying the ecology of the planet, opportunities arise to introduce principles of chemistry, biology, physics, botany, earth science, and engineering. The inclusion of environmental and ecological issues and phenomena in systemic reforms of curricular in mathematics, science, and technology can strengthen the preparation for effective citizenship.

6. Delivery of Instruction, Including the use of Educational Technology.

When curriculum content is changed or expanded, related improvements can be made to increase the effectiveness of teaching and learning. These include the design (or adoption) and implementation of vigorous, active learning opportunities that build on natural curiosity—gathering evidence, making hypotheses, experimenting, finding patterns, estimating, proving relationships, applying them to real situations, and using evidence and logic in making arguments.

A variety of teaching strategies and many different learning opportunities—in laboratories and in the field, alone and with peer groups, using paper and pencil and advanced information technologies—will be necessary to meet the demands of expanded content and well motivated students. Instruction should be "hands-on" from the earliest grades on. Appropriate education technologies as both tools for- and objects of- learning such as computers, robots, satellite television, videodiscs, and other technological teaching tools are important means for delivery of instruction. However, teachers and students control the technology, not the other way around. At all levels, cooperative activities with science and technology museums and other technologically-rich organizations can provide valuable experiences for all students and opportunities for all citizens to understand the issues of science and technology.

7. Assessment of Student Achievement

The raising of statewide learning standards and implementation of new curricula will require substantial changes in the instruments and techniques employed for the assessment of student progress and achievement. Even if there are no changes in learning standards and no new curricula are implemented, the stranglehold that current, rigidly fact-focused tests have on curriculum evolution must broken. Attention must be paid to evaluation elements that address problems of validity and accuracy in student assessment. Special attention must be given to the measurement of higher-order thinking skills, and to the influence that standardized, norm-referenced tests have on curriculum. Curriculum-change elements should be accompanied by parallel elements to reform student assessment techniques, particularly those used in local schools for accountability and for in-class assessment of progress as they apply to the learning of fundamental concepts in science, mathematics, and technology at all levels (elementary, middle, and high school; college undergraduate). These changes will contribute to the improved national assessments (especially those planned at the 4th, 8th, and twelfth grade levels) planned as part of the national effort to assure that our schools' diplomas truly reflect substantial achievement.

8. Facilities and Equipment

Awards made under this solicitation will not, in general, include support for improvement of facilities or for acquisition and maintenance of instructional equipment; other programs of the National Science Foundation address some of these needs, as do those of other federal agencies. The provision of facilities and equipment for statewide systemic initiatives, however, is one way in which partners in the effort, other than NSF, may contribute. Such contributions can be important to the cost sharing that is expected in all projects, and should be detailed in the proposal. Special efforts are needed to assure that women, minorities, and disabled persons have access to educational technology.

9. Articulation Within the System

A major cause of the weaknesses in present systems of teaching and learning science, mathematics, and engineering is the compartmentalization of the system into separate subjects, courses, grade levels, disciplines, departments, and isolated management functions. The effects of improvements in one element may be largely negated by the impact of the change on the others. These problems may occur at many points: between grade levels in schools; at the school-college transition; between two-year and four-year institutions; between different subject matter areas at any educatonal level; and between the world of education and the world of work. Effective and lasting systemic change must include the breaking down of artificial barriers through determined efforts to articulate all of the elements of the system. Systemic changes will have little effect without an analysis of the relationships of each element of a system to all of the other elements and the development of mechanisms to avoid or correct problems related to lack of articulation. Articulation is clearly a central point around which systemic changes must revolve.

10. Accountability Systems

Planning for systemic changes should include review and reconsideration of policies and procedures by which individuals and institutions are held accountable for science, mathematics, and engineering education. The review should cover the means by which states and major subordinate organizations document, measure, and report on system resources, allocations, programs, procedures, and outcomes; and should include the ways in which incentives are provided to organizations and individuals. Accountability and incentive systems must reinforce the content and process goals of systemic changes.

(OMB No. 3145–0058)

Dated: April 17, 1990.

Charles R. Eilber,

Program Director, SEE/TPE

[FR Doc. 90–9348 Filed 4–20–90; 8:45 am]

BILLING CODE 7555–01–M

Advisory Panel for Genetics; Meeting

The National Science Foundation announces the following meeting.

Name: Advisory Panel for Genetics.

Date and Time: Monday, Tuesday, and Wednesday May 14, 15, and 16, 1990; 8:30 to 5 p.m.

Place: The National Science Foundation, 1800 G. St., NW., room 1243.

Type Meeting: Closed.

Contact Person: Robert Brumbaugh, Program Director, Eukaryotic Genetics, room 325J, Telephone: (202) 357–0112.

Purpose of Advisory Panel: To provide advice and recommendations concerning suport for research.

Agenda: To review and evaluate research proposals as part of the selection process for awards.

Reason for Closing: The proposals being reviewed include information of a proprietary or confidential nature, including technical information; financial data, such as salaries; and personal information concerning individuals associated with the proposals. These matters are within exemptions (4) and (6) of proposals U.S.C. 552b(c), Government in the Sunshine Act.

Dated: April 18, 1990.

M. Rebecca Winkler,

Committee Management Officer.

[FR Doc. 90–9349 Filed 4–20–90; 8:45 am]

BILLING CODE 7555–01–M

NUCLEAR REGULATORY COMMISSION

[Docket No. 50–334]

Duquesne Light Co., Ohio Edison Co., Pennsylvania Power Co.; Environmental Assessment and Finding of No Significant Impact

The U.S. Nuclear Regulatory Commission (the Commission) is considering issuance of an exemption from certain requirements of appendix A to 10 CFR part 50 to Duquesne Light Company (the licensee, acting as agent for the above utilities), for the Beaver Valley Power Station, Unit 1, located in Shippingport, Pennsylvania.

Environmental Assessment

Identification of Proposed Action

The exemption would allow deviations from the requirements of General Design Criterion (GDC) 57 of appendix A to 10 CFR part 50 for certain piping of the auxiliary feedwater system. Specifically, the exemption would permit the use of check valves as containment isolation valves, contrary to what GDC 57 prohibits.

The exemption is responsive to the licensee's application dated July 8, 1989.

The Need for the Proposed Action

The proposed exemption is needed because special circumstances are present in that literal application of the regulation is not necessary to achieve the underlying purposes of the regulation; features comparable with the requirements of the regulation are available. If the exemption is not granted, additional costs would be incurred by the licensee with no increase in the degree of safety.

Environmental Impacts of the Proposed Action

The proposed exemption will provide assurance of containment isolation that is equivalent to that required by GDC 57 of appendix A such that there is no increase in the risk of radiological release at the facility. The probability of accidents would not be increased and the post-accident radiological releases will not be greater than previously determined, nor does the proposed exemption otherwise affect radiological plant effluents. Therefore, the Commission concludes that there are no significant radiological environmental impacts associated with the proposed exemption.

With regard to potential non-radiological impact, the proposed exemption involves features located entirely within the restricted area as defined in 10 CFR part 20. It does not affect non-radiological plant effluents and has no other environmental impact. Therefore, the Commission concludes that there are no significant non-radiological environmental impacts associated with the proposed exemption.

Alternative Use of Resources

This action involves no use of resources not previously considered in the Final Environmental Statement (construction permit and operating license) for the Beaver Valley Power Station, Unit No. 1.

Agencies and Persons Consulted

The NRC staff reviewed the licensee's request and did not consult other agencies or persons.

Finding of No Significant Impact

Based upon the foregoing environmental assessment, the Commission concludes that the proposed action will not have a significant effect on the quality of the human environment. The Commission has, therefore, determined not to prepare an environmental impact statement for the proposed exemption.

For further details with respect to this action, see the application for the exemption dated July 8, 1989, which is available for public inspection at the Commission's Public Document Room, the Gelman Building, 2120 L Street NW., Washington, DC and at the B.F. Jones Memorial Library, 663 Franklin Avenue, Aliquippa, Pennsylvania 15001.

Dated at Rockville, Maryland this 16th day of April, 1990.

For the Nuclear Regulatory Commission.

Peter S. Tam,

Acting Director, Project Directorate I–4, Division of Reactor Projects—I/II, Office of Nuclear Reactor Regulation.

[FR Doc. 90–9318 Filed 4–20–90; 8:45 am]

BILLING CODE 7590–01–M

[Docket No. 50–255]

Consumers Power Co.; Consideration of Issuance of Amendment to Provisional Operating License and Proposed No Significant Hazards Consideration Determination and Opportunity for Hearing

The U.S. Nuclear Regulatory Commission (the Commission) is considering issuance of an amendment to Provisional Operating License No. DPR–20, issued to Consumers Power Company (the licensee) for operation of the Palisades Plant (the facility), located in Van Buren County, Michigan.

The proposed amendment would revise the requirement of Technical Specification (TS) 3.3.1.b by relaxing, for a limited time, the boron concentration requirement for Safety Injection (SI) Tank T–82A. Additionally a temporary surveillance requirement would be added to Table 4.2.1, Item 5. The licensee's application for amendment is dated April 11, 1990.

Specifically, the Amendment would add a footnote applicable to TS section 3.3.1.b to permit the boron concentration of SI Tank T–82A to be as low as the primary coolant system (PCS) boron concentration and as high as 2000 ppm. The amendment would also add a footnote to Table 4.2.1, Item 5 to require a sample to be taken of the contents of SI Tank T–82A within one hour of a PCS boron concentration change greater than 80 ppm below the equivalent full power value. These footnotes would be effective until the sooner of September 30, 1990, or the end of Cycle 8.

Before issuance of the proposed license amendment, the Commission will have made findings required by the Atomic Energy Act of 1954, as amended (the Act) and the Commission's regulations.

The Commission has made a proposed determination that the amendment

request involves no significant hazards consideration. Under the Commission's regulations in 10 CFR 50.92, this means that operation of the facility in accordance with the proposed amendment would not (1) involve a significant increase in the probability or consequences of an accident previously evaluated; or (2) create the possibility of a new or different kind of accident from any accident previously evaluated; or (3) involve a significant reduction in a margin of safety.

The licensee has evaluated the proposed changes against the above standards as required by 10 CFR 50.91(a). The Commission has reviewed the licensees evaluation and agrees with it. The Commission has concluded that:

A. The change does not involve a significant increase in the probability or consequences of an accident previously evaluated (10 CFR 50.92(c)(1)) because the probability of the accident of concern, a loss of coolant accident (LOCA), is not affected by reducing the boron concentration in one SI Tank. Having one SI Tank with boron concentration as low as the PCS boron concentration will not increase the consequences of a LOCA since sufficient boron remains in the remaining SI Tank to maintain the reactor subcritical. The change in boron concentration does not alter the configuration of the plant or the manner in which it is operated, so the probability of the accident is not increased.

B. The change does not create the possibility of a new or different kind of accident from any accident previously evaluated (10 CFR 50.92(c)(2)) because the reduction in minimum boron concentration for one SI Tank does not change the function of the SI Tanks or their interface with other systems.

C. The change does not involve a significant reduction in a margin of safety (10 CFR 50.92(c)(3)) because even with one SI Tank having a boron concentration as low as the PCS boron concentration, K_{eff} would remain less than 1.0 in all applicable accident scenarios. For a Large LOCA, the boron in the PCS would be slightly less for a short period but, the effect on K_{eff} is not significant because of the large amount of boron being added by the high and low pressure safety injection systems.

Therefore, based on the above considerations, the Commission has made a proposed determination that the amendment request involves no significant hazards consideration.

The Commission is seeking public comments on this proposed determination. Any comments received within 30 days after the date of publication of this notice will be considered in making any final determination. The Commission will not normally make a final determination unless it receives a request for a hearing.

Written comments may be submitted by mail to the Regulatory Publications Branch, Division of Freedom of Information and Publications Services, Office of Administration, U.S. Nuclear Regulatory Commission, Washington, DC 20555, and should cite the publication date and page number of this **Federal Register** notice. Written comments may also be delivered to room P–223, 7920 Norfolk Avenue, Bethesda, Maryland, from 7:30 a.m. to 4:15 p.m. Copies of written comments received may be examined at the NRC Public Document room, the Gelman Building, 2120 L Street NW., Washington, DC. The filing of requests for hearing and petitions for leave to intervene is discussed below.

By May 23, 1990, the licensee may file a request for a hearing with respect to issuance of the amendment to the subject provisional operating license and any person whose interest may be affected by this proceeding and who wishes to participate as a party in the proceeding must file a written petition for leave to intervene. Request for a hearing and petitions for leave to intervene shall be filed in accordance with the Commission's "Rules of Practice for Domestic Licensing Proceedings" in 10 CFR part 2. Interested persons should consult a current copy of 10 CFR 2.714 which is available at the Commission's Public Document Room, the Gelman Building, 2120 L Street, NW., Washington, DC 20555 and at the Local Public Document room located at the Van Zoeren Library, Hope College, Holland, Michigan 49423. If a request for a hearing or petition for leave to intervene is filed by the above date, the Commission or an Atomic Safety and Licensing Board, designated by the Commission on by the Chairman of the Atomic Safety and Licensing Board Panel, will rule on the request and/or petition and the Secretary or the designated Atomic Safety and Licensing Board will issue a notice of hearing or an appropriate order.

As required by 10 CFR 2.714, a petition for leave to intervene shall set forth with particularity the interest of the petitioner in the proceeding and how that interest may be affected by the results of the proceeding. The petition should specifically explain the reasons why intervention should be permitted with particular reference to the following factors: (1) The nature of the petitioner's right under the Act to be made a party to the proceeding; (2) the nature and extent of the petitioner's property, financial, or other interest in the proceeding; and (3) the possible effect of any order which may be entered in the proceeding on the petitioner's interest. The petition should also identify the specific aspect(s) of the subject matter of the proceeding as to which petitioner wishes to intervene. Any person who has filed a petition for leave to intervene or who has been admitted as a party may amend the petition without requesting leave of the Board up to fifteen (15) days prior to the first prehearing conference scheduled in the proceeding, but such an amended petition must satisfy the specificity requirements described above.

Not later than fifteen (15) days prior to the first prehearing conference scheduled in the proceeding, a petitioner shall file a supplement to the petition to intervene which must include a list of the contentions which are sought to be litigated in the matter. Each contention must consist of a specific statement of the issue of law or fact to be raised or controverted. In addition, the petitioner shall provide a brief explanation of the bases of the contention and a concise statement of the alleged facts or expert opinion which support the contention and on which the petitioner intends to rely in proving the contention at the hearing. The petitioner must also provide references to those specific sources and documents of which the petitioner is aware and on which the petitioner intends to rely to establish those facts or expert opinion. Petitioner must provide sufficient information to show that a genuine dispute exists with the applicant on a material issue of law or fact. Contentions shall be limited to matters within the scope of the amendment under consideration. The contention must be one which, if proven, would entitle the petitioner to relief. A petitioner who fails to file such a supplement which satisfies these requirements with respect to at least one contention will not be permitted to participate as a party.

Those permitted to intervene become parties to the proceeding, subject to any limitations in the order granting leave to intervene, and have the opportunity to participate fully in the conduct of the hearing, including the opportunity to present evidence and cross-examine witnesses.

If a hearing is requested, the Commission will make a final determination on the issue of no significant hazards consideration. The final determination will serve to decide when the hearing is held.

If the final determination is that the amendment request involves no significant hazards consideration, the Commission may issue the amendment and make it effective, notwithstanding the request for a hearing. Any hearing held would take place after issuance of the amendment.

If the final determination is that the amendment involves a significant hazards consideration, any hearing held would take place before the issuance of any amendment.

Normally, the Commission will not issue the amendment until the expiration of the 30-day notice period. However, should circumstances change during the notice period such that failure to act in a timely way would result, for example, in derating or shutdown of the facility, the Commission may issue the license amendment before the expiration of the 30-day notice period, provided that its final determination is that the amendment involves no significant hazards consideration. The final determination will consider all public and State comments received. Should the Commission take this action, it will publish a notice of issuance and provide for opportunity for a hearing after issuance. The Commission expects that the need to take this action will occur very infrequently.

A request for a hearing or a petition for leave to intervene must be filed with the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, DC 20555, Attention: Docketing and Services Branch, or may be delivered to the Commission's Public Document room, the Gelman Building, 2120 L Street NW., Washington, DC, by the above date. Where petitions are filed during the last ten (10) days of the notice period, it is requested that the petitioner promptly so inform the Commission by a toll-free telephone call to Western Union at 1–800–325–6000 (in Missouri 1–800–342–6700). The Western Union operator should be given Datagram Identification Number 3737 and the following message addressed to Domínic C. DiIanni: (petitioner's name and telephone number); (date petition was mailed); (plant name); and (publication date and page number of this **Federal Register** notice). A copy of the petition should also be sent to the Office of the General Counsel, U.S. Nuclear Regulatory Commission, Washington, DC 20555, and to Judd L. Bacon, Esquire, Consumers Power Company, 212 West Michigan Avenue, Jackson, Michigan 49201, attorney for the licensee.

Nontimely filings of petitions for leave to intervene, amended petitions, supplemental petitions and/or requests for hearing will not be entertained absent a determination by the Commission, the presiding officer or the Atomic Safety and Licensing Board that the petition and/or request should be granted based upon a balancing of the factors specified in 10 CFR 2.714(a)(1)(i)–(v) and 2.714(d).

For further details with respect to this action, see the application for amendment dated April 11, 1990, which is available for public inspection at the Commission's Public Document room, the Gelman Building, 2120 L Street NW., Washington, DC 20555, and at the local Public Document room located at the Van Zoeren Library, Hope College, Holland, Michigan 49423.

Dated at Rockville, Maryland, this 17th day of April 1990.

For the Nuclear Regulatory Commission.

Albert W. De Agazio,

Sr. Project Manager, Project Directorate III–1, Division of Reactor Projects—III, IV, V and Special Projects, Office of Nuclear Reactor Regulation.

BILLING CODE 7590–01–M

Docket Nos. 030–00582, 030–06886, 070–00053; License Nos. 06–00183–03, 06–00183–06, SNM–52, EA 89–131

Yale University, New Haven, CT, Order Imposing Civil Monetary Penalties

I

Yale University (the licensee), New Haven, Connecticut 06520 is the holder of NRC Materials License Nos. 06–00183–03, 06–00183–06, and SNM–52 issued pursuant to 10 CFR parts 30 and 70 on December 6, 1956, March 12, 1958, and May 25, 1965, respectively. The licenses authorize the licensee to use licensed material for research and development, teaching and training of students, calibration of instruments, and performing irradiations in accordance with the conditions specified in the licenses. The licenses were most recently renewed on May 23, 1989; February 4, 1987; and May 23, 1989, respectively, and are due to expire on May 31, 1994; February 29, 1992; and May 31, 1994, respectively.

II

An NRC safety inspection of the licensee's activities under these licenses was conducted at the licensee's facility from May 30 to June 2, 1989. The results of this inspection indicated that the licensee had not conducted its activities in full compliance with NRC requirements. A written Notice of Violation and Proposed Imposition of Civil Penalties (Notice) and Order to Show Cause Why the Licenses Should Not Be Modified was served upon the licensee by letter dated September 29, 1989. The Notice stated the nature of the violations, the provisions of the Nuclear Regulatory Commission's requirements that the licensee had violated, and the amount of the civil penalty proposed for the violations. The licensee responded to the Notice by letter dated December 20, 1989, and to the Order by letter dated January 16, 1990. In its response to the Notice, the licensee admitted the violations, but requested mitigation of the proposed civil penalties for the violations in sections I and II of the Notice.

III

Upon consideration of the licensee's response and the statement of facts, explanation, and argument for mitigation contained therein, the NRC Staff has determined, as set forth in the Appendix to this Order, that the violations occurred as stated and that the penalties proposed for the violations designated in the Notice of Violation and Proposed Imposition of Civil Penalties should be imposed.

IV

In view of the foregoing and pursuant to section 234 of the Atomic Energy Act of 1954, as amended (act) 42 U.S.C. 2282, and 10 CFR 2.205, *It is hereby ordered That:*

The licensee pay a civil penalty in the amount of $12,000 within 30 days of the date of this Order, by check, draft, or money order, payable to the Treasurer of the United States and mailed to the Director, Office of Enforcement, U.S. Nuclear Regulatory Commission, ATTN: Document Control Desk, Washington, DC 20555.

V

The licensee may request a hearing within 30 days of the date of this Order. A request for a hearing shall be clearly marked as a "Request for an Enforcement Hearing" and shall be addressed to the Director, Office of Enforcement, U.S. Nuclear Regulatory Commission, ATTN: Document Control Desk, Washington, DC 20555. A copy of the hearing request shall also be sent to the Assistant General Counsel for Hearings and Enforcement, Office of the General Counsel, U.S. Nuclear Regulatory Commission, Washington, DC 20555, with a copy to the Regional Administrator, Region I, 475 Allendale Road, King of Prussia, Pennsylvania 19406.

If a hearing is requested, the Commission will issue an Order

designating the time and place of the hearing. If the licensee fails to request a hearing within 30 days of the date of this Order, the provisions of this Order shall be effective without further proceedings. If payment has not been made by that time, the matter may be referred to the Attorney General for collection.

In the event the licensee requests a hearing as provided above, the issue to be considered at such hearing shall be whether, on the basis of the violations set forth in the Notice and admitted by the licensee, this Order should be sustained.

Dated at Rockville, Maryland, this 13th day of April 1990.

For the Nuclear Regulatory Commission.

James Lieberman,

Director, Office of Enforcement.

Appendix—Evaluations and Conclusions

On September 26, 1989, a Notice of Violation and Proposed Imposition of Civil Penalties (Notice) was issued to Yale University for violations identified during an NRC inspection completed in June 1989. The licensee responded to the Notice by letter dated December 20, 1989. In its response to the Notice, the licensee admits that the violations occurred, but requests mitigation of the respective $5,000 and $6,250 civil penalties for the violations set forth in Sections I and II of the Notice. The NRC's evaluation and conclusion regarding the licensee's arguments are as follows:

Restatement of the Violations in Sections I and II of the Notice

I. A. 10 CFR 20.101(a) limits the radiation dose to the extremities of an individual in a restricted area to 18.75 rems per calendar quarter.

Contrary to the above, during the first calendar quarter of 1989, an individual working in room 302 of the Farnam Memorial Building, a restricted area, received an extremity radiation dose of 178 rem to the tip of the middle finger of the left hand while handling microcurie quantities of iodine-125.

B. 10 CFR 20.301 requires that no licensee dispose of licensed material except by certain specified procedures.

Contrary to the above, between February 23, and April 19, 1989, a research investigator disposed of approximately 0.1 microcuries of iodine-125 in the normal trash, a method not authorized by 10 CFR 20.301. Specifically, the investigator disposed of materials which he eluted from a protein separation column that contained residual iodine-125.

C. 10 CFR 20.201(b) requires the licensee to make such surveys as (1) may be necessary to comply with all sections of 10 CFR part 20, and (2) are reasonable under the circumstances to evaluate the extent of radiation hazards that may be present. As defined in 10 CFR 20.201(a), "survey" means an evaluation of the radiation hazards incident to the use or presence of radioactive materials under a specific set of conditions.

Contrary to the above, between February 23 and April 3, 1989, a researcher failed on at least six occasions to perform a survey or evaluation to determine whether residual iodine-125 remained in a protein separation column before discontinuing radiation safety precautions for the use and handling of that column, and this failure was a principal factor contributing to violations of 10 CFR 20.101 and 20.301.

D. Until the license was renewed on May 23, 1989, Condition 21 of License No. 06–00183–03 required, in part, that licensed material be possessed and used in accordance with the statements, representations, and procedures contained in an application dated May 15, 1979, including a manual of Radiation Safety Procedures dated July 1977.

Item 4.a. on page 5 of the manual of Radiation Safety Procedures included with the May 15, 1979 application requires that each individual who has contact with radioactive materials utilize all appropriate protective measures, such as wearing gloves when necessary. Item 5 of an application approved by the Radiation Safety Sub-Committee for a specific Principal Investigator in January 1989 requires that gloves be worn for handling iodine-125.

Contrary to the above, between March 6 and April 19, 1989, an individual using radioactive material under the application in January 1989 by the Radiation Safety Sub-Committee for that specific Principal Investigator did not wear gloves when he used microcurie amounts of iodine-125, which contributed to the exposure identified above.

These violations have been categorized in the aggregate as a Severity Level III problem. (Supplement IV)

Cumulative Civil Penalty—$5,000 (assessed equally among the 4 violations)

II. A. Condition 21 of License No. 06–00183–03 requires that licensed material be possessed and used in accordance with the statements, representations and procedures contained in various applications and letters. Until the license was renewed on May 23, 1989, this condition included an application dated May 15, 1979, including a manual of Radiation Safety Procedures dated July 1977, and a letter dated May 20, 1982. Following renewal, this condition includes an application dated August 10, 1987 and a letter dated December 21, 1987.

1. Item 9 of the letter dated May 20, 1982, requires that applications for authorization to use radioactive material include an outline of the experimental procedure.

Contrary to the above, as of May 23, 1989, approximately 60 authorizations (approved by the Radiation Safety Sub-Committee) did not include an outline of the experimental procedure. Specifically, most applications used only one or two lines to describe the program, and did not include details of techniques which would be used in the experiments. For example, an application was approved in January 1989, which allowed the use of iodine-125 to perform iodinations, and that application did not include an outline of the experimental procedure.

2. Item 14 of the licensee's application dated May 15, 1979, provides that the Radiation Safety Committee has authority to grant permission for the use of isotopes, and that procedures for the use of radioactive materials are outlined in committee recommendations issued to approved investigators.

Item 3 in the recommendations issued to an approved investigator on January 26, 1989, provided that persons performing iodinations must have their thyroids monitored within one or two days following iodination.

Contrary to the above, on March 7, March 14, and March 31, 1989, an individual performed iodinations using one millicurie of iodine-125 under the Authorization issued in January 1989 to that specific Principal Investigator, and the individual did not have his thyroid monitored until April 19, 1989.

3. Item 9 of the May 20, 1982 letter requires that radiation technicians perform surveys in all laboratories using radioisotopes on a quarterly basis.

Contrary to the above, during the last three quarters of 1988, laboratories where radioactive materials were used were not surveyed by the radiation technicians on a quarterly basis. Specifically:

a. between April 1 and June 30, 1988 (the second quarter), only 484 of the approximately 530 laboratories were surveyed;

b. between July 1 and September 30, 1988 (the third quarter), only 311 of the approximately 530 laboratories were surveyed; and

c. between October 1 and December 30, 1988 (the fourth quarter), only 452 of the approximately 530 laboratories were surveyed.

4. The item entitled, "Radioactive Waste Disposal," on page 9 of the manual of Radiation Safety Procedures included with the May 15, 1979, application requires that records be maintained of all disposals of radioactive material. Item 11, "Radioactive Waste Management and Procedures" of the application dated August 10, 1987, requires that appropriate records be maintained for all waste streams. 10 CFR 30.51 requires the licensee to keep records showing the disposal of byproduct material.

Contrary to the above, as of May 30, 1989, records were not maintained of monthly disposals of animal carcasses, which had been administered millicurie quantities of phosphorus–32, and which were held for decay and then disposed of as non-radioactive waste by laboratory personnel.

5. Item 2 under "Authorized Principal Investigator Responsibility" on page 3 of the manual of Radiation Safety Procedures included with the May 15, 1979 application and Item 8 of the application dated August 10, 1987, require that the Principal Investigator train individuals in specific laboratory safety procedures prior to these individuals beginning their work with radioactive materials.

Contrary to the above, from March 23 to June 2, 1989, an individual used 200 microcuries of hydrogen–3 per week, and the Principal Investigator had not instructed the individual in certain laboratory safety procedures prior to the individual beginning work with radioactive materials. Specifically, the individual was not instructed on the appropriate techniques for performing radioactive contamination surveys or in the University's prohibition of consuming

beverages in areas where radioactive materials are used.

B. Condition 19 of License No. 06–00183–06 requires that radioactive material with a physical half-life of less than 65 days be held for a minimum of 10 half-lives prior to disposal as non-radioactive waste.

Contrary to the above, as of May 30, 1989, animal carcasses, which has been administered millicurie amounts of phosphorus–32 (which has a physical half-life of 14 days), were not held for the minimum 10 half-lives prior to disposal as non-radioactive waste; rather, they were routinely disposed after being stored for only seven half-lives.

These violations have been categorized in the aggragate as a Severity Livel III problem. (Supplements IV and VI)

Cumulative Civil Penalty—$6,250 (assessed equally among the 6 violations).

Summary of Licensee Response Requesting Mitigation of the $5,000 Civil Penalty Proposed for the Violations in Section I of the Notice

Summary of Licensee Response

With respect to the violations in Section I of the Notice, the licensee asserts that Violation I.A (involving the overexposure to a research investigator) was an isolated incident that was identified and promptly reported to the NRC. The licensee further states that the exposed individual suffered no adverse effects from the overexposure and also states that its corrective actions (which included an investigation by the Radiation Safety Committee, removal of the individual from radiation work, requiring the individual to appear before the RSC to explain the incident, and instructions to the other Principal Investigators) were promptly taken. Furthermore, the licensee asserts that it has no record of past reportable radiation overexposure, and maintains that its prior performance in this area has been good. On this premise, the licensee believes that the NRC's characterization of its prior compliance history as "poor" is neither accurate nor fair.

The licensee also maintains that the remaining violations in section I of the Notice (Violations I.B, I.C and I.D) were precipitated by Violation I.A and should be similarly mitigated. The licensee asserts that prompt actions were adopted to correct the violations and prevent recurrence, and that Violations I.B and I.C did not result in additional exposures. For these reasons, the licensee contends that the base civil penalty for these violations should be mitigated rather than escalated by 100% as proposed.

NRC Evaluation of Licensee Response

The NRC acknowledges that the licensee reported the overexposure to the NRC once it was identified. However, in determining whether escalation or mitigation of a civil penalty is warranted under section V.B.1 of the Enforcement Policy, the NRC also considers the opportunities available for the licensee to discover the violation, as well as the relative ease of discovery. In this case, an opportunity existed to identify this violation sooner. Specifically, if, as required by License Condition 21, a routine thyroid burden measurement (bioassay) had been taken within two days of the research investigator's iodination (during which the overexposure is believed to have occurred), the overexposure would have been identified approximately 6 weeks sooner. Therefore, although the overexposure, once identified, was promptly reported to the NRC, the NRC has concluded that the failure to identify the violation sooner indicates that no basis for mitigating the penalty has been provided based on this factor.

The licensee states that the exposed individual suffered no adverse effects from the overexposure. Normally, violations involving an extremity exposure of 178 rem would be classified at Severity Level II. In deciding to downgrade the classification of the violations in section I from a Severity Level II to a Severity Level III problem, NRC has already taken into account the fact that the individual likely suffered no adverse effects from the overexposure. Further mitigation on this basis is not appropriate.

The NRC has considered the licensee's assertion that the civil penalty should be mitigated because its corrective actions in response to the overexposure (as well as the other violations in section I of the Notice) were prompt. However, since corrective actions are always required whenever a regulatory violation occurs, mitigation of a civil penalty based on this factor must include consideration of both the promptness and comprehensiveness of those corrective actions.

In this case, while the licensee's corrective actions for the violations set forth in Section I of the Notice were adequate, these actions focused narrowly on the particular deficiencies that led to the overexposure and did not address the broader programmatic issues associated with these violations. For example, although the other Principal Investigators were informed of the overexposure incident, and were "reminded" of the necessity of monitoring research apparatus, no additional formal training was provided to the staff to emphasize the importance of performing research activities in conformance with the procedures established in the authorization for use of radioactive material. In addition, although measures were instituted to detect deficiencies in procedures contained in the renewal of authorization for use, no measures were implemented to ensure that investigators were complying with these procedures during the actual performance of their research. Therefore, given the size of the licensee's program and the number of authorized users, the licensee's actions to correct the violations in Section I of the Notice were not considered sufficiently comprehensive to warrant mitigation of the civil penalty.

With respect to the licensee's argument that the civil penalty for the violations in Section I should not be escalated based on its past performance, the NRC acknowledges the licensee's statement that no other overexposures have occurred within the licensee's research program, notwithstanding the large size of the program. However, in our view, many of the same problems associated with the licensee's poor past performance contributed in substantial part to the overexposure and associated violations. These problems persisted even though NRC previously identified them as matters requiring the licensee's attention. Among them, the Radiation Safety Committee (RSC) was not providing sufficient oversight of the Radiation Safety Program, the substance and frequency of audits of the program by the RSC and the Radiation Safety Office were insufficient, and authorizations for use of licensed materials issued to individual principal investigators lacked specificity regarding the requirements to be met.

Therefore, after considering the licensee's request for mitigation of the civil penalty for the violations in Section I of the Notice, the NRC has determined that such mitigation is not appropriate.

Summary of Licensee Response Requesting Mitigation of the $6,250 Civil Penalty Proposed for the Violations in Section II of the Notice

Summary of Licensee Response

The licensee generally asserts that the violations set forth in Section I of the Notice should have no bearing in determining the penalty for the violations in Section II of the Notice, since these violations (in Section II) did not result in the reported exposure of anyone to radioactive material. Further, the licensee states that escalation of the base civil penalty by 100% is not warranted because none of the violations in Section II were repeat violations. Additionally, the licensee asserts that 50% escalation of the base civil penalty because the NRC had identified the violations is inappropriate since the licensee had already identified and initiated actions to improve performance in this area.

Specifically, with respect to Violation II A.1, the licensee asserts that 50% mitigation rather than 100% escalation of the civil penalty is warranted in light of its "self-corrective" action in advance of the NRC inspection, and prompt augmented action to devote additional personnel to compliance. The licensee maintains that it had recognized the desirability of requiring an outline with greater information requirements for renewal authorizations, and had taken steps, commencing on December 15, 1988, to develop a new renewal form. The licensee states that this form was revised by the Radiation Safety Committee (RSC) on March 29, 1989 and had been in use for some months.

With respect to Violation II.A.2, the licensee states that a thyroid count is not always required within 1 to 2 days following an iodination. The licensee argues that the January 26, 1989 cover letter from the RSC to the investigator erroneously characterized a recommendation (which called for a thyroid count within two days of iodination) as a requirement. The licensee states the RSC's intent of the statement was that discretion (to perform the count) was left to the investigator. Therefore, the licensee contends that the investigator actually followed the policy intended by the RSC when he did not obtain the thyroid count after the iodination procedure.

With respect to Violation II.A.3, the licensee asserts that its inability to complete all of the quarterly surveys of each of its laboratories in 1988 is not a situation that it had "failed to identify and correct." The licensee states that it had established an ambitious monitoring program because of its concern for proper safety and management, and it had failed to meet the program requirements due to resource problems, and not because of program management. The licensee also states that prior to the NRC inspection, a radiation safety reorganization was being put into place to address this deficiency, and that corrective steps initiated by the licensee were addressing this issue when the violations were identified.

With respect to violations II.A.4 and II.B, the licensee argues that these violations involved discrete and isolated incidents. The licensee asserts that these violations did not result in personnel radiation exposures, were not condoned by or known to the Radiation Safety Committee or Yale, and were promptly dealt with upon discovery. Further, the licensee states that steps designed to prevent these types of incidents from occurring generally were already being developed by the licensee when the violations occurred. With regard to Violation II.A.5, the licensee argues that this incident was an isolated lapse and that Yale took prompt and effective corrective action.

For the reasons set forth above, the licensee contends that mitigation (rather than escalation) of the penalty is warranted.

NRC Evaluation of Licensee Response

The NRC agrees with the licensee's assertion that the violations in Section I should have no direct bearing on the assessment of a civil penalty for the violations in Section II of the Notice. The violations in Section I were classified in the aggregate at Severity Level III based on the severity of the specific overexposure incident, whereas the violations in Section II reflect weaknesses in the overall Radiation Safety Program. For this reason, the violations and associated civil penalties were categorized into separate areas of concern and were each independently assessed a civil penalty in accordance with the guidance set forth in the Enforcement Policy. The violations in Section I were not considered in determining whether a basis existed for escalation of the civil penalty in Section II.

The NRC did conclude, however, that the licensee's past performance prior to the inspection did provide a basis for 100% escalation of the civil penalty for the violations in Section II of the Notice. This NRC decision was premised on the fact that the NRC identified twenty violations during the previous four NRC inspections, and also assessed two civil penalties to the licensee as a result of specific violations identified during NRC inspections in 1984 and 1988. While the NRC recognizes that none of the violations in Section II of the Notice were repetitive, the licensee's past performance was nevertheless poor. Furthermore, if any of the violations had been repetitive, then separate civil penalties could have been assessed for each repetitive violation, similar to the civil penalty issued for the violation in Section III of the Notice which involved repeat examples of eating or drinking in areas where radioactive materials are used.

With respect to Violations II.A.1 (involving a failure to include an outline of experimental procedures in Authorization Renewals) and II.A.3 (involving a failure to perform quarterly surveys of laboratory areas), the NRC acknowledges that the licensee decided to revise the Renewal Authorization forms in December 1988 to require a procedure outline with more detailed information, and also reorganized the Radiation Safety Department to address inadequate laboratory surveys. Nonetheless, during the May-June 1989 inspection (which was five months after the decision to revise the Renewal Authorization forms, and after completion of the radiation safety reorganization), the NRC identified approximately 60 Authorizations in which the outlines were inadequate, as well as numerous examples of the failure to survey laboratory areas. Therefore, consistent with Section V.B.1 of the enforcement policy, no consideration was given to a reduction in a civil penalty on this factor since the licensee did not take immediate action to effectively correct the problem upon discovery. Furthermore, the licensee did not advise the NRC of these violations either prior to or during the inspection. Therefore, the NRC concludes that mitigation of the civil penalty based upon this factor is not warranted.

With respect to Violation II.A.2 (failure to perform thyroid monitoring within two days of performing an iodination), the NRC disagrees that mitigation of the civil penalty is warranted. The cover letter to the Investigator authorizing his use of radioactive material clearly established that thyroid monitoring was to be performed within two days of an iodination. Therefore, the NRC concludes that the violation occurred as stated and mitigation of the civil penalty is not warranted.

With respect to the licensee's explanation concerning Violation II.A.3, NRC views the assurance of adequate resources as a necessary and integral aspect of the proper management of any radiation safety program. NRC does not condone the lack of sufficient resources to carry out radiation safety commitments, nor do the licensee's resource problems excuse the violation.

With respect to violations II.A.4, II.A.5 and II.B, the NRC acknowledges the licensee's statement that these violations were not condoned by or known to the Radiation Safety Committee. If they had been, NRC would have increased the Severity Level and further escalated the enforcement action. However, the fact that a violation was not willful does not form a basis for mitigation of a civil penalty. NRC also agrees that these violations, if considered as isolated or discrete incidents, would be of minor safety significance. However, when considered collectively with the other violations set forth in Section II, these violations demonstrate a lack of management oversight of licensed activities and, as such, were appropriately classified in the aggregate as a Severity Level III problem.

Furthermore, the corrective actions for these violations were not considered extensive because they focused on the individual aspects of each violation and did not address the broader areas of concern, specifically, the lack of adequate management and supervisory oversight of daily activities in the various laboratories. In addition, although the licensee asserts that steps had already been taken in December 1988 to revise the Renewal Authorization forms to require additional requirements for waste disposal, these violations demonstrate that the licensee's actions have not been sufficiently comprehensive to correct the deficiencies. Therefore, the NRC concludes that no adjustment to the proposed civil penalties on this factor is warranted.

NRC Conclusion

The licensee did not provide a sufficient basis for mitigation of the amounts of the civil penalties for the violations in Sections I and II of the Notice. Therefore, the NRC concludes that civil penalties in the amounts of $5,000 and $6,250 should be imposed for the violations in Sections I and II, respectively. In addition, the licensee did not request mitigation of the $750 civil penalty for the violation in Section III of the Notice. Therefore, the NRC concludes that a civil penalty of $750 should be imposed for the violations in Section III.

Therefore, the NRC concludes that a cumulative civil penalty in the amount of $12,000 should be imposed.

BILLING CODE 7590-01-M

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-27910; File No. SR-CSE-90-06]

Self-Regulatory Organization; Filing of Proposed Rule Change by the Cincinnati Stock Exchange Relating to the Preferencing of Public Agency Market and Marketable Limit Orders by Approved Dealers and Other Proprietary Members

Pursuant to section 19(b)(1) of the Securities Exchange Act of 1934, 15 U.S.C. 78s(b)(1), notice is hereby given that on March 23, 1990, The Cincinnati Stock Exchange (the "CSE" or "Exchange") filed with the Securities and Exchange Commission the proposed rule change as described in Items I, II, and III below, which Items have been prepared by the self-regulatory organization. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. The Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The Cincinnati Stock Exchange proposes to add Rule 11.9(u) and to amend Rule 11.9(l) and (m) in order to

modify the Exchange's time priority rules.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

The purpose of the proposed rule change is to modify the CSE's time priority rules in order to permit a market maker to act as Dealer of the day and have priority over same-priced market makers or professional agency interests entered prior in time to his bid or offer when the market maker is interacting with the public agency market and marketable limit orders which he represents as agent.

CSE is committed to increasing the amount of retail business transacted on the Exchange. CSE has worked diligently to meet this commitment by (1) developing electronic interfaces with retail order-delivery systems, and (2) increasing the number of issues covered in the National Securities Trading System ("NSTS") through the creation of a primary Designated Dealer category of market maker. This new category provided an incentive for members to become Designated Dealers in issues not yet traded in NSTS by establishing them as permanent Dealer of the day in such issues, thereby obligating them to guarantee public market orders up to 2099 shares at the national best bid or offer even if other Designated Dealers subsequently become registered in the primary Designated Dealers' issues.

The primary Designated Dealer category did not go far enough to overcome the lack of incentive in CSE's multiple market maker environment for a market maker dealer to direct his own retail order flow to the Exchange. The primary Designated Dealer category is only available for specific issues, and CSE's rules require that book interest at the national best bid or offer be satisfied before a public agency market order is executed against the Designated Dealer of the day. This means that a Designated Dealer can lose all or a portion of his public orders to other market makers who are quoting at the national best bid or offer. The proposed rule change represents the next step in the Exchange's effort to attract retail order flow because it permits one market maker to preference itself over other professionals with respect to order flow that it is directing to the Exchange.

The time priority of same-priced public agency orders would not be impacted by the proposed rule change, which relates only to preferencing one market professional over another in limited circumstances. Public agency interest in the Exchange's central limit book would have to be satisfied up to the size of the market maker's preferenced order, and, to the extent that the peferenced market maker's public order matched contra public orders in the book, the trade would occur without the intervention of the market maker as principal. Because the public book would continue to be protected, the public would not be disadvantaged by the proposed rule change. The public, in fact, would benefit from the increased liquidity supplied by CSE market makers, who now would be required to execute public limit orders in the book which are priced at the national best bid or offer as a prerequisite to interacting with their own public order flow.

The Securities and Exchange Commission validated the concept of preferencing in SEC Release 34–21743 (February 12, 1985), which approved rules for the Small Order Execution System of the National Association of Securities Dealers ("NASD"). CSE's proposed rule change goes one step further than the NASD rules by requiring protection of the public book.

In addition to continued protection of the public book, the proposed rule change would also ensure that members continue to meet their fiduciary obligation to achieve the best execution for their customers. All public market orders would continue to be executed at the national best bid or offer.

The CSE believes that the proposed rule change is a necessary competitive response which recognizes the realities of a changing market environment with respect to retail order flow. Competitive pressures have led many brokerage firms to become specialists on regional exchanges so that they can interact with their own customer orders. In order to provide brokerage firms with efficient, cost-effective service and effectively compete with the other exchanges for retail order flow, CSE has determined that it is necessary to modify its rules of priority in the limited manner described herein.

The proposed rule change is consistent with the provisions of section 6(b) of the Act in general and, in particular, furthers the objective of section 6(b)(5) because it will promote just and equitable principles of trade and remove impediments to and perfect the mechanism of a free and open market and a national market system.

B. Self-Regulatory Organization's Statement on Burden on Competition

The CSE believes that the proposed rule change will not impose any burden on competition with is not necessary or appropriate in furtherance of the purposes of the Act.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

The CSE solicited comments on the proposed rule change from other Intermarket Trading System participants.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Within 35 days of the date of publication of this notice in the **Federal Register** or within such longer period (i) as the Commission may designate up to 90 days of such date if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the self-regulatory organization consents, the Commission will:

(A) By order approve such proposed rule change, or

(B) Institute proceedings to determine whether the proposed rule change should be disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing. Persons making written submissions should file six copies thereof with the Secretary, Securities and Exchange Commission, 450 Fifth Street NW., Washington, DC 20549. Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for inspection and copying in the Commission's Public Reference Section, 450 Fifth Street NW., Washington, DC 20549. Copies of such filing will also be available for inspection and copying at the principal office of the above-mentioned self-regulatory organization. All submissions should refer to the file number in the caption above and should be submitted by May 14, 1990.

For the Commission, by the Division of Market Regulation, pursuant to

delegated authority, 17 CRF 200.30–3(a)(12).

Dated: April 17, 1990.

Jonathan G. Katz,

Secretary.

BILLING CODE 8010–01–M

[Release No. 34–27908; File No. SR–NASD–90–15]

Self-Regulatory Organization; Filing and Immediate Effectiveness of Proposed Rule Change by National Association of Securities Dealers, Inc. Relating to Service Charges for Automated Confirmation Transaction Service

Pursuant to section 19(b)(1) of the Securities Exchange Act of 1934, 15 U.S.C. 78s(b)(1), notice is hereby given that on March 16, 1990, the National Association of Securities Dealers, Inc. ("NASD") filed with the Securities and Exchange Commission ("Commission") the proposed rule change as described in Items I, II, and III below, which Items have been prepared by the NASD. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

1. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The NASD is proposing an amendment to part IX of Schedule D of the By-Laws to establish a fee for a service desk for the Automated Confirmation Transaction Service ("ACT") to assit ACT participants that do not have NASDAQ equipment and conduct a minimal amount of trading.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the NASD included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The NASD has prepared summaries, set forth in sections (A), (B), and (C) below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

The ACT Service is designed to facilitate comparison and clearing of inter-dealer over-the-counter equity trades. ACT requires input of trade information in close proximity to the time of execution by the participants to the trade and ACT processing matches or compares trade data and submits matched "locked-in" trades to clearing. Participation in ACT by self-clearing firms was approved by the Commission in September 1989 [3] and the NASD has been phasing the service in since that time. Self-clearing broker-dealers with NASDAQ compatible equipment, both terminal based and computer interface, have begun participating, and as of February 2, 1990 all NASDAQ securities have been eligible for inclusion in ACT processing.

ACT is a mandatory service for all NASD members that are members of a registered clearing agency or have an access arrangement with such a member. In order to participate in ACT, however, a member must have NASDAQ compatible equipment, which currently includes Harris terminals, NASDAQ approved foreign terminal interface equipment or NASDAQ Workstations.™ The Association is aware that there are NASD members operating without such equipment, and for such members that also transact a minimal number of trades per day, will establish an ACT service desk.

The NASD will operate an ACT service desk in a fashion similar to the Trade Acceptance and Reconciliation Service desk, approved by the Commission in January 1989,[4] and will offer the facilities of the service desk to members with no NASDAQ equipment and an average of five or fewer trades per day. NASD personnel manning the service desk will receive ACT trade report information from the member and input that data into the system for normal ACT processing. Finally, because members using the service desk have no NASDAQ equipment, they will not be able to review the accuracy of ACT input firsthand, but will have to rely on the contra side, detecting any errors and on clearing contract sheets furnished on T+1.

The statutory basis for the amendment to the proposed rule change is found in section 15A(b)(6) of the Securities Exchange Act of 1934. Among other things, section 15A(b)(6) requires that the Association's rulemaking initiatives be designed to foster cooperation and coordination with persons engaged in clearing, settling and facilitating transactions in securities. As described in detail above, the ACT service will facilitate the prompt and accurate clearance and settlement of trades by comparing the trades automatically and transmitting locked-in trades to clearing.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Association believes that the Amendment to the proposed rule change does not impose any burden on competition not necessary or appropriate in furtherance of purposes of the Act. Although use of the ACT system will be mandatory for all broker-dealers with clearing arrangements, the benefits of ACT, increasing the efficiency of post trade comparison and reducing the length of time that investors and members are exposed to market risk from uncompared trades, outweigh any potential competitive burden.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

Comments on the amendment were neither solicited nor received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing rule change has become effective pursuant to section 19(b)(3) (A) of the Securities Exchange Act of 1934 and subparagraph (e) of Rule 19b-4 thereunder because the proposal is "establishing or changing a due, fee or other charge." At any time within 60 days of the filing of such rule change, the Commission may summarily abrogate such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Securities Exchange Act of 1934.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing. Persons making written submissions should file six copies thereof with the Secretary, Securities and Exchange Commission, 450 Fifth Street, NW., Washington, DC 20549. Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5

---

[3] Release 34–27229, dated September 7, 1989.

[4] Release 34–26488, dated January 25, 1989.

U.S.C. 552, will be available for inspection and copying in the Commission's Public Reference Room. Copies of such filing will also be available for inspection and copying at the principal office of the NASD. All submissions should refer to the file number in the caption above and should be submitted by May 14, 1990.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority, 17 CFR 200.30-3(a)(12).

Dated: April 7, 1990.

Jonathan G. Katz,

Secretary.

[Release No. 34-27909; File No. SR-NASD-90-21]

Self-Regulatory Organizations; Proposed Rule Change by National Association of Securities Dealers, Inc. Relating to Service Charges for the Digital Interface Service

Pursuant to section 19(b)(1) of the Securities Exchange Act of 1934, 15 U.S.C. 78s(b)(1), notice is hereby given that on April 12, 1990, the National Association of Securities Dealers, Inc. ("NASD") filed with the Securities and Exchange Commission ("Commission") the proposed rule change as described in Items I, II, and III below, which Items have been prepared by the NASD. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The proposed rule change adds a section to Schedule D of the NASD By-Laws establishing service charges for delivery of the Digital Interface Service ("DIS"). The NASD is offering DIS to market makers as an alternative, flexible method of receiving NASDAQ Workstation™ information.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the NASD included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The NASD has prepared summaries, set forth in Sections (A), (B), and (C) below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

The Digital Interface Service ("DIS") has been designed to offer NASDAQ market makers an alternative method of receiving broadcast data and Level 3 service. The DIS offers market makers with numerous terminals or specialized automation needs the flexibility to interface with the NASDAQ network without being limited to individual Harris terminals or NASDAQ Workstation™ display devices. The DIS supports either dedicated or shared use workstations on local area networks employing standard protocols. In contrast to NASD designed NASDAQ Workstation™ screen displays, the DIS user can develop it own screen configurations, increase functionality to suit its individual needs, and provide for redundancy and emergency back-up for overall improved service quality.

Access to the NASDAQ network has been an evolutionary process. Harris terminals offer a limited mode of access to the NASDAQ network using monochrome screens, a minimal capacity for viewing quotes at any one time on a screen, and a bid/ask query system to get the most recent quotations. Foreign terminal interface devices were permitted to allow firms to emulate Harris terminals using display devices of their own development and choosing, subject to NASDAQ approval. NASDAQ Workstations™ were developed to allow subscribers to perform Level ⅔ functions on a color monitor personal computer. The Workstation offers market minding with dynamic updates (including limit break notices and depth/number of market makers at the inside alerts), personal tickers, bid/ask retrieval with dynamic screen updates, an unsolicited message area, on-screen menus and five different viewing screens, three of which can be user customized.

The Digital Interface Service uses Workstation software design as a basis, and "unbundles" telecommunication and data management for the subscriber. The telecommunication interface to the NASDAQ network remains the same as the NASDAQ Workstation™, but a new local area network ("LAN") interface will be used to deliver the information to market making devices of the subscribers own choosing. This LAN interface resides in a "server" that sits on the subscriber's LAN, and the server is dedicated to NASDAQ so that the operational integrity of the network is not threatened by any other message traffic. DIS should have no impact on NASDAQ network capacity because the universe of end users, in this instance market makers, remains constant, whether using Harris terminals, NASDAQ Workstation™, or the Digital Interface Service.

DIS subscribers receive NASDAQ data and format that data on a customized basis. For operational and security reasons, subscribers are limited to sixteen (16) physical devices per server. Each server will be uniquely configured to service up to 16 market maker "addresses" and will maintain the security and data integrity of the NASDAQ network through user-specific log-on IDs and user IDs, with corresponding network addresses, unique to the server.[1]

After the market maker logs on to the system, the DIS server will operate in two modes simultaneously: broadcasting quotes and trade reports to the devices authorized to receive the data, and submitting market maker entries (e.g. quote updates, ACT trade reports, etc.) into the NASDAQ network, as if emanating from NASDAQ Workstation™. The DIS broadcast service will be available for up to 640 different issues designated for market minding and up to 4,800 different issues designated for personal tickers per server.

Pricing for the Digital Interface Service has been designed to recover, over a five-year period, the fully allocated costs of developing the service and to recover the annual expenses incurred in providing dedicated technical support for the product. The DIS service charge of $1,300/month per server is a basic rate service charge that licenses the DIS software to the firm and is geared to recover development and operating costs. The charge is applied to each server that would be necessary to support 16 terminal devices and its attendant communications circuit. For example, if a firm wanted to operate 40 terminals in their trading room providing NASDAQ service through the DIS, they would need a minimum of three servers, at a monthly expense of $3,900. In addition to the basic rate for servers, each terminal display receiving NASDAQ Level 3 service will be charged the display rate of $345, corresponding to current charges for each NASDAQ Workstation™ display.

---

[1] The 16 DIS addresses will also be used by the NASD's Market Surveillance Department in the same fashion that NASDAQ Workstation™ addresses are used to identify traders within firms.

if the firm decides to configure fewer than 16 displays per server, for additional redundancy or emergency back-up capabilities, the charge per additional circuit required would be $500/month. For example, the firm with 40 terminals may choose to put only 10 traders on each server. Although only three servers would be necessary from an operational perspective, that firm would be using four servers. While the additional server would not incur a service charge, the additional communications circuit required would incur a $500 monthly fee.

Finally, the equipment charge of $290/month for each DIS unit would recover the costs of modems, modem maintenance, and communications dispatch time spent in troubleshooting communications outages.

The statutory basis for the proposed rule change is found in section 15A(b)(5) of the Securities Exchange Act of 1934 ("Act"). Section 15A(b)(5) requires that the rules of the NASD "provide for the equitable allocation of reasonable dues, fees and other charges among members and issuers and other persons using any facility or system which the association operates or controls." The Digital Interface Service fee structure has been formulated on the basis of the costs of developing and operating that service.

B. Self-Regulatory Organization's Statement on Burden on Competition

The NASD believes that the proposed rule change will not result in any burden on competition not necessary or appropriate in furtherance of the purposes of the Securities Exchange Act of 1934.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

Comments were neither solicited nor received; however, the pricing of Digital Interface Service was considered by a special sub-committee of members that are currently testing the service, and was approved by them and recommended to the NASDAQ, Inc. and NASD Boards for approval.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Within 35 days of the date of publication of this notice in the **Federal Register** or within such longer period (i) as the Commission may designate up to 90 days of such date if it finds such longer period to be appropriate and publishes its reasons for so doing or (ii) as to which the NASD consents, the Commission will:

A. by order approve such proposed rule change, or

B. institute proceedings to determine whether the proposed rule change should be disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing. Persons making written submissions should file six copies thereof with the Secretary, Securities and Exchange Commission, 450 Fifth Street NW., Washington, DC 20549. Copies of the submissions, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for inspection and copying in the Commission's Public Reference Room. Copies of such filing will also be available for inspection and copying at the principal office of the NASD. All submissions should refer to the file number in the caption above and should be submitted by May 14, 1990.

For the Commission, by the Division of Market Regulations, pursuant to delegated authority, 17 CFR 200.30-3(a)(12).

Dated: April 17, 1990.

Jonathan G. Katz,

Secretary.

BILLING CODE 8010-01-M

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

[Summary Notice No. PE-90-17]

Petitions for Exemption; Summary of Petitions Received; and Dispositions of Petitions Issued

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of petitions for exemption received and of dispositions of prior petitions.

SUMMARY: Pursuant to FAA's rulemaking provisions governing the application, processing, and disposition of petitions for exemption (14 CFR part 11), this notice contains a summary of certain petitions seeking relief from specified requirements of the Federal Aviation Regulations (14 CFR chapter I), dispositions of certain petitions previously received, and corrections. The purpose of this notice is to improve the public's awareness of, and participation in, this aspect of FAA's regulatory activities. Neither publication of this notice nor the inclusion or omission of information in the summary is intended to affect the legal status of any petition or its final disposition.

DATES: Comments on petitions received must identify the petition docket number involved and must be received on or before: May 14, 1990.

ADDRESSES: Send comments on any petition in triplicate to: Federal Aviation Administration, Office of the Chief Counsel, Attn: Rules Docket (AGC-10), Petition Docket No. _____, 800 Independence Avenue SW., Washington, DC 20591.

FOR FURTHER INFORMATION CONTACT: The petition, any comments received, and a copy of any final disposition are filed in the assigned regulatory docket and are available for examination in the Rules Docket (AGC-10), room 915G, FAA Headquarters Building (FOB 10A), 800 Independence Avenue SW., Washington, DC 20591; telephone (202) 267-3132.

This notice is published pursuant to paragraphs (c), (e), and (g) of § 11.27 of part 11 of the Federal Aviation Regulations (14 CFR part 11).

Issued in Washington, DC, on April 18, 1990.

Denise Donohue Hall,

Manager, Program Management Staff, Office of the Chief Counsel.

Petitions for Exemption

Docket No.: 12638.

Petitioner: Air Transport Association of America.

Sections of the FAR Affected: 14 CFR 121.99 and 121.351(a).

Description of Relief Sought: To amend Exemption No. 2081L that allows Eastern Airlines, Inc., Pan American World Airways, and Trans World Airlines to dispatch part 121 aircraft subject to certain conditions and limitations over certain ocean areas with one of the two required high-frequency radios inoperative at the time of departure. The amendment would grant similar relief to American Trans Air, Inc., and USAir, Inc.

Docket No.: 23980.

Petitioner: United States Hang Gliding Association, Inc.

Sections of the FAR Affected: 14 CFR 91.17 and 103.1(b).

Description of Relief Sought: To allow petitioner's members to tow unpowered ultralights with a powered ultralight.

Docket No.: 26119.

Petitioner: Mr. Frank N. Chase.

Sections of the FAR Affected: 14 CFR 121.383(c).

Description of Relief Sought: To allow petitioner to serve as a pilot of an aircraft engaged in air carrier operations under part 121 after his 60th birthday.

Docket No.: 26168.

Petitioner: Petroleum Helicopters, Inc.

Sections of the FAR Affected: 14 CFR 21.197(c)(2).

Description of Relief Sought: To allow petitioner to issue special flight permits with a continuing authorization for its aircraft maintained and operated under an approved Aircraft Inspection Program allowed in § 135.419.

Dispositions of Petitions

Docket No.: 24741.

Petitioner: United Airlines, Inc.

Sections of the FAR Affected: 14 CFR part 121, appendix H.

Description of Relief Sought/ Disposition: To allow petitioner to use instructors who have not met the 1-year employment requirement and to permit that requirement to be met by employment with any other part 121 air carrier or in military high-performance jet operations.

PARTIAL GRANT, April 13, 1990, Exemption No. 5171

Docket No.: 26035.

Petitioner: Hector R. Ponce.

Sections of the FAR Affected: 14 CFR 65.71(a)(3).

Description of Relief Sought/ Disposition: To allow petitioner additional time in which to take the mechanic certification test.

DENIAL, April 9, 1990, Exemption No. 5170.

DEPARTMENT OF THE TREASURY

[No. 100-09]

Delegation of Authority to Under Secretary of the Treasury

April 17, 1990.

Subject: Delegation of Authority to the Under Secretary of the Treasury for Finance to Serve on the Board of Directors of the Farm Credit System Assistance Board.

By virtue of the authority vested in me as Secretary of the Treasury, including the authority vested in me by 31 U.S.C. 321(b), I hereby designate the Under Secretary of the Treasury for Finance to serve as my representative on the Board of Directors of the Farm Credit System Assistance Board ("Assistance Board"), and to exercise any power and perform any function and duty that I am authorized to exercise and perform as a member of the Board of Directors of the Assistance Board, with authority to redelegate such authority.

This Order supersedes Treasury Order 100-07, "Designation of Deputy Secretary to Serve on the Board of Directors of the Farm Credit Assistance Board," dated July 7, 1988.

Nicholas F. Brady,

Secretary of the Treasury.

UNITED STATES INFORMATION AGENCY

Culturally Significant Objects Imported for Exhibition

Determination

Notice is hereby given of the following determination: Pursuant to the authority vested in me by the act of October 19, 1965 (79 Stat. 985, 22 U.S.C. 2459), Executive Order 12047 of March 27, 1978 (43 FR 13359, March 29, 1978), and Delegation Order No. 85-5 of June 27, 1985 (50 FR 27393, July 2, 1985), I hereby determine that the objects to be included in the exhibit "Architectural Drawings of The Russian Avant-Garde 1917-1935" (see list [1]), imported from abroad for the temporary exhibition without profit within the United States, are of cultural significance. These objects are imported pursuant to loan agreements with the foreign lenders. I also determine that the temporary exhibition or display of the listed exhibit objects at the Museum of Modern Art, 11 West 53 Street, New York, New York beginning on or about June 27, 1990 to on or about September 4, 1990, is in the national interest.

Public notice of this determination is ordered to be published in the **Federal Register.**

[1] A copy of this list may be obtained by contacting Lorie J. Nierenberg of the Office of the General Counsel of USIA. The telephone number is 202/485-8827, and the address is room 700, U.S. Information Agency, 301 Fourth Street SW., Washington, DC 20547.

Dated: April 13, 1990.

Alberto J. Mora,

General Counsel.

BILLING CODE 8230-01-M

Grants Program for Private, Non-Profit Organizations in Support of International and Cultural Activities

AGENCY: United States Information Agency.

ACTION: The letter of interest and proposal submission deadlines for the following Initiative Grant Projects have been extended.

Economic Development and Environmental Protection

The Relationship Between Government and Media in the U.S.

In order to receive grant application materials, prospective applicants should express their interest in writing no later than two weeks from publication of this announcement, to the Office of Private Sector Programs at the address given below. Upon receipt of a letter of interest, E/PI will forward the project concept paper and all necessary application materials. Final proposals, complete with all necessary documentation and forms will be due by close of business, six weeks from the publication of this announcement.

Proposals must be in accordance with Project Proposal Information Requirements [OMB #31180175].

Grants/Bilateral Accords Division, Office of Private Sector Programs, United States Information Agency, 301 4th Street SW., room 220, Washington, DC 20547, Attention: Michael Ringler.

SUMMARY: This notice hereby extends the letter of interest and proposal submission deadlines for the above projects previously published in the **Federal Register** January 30, 1990 (55 FR 3136-3141). The subjects and themes of the proposed projects remain the same. The deadline for receipt of proposals is now close of business six weeks from the publication date of this announcement.

Dated: April 5, 1990.

Stephen J. Schwartz,

Director.

Sunshine Act Meetings

Federal Register
Vol. 55, No. 78
Monday, April 23, 1990

This section of the FEDERAL REGISTER contains notices of meetings published under the "Government in the Sunshine Act" (Pub. L. 94-409) 5 U.S.C. 552b(e)(3).

FEDERAL ENERGY REGULATORY COMMISSION

April 18, 1990

The following notice of meeting is published pursuant to Section 3(a) of the Government in the Sunshine Act (Pub. L. No. 94–49), 5 U.S.C. 552B:

DATE AND TIME: April 25, 1990, 10:00 a.m.

PLACE: 825 North Capitol Street, NE., Room 9306, Washington, DC 20426.

STATUS: Open.

MATTERS TO BE CONSIDERED: Agenda.

Note.—Items listed on the agenda may be deleted without further notice.

CONTACT PERSON FOR MORE INFORMATION: Lois D. Cashell, Secretary, Telephone (202) 208–0400.

This is a list of matters to be considered by the Commission. It does not include a listing of all papers relevant to the items on the agenda; however, all public documents may be examined in the Reference and Information Center.

Note: The agenda format has been revised to include new agenda prefixes: CAH, CAE, H, E, PR, PF and PC. All parts of the consent agenda will continue to be called and voted on as a single group. Consent items which are called separately at the request of a member of the Commission will be called at the end of that part of the regular agenda for the applicable substantive area (for example, CAH–5 would be considered after the last regular Hydro agenda item).

Consent Agenda—Hydro, 915th Meeting—April 25, 1990, Regular Meeting (10:00 a.m.)

LIST OF PUBLIC LAWS

Last List April 16, 1990

This is a continuing list of public bills from the current session of Congress which have become Federal laws. It may be used in conjunction with "P L U S" (Public Laws Update Service) on 523-6641. The text of laws is not published in the **Federal Register** but may be ordered in individual pamphlet form (referred to as "slip laws") from the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402 (phone 202-275-3030).

S. 1813/Pub. L. 101-272

To ensure that funds provided under section 4213 of the Indian Alcohol and Substance Abuse Prevention and Treatment Act of 1986 may be used to acquire land for emergency shelters. (Apr. 18, 1990; 104 Stat. 137; 1 page) Price: $1.00

S. 1949/Pub. L. 101-273

To amend the Labor Management Relations Act of 1947 to permit parties engaged in collective bargaining to bargain over the establishment and administration of trust funds to provide financial assistance for employee housing. (Apr. 18, 1990; 104 Stat. 138; 1 page) Price: $1.00

CFR CHECKLIST

This checklist, prepared by the Office of the Federal Register, is published weekly. It is arranged in the order of CFR titles, prices, and revision dates.

An asterisk (*) precedes each entry that has been issued since last week and which is now available for sale at the Government Printing Office.

New units issued during the week are announced on the back cover of the daily **Federal Register** as they become available.

A checklist of current CFR volumes comprising a complete CFR set, also appears in the latest issue of the LSA (List of CFR Sections Affected), which is revised monthly.

The annual rate for subscription to all revised volumes is $620.00 domestic, $155.00 additional for foreign mailing.

Order from Superintendent of Documents, Government Printing Office, Washington, DC 20402. Charge orders (VISA, MasterCard, or GPO Deposit Account) may be telephoned to the GPO order desk at **(202) 783-3238** from 8:00 a.m. to 4:00 p.m. eastern time, Monday—Friday (except holidays).

[1] Because Title 3 is an annual compilation, this volume and all previous volumes should be retained as a permanent reference source.

[2] No amendments to this volume were promulgated during the period Jan. 1, 1987 to Dec. 31, 1989. The CFR volume issued January 1, 1987, should be retained.

[3] The July 1, 1985 edition of 32 CFR Parts 1–189 contains a note only for Parts 1–39 inclusive. For the full text of the Defense Acquisition Regulations in Parts 1–39, consult the three CFR volumes issued as of July 1, 1984, containing those parts.

[4] The July 1, 1985 edition of 41 CFR Chapters 1–100 contains a note only for Chapters 1 to 49 inclusive. For the full text of procurement regulations in Chapters 1 to 49, consult the eleven CFR volumes issued as of July 1, 1984 containing those chapters.

The United States Government Manual 1989/90

As the official handbook of the Federal Government, the *Manual* is the best source of information on the activities, functions, organization, and principal officials of the agencies of the legislative, judicial, and executive branches. It also includes information on quasi-official agencies and international organizations in which the United States participates.

Particularly helpful for those interested in where to go and who to see about a subject of particular concern is each agency's "Sources of Information" section, which provides addresses and telephone numbers for use in obtaining specifics on consumer activities, contracts and grants, employment, publications and films, and many other areas of citizen interest. The *Manual* also includes comprehensive name and agency/subject indexes.

Of significant historical interest is Appendix C, which lists the agencies and functions of the Federal Government abolished, transferred, or changed in name subsequent to March 4, 1933.

The *Manual* is published by the Office of the Federal Register, National Archives and Records Administration.

Guide to Record Retention Requirements

in the Code of Federal Regulations (CFR)

GUIDE: Revised January 1, 1989
SUPPLEMENT: Revised January 1, 1990

The GUIDE and the SUPPLEMENT should be used together. This useful reference tool, compiled from agency regulations, is designed to assist anyone with Federal recordkeeping obligations.

The various abstracts in the GUIDE tell the user (1) what records must be kept, (2) who must keep them, and (3) how long they must be kept.

The GUIDE is formatted and numbered to parallel the CODE OF FEDERAL REGULATIONS (CFR) for uniformity of citation and easy reference to the source document.

Compiled by the Office of the Federal Register, National Archives and Records Administration.

Order from Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402–9325.

Public Laws

are now available for the 101st Congress, 2nd Session, 1990

Pamphlet prints of public laws, often referred to as slip laws, are the initial publication of Federal laws upon enactment and are printed as soon as possible after approval by the President. Legislative history references appear on each law. Subscription service includes all public laws, issued irregularly upon enactment, for the 101st Congress, 2nd Session, 1990.

(Individual laws also may be purchased from the Superintendent of Documents, Washington, DC 20402-9328. Prices vary. See Reader Aids Section of the Federal Register for announcements of newly enacted laws and prices).

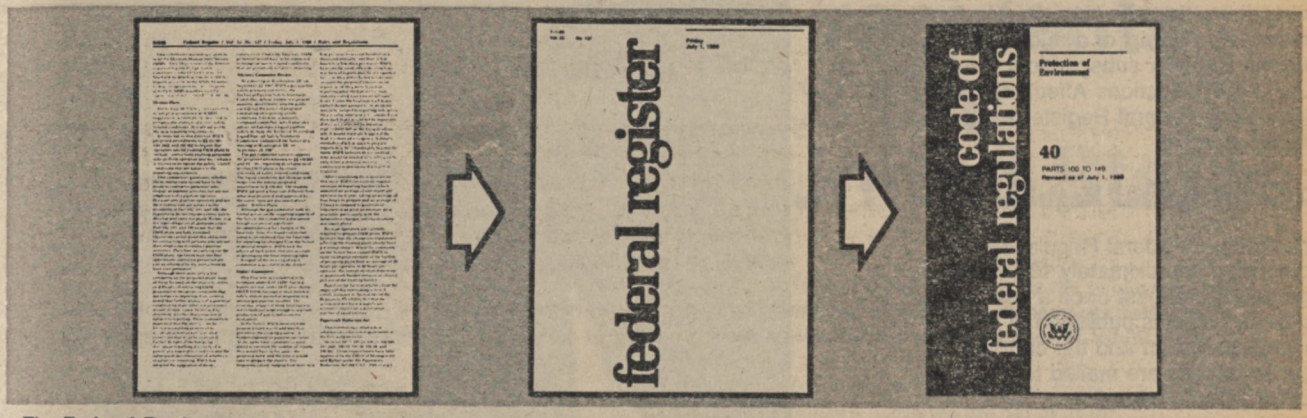
The Federal Register

Regulations appear as agency documents which are published daily in the **Federal Register** and codified annually in the **Code of Federal Regulations**



The **Federal Register,** published daily, is the official publication for notifying the public of proposed and final regulations. It is the tool for you to use to participate in the rulemaking process by commenting on the proposed regulations. And it keeps you up to date on the Federal regulations currently in effect.

Mailed monthly as part of a **Federal Register** subscription are: the LSA (List of CFR Sections Affected) which leads users of the **Code of Federal Regulations** to amendatory actions published in the daily **Federal Register;** and the cumulative **Federal Register Index.**

The **Code of Federal Regulations** (CFR) comprising approximately 196 volumes contains the annual codification of the final regulations printed in the **Federal Register.** Each of the 50 titles is updated annually.

Individual copies are separately priced. A price list of current **CFR** volumes appears both in the **Federal Register** each Monday and the monthly **LSA** (List of **CFR** Sections Affected). Price inquiries may be made to the Superintendent of Documents, or the Office of the Federal Register.

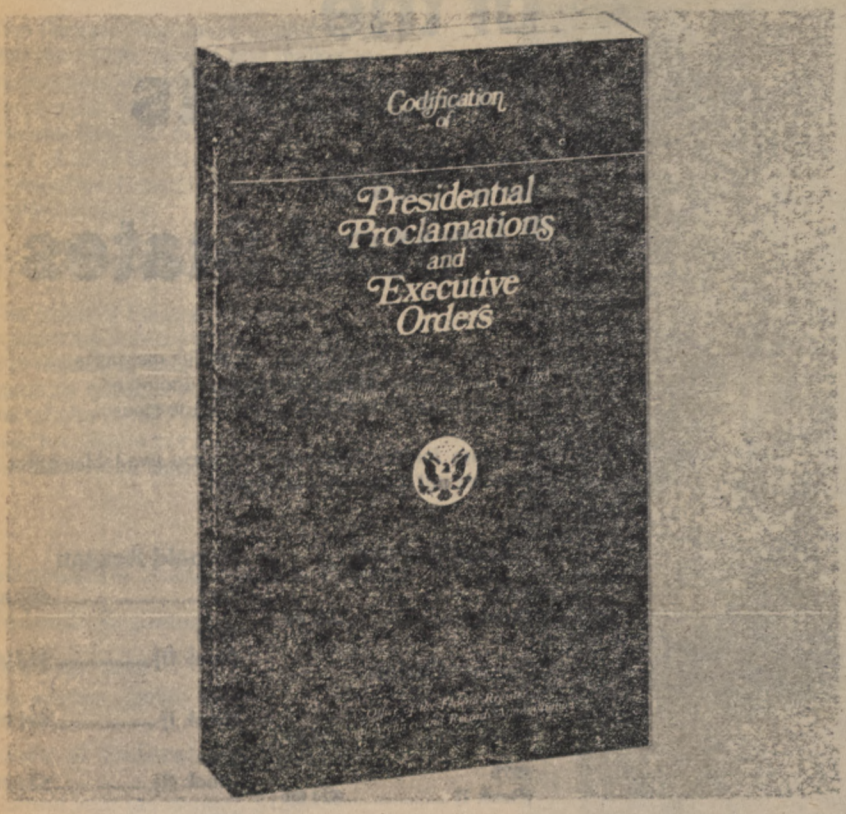
(Rev. 9–18–89)

New edition .... Order now !



For those of you who must keep informed about **Presidential Proclamations and Executive Orders,** there is a convenient reference source that will make researching these documents much easier.

Arranged by subject matter, this edition of the *Codification* contains proclamations and Executive orders that were issued or amended during the period April 13, 1945, through January 20, 1989, and which have a continuing effect on the public. For those documents that have been affected by other proclamations or Executive orders, the codified text presents the amended version. Therefore, a reader can use the *Codification* to determine the latest text of a document without having to "reconstruct" it through extensive research.

Special features include a comprehensive index and a table listing each proclamation and Executive order issued during the 1945–1989 period—along with any amendments—an indication of its current status, and, where applicable, its location in this volume.

Department of the Treasury

Semiannual Regulatory Agenda

DEPARTMENT OF THE TREASURY (TREAS)

DEPARTMENT OF THE TREASURY (TREAS)
Departmental Offices (DO)

DEPARTMENT OF THE TREASURY

31 CFR Subtitle A, Chs. I and II

Semiannual Agenda

AGENCY: Departmental Offices, Treasury.

ACTION: Semiannual agenda.

SUMMARY: This notice is given pursuant to the requirements of the "Regulatory Flexibility Act" (Pub. L. 96-354, September 19, 1980) and Executive Order 12291 "Federal Regulation" (February 17, 1981), which require the publication of a semiannual agenda of regulations. The semiannual agenda of the Department of the Treasury conforms to the Unified Agenda format developed by the Regulatory Information Service Center (RISC).

FOR FURTHER INFORMATION CONTACT: For additional information about a specific departmental offices' regulation, contact the "agency contact" listed in the specific regulatory action. For general information concerning the agenda, contact Richard S. Carro, Associate General Counsel, Room 1422, 1500 Pennsylvania Avenue NW., Washington, DC 20220, (202) 566-2558; not a toll-free call.

Dated: March 15, 1990.

Emily L. Walker,

Executive Secretary.

Departmental Offices—Proposed Rule Stage

Sequence Number	Title	Regulation Identifier Number

2310. ● FEDERAL PAYMENTS MADE THROUGH FINANCIAL INSTITUTIONS BY THE AUTOMATED CLEARING HOUSE METHOD

Significance: Agency Priority

Legal Authority: 5 USC 5525; 12 USC 391; 31 USC 321

CFR Citation: 31 CFR 210

Legal Deadline: None

Abstract: With the increased use and greater capability of the Automated Clearing House (ACH) method for making Government payments, the Financial Management Service (FMS) plans to electronically move more remittance information with Government payments. An addenda record will accompany the payment and will serve as an electronic check stub. FMS proposes to require that financial institutions, as part of posting payments to payees' accounts, also post the remittance information contained in the addenda record. Financial institutions can notify payees by printing the message on the bank statements or by issuing separate notices. The information contained in the addenda record is of key importance to a payee and a financial institution by fulfilling a customer need and providing the information to its customer. The proposed Federal Register Notice of Intent is aimed at eliciting reaction, such as cost, capacity, and potential problems, from the financial industry on required passage of consumer and corporate addendum information.

2311. REVISION OF 31 CFR PART 205 (TDC NO. 1075), PAYMENTS BETWEEN THE FEDERAL GOVERNMENT AND RECIPIENT ORGANIZATIONS

Significance: Agency Priority

Legal Authority: 31 USC 6503

CFR Citation: 31 CFR 205

Legal Deadline: None

Abstract: Revision of 31 CFR 205 will implement a new funding technique for Federal programs. The regulation would require a State to pay interest on Federal funds from the time they are deposited to the State's account until the time those funds are paid out to redeem checks or warrants or make payments by other means. This new "Checks Issued-Interest Remitted" technique was developed in response to statutes in some States that require that funds reside in a bank account prior to the issuance of checks. This revision also provides for the remittance of interest by the Federal Government if a State disburses its own funds for

program purposes in accordance with Federal law, regulation or Federal/State agreement.(cont)

Additional Information: In addition, other cash management issues discussed by the State/Federal Cash Management Reform Task Force will be addressed in this regulation. This regulation is pending legislation.

Agency Contact: M. Fred Williams, Project Manager, State/Federal Equity Program, Department of the Treasury, Financial Management Service, 401 14th Street, SW., Room 420B, Washington, DC 20227, 202 287-0590

RIN: 1510–AA00

2312. REGULATIONS GOVERNING SURETY COMPANIES DOING BUSINESS WITH THE UNITED STATES

Significance: Agency Priority

Legal Authority: 31 USC 9301 to 9309

CFR Citation: 31 CFR 223, (Revision)

Legal Deadline: None

Abstract: The revision makes editorial changes, and contains substantive changes to sections concerning business experience, collateral and reinsurance requirements. Substantive changes include: 1) a 3-year aging requirement in order to qualify for Treasury certification, 2) elimination of the alternative to use collateral for protecting excess risks, and 3) a requirement that all reinsurance on Federal bonds be placed with companies recognized by Treasury for reinsurance purposes. The proposed regulations provide provisions for exceptions to the aging and reinsurance regulations under certain circumstances. These regulations will help Treasury ensure that certified companies are capable of carrying out their surety contracts.

[Notice No. 697]

Unified Agenda of Federal Regulations

AGENCY: Bureau of Alcohol, Tobacco and Firearms (ATF), Treasury.

ACTION: General Notice; Unified Agenda of Federal Regulations of regulatory projects under development, consideration, and review.

SUMMARY: Pursuant to section 5 of Executive Order 12291 entitled, "Federal Regulation," ATF is publishing an agenda of proposed regulations that are expected to be issued and of proposed regulations that have been issued and an agenda of existing regulations that are being reviewed under the terms of the Executive order within the next 6 months. The latter agenda also lists regulatory projects identified for review pursuant to the ATF Regulatory Reform Program. Pursuant to section 610 of the Regulatory Flexibility Act (Pub. L. 96-354; 5 U.S.C. 610), ATF is also indicating whether a regulatory project is likely to have a significant economic impact upon a substantial number of small entities.

This general notice is designed to give the public adequate notice of the regulatory activities being contemplated by ATF.

The agenda is based on information available at the present time. The next Unified Agenda of Federal Regulations will be published in the Federal Register of October 1990.

FOR FURTHER INFORMATION CONTACT: For information about any particular regulatory project, contact the person listed in the subheading "Agency Contact" for the regulatory project.

For general information about this general notice, contact Lori Weins, Wine and Beer Branch, Bureau of Alcohol, Tobacco and Firearms, Ariel Rios Federal Building, 1200 Pennsylvania Avenue NW., Washington, DC 20226, (202) 566-7626.

Issuance

By direction of the Secretary of the Treasury, this general notice reads as set forth below.

Stephen E. Higgins,

Director.

2313. RECODIFICATION OF 27 CFR PART 4

Significance: Agency Priority

Legal Authority: 27 USC 205

CFR Citation: 27 CFR 4

Legal Deadline: None

Abstract: To revise the wine labeling and advertising regulations; where applicable, to incorporate production regulations; and due to statutory amendments requested, may result in a legislative submission.

Timetable:

Action	Date	FR Cite
NPRM	06/00/91	

Small Entities Affected: None

Government Levels Affected: None

Additional Information: Additional Agency Contact: Ed Reisman

Agency Contact: James Hunt, ATF Coordinator, Department of the Treasury, Bureau of Alcohol, Tobacco and Firearms, Ariel Rios Federal Building, 1200 Pennsylvania Avenue, NW., Washington DC 20226, 202 566-7626

RIN: 1512–AA17

2314. WINE LABELING REGULATION ISSUES

Significance: Agency Priority

Legal Authority: 27 USC 205(e); 27 USC 205(f)

CFR Citation: 27 CFR 4

Legal Deadline: None

Abstract: Wine labeling issues addressed: 1. Transported grapes to retain viticultural area designation 2. Certain wines allowed "other than standard" on label 3. Harvest date for fruit, berry and agricultural wines 4. Another use of the term "Estate Bottled" 5. Harvest labeling for wine.

Government Levels Affected: None

Agency Contact: James Hunt, ATF Coordinator, Department of the Treasury, Bureau of Alcohol, Tobacco and Firearms, Ariel Rios Federal Building, 1200 Pennsylvania Avenue, NW., Washington DC 20226, 202 566-7626

RIN: 1512–AA31

2315. RECODIFICATION OF 27 CFR PART 250 AS 27 CFR PART 26

Significance: Agency Priority

Legal Authority: 26 USC 7651 to 7652; PL 85-859; 26 USC 5314; 26 USC 7805

CFR Citation: 27 CFR 250

Legal Deadline: None

Abstract: As part of the recodification of Part 250, we plan to simplify, consolidate and or eliminate as many sections of regulations as possible placing particular emphasis on reducing the number of recordkeeping requirements, forms, and customs responsibilities. Wherever possible, we plan to utilize a proprietor's commercial records in lieu of requiring the proprietor to submit public use forms. These changes to Part 250 should considerably reduce the burden hours on industry.

2322. LABELING AND ADVERTISING OF WINE, DISTILLED SPIRITS AND MALT BEVERAGES; USE OF THE WORD "LIGHT (LITE)"

Significance: Agency Priority

Legal Authority: 27 USC 205(e); 27 USC 205(f)

CFR Citation: 27 CFR 4; 27 CFR 5; 27 CFR 7

Legal Deadline: None

Abstract: "Light (Lite)" was addressed to a limited extent in Notice No. 362 (45 FR 83530). However, subsequent to its publication ATF was petitioned by the Center for Science in the Public Interest (CSPI), requesting mandatory caloric labeling on all alcohol beverages, as well as the establishment of upper limits on calories in products labeled as "light (lite)." Comments were requested on CSPI's petition as well as other issues involving use of the term "light (lite)."

2326. NON-GENERIC DESIGNATIONS OF GRAPE WINE HAVING GEOGRAPHICAL SIGNIFICANCE

Significance: Agency Priority

Legal Authority: 27 USC 205

CFR Citation: 27 CFR 4.24

Legal Deadline: None

Abstract: This proposal expands the list of names officially recognized under 27 CFR Part 4, as being non-generic for the purposes of labeling and advertising of wine. This proposal is the result of petitions from numerous foreign countries for ATF recognition of non-generic wine designations which, in their view, denote distinctive national products. This proposal is also an outgrowth of one of the commitments made by the United States, in the Exchange of Letters of July 26, 1983 with the Commission of the European Communities, to work within the regulatory framework of 27 CFR Part 4, to prevent erosion of non-generic designations of geographic significance. For practical reasons it is being proposed that only "examples" of non-generic designations be listed in Part 4 while a complete list of all non-generic designations be listed in a new Part 12.

2327. LABELING AND ADVERTISING OF WINE, DISTILLED SPIRITS, AND MALT BEVERAGES; DISCLOSURE OF FD & C YELLOW NO. 6

Significance: Agency Priority

Legal Authority: 27 USC 205

CFR Citation: 27 CFR 4.32; 27 CFR 5.32; 27 CFR 7.22

Legal Deadline: None

Abstract: ATF is proposing to amend the regulations by requiring the mandatory disclosure of FD & C Yellow No. 6 on labels of alcoholic beverages.

TREAS—BATF **Final Rule Stage**

because of evidence indicating the possibility of allergic-type reactions to the color additive. As in the case of FD & C Yellow No. 5, which also requires label disclosure under existing regulations FD & C Yellow No. 6 is used infrequently in the production of alcoholic beverages being limited to mostly cocktails, liqueurs, and other specialty products.

2336. FIREWORKS REGULATIONS

Significance: Agency Priority

Legal Authority: 18 USC 841 to 848

CFR Citation: 27 CFR 55

Legal Deadline: None

Abstract: Information gathering on safe handling of explosive materials in the fireworks industry is necessary due to accidental explosions causing death. Injuries and property damage have occurred at fireworks manufacturing and assembling plants. Damage has been in the millions of dollars and some regulatory changes are needed. This notice to gather information is to determine changes needed and potential costs.

Comptroller of the Currency

12 CFR Ch. I

Semiannual Agenda of Regulatory Actions

AGENCY: Office of the Comptroller of the Currency, Treasury.

ACTION: Semiannual agenda of regulations.

SUMMARY: As required by the Regulatory Flexibility Act and Executive Order 12291, the Office of the Comptroller of the Currency (Office) has prepared this semiannual agenda of its rules and regulations currently under review and scheduled for review. Regulatory actions taken since the publication of the Office's previous semiannual agenda on October 30, 1989 (54 FR 45068), are also included. It is expected that this semiannual agenda will enable the public to be more aware of and allow it to more effectively participate in the Office's regulatory activity.

ADDRESS: The mailing address for all contacts: Office of the Comptroller of the Currency, 490 L'Enfant Plaza East SW., Washington, DC 20219.

FOR FURTHER INFORMATION CONTACT: For general information about this semiannual agenda, contact Nancy Lowther, Financial Analyst, Legislative and Regulatory Analysis Division, (202) 447-1177.

For additional information about a particular item on this semiannual agenda, contact the individual identified as the contact person.

SUPPLEMENTARY INFORMATION: The Office has determined that none of the rulemakings discussed in this semiannual agenda require a regulatory flexibility analysis; all entries have been determined not to have a "significant impact on a substantial number of small entities" and, therefore, are not subject to the provisions of the Act. Additionally, none of the rules is a major rule as defined by Executive Order 12291. Executive Order 12291 defines a "major rule" as one likely to result in:

(1) An annual effect on the economy of $100 million or more;

(2) a major increase in costs or prices for consumers; individual industries; Federal, State, or local government agencies; or geographic regions; or

(3) significant adverse effects on competition, employment, investment, productivity, innovation, or on the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets.

Dated: February 28, 1990.

Robert L. Clarke,

Comptroller of the Currency.

2337. ● MINIMUM CAPITAL RATIOS; ISSUANCE OF DIRECTIVES

Legal Authority: 12 USC 93a

CFR Citation: 12 CFR 3

Legal Deadline: None

Abstract: This advance notice of proposed rulemaking will solicit public comment on the treatment of mortgage servicing rights held by national banks

for the purpose of determining capital adequacy. The OCC requests comments on all aspects of this issue. Suggested topics include, but are not limited to: capital limits, recourse, valuation, revocation of mortgage servicing rights, and mortgage servicing standards. The effect on small entities will be considered in the development of any rulemaking.

2338. ● FIDUCIARY POWERS OF NATIONAL BANKS AND COLLECTIVE INVESTMENT FUNDS

Legal Authority: 12 USC 93a

CFR Citation: 12 CFR 9

Legal Deadline: None

Abstract: The OCC is proposing to amend 12 CFR 9 to address the conflicts of interest created when a national bank is the trustee to an issue of debt securities and enters into additional banking relationships with the issue or issuer, including, but not limited to, the following: securities underwriter, letter of credit enhancer, originator of loans to collateralize the debt securities, or a commercial credit provider. Such multiple roles may serve to reduce the quality of disinterested services provided to both issuers and investors and further expose the bank and the depositors to significant liabilities if investors or issuers suffer losses as a result of a bank trustee's failure to act in their best interests. To the extent possible, the OCC would like to ensure that national banks do not assume conflicting roles which may become unmanageable if the security goes into default. Although the opportunity for national banks to serve in more than one capacity with respect to a debt security issue is not new, there appears to be an increased interest by national banks to undertake multiple roles. The effect on small entities will be considered in the (cont)

Proposed Rule Stage

2339. FIDUCIARY POWERS OF NATIONAL BANKS AND COLLECTIVE INVESTMENT FUNDS

Legal Authority: 12 USC 93a; 12 USC 92a; 12 USC 481

CFR Citation: 12 CFR 9

Legal Deadline: None

Abstract: The OCC is proposing to amend its regulations governing the exercise of fiduciary powers by national banks. The intent of these amendments is twofold: First, the proposed rule is intended to codify recent court decisions regarding collective Individual Retirement Account ("IRA") funds; and second, the proposed rule is intended to liberalize and make less burdensome the requirements of 12 CFR 9.18, regarding the management of collective investment funds by institutions exercising fiduciary powers, in a manner which would preserve appropriate protection for trusts and persons with interests therein. In addition to the codification of recent court decisions that authorize national banks to establish collective IRA funds which are registered with the Securities and Exchange Commission under the Investment Company Act of 1940, the proposal also would authorize the establishment of such registered collective funds whose assets consist of Keogh accounts or any other retirement accounts authorized under sections 401 and 408 of the Internal Revenue Code (26 USC 401 and 408). The proposed rule would also eliminate certain Federal regulatory provisions which (cont)

2340. PRODUCTION OF DOCUMENTS AND TESTIMONY IN LITIGATION WHERE THE COMPTROLLER OR THE OFFICE IS NOT A PARTY

Legal Authority: 5 USC 301; 12 USC 481; 5 USC 552(b)(8); 18 USC 641; 18 USC 1905; 18 USC 1906

CFR Citation: 12 CFR 4.19; 12 CFR 4.18(c); 12 CFR 7.6025(c); 12 CFR 4.18(a); 12 CFR 4.18(b); 12 CFR 4.16(b); 12 CFR 4.13 to 4.17a

Legal Deadline: None

Abstract: This rule governs the release by the OCC of confidential documents and testimony for use in litigation in which the OCC is not a party. The OCC is considering changing the rule to spell out the exact requirements for a request for such release, and the situations under which release might by authorized. The effect on small entities will be considered in the development of this rulemaking.

2341. SECURITIES EXCHANGE ACT DISCLOSURE RULES

Legal Authority: 15 USC 78

CFR Citation: 12 CFR 11, (New Subsection)

Legal Deadline: None

Abstract: The proposed rule would require that more detailed and meaningful information be provided to shareholders and the OCC concerning banks' loan portfolios, including loans to borrowers in foreign countries experiencing liquidity problems, other sources of income and exposure to risks. This will assist shareholders in evaluating proposals for mergers, consolidations, acquisitions and similar matters and will assist the OCC in administering and enforcing the Securities Exchange Act of 1934 as it applies to national banks. The OCC considered not proposing the additional amendments or proposing them as a general guide rather than a rule. However, the OCC determined it was appropriate to propose the additional requirements as amendments to Part 11 because the OCC believes the proposed requirements will help to clarify the types of disclosures which the OCC, shareholders and the public would consider material in analyzing various Exchange Act filings and statements. The proposed rule will also include amendments to update Part 11 to conform with recent amendments by the Securities and Exchange Commission to its Securities Exchange Act Disclosure Rules. 2342. SECURITIES OFFERING DISCLOSURE RULES

Legal Authority: 12 USC 1818; 12 USC 93a

CFR Citation: 12 CFR 16

Legal Deadline: None

Abstract: This regulation contains the OCC's disclosure requirements for securities offerings by national banks. The OCC is considering revisions which would clarify the coverage of the rule, specify the OCC's enforcement authority in connection with the rule, liberalize nonpublic offering requirements, provide for more meaningful disclosure requirements in public offerings, revise financial information requirements to be more consistent with 12 CFR 11, and where practicable, incorporate by reference provisions of 12 CFR 11. The effect on small entities will be considered in the development of this rulemaking.

Legal Authority: 12 USC 93a; 12 USC 1818; 12 USC 1881 to 1884; 31 USC 5311 et seq; PL 101-73 FIRREA

CFR Citation: 12 CFR 21

Legal Deadline: None

Abstract: The OCC, in conjunction with the other depository institution regulatory agencies, has reviewed 12 CFR 21 and has determined that portions of the regulation should be revised to reflect changes in the

technology of bank security devices, and to implement changes required by the Financial Institutions Reform, Recovery, and Enforcement Act of 1989 ("FIRREA"). The proposed revisions to Part 21 will serve the dual purpose of incorporating the amendments made to the Bank Protection Act of 1968 by FIRREA and providing depository institutions with the flexibility to avoid the problems of technical obsolescence that have occurred with the existing regulation. The effect on small entities will be considered in the development of this rulemaking.

2353. ● SHAREHOLDER ACTION BY UNANIMOUS WRITTEN CONSENT

Legal Authority: 12 USC 93a

CFR Citation: 12 CFR 7.4025 (New)

Legal Deadline: None

Abstract: This rulemaking will establish a method for action by national bank shareholders through unanimous written consent. The procedure would be available whenever a shareholders' meeting is not required by law, thus saving national banks the legal and regulatory burden of holding a shareholders' meeting. The effect on small entities will be considered in the development of this rulemaking.

2354. ● MINIMUM CAPITAL RATIOS; ISSUANCE OF DIRECTIVES

Legal Authority: 12 USC 93a; 12 USC 161; 12 USC 1818; 12 USC 3907; 12 USC 3909

CFR Citation: 12 CFR 3

Legal Deadline: None

Abstract: This proposed regulation would make various technical and conforming amendments to the risk-based capital guidelines applicable to national banks. These amendments would make a variety of changes to clarify the provisions relating to (1) the definition of central government, (2) the unused portion of commitments, (3) the calculation of Tier 2 capital, (4) the redemption of capital instruments, (5) the authority of the OCC to permit supervisory goodwill as capital, (6) the 25% limitation on qualifying intangibles, (7) local currency claims guaranteed by non-OECD central governments, (8) claims on non-OECD central banks, (9) assets sold with recourse, and (10) the definition of credit card lines. The effect on small entities will be considered in the development of this rulemaking.

2355. ● RULES, POLICIES, AND PROCEDURES FOR CORPORATE ACTIVITIES: CHANGES IN DIRECTORS AND SENIOR EXECUTIVE OFFICERS

Legal Authority: 12 USC 93a; PL 101-73 FIRREA; 12 USC 1831i

CFR Citation: 12 CFR 5.51 (New)

Legal Deadline: None

Abstract: This temporary rule amending 12 CFR 5 implements Section 914 of the Financial Institutions Reform, Recovery, and Enforcement Act of 1989 (FIRREA) by adding a new section 5.51. The new section requires certain national banks to file a notice with the OCC prior to adding or replacing a member of the board of directors, and prior to employing or changing the responsibilities of an individual to a position as senior executive officer. The OCC may disapprove any proposed board member or senior executive officer whose service is not considered to be in the best interests of the depositors of the national bank or the public. The regulation will not have a significant economic impact on a substantial number of small entities.

2356. ● COMMUNITY REINVESTMENT ACT REGULATIONS

Legal Authority: 12 USC 93a; PL 101-73 FIRREA; PL 95-128, 91 Stat 1147; 12 USC 2901 et seq; 12 USC 21; 12 USC 22; 12 USC 26; 12 USC 27; 12 USC 30; 12 USC 36; 12 USC 161; 12 USC 215; 12 USC 215a; 12 USC 481; 12 USC 1814

CFR Citation: 12 CFR 25

Legal Deadline: Final, Statutory, July 1, 1990.

Abstract: This proposed rulemaking will address the disclosure and composition of the written evaluations required under the new section 807 of the Community Reinvestment Act of 1977. This provision requires each Federal depository institution regulatory agency to prepare a written evaluation of the institution's record of meeting the credit needs of its entire community, including low- and moderate-income neighborhoods. The mandated written

evaluation will contain findings and conclusions pertaining to compliance with existing assessment factors which implement the statute. Additionally, the written evaluation will contain an overall rating judging the institution's CRA performance. These ratings are required to be disclosed to the public on and after July 1, 1990. The effect on small entities will be considered in the development of this rulemaking.

2357. ● ASSESSMENT OF FEES; NATIONAL BANKS; DISTRICT OF COLUMBIA BANKS

Legal Authority: 12 USC 93a; 12 USC 481; 12 USC 482

CFR Citation: 12 CFR 8; 12 CFR 5; 12 CFR 11; 12 CFR 16

Legal Deadline: None

Abstract: This proposed rulemaking will provide notice and an opportunity to comment on an across-the-board assessment increase for all banks regulated by the OCC, and certain changes in the OCC's fees. The fee changes are designed to recover the the OCC's costs in connection with selected corporate activities and other functions. The proposed rulemaking will also advise the public of the results and recommendations of the Comprehensive Revenue Study and will seek comments and raise questions for public response regarding these recommendations. Publication of the final rule is expected by December 3, 1990, because 12 CFR 8.8 provides that a "Notice of Comptroller of the Currency Fees" shal be published no later than the first business day in December of each year for all fees that will be charged during the upcoming year. The effect on small entities will be considered in the development of this rulemaking.

Final Rule Stage

2358. RULES, POLICIES, AND PROCEDURES FOR CORPORATE ACTIVITIES

Significance: Agency Priority

Legal Authority: 12 USC 93a

CFR Citation: 12 CFR 5

Legal Deadline: None

Abstract: On January 11, 1990 (55 FR 996) the OCC amended its regulations governing operating subsidiaries to set forth its existing policies on imposing conditions in approvals of national bank operating subsidiaries. In addition, a new section to Part 5 was added which requires national banks to notify the OCC of plans to make certain equity investments authorized by statute. This final rule also amended regulations governing conversions, changes in equity capital, and issuance of subordinated debt to provide time frames for consummation following preliminary approval. This final rule will not have a significant economic impact on a substantial number of small banks. The OCC is engaged in a continuing review of its rules, policies and procedures governing corporate activities. The OCC proposes to outline the responsibility of the applicants for accurate and complete filings; to centralize the OCC's distribution of forms; to clarify procedures for changes in bank control; and to make several miscellaneous technical amendments. These proposals are expected to benefit the OCC by assisting the OCC in fulfilling its responsibility for maintaining the safety and (cont)

2359. LENDING LIMIT

Legal Authority: 12 USC 84(b)(1); 12 USC 84(d)(1); 12 USC 93a

CFR Citation: 12 CFR 32.2(d)

Legal Deadline: None

Abstract: This rulemaking will revise the definition of a "contractual commitment to advance funds" in response to comments received on the Temporary Rule on National Bank Lending Limits, at 53 FR 23752 (June 24, 1988). Comments were generally in favor of the temporary rule, but expressed concern about its impact on banks which had not experienced a decline in capital. This proposed revision will address those concerns through amendment of the definition of a "contractual commitment to advance funds." This action will return to banks some flexibility in monitoring their lending limits and outstanding loan commitments. The effect on small entities will be considered in the development of this rulemaking.

2361. DESCRIPTION OF OFFICE, PROCEDURES, PUBLIC INFORMATION

Legal Authority: 5 USC 552; EO 12600

CFR Citation: 12 CFR 4

Legal Deadline: None

Abstract: This proposed regulation implements recent amendments to the Freedom of Information Act (FOIA). The amendments concern Exemption 7 of the FOIA (relating to law enforcement records) and the provisions of the FOIA concerning fees and fee waivers. In addition, the proposed regulation implements Executive Order 12600, which deals with predisclosure notification procedures for confidential commercial information. This proposed regulation also makes technical changes to the OCC's existing FOIA regulation. The proposed regulation, and the OCC's FOIA regulations in general, affect public disclosure of information by the OCC. The effect on small entities will be considered in the development of this rulemaking.

2363. RECORDKEEPING AND CONFIRMATION REQUIREMENTS FOR SECURITIES TRANSACTIONS

Legal Authority: 12 USC 24; 12 USC 92a

CFR Citation: 12 CFR 12.7

Legal Deadline: None

Abstract: This rulemaking would broaden an exemption from requirements that banks maintain certain records and establish certain written policies and procedures. Under the proposal, the current exemption for banks with an average of less than 200 securities transactions per year is expanded to 1,000 transactions per year. The purpose of broadening the exemption from 200 transactions per year to 1,000 transactions per year is to reduce the regulatory burden on banks of all sizes that engage in a low number of securities transactions per year. Small entities are the primary beneficiaries of this burden-reducing amendment.

Legal Authority: 12 USC 93a

CFR Citation: 12 CFR 5.61; 12 CFR 5.62; 12 CFR 7.6100; 12 CFR 7.6125

Legal Deadline: None

Abstract: This rulemaking will amend two interpretive rulings in 12 CFR 7 and promulgate them as regulations in 12 CFR 5. The amendments are needed to revise and clarify certain OCC interpretations of statutes that govern the payment of dividends by national banks (12 USC 56 and 60). The intended effect is to make the calculation of the restrictions on the payment of dividends by national banks consistent with generally accepted accounting principles (GAAP). The effect on small entities will be considered in the development of this rulemaking.

Legal Authority: 12 USC 93a; 12 USC 161; 12 USC 1818; 12 USC 3907; 12 USC 3909

CFR Citation: 12 CFR 3

Legal Deadline: None

Abstract: The OCC is proposing to amend its capital regulation in 12 CFR 3. Primarily, this amendment would (1) make the definition of capital in 12 CFR 3.2 and in the OCC's recently published risk-based capital guidelines consistent and (2) change the minimum capital ratio in 12 CFR 3.6. This amendment will limit the amount of leverage a national bank can undertake. The intended effect of this amendment is to ensure the continued safety and soundness of the national banking system. The effect on small entities will be considered in the development of this rulemaking.

Legal Authority: 12 USC 93a; 12 USC 371; 12 USC 1701j-3; PL 101-73, 103 Stat 183, 511 (1989)

CFR Citation: 12 CFR 34

Legal Deadline: NPRM, Statutory, February 9, 1990. Final, Statutory, August 9, 1990.

Abstract: The proposed regulation is being promulgated as mandated by Title XI of the Financial Institutions Reform, Recovery, and Enforcement Act of 1989 ("Title XI"), P.L. 101-73, 103 Stat. 183, 511. Title XI was enacted to address abuses in the appraisal industry contributing to losses by depository institutions and is designed to protect Federal financial and public policy interests in real estate-related financial transactions by requiring appraisals to be performed in accordance with uniform standards by individuals whose competency has been demonstrated. The proposed regulation will implement the minimum appraisal standards required by Title XI and require compliance with additional appraisal standards as permitted under the statute. Similar rules are being proposed by the other Federal financial

TREAS—OCC **Final Rule Stage**

institutions regulatory agencies. The OCC anticipates that this proposal may increase, to some degree, costs of appraisals for borrowers and national banks. However, these increased costs should be more than offset by savings realized from decreased losses attributable to having better information about (cont)

2369. ● NATIONAL BANKS' LENDING LIMITS; LOANS TO FOREIGN GOVERNMENTS

Legal Authority: 12 USC 93a; 12 USC 84

CFR Citation: 12 CFR 32

Legal Deadline: None

Abstract: This rulemaking amends the national bank lending limit regulation with respect to the treatment of loans to a foreign government, its agencies, and instrumentalities when a foreign government debt restructuring has taken place. In many foreign government debt restructurings, loans to separate governmental agencies are consolidated under one borrower, usually the central government or another central facility. This may cause existing loans that were within a bank's legal lending limit for each borrower prior to restructuring to be over the legal lending limit for the central borrower after the loans are consolidated in a restructuring. The rule prevents this by providing that, after the restructuring, the loans will be attributed to the original borrowers for lending limit purposes and remain subject to the legal lending limits for those borrowers. The rule also applies an overall limit on loans to a single foreign government, its agencies or instrumentalities when a restructuring has occurred. The limit is 50 percent of a bank's unimpaired capital and surplus. This regulation will not have a significant economic impact on a substantial number of small businesses.

DEPARTMENT OF THE TREASURY (TREAS)
United States Customs Service (CUSTOMS)

Customs Service

19 CFR Ch. I

Semiannual Agenda

AGENCY: U.S. Customs Service, Treasury.

ACTION: Semiannual agenda.

SUMMARY: In response to Public Law 96-354, the "Regulatory Flexibility Act," and Executive Order 12291 "Federal Regulations," Customs is publishing for public information a list of regulations either under development or under review.

FOR FURTHER INFORMATION CONTACT: For additional information about a specific regulation contained in this agenda, contact the "agency contact" listed in the specific regulatory action.

SUPPLEMENTARY INFORMATION: The projects listed below are not considered to be "major" regulations within the meaning of E.O. 12291 and will not have a significant economic impact on small entities within the meaning of the Regulatory Flexibility Act.

General statutory authority for the development or review of regulations relating to Customs matters is found in section 301, title 5, United States Code (5 U.S.C. 301), and in sections 66 and 1624, title 19, United States Code (19 U.S.C. 66, 1624). When appropriate, additional, specific statutory authority is indicated as the legal authority for the project.

Dated: February 16, 1990.

John B. O'Loughlin,

Acting Assistant Commissioner, Office of Commercial Operations.

United States Customs Service—Proposed Rule Stage

Sequence Number	Title	Regulation Identifier Number
2370	19 CFR 19 Customs Warehouses; Duty-Free Stores	1515-AA22

DEPARTMENT OF THE TREASURY (TREAS)

Proposed Rule Stage

United States Customs Service (CUSTOMS)

2370. CUSTOMS WAREHOUSES; DUTY-FREE STORES

Legal Authority: 19 USC 1556; 19 USC 1565; 19 USC 1623

CFR Citation: 19 CFR 19; 19 CFR 144

Legal Deadline: None

Abstract: Consideration of various actions in regard to administration of duty-free stores. Actions range from abolition of stores to their designation as class of bonded warehouse and/or increased regulation. Actions necessary due to need for increased efficiency of store administration by Customs and to address enforcement problems related to stores. Public comment requested on actions under consideration, as well as store operations in general. Work Plan 83-1 approved

2371. COUNTRY OF ORIGIN MARKING

Legal Authority: 5 USC 301; 19 USC 66; 19 USC 1202; 19 USC 1304; 19 USC 1624

CFR Citation: 19 CFR 134

Legal Deadline: None

Abstract: Amendment to the Customs Regulations relating to the requirement that every imported article of foreign origin, or its container, shall be legibly and conspicuously marked to indicate to an ultimate purchaser in the United States, the English name of the country of origin of the article. Proposal would require that whenever the full or abbreviated name of a country or place other than the country of origin, or a symbol readily associated with a country or place other than the country of origin appears anywhere on a foreign article or its container, then the actual country of origin of the article must be marked on the article or its container in close proximity to each reference to the country or place not the country of origin, or a hang tag or sticker affixed to a highly conspicuous portion of the article.

2384. HIGHEST DEGREE OF CARE AND DILIGENCE TO PREVENT UNMANIFESTED NARCOTICS AND MARIJUANA

Significance: Agency Priority

Legal Authority: 19 USC 1584; 19 USC 1594; 19 USC 1595a; 21 USC 960; 21 USC 961; PL 99-570

CFR Citation: 19 CFR 162

Legal Deadline: None

Abstract: Amendment to the Customs Regulations relating to the liability of common carriers to penalties, seizure and forfeiture for unmanifested narcotic drugs or marijuana. The proposed changes would add to the regulations the statutory standard for the highest degree of care and diligence on the part of common carriers in preventing unmanifested drugs and marijuana. It also sets forth specific duties and procedures by which the standard is defined and against which compliance with the standard can be determined. These duties and procedures include such security measures as background investigations of employees, access restrictions to cargo areas, use of lighting in storage areas, and similar measures.

2391. ENFORCEMENT OF PROTECTION OF SEMICONDUCTOR CHIP PRODUCTS; PATENT SURVEYS

Legal Authority: 17 USC 901 to 914; 19 USC 66; 19 USC 1623; 19 USC 1624

CFR Citation: 19 CFR 133; 19 CFR 12; 19 CFR 24

Legal Deadline: None

Abstract: This document proposes to amend the Customs Regulations to enable persons seeking protection from infringing semiconductor chip products (mask works) to obtain the assistance of Customs in preventing pirated chips from being imported into the United States. This would give rise to a process of Customs recordation of mask works similar to that for copyrights.

2394. DONATED CARGO EXEMPTION FROM HARBOR MAINTENANCE FEE

Legal Authority: 5 USC 301; 19 USC 58a; 19 USC 66; 19 USC 1202; 19 USC 1624; 31 USC 9701; 19 USC 58b; 19 USC 58c

CFR Citation: 19 CFR 24

Legal Deadline: None

Abstract: Amends interim Customs Regulations relating to harbor maintenance fees. The interim regulations established a shipping fee for transporting cargo on specified U.S. waterways. The Act was amended to include an exemption for nonprofit organizations or cooperatives which own or finance cargo determined by Customs to be intended for use in humanitarian or development assistance overseas. This amendment sets forth the applicability and terms of this exemption.

Improving Government Regulations; Semiannual Agenda of Regulations

AGENCY: Internal Revenue Service, Treasury.

ACTION: Semiannual agenda of regulations.

SUMMARY: This semiannual agenda lists the regulations that the Internal Revenue Service will be developing from April 1, 1990, through March 31, 1991. Determinations with respect to the agenda were made as of January 31, 1990. The purpose of this semiannual agenda is to give the public adequate notice of regulatory activities of the Internal Revenue Service.

FOR FURTHER INFORMATION CONTACT: Robert Boyer, (202) 566-3935 (not a toll-free call), Regulations Unit, Office of the Assistant Chief Counsel (Corporate), Internal Revenue Service, 1111 Constitution Avenue NW., Washington, DC 20224, Attention: CC:CORP:T:R.

SUPPLEMENTARY INFORMATION:

General

Section 5 of Executive Order 12291 and section 602 of the Regulatory Flexibility Act both require that a semiannual agenda of regulations under development and review be published in the **Federal Register**. The next semiannual agenda of the Internal Revenue Service will be published in the **Federal Register** in October of 1990.

Description

This semiannual agenda of regulations lists all projects within the Internal Revenue Service (I.R.S.) as of January 31, 1990, for the development of regulations to appear in the Code of Federal Regulations. This agenda lists existing regulations under development by the Offices of the Assistant Chief Counsel (Corporate), Assistant Chief Counsel (Financial Institutions and Products), Assistant Chief Counsel (Income Tax and Accounting), Assistant Chief Counsel (Passthroughs & Special Industries), Assistant Chief Counsel (Employee Benefits and Exempt Organizations), Assistant Chief Counsel (Disclosure Litigation), Assistant Chief Counsel (General Litigation), and Associate Chief Counsel (International) of the Office of Chief Counsel, I.R.S. The following information is provided for each regulation project: The title, priority status; its effect, if any, on small business; the part of the Code of Federal Regulations affected; the legal authority

TREAS—IRS

for issuing the regulation; a brief description of the problem to be addressed in the regulation; and a timetable of action taken and to be taken. Under Additional Information, there is provided the control number of the project within the Chief Counsel's office and the names and telephone numbers of the drafting and reviewing attorneys.

By direction of the Secretary of the Treasury.

Fred T. Goldberg,

Commissioner of Internal Revenue.

2407. ● RECOVERY OF OVERPAYMENTS OF ARBITRAGE REBATE

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986; 26 USC 148 Internal Revenue Code of 1986

CFR Citation: 26 CFR 1

Legal Deadline: None

Abstract: Under section 148 of the 1986 Code, arbitrage rebate payments are not refundable. However, provision should be made for recovery of overpayments of rebate if the issuer establishes to the satisfaction of the Commissioner that: (1) the issuer paid an amount in excess of the determined rebatable arbitrage. (2) The excess was paid in error. And (3) recovery of the overpayment an the date first requested would not result in rebatable arbitrage as of such date.

2429. REVISED WITHHOLDING TAX REGULATION TO MODIFY "AS SOON AS PRACTICAL" REQUIREMENTS

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986; 26 USC 1441 Internal Revenue Code of 1986

CFR Citation: 26 CFR 1

Legal Deadline: None

Abstract: These regulations will modify a requirement of Treas. Reg. section 1.1441-6(c) regarding the time for filing of Form 1001. Section 1.1441-6(a) provides that the withholding rate shall be reduced as may be provided by a treaty with any country. To secure a reduced treaty withholding rate, subsection (c) of the regulation requires the recipient of the income to file Form 1001 (ownership, exemptions, or reduced rate certificate) with the withholding agent. The regulation further provides that each such Form 1001 filed with any withholding agent shall be filed "as soon as practicable". The "as soon as practicable" requirement will be changed to a narrower and more objective time period.

2440. DETERMINING LARGE CORPORATION STATUS FOR CONSOLIDATED RETURN GROUPS PAYING ESTIMATED TAX

Legal Authority: 26 USC 6655(j) Internal Revenue Code of 1986; 26 USC 1502 Internal Revenue Code of 1986

CFR Citation: 26 CFR 1.1502-5

Legal Deadline: None

Abstract: Section 6655(d)(2) of the IRC of 1986 requires large corporations to make estimated tax payments based on 90 percent of their current year's tax. Section 6655(g)(2) defines a large corporation as one who itself (or a predecessor corporation) had taxable income of $1,000,000 or more in any of the three previous taxable years. The regulation will address difficulties in applying the definition to an affiliated group of corporations filing a consolidated return.

2443. ● TREATMENT OF LEASE PAYMENTS AS QUALIFIED WITHDRAWALS FROM A CAPITAL CONSTRUCTION FUND ESTABLISHED UNDER SEC. 607(A) OF THE MERCHANT MARINE ACT OF 1936

Legal Authority: 26 USC 7518 Internal Revenue Code of 1986

CFR Citation: Not yet determined

TREAS—IRS **Prerule Stage**

Legal Deadline: None

Abstract: The regulation is intended to permit shipping operators who have established capital construction funds under the Merchant Marine Act of 1936 as amended, to make "qualified withdrawals" from the funds to lease vessels, in addition to the present practice of purchasing vessels. There are no practical alternatives other than purchasing or leasing vessels. The potential costs of leasing are the same as purchasing; no more money than is deposited into a capital construction fund can be used. The owner of a fund can decide whether leasing or purchasing is cheaper. The benefit (purpose) is to permit shipping industry acquisition practices to be consistent with a long-term trend toward vessel acquisition through lease rather than purchase.

2493. RECOGNITION OF GAIN OR LOSS ON LIQUIDATING SALES AND DISTRIBUTIONS OF PROPERTY

Legal Authority: 26 USC 336 Internal Revenue Code of 1986; 26 USC 337 Internal Revenue Code of 1986

CFR Citation: 26 CFR 1

Legal Deadline: None

Abstract: The Tax Reform Act of 1986 (the "Act") repealed the last vestiges of the General Utilities doctrine ("GU repeal"), thereby requiring corporations to recognize gain in most cases upon the distribution of appreciated property to their shareholders. The Act granted the Secretary authority to promulgate regulations necessary to carry out the purposes of the Act. It has been determined that GU repeal can be circumvented in certain circumstances, including, Downstream Mergers, conversion into Tax Exempt Entities, and Cross Ownership. This project will seek to identify these areas and promulgate regulations to assure corporate level gain recognition as required by the Act.

2499. SECTION 361 OUTBOUND TRANSFERS OF PROPERTY TO FOREIGN CORPORATIONS

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986; 26 USC 367 Internal Revenue Code of 1986

CFR Citation: 26 CFR 1

Legal Deadline: None

Abstract: The income tax regulations under section 367 will be amended to reflect the changes made to that section by the Tax Reform Act of 1984. Section 367 now provides generally that a foreign corporation will not be considered to be a corporation, for purposes of certain nonrecognition provisions of the Code, upon the transfer of property to such corporation by a U.S. person. The statute provides certain exceptions to that rule, exemptions to those exceptions, and special rules applicable to certain specified transfers. The regulations will provide guidance concerning the applicability of the general rule and its exceptions and special rules, including guidance concerning transfers of assets for use in the active conduct of a trade or business, stock transfers, transfers of intangible assets, and transfers of branch operations that have operated at a loss.

2503. ● REORGANIZATIONS IN BANKRUPTCY; STOCK-FOR-DEBT EXCHANGES; USE OF PARENT CORPORATION STOCK; TRIANGULAR "G" REORGANIZATIONS

Legal Authority: 26 USC 108 Internal Revenue Code of 1986; 26 USC 382 Internal Revenue Code of 1986

CFR Citation: 26 CFR 1

Legal Deadline: None

Abstract: The regulation will provide rules for members of an affiliated group of corporations filing consolidated returns which are reorganized in bankruptcy. The issuance of parent corporation stock in cancellation of subsidiary corporation indebtedness will come within the common law stock-for-debt exception to cancellation of indebtedness income (as limited by Section 108 (e) (8) and Section 108 (e) (10) without resort to a recapitalization analysis (whether deemed or actual). When creditors of more than one bankrupt member of the group receive parent corporation stock, the stock received by all the creditors may be aggregated for purposes of determining whether each ownership change meets the requirements of Section 382 (l) (5). Collateral consolidated return and reorganization issues will be considered.

2507. INCOME TAX—REQUIREMENTS FOR TAX CREDIT EMPLOYEE STOCK OWNERSHIP PLANS, EMPLOYEE PLAN CREDIT, AND DEFINED CONTRIBUTION PLAN VOTING RIGHTS

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986; 26 USC 409 Internal Revenue Code of 1986; 26 USC 48 Internal Revenue Code of 1986; 26 USC 401 Internal Revenue Code of 1986; 26 USC 6699 Internal Revenue Code of 1986

CFR Citation: 26 CFR 1

Legal Deadline: None

Abstract: The regulations provide rules for electing the employee plan credit under section 48 of the Internal Revenue Code, establishing a tax credit employee stock ownership plan under section 409 of the Internal Revenue Code and providing voting rights to participants of certain defined contribution plans under section 401(a)(22) of the Internal Revenue Code. Further, the regulations provide guidance for determining the applicability of and calculating the assessable penalties relating to tax credit employee stock ownership plans under section 6699 of the Internal Revenue Code. The regulations reorganize and modify the current regulations which are based on section 301(d), (e), and (f) of the Tax Reduction Act of 1975, and provide a single set of rules that would apply to tax credit employee stock ownership plans established under the provisions of the Tax Reduction Act of 1975 and the 1978 Revenue Act.

2527. DISPOSITION OF AN INTEREST IN A NUCLEAR POWER PLANT

Significance: Agency Priority

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986

CFR Citation: 26 CFR 1.468A-6, (New); 26 CFR 1.468A-1(b), (Revision); 26 CFR 1.468A-3, (Revision); 26 CFR 1.468A-8(b), (Revision); 26 CFR 1.468A-5(a)

Legal Deadline: None

Abstract: Final regulations relating to Nuclear Decommissioning Funds did not include provisions for treatment upon disposition of an interest in a nuclear power plant. The proposed regulations will provide guidance to determine the tax consequences of such disposition on a Nuclear Decommissioning Fund and on taxpayers that establish such funds. In addition, the proposed regulations will make a number of needed changes and clarifications to the existing regulations that will aid in the administration and processing of requests for schedules of ruling amounts.

Legal Deadline: None

Abstract: The Tax Reform Act of 1986 provides for a new method of computing the tax on distributions of income accumulated by a trust in prior years. The new method, in effect, determines the tax attributable to an accumulation distribution by averaging the distribution over the number of years during which the income was earned by the trust. This is accomplished by including, for purposes of tentative computations, a fraction of the income received from the trust in the beneficiaries' income for 3 of the 5 preceding years. Those 3 years are determined by taking from the 5 preceding years the year with the highest taxable income and the year with the lowest. The fraction of the income included in each of the 3 years is based upon the number of years during which the income is accumulated by the trust. The average yearly additional tax determined by recomputing the tax for the 3 years is then multiplied by the number of years during which the distribution was accumulated. The resulting tax so computed may be offset by a credit for any taxes previously paid by the trust with respect to the accumulated income. (cont)

2537. REVISION OF REPORTING REQUIREMENTS FOR GRANTOR TRUSTS

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986; 26 USC 671 Internal Revenue Code of 1986; 26 USC 6012 Internal Revenue Code of 1986

CFR Citation: 26 CFR 1.671-4, (Revision); 26 CFR 1.6012-3; 26 CFR 1.6049-4; 26 CFR 1.6042-2; 26 CFR 5f.6045-1

Legal Deadline: None

Abstract: Grantor trusts would file 1099's or nothing at all with the Service, and provide a statement of earnings deductions and credits to each grantor. This will enable the Service to match the reported income from grantor trusts with the grantor's tax return. Different procedures will be required for trusts with single grantors as opposed to multiple grantors. Corporation grantors will be included. Other considerations will be whether backup withholdings

rules apply and whether there is a legal basis for requiring a payor to report income directly to the grantor rather than the trust.

2552. ● SPECIAL RULES FOR DETERMINING SOURCE

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986; 26 USC 8603 Internal Revenue Code of 1986

CFR Citation: 26 CFR 1

Legal Deadline: None

Abstract: The proposed regulations provides the general rule for determining the source of scholarships and fellowship grants as defined under section 117. The source of such payments is determined by the residence of the payor. A special rule is provided for payments made by a U.S. payor to a nonresident alien studying abroad. In such circumstances, the source of the payments is foreign source.

2553. ● TIERED PARTNERSHIP RULES

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986

CFR Citation: 26 CFR 1

Legal Deadline: None

Abstract: The regulation will address whether a foreign partner in a tiered partnership arrangement is engaged in a trade or business in the U.S. by virtue of membership in that tiered partnership where the second tier partnership meets the requirements of being in U.S. trade or business. The alternatives are 1) to conclude the foreign partner is engaged in U.S. trade or business because any member of the tiered partnership arrangements is; and 2) to conclude the foreign partner is not engaged in a U.S. trade of business where the first tier partnership is not so engaged. Other considerations include the meaning of "principal place of business" and whether an entity may have more than one, and attribution rules applicable to the entities. A problem with the second alternative is that it arguably gives priority to form over substance, however, there are several methods by which the first alternative could be avoided and their appears to be no policy reason to prefer one form of doing business over another. Furthermore, no additional tax would be collected by following alternative 1.

2563. CLARIFICATION OF TREATMENT OF SEPARATE LIMITATION LOSSES

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986

CFR Citation: 26 CFR 1

Legal Deadline: None

Abstract: Section 1203 of the Tax Reform Act of 1986 amends section 904 (f) by adding paragraph (5) at the end thereof which requires that foreign source losses with respect to any income category first offset a taxpayer's other foreign source income before such losses offset the taxpayer's U.S. source income. The regulation will provide rules for the allocation of foreign source losses.

2564. EXCLUSION OF POSSESSION SOURCE INCOME FROM GROSS INCOME OF CERTAIN INDIVIDUALS AND TREATMENT OF CORPORATIONS ORGANIZED IN GUAM, SAMOA OR CNMI

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986; 26 USC 876 Internal Revenue Code of 1986; 26 USC 931 Internal Revenue Code of 1986

CFR Citation: 26 CFR 1

Legal Deadline: None

Abstract: The Tax Reform Act of 1986 eliminates the requirement that there be a mirrored system of taxation in Guam and the CNMI, and coordinates the tax system of these possessions and of American Samoa with the U.S. tax system. Guam the CNMI and American Samoa are granted full authority over their own local income tax systems, with respect to income of bona fide residents sourced within or effectively connected with the conduct of a trade or business within any of these possessions. This grant of authority is effective, however, only if and so long as an implementing agreement is in effect between the possession at issue and the United States which provides for elimination of double taxation, prevention of evasion or avoidance of U.S. tax exchange of information and other administrative matters. Regulations are needed to clarify who qualifies as a bona fide resident and to determine sourcing rules.

2565. COORDINATION OF U.S. AND VIRGIN ISLANDS TAXES

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986

CFR Citation: 26 CFR 1

Legal Deadline: None

Abstract: Prior to the Tax Reform Act of 1986, inhabitants of the Virgin Islands satisfied their U.S. tax liability by filing a return with the Virgin Islands. The Tax Reform Act of 1986 repealed the inhabitant rule to correct an erroneous interpretation of its operation in connection with the Virgin Islands mirror code. Section 1274 of the Tax Reform Act of 1986 clarifies the filing obligations of individuals in the Virgin Islands. Bona fide residents of the Virgin Islands are required to file only one return with the Virgin Islands in which they report worldwide income and identify the sources of income from the Virgin Islands will be required to file two identical tax returns one with the US and one with the Virgin Islands and pay a pro rata amount of tax to each. Regulations are needed to clarify who qualifies as a bona fide resident. It is anticipated that the regulations will provide a facts and circumstances test for determining bona fide resident status. It is unknown what the operational costs will be.

2576. SOURCING OF PASS-THROUGH PAYMENTS AND FEES PAID IN INTERNATIONAL SHORT SALES OF STOCK

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986

CFR Citation: 26 CFR 1

Legal Deadline: None

Abstract: When securities are sold short and payments in lieu of dividends or interest are paid by a U.S. person to a foreigner or vice versa, no rules exist to determine the source of such payments. These regulations will provide such rules. The payments will either be sourced by reference to the residence of the payor or residence of the recipient. Taxpayers now are likely using whatever rule avoids taxation; these regulations will at least provide some revenue to the FISC.

2596. WITHHOLDING TAX ON PAYMENTS FROM PARTNERSHIPS TO FOREIGN PARTNERS

Significance: Agency Priority

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986; 26 USC 1446 Internal Revenue Code of 1986

CFR Citation: 26 CFR 1

Legal Deadline: None

Abstract: The regulation explains when withholding is required under section 1446, how and when the amounts withheld are to be reported and paid over to the Internal Revenue Service, and when the taxpayer is to credit the tax withheld against its U.S. income tax liability or apply for a refund. The notice will be published simultaneously with, and will cross-reference to, temporary regulations dealing with these matters (INTL-938-86). No significant policy issues are involved. Section 1446 was substantially amended by the Technical and Miscellaneous Revenue Act of 1988.

2601. CLARIFYING DELETION OF REQUIREMENT OF SECTION 1.1502-47(D)(12) (C) THAT IN APPLYING THE TACKING RULE, PROFIT LIFE ACTIVITIES NOT BE SEPARATED FROM LOSS LIFE ACTIVITIES

Legal Authority: 26 USC 1502 Internal Revenue Code of 1986

CFR Citation: 26 CFR 1.1502

Legal Deadline: None

Abstract: Section 1.1502-47(d)(12)(C) restricted the separation of profitable life activities from loss life activities to prevent the gaming that otherwise could occur under the "bottom-line" consolidation rule mandated by section 818(f) as in existence prior to the Enactment of the Tax Reform Act of 1984 (TRA 1984), Public Law 98-369. As a result of the new method of taxing life insurance companies enacted in the TRA 1984, the bottom-line consolidation abuse potential is eliminated, thus eliminating the need for section 1.1502-47(d)(12)(C). Removing this provision will remove an unnecessary restraint on transactions, and a potential device to voluntarily deconsolidate.

2611. ESTATE TAX—VALUATION OF CERTAIN FARM, ETC. REAL PROPERTY

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986; 26 USC 2032A Internal Revenue Code of 1986; 26 USC 2013 (f) Internal Revenue Code of 1986; 26 USC 1016 (c) Internal Revenue Code of 1986; 26 USC 1040 Internal Revenue Code of 1986

CFR Citation: 26 CFR 20; 26 CFR 1

Legal Deadline: None

Abstract: Special use valuation of certain farm and closely held business real property is available to qualifying estates. The regulation will contain definitions and rules relating to the various requirements which an estate must satisfy and will provide rules governing the imposition and payment of the "additional estate tax" should a qualified heir fail to meet the post-death requirements.

2612. ESTATE TAX—INCLUSION OF ESTATE FREEZES

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986; 26 USC 2036 Internal Revenue Code of 1986

CFR Citation: 26 CFR 20

Legal Deadline: None

Abstract: Through the use of various transactions taxpayers have been able to "freeze" the value of an enterprise by "transferring" a major portion of the enterprise while retaining managerial rights. Section 2036 (c) requires that an estate include the value of "frozen" enterprises where the transferor in effect transfers future appreciation while retaining present income or managerial rights.

Legal Authority: 26 USC 2056 Internal Revenue Code of 1986; 26 USC 2056A Internal Revenue Code of 1986; 26 USC 2523 Internal Revenue Code of 1986; 26 USC 2106 Internal Revenue Code of 1986; 26 USC 6324 Internal Revenue Code of1986; 26 USC 2503 Internal

TREAS—IRS **Proposed Rule Stage**

Revenue Code of 1986; 26 USC 2001 Internal Revenue Code of 1986

CFR Citation: 26 CFR 20; 26 CFR 25

Legal Deadline: None

Abstract: These regulations will clarify the estate and gift tax treatment of transfers of property where the surviving spouse or donee spouse is not a United States citizen. The regulations will prescribe how certain transfers to a qualified domestic trust for the benefit of an alien spouse will qualify for the estate tax marital deduction. The regulations will also describe the manner on which an estate tax is imposed in the case of any principal distribution from a qualified domestic trust before the death of the surviving spouse and upon the value of the property remaining in the trust upon the surviving spouse's death.

2618. TO PROVIDE REGULATIONS RELATING TO BACKUP WITHHOLDING UNDER SECTION 3406

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986; 26 USC 3406 Internal Revenue Code of 1986

CFR Citation: 26 CFR 31

Legal Deadline: None

Abstract: The regulations will provide that a tax equal to 20 percent of any reportable payment is required to be withheld if certain conditions exist. With respect to reportable interest or dividends, backup withholding applies if (1) no number is provided in the

manner required, (2) the Service notifies the payor that the payee's taxpayer identification number is not correct, (3) the payee is subject to backup withholding due to a notified payee underreporting, and (4) the payee fails to certify when required that he or she is not subject to backup withholding due to notified payee underreporting. With respect to other reportable payments (such as rents, royalties, nonemployee compensation, broker transactions, or barter exchanges), backup withholding applies if (1) no taxpayer identification number is provided, or (2) the Service notifies the payor that the payee's taxpayer identification number is not correct.

2633. ● INFORMATION WITH RESPECT TO CERTAIN FOREIGN-OWNED CORPORATIONS

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986; 26 USC 6038A Internal Revenue Code of 1986

CFR Citation: 26 CFR 1

Legal Deadline: None

Abstract: The regulations will provide rules for U.S. corporations or U.S. branches that are 25-percent foreign owned as to what records are to be maintained, where these records are to be maintained and how to designate, in the case of a "related party", an agent. The regulations will also provide rules for the imposition of penalties for failure to comply with section 6038A and exemptions for reasonable cause from the imposition of the penalties.

2636. ● REPORTING REQUIREMENTS CONCERNING CHANGES IN CORPORATE CONTROL OR CAPITAL STRUCTURE UNDER SECTION 6043(C), I.R.C., AS AMENDED BY SECTION 7208(B) OF THE REVENUE RECONCILIATION ACT OF 1989

Significance: Agency Priority

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986; 26 USC 6043(c) Internal Revenue Code of 1986; 26 USC 6652(l) Internal Revenue Code of 1986

CFR Citation: 26 CFR 1

Legal Deadline: None

Abstract: The purpose of the project is to implement the reporting requirements under section 6043(c) to provide the Internal Revenue Service information needed in order to more effectively examine the tax consequences of certain transactions in which control of a corporation is acquired or in which the capital structure of a corporation is changed, including in particular certain transactions that might be characterized as "leveraged buy-outs."

2640. EMPLOYMENT TAX—REPORTING OF PLAN DISTRIBUTIONS AND WITHHOLDING FROM PENSIONS, ANNUITIES, AND OTHER DEFERRED INCOME

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986; 26 USC 6047 Internal Revenue Code of 1986; 26 USC 3405 Internal Revenue Code of 1986

CFR Citation: 26 CFR 1; 26 CFR 301

Legal Deadline: None

Abstract: Legislative changes require that increased numbers of retirees and plan participants must make complex calculations of the taxable amount of distributions they receive from qualified plans. The regulations will require the payor of a qualified plan distribution (or the plan administrator) to calculate the taxable amount and to report it on the appropriate information return. Proposed regulations would also clarify and amend the temporary regulations relating to withholding from pensions, annuities, and other deferred income.

2644. AGREEMENTS FOR PAYMENT FOR TAX LIABILITY IN INSTALLMENTS

Legal Authority: 26 USC 6159 Internal Revenue Code of 1986

CFR Citation: 26 CFR 301.6159

Legal Deadline: None

Abstract: Prior law did not address the authority of the Internal Revenue Service to enter into installment payment agreements with taxpayers. New code section 6159, as added by the Technical and Miscellaneous Revenue Act of 1988, authorizes such agreements and specifies the circumstances under which the Service may modify or terminate such an agreement and when the Service must provide prior notice of a determination to modify or terminate an agreement. New regulations implementing section 6159 will be drafted in order to provide taxpayers and the Service specific guidance on the requirements and responsibilities imposed by this provision.

CFR Citation: 26 CFR 1.6323 (f)(1)(ii),(Revision); 26 CFR 1.6323 (f)(5)

Legal Deadline: None

Abstract: The purpose of these regulations is to solve the problem that arose in the case of United States v. Air Florida, Inc. 56 B.R. 732 (S.D. Fla. 1985). The regulations will provide that if a state has adopted a Federal law establishing a place for the filing of liens under a national filing system, the state is not considered to have a second office for filing of the notice of lien. The regulations will also provide that the filing of a notice of Federal tax lien is governed solely by the Internal Revenue Code and is not subject to any other Federal law establishing a national filing system.

2651. PROCEDURE AND ADMINISTRATION—RELEASE OF LIENS, NOTICE BEFORE LEVY, PROPERTY EXEMPT FROM LEVY REDEMPTION OF LEVIED REAL PROPERTY AND AMOUNT OF DAMAGES IN CASE OF WRONGFUL LEVY

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986; 26 USC 6325 Internal Revenue Code of 1986; 26 USC 6331 Internal Revenue Code of 1986; 26 USC 6334 Internal Revenue Code of 1986; 26 USC 6337 Internal Revenue Code of 1986; 26 USC 7426 Internal Revenue Code of 1986

CFR Citation: 26 CFR 301

Legal Deadline: None

Abstract: The regulation will provide guidance in obtaining the issuance of a certificate of release of a notice of Federal tax lien. The regulation will revise existing regulations relating to the size of the exemption from levy available for certain property. The proposed regulation also increases the length of post-sale redemption period currently specified in the regulations. The proposed regulations provide rules for service employees administering the Code for providing notice of intention to levy upon the property of a delinquent taxpayer. The proposed regulations increase the amount of damages allowed where property has been levied wrongfully.

2652. EFFECT OF HONORING A LEVY

Legal Authority: 26 USC 6332 Internal Revenue Code of 1986

CFR Citation: 26 CFR 1.6332-1(c)

Legal Deadline: None

Abstract: Section 1.6332-1(c) currently provides that any person in possession of or obligated with respect to property or rights to property subject to levy and upon which levy has been made who surrenders the property or rights to property, or discharges the obligation to the district director is discharged from any obligation or liability to the delinquent taxpayer. Section 1015(t) of Technical and Miscellaneous Revenue Act of 1988 amends Section 6332 of the Internal Revenue Code to provide that a person who honors a levy is protected from any obligation or liability to any other person as well as the delinquent taxpayer. This should cause a reduction in the number of interpleader actions filed because of concerns over liability to third parties.

2656. PROCEDURE & ADMINISTRATION—ADDITION TO TAX IN THE CASE OF VALUATION OVERSTATEMENTS AND UNDERSTATEMENTS, AND INCREASE IN THE NEGLIGENCE PENALTY

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986; 26 USC 6659 Internal Revenue Code of 1986; 26 USC 6653 Internal Revenue Code of 1986; 26 USC 6660 Internal Revenue Code of 1986

CFR Citation: 26 CFR 301; 26 CFR 1

Legal Deadline: None

Abstract: The regulations would provide rules and definitions with respect to the addition to tax in the case of valuation overstatements and understatements, including rules for computing the portion of an underpayment that is attributable to a valuation overstatement or understatement. The regulations would also provide rules with respect to the increase in the negligence and fraud penalties.

2657. USE OF FACSIMILE SIGNATURES BY INCOME TAX RETURN PREPARERS OF FORMS 1041, U.S. FIDUCIARY INCOME TAX RETURNS

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986; 26 USC 6695 Internal Revenue Code of 1986

CFR Citation: 26 CFR 1.6695-1 (b)

Legal Deadline: None

Abstract: Section 1.6695-1 (b) currently requires that, with one exception, income tax return preparers must manually sign returns or claims for refund signed by them. The exception does allow preparers of returns and refund claims for nonresident aliens to use facsimile signatures under certain circumstances. Section 645 (a) of the Internal Revenue Code, added by section 1403 (a) of the Tax Reform Act of 1986, requires trusts, with certain limited exceptions, to use a calendar taxable year. The calendar year requirement means that, instead of being able to spread their duty to sign trust returns over the entire course of a year, preparers must now sign all trust returns before April 15 in order to present them to clients for timely filing. To alleviate this hardship, we are

examining the advisability of permitting income tax return preparers of Forms 1041, U.S. Fiduciary Income Tax Returns, to use facsimile signatures and under what conditions such use would be permitted and appropriate.

2661. REDEMPTIONS OF REAL PROPERTY UNDER IRC 7425 - EXCESS EXPENSES

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986; 26 USC 7425 Internal Revenue Code of 1986

CFR Citation: 26 CFR 301

Legal Deadline: None

Abstract: Section 301.7425-4(b)(3)(ii), which deals with excess expenses incurred by a purchaser of property after a foreclosure sale and before redemption, provides that the Service may request a written itemized statement from the purchaser regarding excess expenses. If the purchaser does not respond within 15 days, it shall be presumed that no excess expenses are payable. However, even after the 15-day period expires, a payment for excess expenses shall be made after the redemption within a reasonable time following the verification by the district director of a written itemized statement submitted by the purchaser. There is no specific time frame set for the purchaser to submit his claim after the redemption and after the expiration of the 15-day period. We are examining the feasibility of establishing a 30-day time limit within which a final claim for

excess expenses must be submitted by the purchaser after the sale of the property. This will eliminate claims for reimbursement of expenses that may be submitted after redemption and sale of the property, where the liens were fully satisfied and released, and all surplus funds returned to the taxpayer.

2662. REVIEW OF JEOPARDY LEVY AND ASSESSMENT PROCEDURES

Legal Authority: 26 USC 7429 Internal Revenue Code of 1986 PL 100-647, Sec 6237; 26 USC 7805 Internal Revenue Code of 1986

CFR Citation: 26 CFR 1.7429

Legal Deadline: None

Abstract: Section 7429 currently provides for administrative and judicial review of jeopardy assessments, but these review procedures do not apply to jeopardy levies. The Technical and Miscellaneous Revenue Act of 1988, PL 100-647, Sec. 6237, extends the review procedures of Section 7429 to the review of jeopardy levies and provides concurrent jurisdiction to the Tax Court with Federal District courts with respect to actions challenging a jeopardy assessment or jeopardy levy, provided a Tax Court petition is filed prior to the making of the assessment or levy. We are examining whether any regulations need to be promulgated under the statutory amendment. In particular, we are examining whether any procedural guidelines for the filing of actions in the Tax Court are needed by means of regulations, or whether revision to Tax Court rules is more appropriate. We are also examining whether the revised review procedures contain any ambiguity for which clarification by way of regulation would be helpful.

2663. CIVIL DAMAGES FOR FAILURE TO RELEASE LIEN

Legal Authority: PL 100-647, Sec 6240; 26 USC 7432

CFR Citation: Not yet determined

Legal Deadline: None

Abstract: The new section 7432 grants taxpayers the right to bring a cause of action for damages in Federal District court if any officer or employee of the Internal Revenue Service knowingly or negligently fails to release a lien under section 6325 on property of the taxpayer. Damages will not be awarded for failure to release a lien unless the court determines that the taxpayer has exhausted all administrative remedies within the Internal Revenue Service. The Secretary must provide by regulations a reasonable procedure for the taxpayer to notify the Service of a failure to release a lien on property of the taxpayer. Currently, we are considering regulations that will provide procedures for a taxpayer to notify the Service of a failure to release a lien and procedures for administrative exhaustion of remedies.

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986; PL 100-647, Sec 6241; 26 USC 7433

CFR Citation: 26 CFR 1.7433

Legal Deadline: None

Abstract: PL 100-647, Sec 6241, adds a new section 7433 to the Internal Revenue Code. This provision allows taxpayers to sue the Internal Revenue Service to recover economic damages if a Service employee, in connection with the collection of a tax, recklessly or intentionally disregards any provision of the Code or regulations. The new implementing regulation will establish administrative remedies for taxpayers to meet the statutory requirement that administrative remedies be exhausted prior to a court award of damages. The regulation will also outline what steps taxpayers should take to satisfy the statutory requirement that they mitigate their damages.

Legal Deadline: None

Abstract: Section 7520 of the Internal Revenue Code, as added by section 5031 of the Technical and Miscellaneous Revenue Act of 1988, requires that the value of any annuity, any interest for life or a term of years, and any remainder or reversionary interest be determined under valuation tables, revised periodically and the applicable Federal interest rate for the month of the valuation of the interest. The regulations will address the use of the tables, which will be published separately, and will contain rules for making an election where charitable transfers are involved. It will also include rules for rounding the applicable interest rates. In addition, the regulations will modify the current regulations for gift, estate, and charitable transfers of annuity trusts, and unitrusts and pooled income funds.

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986; 26 USC 7605 Internal Revenue Code of 1986; PL 100-647, Sec 6228 Taxpayer Bill of Rights 102 Stat. 3342

CFR Citation: 26 CFR 301.7605-1(a), (Revision)

Legal Deadline: NPRM, Statutory, November 10, 1989. Final, Statutory, November 10, 1992.

Abstract: Section 7605(a) of the Internal Revenue Code, 26 USC 7605(a), and section 301.7605-1(a) of the regulations currently provide the time and place of an examination shall be fixed by an officer or employee of the Internal Revenue Service and shall be reasonable under the circumstances. No regulations have been promulgated elaborating on this provision. The Taxpayer Bill of Rights requires the publication within one year of regulations enumerating standards for determining whether the selection of a time and place for interviewing a taxpayer is reasonable. These regulations are to provide that if it is generally not reasonable for the IRS to require a taxpayer to attend an examination at an IRS office within the assigned district other than the office located closest to the taxpayer's home. They will also provide it is generally not reasonable for the IRS to audit a taxpayer at his or her place of business if the business is so small that doing so will essentially require the taxpayer to close his business.

2695. INCOME TAX—TO DEFINE THE TERM "PRINCIPAL USER OF A FACILITY"

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986; 26 USC 144 (a) Internal Revenue Code of 1986

CFR Citation: 26 CFR 1

Legal Deadline: None

Abstract: This regulation would define the meaning of the term "principal user of a facility" for purposes of applying the limitation set by the Internal Revenue Code upon the permissible size of a small issue of tax-exempt industrial development bonds, as diminished by certain other capital expenditures. This regulation would help identify other facilities the capital expenditures from which must be taken into account in determining whether that issue exceeds the small issue limitation.

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986; 26 USC 103 Internal Revenue Code of 1954

CFR Citation: 26 CFR 1

Legal Deadline: None

Abstract: The proposal will clarify the information reporting requirements with respect to private activity bonds. Industrial development bonds must be publicly approved--failure to fulfill this requirement results in loss of tax exemption for the interest on these bonds. Issuers of student loan bonds, charitable use bonds and industrial development bonds are required to supply certain information to the Internal Revenue Service. Failure to comply with this requirement will result in the loss of tax exemption for the bond's interest.

2699. REGULATIONS RELATING TO $40 MILLION SMALL ISSUE LIMIT ON TAX-EXEMPT BONDS PER TAXPAYER

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986; 26 USC 144 (a) (10) Internal Revenue Code of 1986

CFR Citation: 26 CFR 1

Legal Deadline: None

Abstract: These regulations would provide guidance regarding the provision enacted by the Tax Reform Act of 1984 which generally denies Federal income tax exemption for a small issue of development bonds if any of its beneficiaries receives the benefits of more than $40 million of prior outstanding industrial development bonds allocated to itself, including its allocated portion of the small issue in question. These regulations would also provide guidance regarding how the proceeds of an issue of industrial development bonds are to be allocated among its beneficiaries.

2719. INCOME TAX—ACCELERATED COST RECOVERY SYSTEM

Legal Authority: 26 USC 7805 Internal Revenue Code of 1954; 26 USC 168 Internal Revenue Code of 1954; 26 USC 179 Internal Revenue Code of 1954; 26 USC 1245 Internal Revenue Code of 1954; 26 USC 453 Internal Revenue Code of 1954; 26 USC 167 Internal Revenue Code of 1954; 26 USC 1250 Internal Revenue Code of 1954; 26 USC 57 (a) (12) Internal Revenue Code of 1954; 26 USC 312 (k) Internal Revenue Code of 1954; 26 USC 172 (b) Internal Revenue Code of 1954; 26 USC 812 (b) Internal Revenue Code of 1954; 26 USC 46 (b) Internal Revenue Code of 1954; 26 USC 53 (c) Internal Revenue Code of 1954; 26 USC 381 (c) Internal Revenue Code of 1954

CFR Citation: 26 CFR 1

Legal Deadline: None

Abstract: To provide regulations under section 168 and accompanying provisions clarifying the operation of the accelerated cost recovery scheme. This cost recovery system generally applies to property placed in service after December 31, 1980. Generally, section 168 applies to "recovery property" which is defined as tangible property of a character subject to the allowance for depreciation which is used in a trade or business, or held for the production of income.

2722. DEFINITION OF RESEARCH AND EXPERIMENTAL EXPENDITURES UNDER SECTION 174 OF THE CODE

Legal Authority: 26 USC 7805(a) Internal Revenue Code of 1986

CFR Citation: 26 CFR 1.174-2; 26 CFR 1.41

Legal Deadline: None

Abstract: The regulations clarify the definition of "research and experimental expenditures" under section 174 of the Internal Revenue Code. The regulations also clarify the definition of "research and experimental expenditures" for purposes of section 41 of the Code, because section 41 relies on the definition of that item in section 174.

2739. RECOGNITION OF GAIN OR LOSS ON LIQUIDATING SALES AND DISTRIBUTIONS OF PROPERTY

Significance: Regulatory Program

Legal Authority: 26 USC 336 Internal Revenue Code of 1986; 26 USC 337 Internal Revenue Code of 1986

CFR Citation: 26 CFR 1

Legal Deadline: None

Abstract: The Tax Reform Act of 1986 (the "Act") repealed the last vestiges of the General Utilities doctrine ("GU repeal"), thereby requiring corporations to recognize gain in most cases upon the distribution of appreciated property to their shareholders. The Act granted

the Secretary authority to promulgate regulations necessary to carry out the purposes of the Act. It has been determined that GU repeal can be circumvented in certain circumstances, including, Downstream Mergers, Conversion into Tax Exempt Entities, and Cross Ownership. This project will seek to identify these areas and promulgate regulations to assure corporate level gain recognition as required by the Act.

Legal Deadline: None

Abstract: The Tax Reform Act of 1986 (the "Act") repealed the last vestiges of the General Utilities doctrine ("GU repeal"), thereby requiring corporations to recognize gain in most cases upon the distribution of appreciated property to their shareholders. The Act granted the Secretary authority to promulgate regulations necessary to carry out the purposes of the Act. It has been determined that GU repeal can be circumvented in certain circumstances, including, downstream mergers, conversion into tax exempt entities, and cross ownership. This project will seek to identify these areas and promulgate regulations to assure corporate level gain recognition as required by the Act.

2750. AMENDMENT OF THE INCOME TAX REGULATIONS UNDER SECTION 367 OF THE CODE (TRANSFERS TO FOREIGN CORPORATIONS) TO REFLECT SECTION 131 OF THE TAX REFORM ACT OF 1984 (P.L. 98-369)

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986; 26 USC 367 Internal Revenue Code of 1986

CFR Citation: 26 CFR 1

Legal Deadline: None

Abstract: The Income Tax Regulations under section 367 will be amended to reflect the changes made to that section by the Tax Reform Act of 1984. Section 367 now provides generally that a foreign corporation will not be considered to be a corporation, for purposes of certain nonrecognition provisions of the Code, upon the transfer of property to such corporation by a U.S. person. The statute provides certain exceptions to that rule, exemptions to those exceptions, and special rules applicable to certain specified transfers. The regulations will provide guidance concerning the applicability of the general rule and its exceptions and special rules, including guidance concerning transfers of assets for use in the active conduct of a trade or business, stock transfers, transfers of intangible assets, and transfers of branch operations that have operated at a loss.

2759. ALLOCATION OF A LOSS CORPORATION'S INCOME OR LOSS FOR THE TAXABLE YEAR THAT INCLUDES THE CHANGE DATE BETWEEN THE PERIODS ENDING WITH AND AFTER THE CHANGE DATE

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986; 26 USC 382 Internal Revenue Code of 1986

CFR Citation: 26 CFR 1

Legal Deadline: None

Abstract: Except as provided in regulations, sections 382(b)(3)(A) and (d)(1) of the Internal Revenue Code of 1986 provide for a ratable allocation of income or net operating loss, respectively, for the taxable year that includes the change date. Notice 87-79, 1987-2 C.B. 387, states that regulations will, in certain cases, provide taxpayers with an election to allocate income and loss between the periods ending with and after the change date on the basis of a closing of their books as of the change date (rather than on the basis of a ratable allocation). The purpose of this regulations project is to implement the above mentioned portion of Notice 87-79 and to provide guidance in certain related areas.

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986; 26 USC 382 Internal Revenue Code of 1986

CFR Citation: 26 CFR 1.382-2T(k)(6)

Legal Deadline: None

Abstract: The temporary regulations under section 382 of the Code require loss corporations to identify their five percent shareholders and any five percent shareholders of the loss corporation's corporate shareholders. Foreign corporations do not always have the ability to identify their five percent shareholders. This project will consider whether the attribution, aggregation, and segregation rules under section 382 should be modified when applied to foreign corporate shareholders of a loss corporation, and whether the Service should substitute a more convenient inquiry for foreign corporate shareholders than the current five percent shareholder identification.

2772. ANNUAL INFORMATION REPORTS BY TRUSTEES AND ISSUERS OF INDIVIDUAL RETIREMENT PLANS

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986; 26 USC 408 Internal Revenue Code of 1986; PL 98-369, Sec 147

CFR Citation: 26 CFR 1

Legal Deadline: None

Abstract: On June 28, 1983, the Internal Revenue Service issued news release IR-83-88 requiring new information reporting by trustees of individual retirement accounts and issuers of individual retirement annuities (including accounts and annuities that are simplified employee pensions). Form 5498, Individual Retirement Arrangement Information, was prescribed in the news release as the information return to be used for this purpose. This regulation project will amend the regulations under section 408 to conform them to the reporting requirements announced in the news release. In addition, section 147 of the Tax Reform Act of 1984 amended section 408 (i) of the Code to require that contributions be identified as to the taxable year to which they apply. This amendment will be included in this regulation.

2793. INCOME TAX—LIMITATION ON DEDUCTIONS IN CASE OF FARMING SYNDICATES

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986; 26 USC 464 Internal Revenue Code of 1986; 26 USC 278 (b) Internal Revenue Code of 1986

CFR Citation: 26 CFR 1

Legal Deadline: None

Abstract: The regulations would provide that enterprises which qualify as farming syndicates must deduct expenses for feed, seed fertilizer, et cetera, only when used or consumed and to capitalize certain cost of poultry. Furthermore, farming syndicates are to capitalize certain expenses of groves, orchards and vineyards to the extent such expenses are incurred before the grove, orchard or vineyard becomes productive.

2794. INCOME TAX—DETERMINATION OF AMOUNTS AT RISK WITH RESPECT TO CERTAIN ACTIVITIES

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986; 26 USC 465 Internal Revenue Code of 1986; PL 94-455, Sec 204 Tax Reform Act of 1976

CFR Citation: 26 CFR 1

Legal Deadline: None

Abstract: The regulations would provide guidance to taxpayers for purposes of determining the amount the taxpayer is at risk in certain activities. This guidance is necessary because a taxpayer's deductions are limited to the amount the taxpayer is at risk in the activity. This at risk limit applies to most activities except the holding of real property and certain equipment leasing by closely-held corporations.

2827. ● SPECIAL RULES FOR DETERMINING SOURCE

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986; 26 USC 863 Internal Revenue Code of 1986

CFR Citation: 26 CFR 1

Legal Deadline: None

Abstract: The proposed regulation provides the general rule for determining the source of scholarships and fellowship grants as defined under section 117. The source of such payments is determined by the residence of the payor. A special rule is provided for payments made by a U.S. payor to a nonresident alien studying abroad. In such circumstances, the source is considered to be foreign source.

2831. TRANSITION RULES FOR ALLOCATION AND APPORTIONMENT OF INTEREST EXPENSE AND RULES CONCERNING THE TREATMENT OF FINANCIAL ARRANGEMENTS THAT ALTER EFFECTIVE INTEREST EXPENSE

Significance: Regulatory Program

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986; 26 USC 864(e) Internal Revenue Code of 1986

CFR Citation: 26 CFR 1

Legal Deadline: None

Abstract: The interest allocation transition rules are a complex set of provisions featuring a three part phase-in scheme. Particular statutory provisions are eligible for extended relief from the generally applicable phase-in rule. The interest equivalent portion of the regulations deals with the impact of financial products on the total amount of interest expense that is subject to allocation.

2840. 904(F) TRANSITION RULES

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986; PL 99-514, Sec 1203

CFR Citation: 26 CFR 1

Legal Deadline: None

Abstract: Section 1203 of the Tax Reform Act of 1986 amends section 904 (f) by adding paragraph (5) at the end thereof which requires that foreign source losses with respect to any income category first offset the taxpayer's other foreign source income subject to a separate limitation for the taxable year on a proportionate basis before such losses offset the taxpayer's U.S. source income. Accordingly, the regulation will provide rules for the allocation of foreign source losses incurred in taxable years beginning before the effective date of the Tax Reform Act of 1986.

2841. INCOME TAX—TAXPAYER'S OBLIGATION TO FILE A NOTICE OF REDETERMINATION OF FOREIGN TAX AND CIVIL PENALTIES FOR FAILURE TO FILE

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986; 26 USC 905 (c) Internal Revenue Code of 1986; 26 USC 6689 Internal Revenue Code of 1986

CFR Citation: 26 CFR 1; 26 CFR 301; 26 CFR 602

Legal Deadline: None

Abstract: The regulations will establish procedures for taxpayers by which they must notify the Service of a change in foreign tax liability for a taxable year for which they claimed the foreign tax credit. The regulations provide special rules for redetermining the taxpayer's United States tax liability when the dollar value of the foreign currency fluctuates between the time for which the foreign tax credit is originally claimed and the time for which the foreign tax credit is redetermined. In addition, the regulations set forth deadlines for compliance with the notification requirements.

2853. TRANSITION RULE FOR QUALIFIED BUSINESS UNITS USING A NET WORTH METHOD OF ACCOUNTING FOR TAXABLE YEARS BEGINNING BEFORE JANUARY 1, 1987

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986; 26 USC 989 (c) Internal Revenue Code of 1986

CFR Citation: 26 CFR 1

Legal Deadline: None

Abstract: This project provides transition rules for those foreign branches of United States entities who used a net worth method of accounting prior to the enactment of the Tax Reform Act of 1986. Under the Act, foreign branches must now account for their operations under the profit and loss method as set forth in section 987 of the Code.

2874. ADJUSTMENTS REFLECTING A RESTRUCTURING OF A CONSOLIDATED GROUP

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986; 26 USC 1502 Internal Revenue Code of 1986

CFR Citation: 26 CFR 1

Legal Deadline: None

Abstract: This regulation provides rules for determining the basis and the earnings and profits of members of a consolidated group following certain changes in the structure of the group where the group remains in existence. This regulation also provides for alternative agents of the group if the common parent ceases to be the common parent.

2877. CONSOLIDATED INVESTMENT CREDIT RECAPTURE

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986; 26 USC 1502 Internal Revenue Code of 1986

CFR Citation: 26 CFR 1.1502-3(f)(2)

Legal Deadline: None

Abstract: Section 47 (a) (1) of the Internal Revenue Code and the regulations thereunder provide the general rule that if section 38 property is disposed of there shall be recapture of investment credit. Section 1.1502-3 (f) (2) provides an exception to that rule for the transfer of section 38 property between members of an affiliated group; such a transfer will not cause a disposition within the meaning of section 47 (a) (1). This exception is premised on treating the affiliated group, for investment tax credit purposes, as a single entity that continues to own the property after the transfer. Such a premise is not justified, and the exception does not apply, if at the time of the transfer there is an intent that the property subsequently leave the group in a transaction described in section 1.1502-13 (f). See Rev. Rul. 82-20, 1982-1 CB 6. In such a case, recapture is appropriate. The regulation will amend section 1.1502-3 (f) (2) to make this explicit.

2878. TREATMENT OF DIVIDEND DISTRIBUTIONS AFTER THE SALE OF A SUBSIDIARY

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986; 26 USC 1502 Internal Revenue Code of 1986

CFR Citation: 26 CFR 1.1502-32 (T)

Legal Deadline: None

Abstract: When a subsidiary declares a dividend while a member of a consolidated group, but pays the dividend after disaffiliation from the consolidated group, the basis of the subsidiary's stock is not reduced by the amount of the dividend. The problem is caused by a difference in timing of the two events (declaration of dividend and payment of dividend) and its effect on earnings and profits and basis. This regulation will alleviate the problem by providing that basis of the subsidiary's stock will be reduced when the subsidiary declares a dividend.

2879. TRANSACTIONS BETWEEN MEMBERS INVOLVING COMMON NONTAXABLE EXCHANGES

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986; 26 USC 1502 Internal Revenue Code of 1986

CFR Citation: 26 CFR 1.1502-13

Legal Deadline: None

Abstract: Section 1.1502-13 of the Income Tax Regulations provides the general rule that the term intercompany transaction means a transaction during a consolidated return year between corporations which are members of the same group. Section 1.1502-13 (f) provides as a general rule that deferred gain attributable to a selling member will be triggered when the asset leaves the group. The regulation, in effect, does not deal with a situation where a selling member exchanges property subject to Section 1.1502-13 rules in a nontaxable exchange to an outside party. Moreover, the current regulations do not adequately cover tax free transactions between members. This proposed regulation will provide rules for certain common nontaxable exchanges within the affiliated group.

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986; 26 USC 4986 to 4998 Internal Revenue Code of 1986

CFR Citation: 26 CFR 51

Legal Deadline: None

Abstract: These regulations would provide rules relating to production from a unitized property of imputed stripper well crude oil, imputed heavy crude oil, and imputed newly discovered crude oil for purposes of the windfall profit tax. The regulations would provide rules for determining the amount of imputed oil and rules for allocating the imputed oil among the producers of the unitized property.

2905. INFORMATION RETURNS OF BROKER TRANSACTIONS

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986; 26 USC 6045 Internal Revenue Code of 1986

CFR Citation: 26 CFR 1

Legal Deadline: None

Abstract: The regulations in this project clarify the definition of the term "commodity" for purposes of broker reporting. Rules are provided for determining whether personal property (including gold and silver) is a commodity. Generally, the term "commodity" is defined as personal property that is deliverable in satisfaction of a regulated futures contract, certain specified personal property that the secretary determines is to be treated as a commodity or any form or quality of or any interest in such personal property. The term "commodity" does not include a security, regulated futures contract, forward contract, or a form of tangible personal property if the gross proceeds from its sale exceed by more than 15 percent its value as a commodity. The rules proposed include alternative methods (the "exact" and "approximate" methods) of tangible personal property valuation.

2906. INFORMATION RETURNS ON SALES THROUGH COD ACCOUNTS

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986; 26 USC 6045 Internal Revenue Code of 1986

CFR Citation: 26 CFR 1

Legal Deadline: None

Abstract: The regulations provide a special rule for broker reporting with respect to transactions made through a cash on delivery account (COD). In addition, these regulations make technical corrections to the list of recipients exempted from coverage under the reporting requirement, and expand the class of brokers which qualify for the multiple broker rule.

2917. APPLICATION OF UNIFIED PARTNERSHIP AUDIT PROVISIONS OF TEFRA TO REMICS

Legal Authority: 26 USC 860G(c) Internal Revenue Code of 1986

CFR Citation: 26 CFR 301.6221; 26 CFR 301.6222; 26 CFR 301.6223; 26 CFR 301.6224; 26 CFR 301.6225; 26 CFR 301.6226; 26 CFR 301.6227; 26 CFR 301.6228; 26 CFR 301.6229; 26 CFR 301.6230; 26 CFR 301.6231; 26 CFR 301.6232; 26 CFR 301.6233; 26 CFR 1.860F; 26 CFR 1.86OF-4T

Legal Deadline: None

Abstract: Public Law 99-514, Title VI, section 671(a) (October 22, 1986, 100 Stat. 2309) added sections 860A-860G of the Internal Revenue Code of 1986. These sections set forth the Federal income tax treatment of REMICs and of investors in REMICs, and provide that REMICs will generally be treated as partnerships. This project will apply the partnership audit provisions of sections 6221 through 6233 of the Internal Revenue Code (added by Public Law 97-248, Tax Equity and Fiscal Responsibility Act of 1982) to REMICs.

2918. MISCELLANEOUS RULES RELATING TO CONSOLIDATED ADMINISTRATIVE AND JUDICIAL PROCEEDINGS TO DETERMINE THE TAX TREATMENT OF PARTNERSHIP ITEMS

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986; 26 USC 6222 Internal Revenue Code of 1986; 26 USC 6223 Internal Revenue Code of 1986; 26 USC 6224 Internal Revenue Code of 1986; 26 USC 6227 Internal Revenue Code of 1986; 26 USC 6230 Internal Revenue Code of 1986; 26 USC 6231 Internal Revenue Code of 1986

CFR Citation: 26 CFR 301

Legal Deadline: None

Abstract: The proposed regulations would set forth miscellaneous procedural rules for consolidated administrative and judicial proceedings to determine the tax treatment of partnership items. The regulations would provide guidance for various elections under these new procedures and for filing requests for an administrative adjustment.

2921. ADMINISTRATIVE APPEAL OF THE ERRONEOUS FILING OF NOTICE OF TAX LIEN

Legal Authority: 26 USC 6326 Internal Revenue Code of 1986 PL 100-647, sec. 6238

CFR Citation: 26 CFR 1.6326

Legal Deadline: None

Abstract: Section 6238 establishes a new section 6326 of the Internal Revenue Code. New section 6326 (a) provides that the Secretary shall prescribe regulations that provide for the Administrative Appeal of the filing of Notice of Federal Tax Lien. Section 6326 (b) provides that if the Secretary determines that the service has erroneously filed a Notice of Federal Tax Lien, the Secretary must expeditiously, and to the extent practicable within fourteen days after such determination, issues a certificate that must include a statement that the filing was erroneous. The regulations, will address what issues are appealable under section 6326, to when an appeal should be made, and the procedures for appeal.

2922. PROPOSED REGULATIONS UNDER THE SPENDING REDUCTION ACT OF 1984, RELATING TO REDUCTION OF TAX OVERPAYMENTS BY THE AMOUNT OF PAST-DUE LEGALLY ENFORCEABLE DEBT OWED TO FEDERAL AGENCY

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986; 31 USC 3720A

CFR Citation: 26 CFR 301

Legal Deadline: None

Abstract: These proposed regulations will provide rules relating to the reduction of a taxpayer's overpayment of tax (i.e., tax refund) by the amount of any past-due legally enforceable debt owed to a federal agency by the taxpayer. The regulations explain which debts qualify for offset, and the steps a federal agency must make to refer a debt to the Internal Revenue Service.

2929. PROCEDURE AND ADMINISTRATION REGULATIONS - INCREASED RATE OF INTEREST ON SUBSTANTIAL UNDERPAYMENTS ATTRIBUTABLE TO CERTAIN TAX MOTIVATED TRANSACTIONS

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986; 26 USC 6621 Internal Revenue Code of 1986

CFR Citation: 26 CFR 301

Legal Deadline: None

Abstract: The regulations provide guidance to taxpayers subject to the increased rate of interest on substantial underpayments attributable to certain tax motivated transactions. The regulations define tax motivated transaction and accounting methods that may result in a substantial distortion of income. The regulations also provide rules for determining the amount of a tax motivated underpayment and the accrual of interest at the increased rate.

2946. TAXPAYER ASSISTANCE ORDERS

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986 PL 100-647, Sec. 6230

CFR Citation: 26 CFR 301.7811

Legal Deadline: Final, Statutory, February 8, 1992.
Temporary regulation published as TD 8246 effective February 8, 1989, must be published as final regulations within three years.

TREAS—IRS

Final Rule Stage

Abstract: PL 100-647, section 7811, adds new section 7811 to the Internal Revenue Code. This section provides that upon application filed by a taxpayer with the Ombudsman's office, the Ombudsman may issue a taxpayer assistance order (TAO) upon a determination that a taxpayer is or is about to suffer a significant hardship as the result of how the internal revenue laws are being administered by the service. The temporary regulations discuss the form, manner and time for filing an application for assistance, the terms of a TAO, and the supervision of applicable periods of limitation.

2947. REGULATIONS ON INCOME TAX UNDER THE TAX REFORM ACT OF 1984, RELATING TO BELOW-MARKET LOANS

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986; 26 USC 7872 Internal Revenue Code of 1986

CFR Citation: 26 CFR 1

Legal Deadline: None

Abstract: These regulations provide guidance to taxpayers who enter into certain below-market interest rate loan transactions. The regulations explain what type of transactions are treated as loans and what type of loans are subject to the provisions of section 7872. If the loan is subject to section 7872, the below-market loan will be recharacterized as an arm's length market-interest rate loan coupled with a payment by the lender to the borrower in an amount generally equal to the amount of imputed interest. The regulations provide rules for determining the amount and the character of the imputed transfers.

2981. CUSTOMS LIMITATION ON TAXPAYER'S BASIS IN PROPERTY IMPORTED FROM RELATED PERSONS

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986

CFR Citation: 26 CFR 1

Legal Deadline: None

Abstract: Prior to the Tax Reform Act of 1986 importers could claim a transfer price for customs purposes that was too low to be consistent with the price they

claim for income tax purposes. Section 1248 of the Tax Reform Act of 1986 addressed this problem by enacting Section 1059A of the Internal Revenue Code, under which importers cannot claim a transfer price for income tax purposes that is higher than would be consistent with the value they claim for customs purposes. Regulations will be needed to provide rules for coordinating customs and tax valuation principles. It is anticipated that as a result of Section 1059A of the Internal Revenue Code, some taxpayers will claim higher transfer prices for customs purposes. No estimate has been made of the revenue.

2983. WITHHOLDING OF TAX ON NON-RESIDENT ALIENS

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986; 26 USC 1441 Internal Revenue Code of 1986

CFR Citation: 26 CFR 1.1441

Legal Deadline: None

Abstract: Section 864 (c) (6) of the Code, added in 1986, had the unintended effect of allowing nonresident alien individuals to elect out of all withholding on pension payments from qualified plans. The regulation corrects this inadvertent loophole and requires withholding on such payments.

2984. DUAL RESIDENT COMPANIES—LIMITATION ON CONSOLIDATED LOSSES

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986; 26 USC 1503(d) Internal Revenue Code of 1986

CFR Citation: 26 CFR 1; 26 CFR 602

Legal Deadline: None

Abstract: If a U.S. Corporation is subject to a foreign country's tax on worldwide income, or on a residence basis as opposed to a source basis, any taxable loss it incurs cannot reduce the taxable income of any other member of a U.S. affiliated group for any other taxable year. Where a corporation is subject to foreign tax on a residence basis, then for U.S. purposes, its loss will be available to offset income of that corporation in other years, but not income of another U.S. Corporation. Regulations may exempt a U.S. corporation from this rule to the extent that its losses do not offset the income of foreign corporations for foreign tax purposes.

2985. ● ELECTION OF REDUCED RESEARCH CREDIT

Significance: Agency Priority

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986; 26 USC 280C (c) Internal Revenue Code of 1986

CFR Citation: 26 CFR 1.280C-4

Legal Deadline: Other, Statutory, March 4, 1990.
Certain taxpayers are required by statute to make an election prior to March 4, 1990.

Abstract: The regulation provides the manner of making the election under section 280C(c) of the Internal Revenue Code of 1986. The regulation provides a special rule for taxpayers who are required by section 7814(c) of the Revenue Reconciliation Act of 1989 (the 1989 Act) to make the election under section 280C(c) prior to March 4, 1990. The regulation also provides a special rule for taxpayers who made an election under section 41(h) prior to its repeal by the 1989 Act.

Agenda of Federal Regulations

AGENCY: Office of Thrift Supervision, Treasury.

ACTION: Publication of agenda items.

SUMMARY: The Office of Thrift Supervision (Office) is hereby publishing items for the April Unified Agenda of Federal Regulations.

In addition to the agenda items listed, the Office has recodified its regulations in 12 CFR chapter V to reflect that the authority to regulate thrift institutions was transferred from the Federal Home Loan Bank Board (Bank Board) to the Office pursuant to the Financial Institutions Reform, Recovery, and Enforcement Act of 1989 (FIRREA), Pub. L. No. 101-73, 103 Stat. 183, signed into law on August 9, 1989; 54 FR 49411 (November 30, 1989).

ADDRESS: Information Services Division, Office of Communications, Office of Thrift Supervision, 801 17th Street NW., Washington, DC 20006.

FOR FURTHER INFORMATION CONTACT: See persons listed below for specific agenda items.

Dated: February 16, 1990.
By the Office of Thrift Supervision.

M. Danny Wall,

Director.

Proposed Rule Stage

2995. REQUIRED CAPITAL LEVELS FOR SAVINGS ASSOCIATIONS; REGULATORY INTERVENTION

Significance: Regulatory Program

Legal Authority: 12 USC 1464

CFR Citation: 12 CFR 567

Legal Deadline: None

Abstract: The Office is addressing whether to amend the minimum regulatory capital regulations for savings associations to add specific language defining a particular level of capital as an "unsafe and unsound condition to transact business including having substantially insufficient capital" for the purpose of activating the Office's statutory authority to appoint a conservator or receiver. The advance notice of proposed rulemaking would set the floor capital requirements at a level of 1.5 percent of total assets, to be held in the form of core equity capital. The Office is currently developing a notice of proposed rulemaking in this area which would also define "insolvency".

2996. MUTUAL SAVINGS AND LOAN HOLDING COMPANIES

Significance: Agency Priority

Legal Authority: 12 USC 1467a

CFR Citation: 12 CFR 500 et seq

Legal Deadline: None

Abstract: The Office is reviewing issues to be addressed through the implementation of the mutual holding company provisions of the Home Owners' Loan Act. The provisions permit any savings association to reorganize to form a holding company by chartering an interim savings association whose stock is wholly-owned by the mutual association and transferring substantially all of the mutual association's assets and liabilities (including all insured liabilities) to the interim savings association.

2997. BONDS FOR DIRECTORS, OFFICERS, EMPLOYEES, AND AGENTS; FORM AND AMOUNT OF BONDS

Significance: Agency Priority

Legal Authority: 12 USC 1462 et seq; 12 USC 3806

CFR Citation: 12 CFR 563

Legal Deadline: None

Abstract: The Bank Board, as predecessor to the Office, adopted amendments to 12 CFR 563.19 which modified the schedule for calculating the permissible deductible for fidelity bonds and sought comment on whether additional, more substantive revisions to the fidelity bond regulations for all savings associations are necessary.

Among the revisions under consideration are changes to The American Surety Association Form No. 22 Blanket Bond, and to the amount of the bond required.

2998. ● APPRAISALS

Significance: Agency Priority

Legal Authority: 12 USC 1462; 12 USC 1462a; 12 USC 1463; 12 USC 1464; 12 USC 1467a; 12 USC 1828

CFR Citation: 12 CFR 564

Legal Deadline: None

Abstract: The Office has adopted a proposal which would implement Title XI of FIRREA. It would afford protection for federal financial and public policy interests in real estate related transactions by requiring real estate appraisals used in connection with federally related transactions to be in writing, in accordance with uniform standards, by appraisers whose competency has been proven and whose professional conduct would be effectively supervised. The proposal would be applicable to all federally related transactions entered into by the Office and by Federal savings associations, state-chartered savings associations, savings and loan holding companies, and their subsidiaries.

Final Rule Stage

2999. REGULATORY CAPITAL REQUIREMENTS FOR SAVINGS ASSOCIATIONS

Significance: Agency Priority

Legal Authority: 12 USC 1464

CFR Citation: 12 CFR 567

Legal Deadline: None

Abstract:

The Office adopted an interim rule amending its regulations concerning minimum capital requirements for all savings associations as required by FIRREA. One purpose of the rule is to ensure that savings associations engaging in higher risk activities are adequately capitalized. The rule includes requirements for minimum levels of tangible, core, and total capital.

In connection with this rule, the Bank Board as predecessor to the Office proposed a description of methodologies to be used in calculating the interest-rate risk component of the rule in the form of an advance supplemental notice of proposed rulemaking. The Office is currently formulating a notice of proposed rulemaking in this area.

3003. ● CAPITAL DISTRIBUTIONS BY SAVINGS ASSOCIATIONS

Significance: Agency Priority

Legal Authority: 12 USC 1462; 12 USC 1462a; 12 USC 1463; 12 USC 1464; 12 USC 1467a; 12 USC 1468; 12 USC 1828; 12 USC 3806; 15 USC 78c; 15 USC 78l to 78n; 15 USC 78w; 42 USC 4106

CFR Citation: 12 CFR 563; 12 CFR 563b

Legal Deadline: None

Abstract: The Bank Board proposed a rule which would implement a uniform regulatory approach to capital distributions such as dividends, stock repurchases, and cash-out mergers using a tiered approach tied to whether a savings association meets its capital requirements. Those meeting such requirements would be given greater flexibility to engage in capital distributing activities.

TREAS—OTS

Final Rule Stage

Abstract: The Office has adopted a notice of proposed rulemaking which would permit it to assess fees to cover the costs of examinations of institutions under its jurisdiction. The proposal sets forth the rates of such fees and how the Office will determine appropriate examination and application fees. This proposed method of funding would replace the funding mechanism of the Office's predecessor, the Federal Home Loan Bank Board, pursuant to FIRREA.

3005. TRANSACTIONS WITH AFFILIATES

Significance: Agency Priority

Legal Authority: 12 USC 1468

CFR Citation: 12 CFR 584.3

Legal Deadline: None

Abstract: The Bank Board proposed amendments to its regulations pertaining to transactions between institutions whose accounts are insured by the Federal Savings and Loan Insurance Corporation and affiliates of those institutions. The proposed amendments (1) define and clarify the applicability of the limitations and prohibitions specified in sections 23A and 23B of the Federal Reserve Act and (2) clarify the applicability of the limitations and prohibitions specified in the Board's regulations existing prior to the Competitive Equality Banking Act (CEBA). The proposed amendments were intended to further the Congressional intent codified in CEBA by providing parity between a bank and a thrift holding company with respect to the treatment of transactions between the subsidiary depository institution and its affiliates engaged in activities permissible for a bank holding company under the Bank Holding Company Act and the regulations thereunder.

As successor to the Bank Board, the Office inherited all of its outstanding proposals including these proposed amendments. The Office extended its period of consideration for the proposal

3006. AGENCY OFFICES

Significance: Agency Priority

Legal Authority: 12 USC 1464

CFR Citation: 12 CFR 545

Legal Deadline: None

Abstract: The Office has revised its regulations in order to remove the restriction prohibiting Federal institutions from establishing agency offices to originate and service mortgage loans outside of the state where the institution's home office is located or states where any of the institution's branches are located. The regulation requires written notification of agency openings and closings.

3012. ● INVESTMENT PORTFOLIO POLICY AND ACCOUNTING GUIDELINES

Significance: Agency Priority

Legal Authority: 12 USC 1462a; 12 USC 1463; 12 USC 1464

CFR Citation: 12 CFR 571

Legal Deadline: None

Abstract: The Office's regulation on investment portfolio policy and accounting guidelines which was scheduled to go into effect on August 30, 1989 was delayed until January 1, 1990 so that the Federal Financial Institutions Examination Council could convene a task force to develop a joint statement of policy that clarifies Generally Accepted Accounting Principles for investment portfolios of financial institutions.

The Office further delayed the effective date until April 1, 1990 to allow additional time for consistent standards to be developed by federal banking agencies pursuant to the mandate of Title XII, section 1215 of FIRREA.

Department of Veterans Affairs

Semiannual Regulatory Agenda

DEPARTMENT OF VETERANS AFFAIRS (VA)

DEPARTMENT OF VETERANS AFFAIRS

38 CFR Ch. I

Agenda of Federal Regulations

AGENCY: Department of Veterans Affairs.

ACTION: Publication of agenda of regulations.

SUMMARY: This agenda announces the regulations that the Department of Veterans Affairs will have under review, development, or revision during the 12-month period from April 1990 to April 1991. The purpose in publishing the Department's regulatory development activities is to allow all interested persons the opportunity to participate in the rulemaking process.

ADDRESSES: Interested persons are invited to comment on the regulations listed in the agenda by contacting the individual Department contact listed for each regulation or by writing to: Director, Records Management Service (723), Department of Veterans Affairs, 810 Vermont Avenue NW., Washington, DC 20420.

FOR FURTHER INFORMATION CONTACT: Patricia Tatum, (202) 233-3770.

SUPPLEMENTARY INFORMATION: Executive Order 12291 "Federal Regulation" and the Regulatory Flexibility Act (Pub. L. 96-354) require that executive agencies publish in the **Federal Register** in April and October of each year an agenda of regulations under development and review.

The Department of Veterans Affairs has no regulations considered major under the terms of Executive Order 12291; however, all of this Department's proposed rules and current rules under review, except those considered to be internal Department policy management or routine regulations, have been listed in accordance with section 5(a) of the Executive order.

This agenda incorporates those categories of information required pursuant to 5 U.S.C. 602(a) and 610(c) of the Regulatory Flexibility Act.

This agenda has been prepared in accordance with OMB Bulletin 90-03.

By direction of the Secretary.

Edward G. Lewis,

Assistant Secretary for Information Resources Management.

3015. ● QUALITY ASSURANCE CONFIDENTIALITY OF MANDATORY HSRO-SIR FUNCTIONS

Legal Authority: 38 USC 3305; 38 USC 4151

CFR Citation: 38 CFR 17.500; 38 CFR 17.504; 38 CFR 17.505; 38 CFR 17.506; 38 CFR 17.507; 38 CFR 17.514; 38 CFR 17.515; 38 CFR 17.516; 38 CFR 17.517; 38 CFR 17.519; 38 CFR 17.523; 38 CFR 17.527; 38 CFR 17.534

Legal Deadline: None

Abstract: 38 USC 3305 prohibits VA from designating any Quality Assurance (QA) program activity, for the purpose of confidentiality, unless such activity has been specified in regulation. Those regulations, as amended, govern VA's QA program activities, and records and documents which are made confidential and privileged. VA is proposing reorganization of mandatory HSRO-SIR functions, streamline programmatic QA requirements for medical facilities, elimination of HSRO-SERP and establishment of a VACO external review section, refinement of general regulations designating and describing confidential records and documents, and clarifying outdated language.

DEPARTMENT OF VETERANS AFFAIRS (VA) — Proposed Rule Stage

VETERANS HEALTH SERVICES AND RESEARCH ADMINISTRATION

3020. DISPOSITION OF VETERAN'S PERSONAL FUNDS AND EFFECTS ON FACILITY UPON DEATH, OR DISCHARGE, OR UNAUTHORIZED ABSENCE, AND OF FUNDS AND EFFECTS FOUND ON FACILITY

Legal Authority: 38 USC 210(c)

CFR Citation: 38 CFR 12.0 to 12.24

Legal Deadline: None

Abstract: Section 208 of Public Law 94-581 provides that unclaimed property or funds and effects left by a dependent or survivor of a veteran receiving medical care at a Department of Veterans Affairs facility as a CHAMPVA beneficiary will be disposed of in the same or similar manner as such property left by a veteran. Also, estates of dependents or survivors of a veteran who dies intestate and without legal heirs while a patient in any Department of Veterans Affairs facility or any hospital, while being furnished care or treatment therein by VA will escheat to the U.S. Government. Some of these regulations have not been updated since 1948, therefore, editorial changes will be made which will not affect policy.

RIN: 2900–AC70

3022. GRANTS TO STATES FOR STATE EXTENDED CARE FACILITIES

Legal Authority: 38 USC 5031 to 5037; PL 100-322

CFR Citation: 38 CFR 17.170 to 17.177

Legal Deadline: None

Abstract: Pub. L. 100-322 changed the date of the priority list for applications from July 1 to August 15. The Secretary is provided authority to conditionally award construction grants. If a state does not complete requirements within 90 days after conditional approval, funds will be deobligated. These proposed regulations will implement that change. Construction standards in 38 CFR 17.177 are being totally

reformatted, revised and updated. The veteran population in 38 CFR 17.171 Appendix A is being updated to reflect the current information. Additionally, provisions are being established to handle large grant requests where one project may exceed the annual appropriation. Requests for projects exceeding one-half the annual appropriation will receive lower priority on the list and may be partially funded if funds are available, the project ranks high enough on the priority list for Federal funds, and the State accepts a smaller grant.

3024. CONFIDENTIAL QUALITY ASSURANCE PROGRAM RECORDS AND DOCUMENTS

Legal Authority: 38 USC 3305; 38 USC 4151

CFR Citation: 38 CFR 17.500; 38 CFR 17.506; 38 CFR 17.507(a)(4); 38 CFR 17.508; 38 CFR 17.509; 38 CFR 17.515; 38 CFR 17.516; 38 CFR 17.519

Legal Deadline: None

Abstract: 38 USC 3305 prohibits VA from designating any Quality Assurance (QA) program activity, for the purpose of confidentiality, unless such activity has been specified in regulation. Final regulations implementing 38 USC 3305 were made effective October 22, 1982. Those regulations govern VA's QA program activities and records and documents which are made confidential and privileged. Proposed rules amending 38 CFR 17.500-17.534 were issued in the Federal Register on October 27, 1988, and the public comment period ended November 28, 1988. One commenter suggested a change to those regulations that could not be accepted by VA without public comment. Therefore, VA is proposing to reorganize the description of the continuous monitoring functions, streamline programmatic QA requirements for the medical facilities and update requirements according to new standards.

Legal Deadline: None

Abstract: The Department of Veterans Affairs is proposing to rescind several regulations. These regulations concern the implementation of Title VI, Civil Rights Act of 1964 in the education programs which VA administers. The regulations either conflict with or repeat unnecessarily other regulations which deal with the implementation of that Act. Rescinding these regulations will eliminate any confusion in the public's perception of the way VA is implementing this Act.

Legal Deadline: None

Abstract: A number of regulatory changes will be proposed for the VA manufactured home loan program. VA would conform to HUD's practices on certifications, invoicing and volume rebates. Lenders would be permitted to file claims upon receipt of the VA's resale price and thereafter retain the profit or loss which results from subsequent sale of the home. Broader insurance coverage would be required to cover missing items at repossession. Actual freight costs would be allowed in the invoice, and the amounts and items which could be included in the loan would be revised.

3035. LOAN GUARANTY: APPROVAL AND WITHDRAWAL OF AUTOMATIC PROCESSING PRIVILEGE

Legal Authority: 38 USC 210(c); 38 USC 1802(d)

CFR Citation: 38 CFR 36.4300; 38 CFR 36.4300

Legal Deadline: None

Abstract: The Department of Veterans Affairs may grant lenders the authority to process loans on the automatic basis if they meet requirements set by VA. Currently these requirements are published in administrative issues with release to program participants. The proposed regulations will place the requirements in regulatory form to ensure proper notice. The requirements will include minimums for such items as working capital, experience of the firm and/or principal officers and its underwriters. These regulations will apply to lenders such as mortgage bankers who are not already under supervision by State or Federal entities. These regulations will also prescribe standards and procedures for withdrawal of the automatic processing authority.

3036. ALLOWABLE FEES AND CHARGES FOR DEPARTMENT OF VETERANS AFFAIRS GUARANTEED LOANS

Legal Authority: 38 USC 210(c); 38 USC 1803(c)

CFR Citation: 38 CFR 36.4312; 38 CFR 36.4254

Legal Deadline: None

Abstract: Regulations allow the veteran obtaining a Department of Veterans Affairs guaranteed loan to pay the lender making the loan a one percent origination fee to cover the processing of the loan. Any other discount points required by the lender are to be paid by someone other than the veteran except in those cases where it is specifically allowed, such as refinancing loans. This regulation would clarify the instances in which a veteran may or may not pay discount points. This regulation change would also clarify that discount points may not be paid by the veteran (except when specifically allowed) to anyone, including the lender, seller or other concerned party.

3037. FULL DISCLOSURE OF BENEFICIARY'S INCOME AND ASSETS

Legal Authority: PL 99-576, Sec 505; 38 USC 3202(b)

CFR Citation: 38 CFR 13.58(b)(2)(iii); 38 CFR 13.59(a); 38 CFR 13.100(a)(1); 36 CFR 13.102(b); 38 CFR 13.104(a)

Legal Deadline: None

Abstract: Federally appointed fiduciaries are not required, except under very specific circumstances, to divulge non-VA income and assets belonging to the incompetent beneficiary. It is difficult to assess whether the fiduciary is using the beneficiary's VA assets appropriately unless placed in the context of total income and assets available. The purpose of these changes is to lessen the potential for fraud, waste and abuse. 38 CFR 13.58(b)(2) and 13.59(a) detail the responsibilities of legal custodians and court-appointed guardians respectively. They would be amended to require the reporting of non-VA assets. 38 CFR 13.100(a)(1) defines the authority of the Veterans Services Officer to supervise fiduciaries. The intended change would permit the Veterans Services Officer to request non-VA financial information from fiduciaries. 38 CFR 13.102(b) and 13.104(b) define the accountability of legal custodians and court-appointed guardians respectively. The intended change requires disclosure of non-VA financial information.

Legal Deadline: None

Abstract: The Veterans Benefits and Services Act of 1988 contains a provision which changes the method of measuring laboratory sessions for the purpose of paying educational benefits. The definition of standard class session is also changed. This proposal will bring the pertinent regulation governing the Montgomery GI Bill into agreement with the law.

3039. AUTHORITY OF FIDUCIARIES TO CONDUCT INSURANCE TRANSACTIONS

Legal Authority: 38 USC 706; 38 USC 744

CFR Citation: 38 CFR 6.211; 38 CFR 8.119

Legal Deadline: None

Abstract: Under current procedures, State appointed fiduciaries may perform insurance transactions, e.g., apply for coverage or reinstate a policy, on behalf of incapacitated veterans. The ability of a fiduciary to perform a particular transaction is dependent on the authority granted to the fiduciary by State law. Such authority varies from State to State. Because of this, before any insurance transaction can be completed it must first be determined whether the fiduciary is authorized by State law to conduct the particular transaction. This entails referring the matter to a District Counsel for review. This process is time consuming and delays rendering service to our policyholders. In order to alleviate this problem and to establish a consistent approach regarding the powers of State-appointed fiduciaries, as well as federally appointed fiduciaries as they pertain to government life insurance transactions only, we are proposing regulations which will clarify and enunciate such powers.

Legal Deadline: None

Abstract: The Veterans' Benefits and Programs Improvement Act of 1988 contains several provisions which affect the Montgomery GI Bill-Selective Reserve. These include paying benefits for less than half-time training in certain instances; liberalizing the eligibility criteria; and liberalizing the provisions for extending a reservist's period of eligibility. This proposal will acquaint the public with the way in which the Department of Veterans Affairs will administer most of the new provisions of the law.

3069. ● ACCEPTANCE OF PARTIAL PAYMENTS

Legal Authority: 38 USC 210(c); 38 USC 1832; PL 101-237

CFR Citation: 38 CFR 36.4200; 38 CFR 36.4300

Legal Deadline: None

Abstract: Public Law 101-237, the Veterans Home Loan Indemnity and Restructuring Act of 1989, amended 38 USC 1832(a) to require holders of VA guaranteed loans that are in default to notify VA if they refuse a partial payment of the amount owed when submitted by the veteran borrower. Notification may include a statement as to the circumstances of the default and the reason for the holder's refusal.

3070. ● APPLICATION OF STANDARD

Legal Authority: 38 USC 3102(c)

CFR Citation: 38 CFR 1.965

Legal Deadline: None

Abstract: Public Law 101-237 (December 18, 1989) amended 38 USC 3102(c) by removing "material fault" and "lack of good faith" as absolute bars to waiver of collection of VA benefit debts and home loan program debts, and replacing them with "bad faith." As a result, we must revise our regulation to comply with this legislative change.

Legal Authority: 38 USC 210; 38 USC 906; 38 USC 1003

CFR Citation: 38 CFR 1.631; 38 CFR 1.632; 38 CFR 1.633

Legal Deadline: None

Abstract: VA provides grave monuments for veterans and eligible descendants and operates under authority of 38 U.S.C. 906 and 1000-1007. Under 38 U.S.C. 1003(b), VA may erect memorials in national cemeteries to individuals or groups of individuals whose remains have never been recovered or identified. Regulations have been published regarding provision of headstones or markers for individuals, but not for groups of individuals whose remains have not been recovered or identified. VA is proposing to provide memorials for such groups on the same basis as for individuals, or if requested, by a Federal agency or department acting on behalf of the next of kin.

3072. NONDISCRIMINATION ON THE BASIS OF SEX UNDER FEDERALLY ASSISTED EDUCATION PROGRAMS AND ACTIVITIES

Significance: Regulatory Program

Legal Authority: 20 USC 1681 et seq; 38 USC 210(a); EO 12250; EO 12067

CFR Citation: 38 CFR 18

Legal Deadline: None

Abstract: To establish standards and procedures for enforcing Title IX of the

VA — Proposed Rule Stage

Education Amendments of 1972 in educational programs and activities receiving Federal financial assistance from VA. Title IX prohibits discrimination on the basis of sex. There are no alternatives to the issuance of the regulations. Participants, potential participants and the public in general will benefit from Federally assisted programs provided free from prohibited discrimination based on sex.

This originally appeared as a proposed rule in the Federal Register of April 25, 1979 (44 FR 24320). Because of the extended time frame due to internal agency consultation with the Department of Justice, the Department is planning to repropose these regulations.

VETERANS HEALTH SERVICES AND RESEARCH ADMINISTRATION

3073. CONTRACT MEDICAL CARE

Significance: Regulatory Program

Legal Authority: PL 99-576

CFR Citation: 38 CFR 17.50b; 38 CFR 17.87

Legal Deadline: None

Abstract: The Department of Veterans Affairs and the Department of Health and Human Services will be proposing to amend applicable regulations to permit VA to pay for authorized or private hospital care in amounts based on the rates allowed by Medicare under the prospective payment system. This step will help ensure that payments made by VA are consistent with those made by the largest Federal health care program for similar services in the community.

3075. OPERATION OF CHILD CARE CENTERS AT VA FACILITIES

Legal Authority: PL 100-322, Sec 412

CFR Citation: 38 CFR 17.162

Legal Deadline: None

Abstract: Section 412 of Pub. L. 100-322 authorizes the Veterans Canteen Service to operate child care centers at VA facilities. The centers will be established based on the demand for care and to the extent that such operation is practical and in the best interest of VA. The centers will be available for the children of VA employees and, to the extent space is available, the children of other Federal and Department of Veterans Affairs affiliated employees. Also, these centers should provide an incentive for personnel recruitment. The proposed regulations will prescribe the requirements and standards for the operation of VA child care centers.

VETERANS BENEFITS ADMINISTRATION

3079. 1. APPORTIONMENT OF BENEFITS TO DEPENDENTS 2. PAYMENT OF COST OF VETERAN'S MAINTENANCE IN INSTITUTION 3. RECOMMENDATION FOR PAYMENT

Legal Authority: 38 USC 210; 38 USC 3202; 38 USC 3203; PL 98-543, Sec 402

CFR Citation: 38 CFR 13.70; 38 CFR 13.71; 38 CFR 13.74

Legal Deadline: None

Abstract: 38 CFR 13.70 defines the conditions under which the Veterans Services Officer may recommend an apportionment of benefits to dependents. The proposed amendment will clarify these conditions. The amendment will also remove a reference to mental illness as the sole criteria for a rating of incompetency.

38 CFR 13.71 is to be amended to make clear that the signing of an institutional award agreement does not waive an institution's right to claim payments under 38 USC 641. This action is the result of an unpublished General Counsel opinion.

38 CFR 13.74 is based on the provisions of 38 USC Sec. 3203(b) (1)(A); however, where the law refers to more than one type of institutional care, the regulation refers only to instances of hospitalization. This would seem to preclude application of the regulation when veterans are in State run nursing homes or other institutions operated by the United States or a political subdivision. The Department of Veterans Affairs, therefore, proposes to correct this defect by substituting the terms "institution" and "institutionalization" where appropriate.

Legal Deadline: None

Abstract: The Department of Veterans Affairs (VA) is proposing to amend its regulations governing two programs which provide vocational service to seriously disabled veterans receiving pension or individual unemployability benefits from VA. These changes are required because recent legislation extended both programs through January 31, 1992, and revised eligibility criteria for participation. The intended effect of these amendments is to make these programs available to an expanded group of veterans in receipt of pension from VA and eliminate the mandatory participation requirement for veterans awarded individual unemployability benefits on or after February 1, 1985.

Legal Deadline: None

Abstract: The Veterans' Benefits and Programs Improvement Act of 1988 contains provisions which affect both the Dependents' Educational Assistance Program and the Vietnam Era GI Bill. Refresher, remedial and deficiency training is now permitted in the former, while the amount of tutorial assistance is raised in the latter, and the provisions for extending the delimiting date is liberalized for both of them. This proposal will acquaint the public with the way in which the Department of Veterans Affairs will administer the new provisions of law.

Legal Deadline: None

Abstract: The Veterans' Benefits and Programs Improvement Act of 1988 contains several provisions which affect the Post-Vietnam Era Veterans' Educational Assistance Program. These

include permitting cooperative training in this program, permitting refresher remedial and deficiency training in this program, providing tutorial assistance to veterans in this program, liberalizing the provisions for extending a veteran's period of eligibility, and reducing benefits to veterans who are incarcerated by reason of a felony conviction. Some of these changes are liberalizing. Some are more restrictive. This proposal will acquaint the public with the way in which the Department of Veterans Affairs will administer the new provisions of law.

Legal Deadline: None

Abstract: Regulations will be amended to implement certain provisions of Pub. L. 100-198 as amended by Pub. L. 100-253. The new law requires: (1) An increase in the maximum amount of entitlement from $27,500 to $36,000, (2) A revision of the method for calculating the guaranty amount, (3) A revision of the occupancy requirements, and (4) A revision of the requirements for refinancing loans. These regulations will formalize the implementation of these provisions since all have been put into effect administratively.

Legal Deadline: None

Abstract: The Veterans' Benefits Improvement and Health-Care Authorization Act of 1986 contains many provisions which affect the administration of the new educational assistance program for veterans and servicemembers. These include provision for apprenticeship and other on-job training and correspondence training in this program; minor changes to the criteria which must be met in order to establish eligibility for the program; a requirement that certain veterans be counseled before choosing a program of education; and a change concerning nonduplication of Federal programs. The New GI Bill Continuation Act of 1987 makes this program permanent, and changes its name to the Montgomery GI Bill.

3102. VETERANS EDUCATION INCREASE IN RATES PAYABLE IN THE EDUCATIONAL ASSISTANCE TEST PROGRAM (EATP)

Legal Authority: 10 USC 2143-44

CFR Citation: 38 CFR 21.5820; 38 CFR 21.5822

Legal Deadline: None

Abstract: The law provides that rates of subsistence allowance and educational assistance payable under the Educational Assistance Test Program shall be adjusted annually based upon the average cost of attendance at public institutions of higher education in the 12-month period since the rates were last adjusted. After consultation with the Department of Education, the Department of Defense has concluded that these rates should be increased by six percent for the 1988-89 school year. These regulations dealing with these rates will be adjusted accordingly.

Legal Deadline: None

Abstract: The Veterans' Benefits Improvement and Health-Care Authorization Act of 1986 contains several provisions which affect the provision of educational assistance to members of the Selected Reserve. The most important provisions include a change in the way in which VA must measure certain courses which do not lead to a standard college degree; a requirement that certain reservists be counseled before choosing a program of education; and a change concerning nonduplication of Federal programs. The appropriate regulations must be amended accordingly. The Veterans' Benefits and Program Improvement Act of 1988 contains some related provisions which also require amendments to VA regulations. These amendments will be proposed at the same time. Unrelated amendments will be proposed separately.

3104. LOAN GUARANTY: DISCRIMINATION ON THE BASIS OF HANDICAP OR FAMILY STATUS

Legal Authority: 48 USC 210(c); 38 USC 1803(c)(1); 38 USC 1812(g)

CFR Citation: 38 CFR 36.4253; 38 CFR 36.4350

Legal Deadline: None

Abstract: Present VA regulations permit restrictions on title which limit the sale, lease or occupancy of the property based on age. The Fair Housing Amendments of 1988 prohibit discrimination in residential real estate transactions because of family status or handicap except for certain housing for older persons. VA proposes to amend its regulations to provide that age restrictions will be acceptable only if they are acceptable under the provisions of the Fair Housing Act.

3105. VETERANS EDUCATION; QUALIFYING FOR THE MONTGOMERY GI BILL THROUGH SERVICE IN THE SELECTED RESERVE

Legal Authority: 38 USC 1412

CFR Citation: 38 CFR 21.7042

Legal Deadline: None

Abstract: An individual may qualify for benefits under the Montgomery GI Bill-Active Duty by serving at least two years of continuous active duty in the Armed Forces characterized by the Secretary concerned as honorable service and, after completion of active duty service, serving at least four continuous years in the Selected Reserve. In order to ensure that the Selected Reserve enlists servicemembers before their military skills have significantly eroded, this proposal would set a time limit of one year between release from active duty and affiliation with the Selected Reserve.

Legal Authority: 29 USC 794

CFR Citation: 38 CFR 18.423(c); 38 CFR 18.401 to 18.461, App A

Legal Deadline: None

Abstract: To incorporate a reference to the Uniform Federal Accessibility Standards (UFAS) and update the list of Federal financial assistance programs administered by VA. The existing regulations require that new construction and alteration of facilities be made in an accessible manner. The regulations provide that new construction or alteration of facilities in conformance with the American National Standard Specifications for Making Building and Facilities Accessible to, and Usable by, the Physically Handicapped (ANSI A117.1-1961 (B 1971)) shall constitute compliance with the accessibility requirements for new construction and alteration of facilities. The proposed revision will replace the current standard with the UFAS, published under the Architectural Barriers Act of 1968. Because some facilities subject to the accessibility requirements of section 504 of the Rehabilitation Act of 1973 are also subject to the accessibility requirements of the Architectural Barriers Act, this proposal would eliminate any potential conflict between standards enforced under the two statutes.

3114. RECOGNITION OF ORGANIZATIONS, REPRESENTATIVES, AGENTS, AND ATTORNEYS

Legal Authority: 38 USC 210(c)(1); 38 USC 3402

CFR Citation: 38 CFR 14.629

Legal Deadline: None

Abstract: The proposed amendments to existing procedures and requirements will authorize accreditation as claim representatives of individuals working at least 1,000 hours annually for organizations recognized by VA to represent veterans-benefit claimants and establish criteria for the accreditation of county veterans' service officers as claim representatives based on recommendation and supervision by State organizations recognized by VA to represent veterans' benefit claimants. VA believes less-than-full-time employment of a claim representative (specifically, at least 1,000 hours per year) does not connote lack of accountability to the recognized organization, primarily because the representative is significantly dependent upon the organization as the source of livelihood. As regards accreditation of county veterans' service officers, VA has for some years recognized some such officers, even though they are not actually State-employed, under the theory they are so closely associated with the State as to be considered State employees. The proposed regulations would provide recognized

3115. RELEASE OF VA LISTS OF NAMES AND ADDRESSES AND PENALTY PROCEDURES FOR UNAUTHORIZED USE

Legal Authority: 38 USC 3301(f)

CFR Citation: 38 CFR 1.519

Legal Deadline: None

Abstract: VA is amending the existing regulations concerning VA lists of names and addresses and is also proposing administrative procedures to use when these lists are used for purposes not authorized by law. This action results from the need to amend the regulations to reflect current procedures, organizational changes, and

concern expressed by veterans and some service organizations regarding unsolicited mail. The proposed regulatory amendments will allow VA to enforce its statutory duty to protect the privacy of information concerning veterans and their dependents, establish procedures to suspend recipients who misuse VA name and address lists of veterans/dependents, and give advance notice to recipients of what constitutes an authorized/unauthorized use of veterans/dependents names and address lists, thereby protecting the due process rights of any recipient before penalties are enforced.

3116. PREDISCLOSURE OF CONFIDENTIAL COMMERCIAL INFORMATION

Legal Authority: 5 USC 552(b)(4); EO 12600

CFR Citation: 38 CFR 1.554

Legal Deadline: None

Abstract: Executive Order 12600, Predisclosure Notification Procedures for Confidential Commercial Information, establishes certain mandatory and uniform procedures for handling Freedom of Information Act (FOIA) requests for records which may contain confidential commercial information, protected by FOIA exemption (5 U.S.C. 552(b)(4)). The Executive Order requires the notification and designation procedures be established in VA regulations. Accordingly, the revision to 38 CFR 1.554 will comply with the requirements of the Executive Order.

3133. ● LOAN GUARANTY: PERCENTAGE TO DETERMINE NET VALUE

Legal Authority: 38 USC 210(c); 38 USC 1803(c)(1)

CFR Citation: 38 CFR 36.4301

Legal Deadline: None

Abstract: This notice updates for fiscal year 1990 the percentage used by VA in determining net value of a foreclosed property. VA's decision on whether to offer the loan holder an election to convey a foreclosed property to VA is based on VA's determination of the net value of the property. Net value is equal to the fair market value of the property minus the costs VA estimates would be incurred in the acquisition, management and disposition of the property for FY 1990. The percentage used will be 11.45 percent.

3134. ● NOTIFICATION OF VA DECISIONS

Legal Authority: PL 101-237, Sec 115

CFR Citation: 38 CFR 21.420

Legal Deadline: None

Abstract: The Veterans Benefits Amendments of 1989 requires that the claimant and the claimant's representative be notified of all decisions regarding benefits on a timely basis, and be provided an explanation of the procedures for obtaining a review of the decision. In addition, all notices of decisions which deny a benefit sought by the veteran must include the reasons for the decision and a summary of the evidence on which the decision is based. The proposed regulatory amendment implements this statutory change.

ACTION

Semiannual Regulatory Agenda

ACTION (ACTION)

ACTION

45 CFR Ch. XII

Executive Order 12291 "Federal Regulation," Semiannual Agenda of Regulations

AGENCY: ACTION.

ACTION: Publication of semiannual agenda.

SUMMARY: This agenda announces the regulations that ACTION will have under development, revision, or review during the next year. The purpose for publishing this agenda is to give notice of any regulatory activity by the Agency in order to provide the public an opportunity to participate in the rulemaking process.

FOR FURTHER INFORMATION CONTACT: The public is encouraged to contact the Agency official listed for the particular agenda item. For other information concerning ACTION regulations or this semiannual agenda, contact Frank B. Stilwell III, General Counsel, ACTION, 1100 Vermont Avenue NW., Washington, DC 20525, (202) 634-9333.

SUPPLEMENTARY INFORMATION: In accordance with Executive Order 12291 "Federal Regulation" and the Regulatory Flexibility Act (5 U.S.C. 601), executive agencies are required to publish in the **Federal Register** semiannual regulatory agendas in April and October of each year.

ACTION has determined that the regulations under consideration will not impose compliance costs or reporting burdens on the public and that the regulations will not have a significant economic impact on a substantial number of small entities. Accordingly, no Regulatory Analysis is required under 5 U.S.C. 602.

Dated: March 9, 1990.

Jane A. Kenny,

Director.

ACTION (ACTION) — Prerule Stage

3140. NONDISCRIMINATION ON THE BASIS OF AGE IN PROGRAMS OR ACTIVITIES RECEIVING FEDERAL ASSISTANCE FROM ACTION

Legal Authority: 42 USC 6101; 42 USC 4951

CFR Citation: 45 CFR 1221

Legal Deadline: None

Abstract: In accordance with 42 USC 6101 and 42 USC 4951, ACTION will promulgate regulations implementing provisions of the Age Discrimination Act of 1975, as amended, and Section 417 of the Domestic Volunteer Service Act of 1973, as amended, which prohibits discrimination on the basis of age in programs or activities receiving Federal financial assistance.

Executive Director.

ADVISORY COUNCIL ON HISTORIC PRESERVATION (ACHP) — Proposed Rule Stage

3148. FREEDOM OF INFORMATION ACT REGULATIONS

Legal Authority: 16 USC 470 Nat. Historic Preservation Act of 1966, as amended

CFR Citation: 36 CFR 810.5

Legal Deadline: None

Abstract: The regulation will increase the fees charged to requesters of information to better reflect the cost to the Government of locating and copying the documents requested. Copying charges would be increased from $0.10 to $0.13 per page; fees for searches by professional staff from $2.00 to $4.65 per quarter hour; and fees for searches by clerical staff from $1.00 to $2.30 per quarter hour. The regulation would thus impose a "user's fee" to users of the Government FOIA system which is more consistent with other agencies' fees.

Agency for International Development

Semiannual Regulatory Agenda

AGENCY FOR INTERNATIONAL DEVELOPMENT (AID)

INTERNATIONAL DEVELOPMENT COOPERATION AGENCY

Agency for International Development

22 CFR Ch. II

Federal Regulations; A.I.D. Regulatory Agenda Semiannual Summary

AGENCY: Agency for International Development, IDCA.

ACTION: A.I.D. regulations agenda.

SUMMARY: The Agency for International Development (A.I.D.) is publishing this agenda as required by section 5(a) of Executive Order 12291 "Federal Regulation" (46 FR 13193, February 19, 1981) and by the Regulatory Flexibility Act (Pub. L. 96-354, September 30, 1980). This agenda reports the status of those regulations currently under review and gives A.I.D.'s plan for the issuance of proposed regulations during the next 12 months. It is expected that the information provided in this agenda will enable the public to be more aware of and to participate more effectively in A.I.D.'s rulemaking process.

FOR FURTHER INFORMATION CONTACT:

General: For further information on the agenda or the review list in general, contact: Mr. John H. Elgin, Office of Information Resources Management, Agency for International Development, Washington, DC 20523; telephone (703) 875-1608.

Specific: For further information about any particular item on the agenda, contact the individual listed as the contact for that item.

Regulatory Flexibility Act (RFA)

A.I.D. does not have any rulemaking activity that falls within the requirements of RFA and does not anticipate any during the next reporting period.

Dated: February 15, 1990.

Michael Doyle,

Assistant to the Administrator for Management Services.

3150. TRANSFER OF FOOD COMMODITIES FOR USE IN DISASTER RELIEF AND ECONOMIC DEVELOPMENT AND OTHER ASSISTANCE

Legal Authority: 7 USC 1705; 7 USC 1721 to 1723; 7 USC 1693

CFR Citation: 22 CFR 211

Legal Deadline: None

Abstract: This regulation prescribes the terms and conditions governing the transfer of agricultural commodities to foreign governments, U.S. voluntary agencies, or intergovernmental organizations. The regulation is being reviewed to assess its current procedures and requirements with an intent to improve its effectiveness and efficiency. There will be internal administrative and operational costs. There are potential benefits to aid-receiving countries.

3151. DONATION OF AGRICULTURAL COMMODITIES/PRODUCTS TO ASSIST NEEDY PERSONS OVERSEAS (416 PROGRAM)

Legal Authority: 7 USC 1431; PL 97-253, Sec 110

CFR Citation: 22 CFR 210, (New)

Legal Deadline: None

Abstract: This regulation sets forth provisions of the Agency for International Development (AID), acting as an agent for the USDA/Commodity Credit Corporation (CCC), to carry out part of the responsibilities for selecting, approving, administering and implementing the section 416 program of the Agricultural Act of 1949, as amended. This program will assist needy persons overseas and reduce surplus stocks of dairy and wheat products in CCC inventory. The donation of commodities under this new authority will be coordinated with, but not replace, assistance provided under the Agricultural Trade Development and Assistance Act of 1954, as amended, PL 83-480. The Agency is not considering any alternatives for addressing the problem. There are some minor costs in administering the regulation. The potential benefits will go to needy persons overseas.

Architectural and Transportation Barriers Compliance Board

Semiannual Regulatory Agenda

ARCHITECTURAL AND TRANSPORTATION BARRIERS COMPLIANCE BOARD (ATBCB)

ARCHITECTURAL AND TRANSPORTATION BARRIERS COMPLIANCE BOARD

36 CFR Ch. XI

Unified Agenda of Federal Regulations

AGENCY: Architectural and Transportation Barriers Compliance Board.

ACTION: Submission of unified agenda of federal regulations.

SUMMARY: The Architectural and Transportation Barriers Compliance Board submits the following agenda of proposed regulatory activities, which may be conducted by the agency during the next 12 months. This regulatory agenda may be revised and/or refined by the agency during the coming months as a result of action taken by the Board. In addition to any regulatory actions, the Board may also consider issuing advisory standards and/or policy statements as part of its statutory responsibilities. When appropriate, these standards and policies will also be published in the **Federal Register.**

ADDRESS: U.S. Architectural and Transportation Barriers Compliance Board, 1111 18th Street NW., Suite 501, Washington, DC 20036.

FOR FURTHER INFORMATION CONTACT: For information concerning Board regulations and proposed actions, contact Mr. Jeffery Hill, Staff Attorney, (202) 653-7834 (voice or TDD).

Lawrence W. Roffee,

Executive Director, Architectural and Transportation Barriers Compliance Board.

ARCHITECTURAL AND TRANSPORTATION BARRIERS COMPLIANCE BOARD (ATBCB) — Prerule Stage

3156. 36 CFR PART 1150 - PRACTICE AND PROCEDURES FOR COMPLIANCE HEARINGS

Significance: Agency Priority

Legal Authority: Section 502 Rehabilitation Act of 1973, PL 93-112, as amended; 29 USC 792, 87 Stat. 391

CFR Citation: 36 CFR 1150

Legal Deadline: None

Abstract: The proposed rule would amend current procedures for the processing and resolution of complaints filed with the agency as well as the procedures for administrative hearings conducted in accordance with Section 502 of the Rehabilitation Act of 1973, Pub. L. 92-112 as amended (29 USC 792). The potential financial impact is undetermined at this time.

Commission on Civil Rights

Semiannual Regulatory Agenda

COMMISSION ON CIVIL RIGHTS (CCR)

COMMISSION ON CIVIL RIGHTS

45 CFR Ch. VII

Semiannual Agenda of Regulations

AGENCY: U.S. Commission on Civil Rights.

ACTION: Publication of semiannual agenda.

SUMMARY: This agenda announces the regulations the U.S. Commission on Civil Rights will have under development during the 6-month period from April 1, 1990, through September 30, 1990. The purpose for publishing this agenda is to give notice of any regulatory activity by the Commission in order to allow the public an opportunity to participate in the rulemaking process.

FOR FURTHER INFORMATION CONTACT: For further information on any items in the agenda, contact: Jeffrey P. O'Connell, Acting Solicitor, U.S. Commission on Civil Rights, Room 606, 1121 Vermont Avenue NW., Washington, DC 20425, (202) 376-8514.

SUPPLEMENTARY INFORMATION: In accordance with Executive Order 12291 "Federal Regulation" and the Regulatory Flexibility Act (5 U.S.C. 605), executive agencies are required to publish in the **Federal Register** semiannual regulatory agendas in April and October of each year.

The regulations being considered by the Commission are not "major" rules within the meaning of E.O. 12291, and no Regulatory Impact Analysis is required. The Commission has determined that the regulations under consideration will not impose compliance costs or reporting burdens on the public; nor will the regulations have a significant economic impact on a substantial number of small entities. Accordingly, no Regulatory Analysis is required.

Jeffrey P. O'Connell,

Acting Solicitor.

COMMISSION ON CIVIL RIGHTS (CCR) — Proposed Rule Stage

3161. ● COMMISSION ON CIVIL RIGHTS—UPDATE AND REVISION

Legal Authority: 42 USC 1975 to 1975f; 5 USC 552(a); 5 USC 552(b)

CFR Citation: 45 CFR 701; 45 CFR 702; 45 CFR 703; 45 CFR 705

Legal Deadline: None

Abstract: The regulation updates and revises most of the Commission's current regulations, specifically 45 CFR 701, 702, 703, and 705. 45 CFR 701 identifies the organization and functions of the Commission. 45 CFR 702 specifies the rules on hearings, reports and meetings of the Commission. 45 CFR 703 identifies the operations and functions of the Commission's State advisory committees. 45 CFR 705 states the Commission's obligations under the Privacy Act.

Environmental Protection Agency

Semiannual Regulatory Agenda

ENVIRONMENTAL PROTECTION AGENCY (EPA)

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Ch. I

[FRL-3730-6]

Regulatory Agenda

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: EPA revises and issues the regulatory agenda semiannually, and it appears in the **Federal Register** each April and October. It provides specific information on the status of regulations that are under development, revision, and review at the Agency. The agenda is published to keep interested parties informed of the progress of EPA regulations.

ADDRESSES: If you want to be on the mailing list for future agendas, please call or write to Bridgette Dent, Regulation Development Branch, EPA, PM-223, Washington, DC 20460, (202) 382-5475.

If you have any suggestions for improving this publication or need general information about the agenda, please call or write to Mary Miller, Regulation Development Branch, EPA, PM-223, Washington, DC 20460, (202) 382-5251.

FOR FURTHER INFORMATION CONTACT: For specific information on any item in the agenda, please contact the person listed with each entry.

SUPPLEMENTARY INFORMATION:

Statutes Covered in the Agenda

Asbestos Hazard Emergency Response Act (AHERA)
Atomic Energy Act (AEA)
Clean Air Act (CAA)
Clean Water Act (CWA)
Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA)
Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA)
Federal Food, Drug, and Cosmetics Act (FFDCA)
Hazardous and Solid Waste Amendments (HSWA)
Marine Protection, Research, and Sanctuaries Act (MPRSA)
Resource Conservation and Recovery Act (RCRA)
Safe Drinking Water Act (SDWA)
Superfund Amendments and Reauthorization Act (SARA)
Toxic Substances Control Act (TSCA)
Water Quality Act of 1987 (WQA)
General - Other Acts (including grant and procurement regulations that cut across several program areas)

Organization of the Agenda

The agenda is organized by statute, and in several cases, it combines regulations with differing statutory authorities that have closely related subject matter. For example, the Food Additive Regulations Concerning Pesticide Residues: Procedural Regulations are written under FFDCA but appear with regulations under TSCA.

Within each statutory listing, the regulations are ordered numerically by section number of the authorizing legislation. For example, all RCRA regulations under section 3001 appear before those under section 3006.

Within each statutory area, the entries are further divided into four categories: (1) Prerule, (2) proposed rule, (3) final rule, and (4) completed actions (regulations that EPA is deleting from the agenda because the Agency has completed, withdrawn, or postponed them indefinitely). Detailed information on each of these sections is presented below.

I. Prerulemakings

Prerulemaking actions include activities intended to determine whether or how to initiate rulemaking. These activities include anything that influences or leads to rulemaking, such as advance notices of proposed rulemaking, significant studies or analyses of the possible need for regulatory action, requests for public comment on the need for regulatory action, or important pre-regulatory policy proposals.

This section also includes existing EPA regulations that are now under review. The purpose of such reviews is to determine whether the Agency should revise the rule, rescind it, or leave it unchanged. When finished, the Agency will list these reviews in the completed section of the agenda. If EPA decides to revise or rescind the regulation, the action will appear in the proposed rule section of the next agenda, which will state the timetable for completing the revision or rescission.

For each regulation under review, the agenda provides the title, a short abstract, legal authority, CFR reference, any analysis EPA is preparing, contact person, and schedule for completing the review. It also indicates the "review authority," which may be different from the regulation's statutory authority. EPA reviews regulations under various mandates, and some reviews satisfy more than one of these mandates. The principal mandates are:

Executive Order 12498 is intended to outline the Administration's annual Regulatory Program. It defines priority activities that Federal departments and agencies will work on during the upcoming year. Its purpose is to minimize duplication and conflict among regulatory activities and enhance public understanding of the Administration's regulatory objectives.

Executive Order 12291 establishes the general policy that Federal departments and agencies should review their regulations to ensure that the costs of the regulations are justified by their benefits. The Office of Management and Budget (OMB) reviews agency rules to assess their compliance with the Executive order's goals of maximizing net social benefits.

The Regulatory Flexibility Act (RFA) requires that Federal departments and agencies review existing regulations that have a significant economic impact on a substantial number of small entities, including small businesses, small organizations, and small governments, at least once every 10 years. EPA invites public comment regarding RFA issues on the list of regulations EPA is reviewing.

Reviews EPA has targeted under the RFA are identified under "Analysis." The agenda identifies the types of entities affected under "Small Entities Affected" (business, Government, or organization) and "Government Levels Affected" (State, local, or Federal).

When the Agency completes reviews of regulations with a significant impact on small entities, the agenda indicates whether to revise, rescind, or leave the regulation unchanged. This announcement complies with the RFA and EPA's July 16, 1981, plan (46 FR 36930) for reviewing regulations under the Act.

The *Paperwork Reduction Act* (PRA) requires Federal departments and

EPA

agencies to review their information collection activities to assure that they need and will use the information and manage it efficiently. They must also ensure that the information to be collected is of high quality, appropriate for its intended use, and does not already exist at some other Federal agency. In addition, the PRA requires agencies to review the cost of collecting the information so that it will be held to a minimum for both the respondent and the agencies. Congress gave oversight authority to OMB. EPA must have OMB approval before it either collects information or requires that information be collected.

II. Proposed and Final Rules

This section includes all "significant" EPA regulations. Some are priority regulations under development that are subject to Executive Order 12498 or that the Agency has designated for priority development or revision. These regulations are also subject to certain provisions of E.O. 12291, RFA, and PRA.

EPA generally lists regulations in this category of the agenda once they are within a year of proposal or promulgation. Very important regulations under development will usually appear even if the scheduled publication dates are more than a year away.

Proposed and final rules appear as: (a) Actions that will create new CFR parts, subparts, or subsections (the word "revision" will appear in subsections) or (b) actions that revise or amend already existing CFR parts, subparts, or subsections. The word "revision" will appear in parentheses after the title of each regulation undergoing revision. All regulations appearing in the agenda for the first time are marked with bullets (●).

However, the listings exclude (a) specialized categories of actions (such as EPA approvals of State plans and other actions that do not apply nationally) and (b) routine actions (such as pesticide tolerances and minor amendments to existing rules).

For each proposed and final regulation, the agenda includes:

- Title
- Priority classification (if applicable)
- Legal authority
- CFR reference(s)
- Legal deadline (if applicable)
- Abstract (short description of action)
- Timetable of existing and scheduled actions
- References to small entities and Government levels
- Additional information (includes the FTS phone number for Agency contact, Start Action Request (SAR) number, which is assigned to the regulation for internal tracking purposes, and any other information that is not included in the abstract)
- Agency contact
- Analysis (indicates if the Agency is preparing a Regulatory Impact Analysis (RIA) and/or an analysis under the RFA).

III. Completed Actions

These are actions that appeared in the previous agenda, which EPA is deleting because they are completed or are no longer under consideration for rulemaking. Information on these regulations is less detailed than for those that are still under consideration. Generally, completed entries include: (1) An explanation of why the Agency is deleting the regulation from the agenda or (2) the **Federal Register** publication date and citation for the final rule.

Dated: February 23, 1990.

Thomas E. Kelly,

Acting Assistant Administrator, Office of Policy, Planning and Evaluation.

ENVIRONMENTAL PROTECTION AGENCY (EPA)

Proposed Rule Stage

Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA)

3164. ● TOLERANCES AND EXEMPTIONS FROM TOLERANCES FOR PESTICIDE CHEMICALS IN OR ON RAW AGRICULTURAL COMMODITIES OR PROCESSED FOODS

Significance: Regulatory Program

Legal Authority: 21 USC 346(a)/FFDCA 408; 21 USC 348/FFDCA 409

CFR Citation: 40 CFR 177 to 180; 40 CFR 185 to 186

Legal Deadline: None

Abstract: This rule will set the criteria, interpretations, and categorizations the Agency will follow in establishing tolerances and food additive regulations under Sections 408 and 409 of FFDCA (USC 348) for pesticides and residues in or on raw agricultural commodities (RAC's) or processed foods. These regulations will restate, update, and/or clarify practices that have been developed over many years, some of which have never been codified.

3165. REGULATION OF PESTICIDAL TRANSGENIC PLANTS (REVISION)

Significance: Regulatory Program

Legal Authority: 7 USC 136/FIFRA 2; 7 USC 136a/FIFRA 3; 7 USC 136w/FIFRA 25; 7 USC 136c/FIFRA 5

CFR Citation: 40 CFR 152.20

Legal Deadline: None

Abstract: EPA will consider the need for an amendment to clarify that chemical pesticides produced by or within pesticidal transgenic plants are not considered biological pest control agents and, therefore, may not be exempt from the provisions of FIFRA (the existing section 152.20 exempts from FIFRA regulation all plants that may be used as biological pest control agents). Instead, chemical pesticides produced by transgenic plants may receive regulatory oversight similar to that which is already in place for chemical pesticide products that are produced and applied by conventional means. This regulation and its development will be coordinated with USDA/APHIS and other agencies, as appropriate.

3166. RESTRICTED USE CLASSIFICATION FOR GROUNDWATER CONTAMINATING PESTICIDES

Significance: Regulatory Program

Legal Authority: 7 USC 136a/FIFRA 3; 7 USC 136d/FIFRA 6; 7 USC 136w/FIFRA 25

CFR Citation: 40 CFR 152.170

Legal Deadline: None

Abstract: This rule will provide a scheme for identifying pesticides which may pose an unacceptable hazard because of the potential to leach into groundwater. The Agency will propose criteria for classifying such pesticides for restricted use. Restricted use pesticides generally may be applied only by state certified applicators.

3167. REGISTRATION DATA REQUIREMENTS FOR PESTICIDE PRODUCT PERFORMANCE AND COMPANION PESTICIDE ASSESSMENT GUIDELINES (REVISION)

Legal Authority: 7 USC 136a/FIFRA 3; 7 USC 136w/FIFRA 25; 7 USC 136d/FIFRA 6

CFR Citation: 40 CFR 158.640

Legal Deadline: None

Abstract: The Agency may change pesticide producer requirements for submission of qualitative and quantitative product performance data relative to other chemical or non-chemical practices. These data will be incorporated into benefit analyses and in preparing regulatory options the Agency uses in making risk benefit decisions. Companion revised guidelines will provide protocols and produce acceptable comparative performance data. Registrants may experience cost increases to support registration of pesticide products. The benefits should be substantial in the form of better and more uniform data on pesticide product performance.

3171. AMENDMENTS TO EXPERIMENTAL USE PERMIT RULE FOR CERTAIN MICROBIAL PESTICIDES (REVISION)

Significance: Regulatory Program

Legal Authority: 7 USC 136c /FIFRA 5; 7 USC 136a/FIFRA 3

CFR Citation: 40 CFR 172

Legal Deadline: None

Abstract: EPA proposes to amend its experimental use permit regulations for pesticides to clarify the circumstances under which an experimental use permit is presumed not to be required and the basis for that presumption. EPA also proposes to require notification before initiation of small-scale testing of certain genetically modified microbial pesticides. Each notification will be reviewed by the Agency, and a determination made as to whether an experimental use permit will be required. This notification scheme would implement provisions of the Agency's policy statement of June 26, 1986 (51 FR 23302), with some modifications, and is intended to provide sufficient oversight of the early testing of certain microbial pesticides.

3172. REPORTING REQUIREMENTS FOR RISK/BENEFITS INFORMATION

Legal Authority: 7 USC 136d/FIFRA 6

CFR Citation: 40 CFR 153

Legal Deadline: None

Abstract: FIFRA Section 6(a)(2) requires that registrants report to EPA additional factual information regarding unreasonable adverse effects of their products. In September 1985, EPA revised its 1979 section 6(a)(2) enforcement policy by publishing a notice which expanded upon the types of factual information which must be reported and established uniform timeframes for compliance. In response to comments received on this notice, the Agency is reissuing it as a proposal to clarify the types of information which registrants must report to EPA.

3173. PESTICIDE DATA REQUIREMENTS: METHODS FOR SAFE STORAGE AND DISPOSAL

Significance: Regulatory Program

Legal Authority: 7 USC 136/FIFRA 3, FIFRA 6, FIFRA 19

CFR Citation: 40 CFR 158; 40 CFR 165

Legal Deadline: None

Abstract: EPA is authorized to issue regulations to specify the types and minimum amounts of data the Agency requires to support the registration or continued registration of a pesticide, and for other purposes. This rule may specify the necessary information and data EPA would require regarding methods for the safe storage and disposal of pesticides. The data requirements table and supporting information would become a part of existing 40 CFR 158.

3176. STORAGE, DISPOSAL, TRANSPORTATION, AND RECALL OF PESTICIDES: PROCEDURES AND STANDARDS

Significance: Regulatory Program

Legal Authority: 7 USC 136q/FIFRA 19

CFR Citation: 40 CFR 165

Legal Deadline: Final, Statutory, December 24, 1991.

Abstract: The 1988 amendments to FIFRA significantly expand EPA authority to regulate the storage, transportation, and disposal of pesticides. The Agency may exercise this authority through labeling provisions, procedures for recall of canceled products, and other regulations for storage, transport, and disposal of pesticide residues. EPA is required to conduct a study of container design and rinsate handling, and submit a Report to Congress by 12/24/90. Container design regulations must be issued by 12/24/91.

3178. REGULATIONS CONCERNING PESTICIDE RESIDUES IN FOOD: PROCEDURAL REGULATIONS

Significance: Regulatory Program

Legal Authority: 21 USC 346a/FFDCA 408; 21 USC 348/FFDCA 409

CFR Citation: 40 CFR 177 to 180

Legal Deadline: None

Abstract: This regulation will set forth procedures through which food additive tolerances, required by Section 409 of the Federal Food, Drug and Cosmetic Act (FFDCA), may be established, modified or revoked. The proposal also covers procedural rules governing the filing of objections, requests for hearings and hearing procedures under FFDCA Sections 408 and 409. In a second rulemaking which will overlap with this one, the Agency plans to develop a unified regulation that will deal with the substantive interpretations and criteria for

establishing or amending a tolerance or food additive regulation (see separate entry in this Agenda).

3184. REGULATORY INVESTIGATION OF CHLORINATED SOLVENTS

Significance: Regulatory Program

Legal Authority: 15 USC 2605/TSCA 6; 15 USC 2608/TSCA 9

CFR Citation: 40 CFR 754

Legal Deadline: None

Abstract: EPA, in consultation with the Consumer Product Safety Commission, Occupational Safety and Health Administration, and Food and Drug Administration, is developing a comprehensive and integrated strategy for a regulatory investigation of methylene chloride and five other chlorinated solvents. In some cases, these chlorinated solvents are competitive and can be easily substituted for each other in a number of uses. The integrated effort is being conducted to reach general agreement on the risks associated with the solvents and to avoid ineffective risk management actions that may occur due to solvent switching or pollutant transfer among media which could be caused by piecemeal regulation. Data are being gathered for six solvents (methylene chloride, perchloroethylene, trichloroethylene, methyl chloroform, carbon tetrachloride, and CFC-113 which is now being phased out due to its ozone depletion characteristics) and their potential substitutes. Work on two exposure categories has been completed and actions have been initiated under other statutes (Clean Air Act or Occupational Safety and Health Act). This regulatory investigation is currently focused on two remaining (cont)

3185. SCRAP METAL RECYCLING REGULATORY CONTROLS

Significance: Regulatory Program

Legal Authority: 15 USC 2605/TSCA 6

CFR Citation: 40 CFR 761

Legal Deadline: None

Abstract: Processing, distribution in commerce, and disposal activities by the scrap metal recycling industry are resulting in some releases of PCBs (and other hazardous substances such as lead) at levels exceeding current regulatory action levels. The problem may affect all media (air, land, and water) and workers. Regulatory options under consideration focus on the mandate of both the Resource Conservation and Recovery Act (RCRA) and the Toxic Substances Control Act (TSCA). Options include 1) mechanisms to provide relief to the shredding industry such as authorizing PCB-related activities that do not present an unreasonable risk, and 2) the feasibility of using TSCA to render output of shredding non-hazardous under RCRA.

3186. TOXIC CHEMICAL "PEAK RELEASE" REPORTING RULE (REVISION)

Legal Authority: 42 USC 11013 /SARA 313

CFR Citation: 40 CFR 372

Legal Deadline: None

Abstract: This action proposes to add a "peak release" reporting element to the Toxic Chemical Release Inventory Reporting Form. Current reporting of releases is of annual aggregate releases to all environmental media. The proposal addresses the issue of obtaining more specific indication of frequency and/or duration of releases in order to better assess risks to health and the environment.

3188. ● SECTION 313 SUNSET REVIEW AMENDMENTS

Legal Authority: 42 USC 11013/SARA 313

CFR Citation: 40 CFR 372

Legal Deadline: None

Abstract: The final rule implementing Section 313 allowed releases of toxic chemicals less than 1000 pounds to be reported in ranges. Also, the reporting form included an optional reporting section on waste minimization activities. Both of these sections will "sunset" after the 1989 reporting year unless the Agency takes action to retain them. These proposed amendments will address these reporting requirements.

3189. DECISIONS ON TEST RULES: PROPOSED RULES

Legal Authority: 15 USC 2603 / TSCA 4

CFR Citation: 40 CFR 799

Legal Deadline: Other, Statutory. 12-month statutory deadline for ITC-designated chemicals

Abstract: The following table lists chemicals for which EPA will initiate rulemaking to require testing, obtain testing through negotiated consent orders, or publish a notice which provides the reasons for not doing so. The list includes chemicals which have been designated for priority testing consideration by the Interagency Testing Committee as well as those chemicals (i.e., recommended and non-designated chemicals) for which the 12-month statutory requirement does not apply. The list also includes chemicals or categories of chemicals which have been identified for testing consideration by other EPA program offices and through EPA review processes.

3192. GENERIC SIGNIFICANT NEW USE RULE FOR ACRYLATE COMPOUNDS

Legal Authority: 15 USC 2/T 5 SCA 5

CFR Citation: 40 CFR 721

Legal Deadline: None

Abstract: The generic acrylate significant new use rule may require any person who proposes to manufacture, import, or process an acrylate/methacrylate subject to the category definition contained within the proposed rule to notify EPA at least 90 days in advance of the initiation of manufacture or process for a significant new use. The significant new use rule will apply to a subset of acrylates and methacrylates added to the inventory after the effective date of the rule. It will no longer be necessary to issue routine 5(e) orders or chemical specific SNURs for those acrylates covered by the rule.

3193. RULEMAKING CONCERNING CERTAIN MICROBIAL PRODUCTS ("BIOTECHNOLOGY")

Significance: Regulatory Program

Legal Authority: 15 USC 2604 /TSCA 5; 15 USC 2607 /TSCA 8

CFR Citation: 40 CFR 704; 40 CFR 720; 40 CFR 721

Legal Deadline: None

Abstract: Under the authority of the Toxic Substances Control Act (TSCA), the Agency is proposing two separate regulatory actions for manufacturers, importers, and processors of certain microbial products of biotechnology. Under section 5, the Agency is proposing to amend its definition of "small quantities solely for research and development" contained in the Premanufacture Notification (PMN) Rule, thereby requiring persons to submit notices prior to testing new microorganisms in the environment. This amendment will require reporting for new microorganisms and will establish a special notification mechanism for experimental releases of microorganisms. EPA also is proposing significant new use notification requirements under section 5(a)(2), which would ensure that EPA will receive for review, notices of large scale releases of other microorganisms developed for significant new uses, and will review small-scale environmental releases. The primary objective of these actions is to ensure uses of microorganisms in the environment do not affect human health and the environment in unforeseen and possible harmful ways.

3194. PROPOSAL TO EXEMPT CERTAIN MICROORGANISMS FROM PMN REQUIREMENTS UNDER TSCA 5(H)(4)

Significance: Regulatory Program

Legal Authority: 15 USC 1504/TSCA 5

CFR Citation: 40 CFR 723

Legal Deadline: None

Abstract: Under the authority of the Toxic Substances Control Act (TSCA), the Agency will propose to exempt from review new microorganisms used in certain contained systems. The Agency considers it a priority to exempt from consideration organisms that can be shown to meet the statutory requirements under Section 5(h)(4) of TSCA. To meet those requirements, it must be shown that the substances will not present unreasonable risks. EPA is considering public comment received and other evidence concerning use of microorganisms in closed systems and other controlled environments to determine whether those categories satisfy the requirements of Section 5(h)(4) of TSCA.

3195. ● PREMANUFACTURE NOTIFICATION RULE AMENDMENTS

Legal Authority: 15 USC 2604, 2607, 2613/TSCA 5

CFR Citation: 40 CFR 720 to 723

Legal Deadline: None

Abstract: This action will amend the premanufacture notification (PMN) rule (40 CFR 720 to 723) under Section 5 of the Toxic Substances Control Act (TSCA) to conform to current policy needs. These changes are necessary to increase efficiency and incorporate proposed program improvements. They are expected to reduce the administrative burdens/cost of the New Chemicals Program and the overall number of Section 5 submissions while maintaining an effective and environmentally sound program. The New Chemicals Program has identified "low-risk" categories that meet certain established criteria and can be screened out of the full PMN review process at an early date based on low health/environmental concern or low exposure scenarios. The New Chemicals Program would like to provide relief to PMN submitters and maximize its efficiency and resources by modifying the rule to reduce reporting requirements for low risk categories. This would enable the Agency to reduce the number of Section 5 submissions to allow the New Chemicals Program to concentrate its resources on PMNs with potential health or environmental concerns and at the same time ensure an environmentally sound program.

3196. REGULATORY INVESTIGATION OF FORMALDEHYDE

Significance: Regulatory Program

Legal Authority: 15 USC 2605 / TSCA 6; 15 USC 2608 / TSCA 9

CFR Citation: 40 CFR 765

Legal Deadline: None

Abstract: As described in the Federal Register on May 23, 1984, the Agency has been investigating regulatory options for reducing the exposure to formaldehyde of: (1) residents exposed to formaldehyde emissions from wood products used in the construction of manufactured homes; (2) similarly exposed residents of conventional homes; (3) apparel manufacture employees exposed to formaldehyde released from treated fabrics. When OSHA proposed a revised workplace standard in December 1985 that applies to all occupational exposure, EPA terminated its investigation with respect to apparel manufacturing employees. Investigation of risks from exposure to formaldehyde emissions from wood products is being conducted in consultation with HUD and CPSC. This investigation may lead to the initiation of various control alternatives, including section 9 referral to other agencies and/or section 6 regulations.

3204. FOLLOW-UP RULES ON NON-5(E) NEW CHEMICALS

Legal Authority: 15 USC 2604/TSCA 5; 15 USC 2604/TSCA 8

CFR Citation: 40 CFR 704; 40 CFR 721

Legal Deadline: None

Abstract: EPA has instituted a program to follow the commercial development of selected new chemicals that have completed premanufacture notice review. EPA will issue rules on new chemicals of concern as they are identified to require follow-up reporting under TSCA Section 5 or 8, by the manufacturers and processors of the chemicals. Under the Expedited Follow-up Rule which became effective on October 10, 1989, EPA will publish a monthly batch SNUR 12 times a year beginning in February 1990. EPA will identify additional Non-5(e) new chemical substances as candidates for regulation in the monthly batch SNURs. However, the new chemical substances listed below are not subject to the Expedited Follow-Up Rule. Rulemaking will be issued separately for each chemical.

3205. CHEMICAL SPECIFIC SIGNIFICANT NEW USE RULES TO EXTEND PROVISIONS OF SECTION 5(E) ORDERS

Legal Authority: 15 USC 2604/TSCA 5

CFR Citation: 40 CFR 721

Legal Deadline: None

Abstract: When the Agency determines that in the absence of adequate safety data, the uncontrolled manufacture, import, processing, distribution, use or disposal of a PMN substance may present an unreasonable risk, it may issue a proposed order under section 5e to limit the aforementioned activities. However, section 5e orders apply only to the PMN submitter. Once the substance is placed on the TSCA chemical inventory, other persons are free to manufacture, import, or process the substance without controls. Therefore, EPA by rule, designates manufacture, import, or processing of the substances for use without the specified controls as a significant new use. These SNURs ensure that the original submitter is not at a competitive disadvantage and that no unctrld activities will occur without an opportunity for prior Agency review. Under the Expedited Follow-up Rule which became effective on 10/10/89, EPA will publish SNURs on the following timetable:1) A mthly SNUR will be published 12 times a year, begin. 2/90, 2) Addit. SNURs will be published in FY90 for PMN substances covering acrylates, pyridines and chemicals where a SNUR has been previously proposed. Each SNUR will

3207. PARTIAL UPDATING OF THE TSCA INVENTORY DATA BASE

Legal Authority: 15 USC 2607(a)/TSCA 8(a)

CFR Citation: 40 CFR 710, Subpart B

Legal Deadline: None

Abstract: A technical amendment to clarify the TSCA Inventory Data Base was promulgated in May 1986 in order to obtain recent production volume and plant site data for certain chemical substances on the inventory. The rule requires reporting every four years. EPA is making some technical amendments to the rule in order to facilitate compliance and to make the rule consistent with other OPTS and EPA reporting activities.

3208. SECTION 8 (A) PRELIMINARY ASSESSMENT INFORMATION RULES

Legal Authority: 15 USC 2607a / TSCA 8(a)

CFR Citation: 40 CFR 712

Legal Deadline: None

Abstract: These rules add chemicals to the list of chemicals and designated mixtures subject to the requirements of the TSCA Section 8(a) Preliminary Assessment Information Rule (40 CFR Part 712). These chemicals are identified by OTS, other EPA offices, and other Agencies, as well as chemicals recommended by the Interagency Testing Committee (ITC) on the TSCA Section 4(e) priority list. Manufacturers and importers are required to submit exposure-related data (EPA Form No. 7710-35) on the chemicals. These data will be used to monitor the levels of production, import and/or processing of these substances and the avenues of human and environmental exposure to these substances. It will also support risk assessment and test rule decisions.

Significance: Regulatory Program

Legal Authority: 33 USC 1311 /CWA 301

CFR Citation: 40 CFR 414

Legal Deadline: None

Abstract: EPA is proposing to amend 40 CFR 414 to allow regulatory authorities to establish cyanide limitations and standards based on best professional judgment for elevated levels of non-amenable cyanide that result from the unavoidable complexing of cyanide at the process source of cyanide- bearing waste streams. Another amendment proposes to allow regulatory authorities to establish metals limitations and standards to accommodate low background levels of metals in non-"metal-bearing waste streams" that result from corrosion of construction materials or from contamination of raw materials. EPA is also proposing to amend Appendices A and B to Part 414 to correct listing errors. The last amendment specifies the method for determining BOD5 and TSS effluent limitations for direct discharge plants with manufacture processes in more than one subcategory. (cont)

ABSTRACT CONT: On October 10, 1989, the U.S. Court of Appeals upheld nearly all of the regulations promulgated on November 5, 1987 (54 FR 2522). However, the Court remanded one portion of the regulation based on the performance of in-plant biological treatment for indirect discharges (Subpart J). The Agency is initiating efforts to collect additional data and information to provide the basis for proposing and promulgating an appropriate regulation by 1993.

3213. NOTICE OF PLAN TO REVIEW AND PROMULGATE EFFLUENT GUIDELINES/ REGULATIONS

Significance: Regulatory Program

Legal Authority: 33 USC 1314(m)/CWA 304(m)

CFR Citation: None

Legal Deadline: Final, Statutory, January 1, 1992.
Statutory deadline for EPA to issue biennial notice.

Abstract: In accordance with Section 304(m) of the Clean Water Act, EPA published a biennial plan in the Federal Register for the promulgation of new effluent limitations guidelines and standards and the review and revision of existing guidelines and standards for categories of sources discharging toxic and non-conventional pollutants. Section 304(m) establishes a planning process that sets the Agency's agenda for future effluent guidelines and standards rulemaking. The first notice was published in the Federal Register on January 2, 1990; it describes EPA's commitments to prepare new or revised guidelines covering nine industry categories and to conduct a pre-regulatory study for eleven other industries. Subsequent 304(m) notices will identify additional categories for promulgation of new guidelines and revision of existing guidelines.

3217. EFFLUENT GUIDELINES AND STANDARDS FOR PESTICIDES MANUFACTURERS AND FOR PESTICIDES FORMULATOR/PACKAGERS

Significance: Regulatory Program

Legal Authority: 33 USC 1311 / CWA 301; 33 USC 1314 / CWA 304; 33 USC 1316 / CWA 306; 33 USC 1317 / CWA 307; 33 USC 1361 / CWA 501

CFR Citation: 40 CFR 455

Legal Deadline: Final, Statutory, December 31, 1986.
Date contained in Water Quality Act of 1987

Abstract: On October 4, 1985 the EPA promulgated a final regulation establishing BAT effluent limitations, NSPS, PSES, and PSNS for the pesticide industry under the Clean Water Act. On July 25, 1986, the final regulation was remanded to the EPA by the Eleventh Circuit Court of Appeals in response to a joint motion filed by the Agency and other parties to litigation challenging the regulation. EPA removed the BAT effluent limitations, NSPS, PSNS, and PSES from the Code of Federal Regulations at the direction of the Court and informed the public that the regulation is no longer effective (December 15, 1986; 51 FR 44911). The BPT limitations published on April 25, 1978 and September 29, 1978, are still effective. The Agency intends to establish new effluent limitation guidelines and standards for the pesticide manufacturers and formulators/packagers industry in a future rulemaking. The Agency has decided to establish separate rulemaking schedules for the pesticide

manufacturers and for pesticides formulator/packagers because of significant differences between these two subcategories.

3220. OIL AND GAS EXTRACTION POINT SOURCE CATEGORY COASTAL SUBCATEGORY EFFLUENT LIMITATION GUIDELINES AND NEW SOURCE PERFORMANCE STANDARDS

Legal Authority: 33 USC 1314/CWA 304; 33 USC 1316/CWA 306; 33 USC 1317/CWA 307; 33 USC 1361/CWA 501; 33 USC 1311/CWA 301

CFR Citation: 40 CFR 435.40, Subpart D

Legal Deadline: None

Abstract: EPA will begin development of a regulation under the Clear Water Act to limit discharges to the waters of the U.S. from coastal oil and gas extraction facilities. This regulation will apply to the facilities involved in exploration, development and production operations. It will establish effluent limitations and guidelines based on BAT and BCT and new source performance standards (NSPS). Coastal oil and gas extraction is a subcategory of the oil and gas extraction point source category (40 CFR part 435, Subpart D).

3221. ● WASTE TREATMENT INDUSTRY POINT SOURCE CATEGORY EFFLUENT LIMITATIONS GUIDELINES AND STANDARDS

Significance: Regulatory Program

Legal Authority: 33 USC 1311/CWA 301; 33 USC 1314/CWA 304; 33 USC 1316/CWA 306; 33 USC 1317/CWA 307; 33 USC 1361/CWA 501

CFR Citation: 40 CFR Subchapter N

Legal Deadline: None

Abstract: On January 2, 1990, EPA announced plans for proposing and promulgating new effluent guidelines for the "hazardous waste treatment" industry category. However, EPA has changed the title of the industry category to "Waste Treatment Industry" which more accurately

reflects the scope of the point source category described in the January 2, 1990, Effluent Guidelines Plan (55 FR 80). Both hazardous and non-hazardous waste treatment wastewater discharges are included in the rulemaking study. The Waste Treatment Industry Category consists of three groups of facilities: a. Centralized Waste Treaters (CWT) that generally treat aqueous and liquid hazardous and non-hazardous waste; b. hazardous waste incinerators with wet scrubbers; and c. municipal and hazardous waste landfills with leachate collection. The Agency has not previously published guidelines specifically covering the Waste Treatment Industry category. Development of regulations for Waste Treatment facilities will be done in two phases. The Phase I regulation will cover CWT facilities that generally treat aqueous and liquid hazardous and non-hazardous waste. Although the Agency has not yet (cont)

CFR Citation: 40 CFR Subchapter N

Legal Deadline: None

Abstract: On January 2, 1990, EPA announced plans for proposing and promulgating new effluent limitation guidelines for metal machinery and equipment, including manufacture, assembly, rebuilding, repair and maintenance. This category will cover seven major industrial groups: Aircraft, Aerospace, Hardware (including Machine Tools, Screw Machines, Metal Forging and Stamping, Metal Springs, Heating Equipment, Fabricated Structural Metal) Ordnance, Stationary Industrial Equipment (including Electrical Equipment), Mobile Industrial Equipment and Electronic Equipment (including Communication Equipment).

3224. REVISIONS TO REGULATIONS FOR MODIFICATION OF SECONDARY TREATMENT REQUIREMENTS FOR MUNICIPAL DISCHARGE INTO MARINE WATERS

Legal Authority: 33 USC 1311(h)/CWA 301(h)

CFR Citation: 40 CFR 125

Legal Deadline: None

Abstract: The revisions to the regulations primarily are intended to respond to statutory changes made to sec. 301(h) of the Clean Water Act (33 USC 1311(h)), which governs secondary treatment waivers for municipal discharges into marine waters. The statutory changes to be addressed include, among other things, new requirements for minimum treatment levels and additional requirements for pretreatment programs for certain waiver applicants. In addition, the Agency is considering revising the regulations to address more specifically procedures and requirements for the renewal of secondary treatment waivers. The revised regulations will affect only the limited number of municipal treatment plants which met the 1982 statutory deadline for applying for a secondary treatment waiver.

3227. DENIAL OR RESTRICTION OF DISPOSAL SITES (REVISION)

Significance: Regulatory Program

Legal Authority: 33 USC 1344 /CWA 404(c)

CFR Citation: 40 CFR 231

Legal Deadline: None

Abstract: This action will revise EPA's existing 404(c) regulations, in effect since October 9, 1979. It will amend the procedures to be used when EPA is considering the use of Section 404(c) of the CWA to prevent the discharge of dredged or fill material into a defined area of the waters of the United States. Section 404(c) gives the Administrator authority to prohibit or withdraw the specification of a site as a disposal site or to deny or restrict use of a disposal site. The revisions will reflect our experiences to date under Section 404(c), and more clearly address use of 404(c) in advance of a specific proposed discharge.

3229. REVISIONS TO OCEAN DUMPING REGULATIONS FOR DREDGED MATERIAL

Significance: Regulatory Program

Legal Authority: 33 USC 1401 et seq /MPRSA

CFR Citation: 40 CFR 225; 40 CFR 227; 40 CFR 228

Legal Deadline: None

EPA—CWA **Proposed Rule Stage**

Abstract: This rulemaking would revise the regulations applicable to the ocean dumping of dredged material. Issuance of these regulations is necessary to respond to the decision in National Wildlife Federation vs. Costle, 629 F. 2d. 118 (DC Circuit 1980) and to incorporate program experience. The revisions will make necessary technical changes and will improve the clarity of the regulations.

Legal Authority: 33 USC 1251 /CWA 301, 302, 304(h), 307, 501(a), and 502

CFR Citation: 40 CFR 136

Legal Deadline: None

Abstract: This rule will amend 40 CFR 136 by adding new measurements and new test procedures for the analysis of pollutants under section 304(h) of the Clean Water Act. This rule: adds Direct Current Plasma (DCP) atomic emission

spectrometric method to the list of approved methods for certain metals; adds multi-laboratory validation data to three previously approved methods for metals; clarifies the interpretation of equivalency of methods approved under Part 136; and allows the option to use hydrochloric acid as a preservative for samples to be analyzed for oil and grease. The 9/3/87 proposal covered all aspects; DCP will appear as a separate final rule.

3236. SECTION 303(D) LIST OF STATE WATERS

Legal Authority: 33 USC 1251 et seq /CWA 303(d); 33 USC 1251 et seq /CWA 305(b)

CFR Citation: 40 CFR 130

Legal Deadline: None

Abstract: EPA published a Federal Register notice on July 24, 1989 to re-open and extend the public comment period on a proposal to require a biennial submission of lists of waters under sections 303(d) and 305(b) of the Clean Water Act (CWA). On 1/12/89, in conjunction with the regulation to implement Section 304(l) of the CWA, EPA proposed to require that the States submit as part of 305(b) reports, the lists of waters required by 303(d) of the CWA. However, after reviewing public comments, EPA decided not to include this particular requirement in the final regulation for 304(l), which was published in the Federal Register on 6/2/89 (54 FR 23868). Instead, EPA decided to solicit additional comments on the proposal and consider promulgating these listing requirements at a later date, if appropriate. The proposed amendments require States to submit to EPA every two years the list of water quality-limited waters required under 303(d) of the CWA. The reporting vehicle for the list would be the States Biennial Water Quality Reports required by CWA 305(b). (cont)

3241. DE-DESIGNATION OF OCEAN DUMPING SITES

Significance: Regulatory Program

Legal Authority: 33 USC 1401 et seq /MPRSA

CFR Citation: 40 CFR 228.12

Legal Deadline: None

Abstract: The Agency is taking action to de-designate certain ocean dumping sites. This action will take the form of two rulemaking actions: (1) to remove from the list of ocean dumping sites as published in the Code of Federal Regulations sites which are expired or which were terminated by previous rulemaking and (2) to de-designate ocean dumping sites which are no longer needed. None of the sites affected are being used. This action is necessary to assure that the list of ocean dumping sites accurately reflects earlier rulemaking and also to assure that unnecessary sites are removed from the list.

3242. EPA ADMINISTERED PROGRAMS: NPDES; GENERAL PRETREATMENT REGULATIONS FOR EXISTING AND NEW SOURCES: PROPOSALS TO IMPLEMENT THE DOMESTIC SEWAGE STUDY

Significance: Regulatory Program

Legal Authority: 42 USC 6939 / RCRA 3018; 33 USC 1317 /CWA 307; 33 USC 1342 /CWA 402

CFR Citation: 40 CFR 403

Legal Deadline: Final, Statutory, August 1987.

Abstract: The Agency will prepare final changes to the NPDES and General Pretreatment Regulations that address: toxicity testing by POTWs, specific industrial user discharge prohibitions; controls on spills and batch discharges; industrial user notification requirements; control mechanisms for significant industrial users and local limits. These changes will be responsive to the Domestic Sewage Study submitted to Congress February 7, 1986 and are to improve the control of hazardous wastes and other toxic materials discharged through sewers to publicly-owned treatment works.

Atomic Energy Act (AEA)

3245. ENVIRONMENTAL STANDARDS FOR THE MANAGEMENT AND DISPOSAL OF SPENT NUCLEAR FUEL, HIGH-LEVEL AND TRANSURANIC RADIOACTIVE WASTES

Legal Authority: 42 USC 2201/AEA 161

CFR Citation: 40 CFR 191

Legal Deadline: None

Abstract: On August 15, 1985, the Agency promulgated generally applicable environmental standards for the management and disposal of spent nuclear fuel, high-level and transuranic radioactive wastes. These standards applied to management and disposal of such materials generated by activities under the jurisdiction of the Department of Energy or regulated by the Nuclear Regulatory Commission. They established limits for the release of radioactive materials to the environment. Subsequent to promulgation of this rule, several petitions for review were filed and consolidated in the U.S. Court of Appeals for the First Circuit. As of September 23, 1987 the Court vacated and remanded Subpart B of the Standards to the Agency for revision consistent with its ruling.

Significance: Regulatory Program

Legal Authority: 42 USC 2201 /AEA 274; 15 USC 2625 /TSCA 6(a)(6)

CFR Citation: 40 CFR 193; 40 CFR 764

Legal Deadline: None

Abstract: Under 40 CFR 193, the Agency is considering whether to set generally applicable standards for the management and disposal of low-level radioactive wastes under the purview of the Atomic Energy Act, as amended. The Agency is considering criteria for declaring certain wastes as below regulatory concern as part of this activity. Under 40 CFR 764, the Agency is also considering whether to regulate the disposal of certain naturally occuring and accelerator-produced radioactive wastes.

3254. ● NATIONAL PRIMARY DRINKING WATER REGULATIONS: ARSENIC

Legal Authority: 42 USC 300/SDWA 1412

CFR Citation: 40 CFR 141

Legal Deadline: Final, Statutory, June 19, 1989.

Abstract: This rule will set an MCLG and MCL for arsenic in drinking water, as required by the SDWA of 1986. The SDWA requires EPA to promulgate primary drinking water regulations for

83 specific contaminants of which arsenic is one. The SDWA directs EPA to promulgate MCLGs at a level at which, in the Administrator's judgment, "no known or anticipated adverse effects on the health of persons occur and which allows for an adequate margin on safety." MCLs are the federally enforceable standards and are set as close to the MCLGs as is feasible, taking costs into consideration.

Significance: Regulatory Program

Legal Authority: 42 USC 300/SDWA 1412

CFR Citation: 40 CFR 141

Legal Deadline: NPRM, Statutory, January 1, 1990. Final, Statutory, January 1, 1991.

Abstract: This rule will set MCLGs and NPDWRs for about 25 contaminants from the first Drinking Water Priority List, as required by the SDWA of 1986. The SDWA requires regulation of at least 25 contaminants every three years starting in 1991. The SDWA directs EPA to promulgate MCLGs at a level at which, in the Administrator's judgment, "no known or anticipated adverse effects on the health of persons occur and which allows for an adequate margin of safety." MCLs are the federally enforceable standards and are set as close to the MCLGs as is feasible, taking costs into consideration.

3258. ● OSAGE MINERAL RESERVE UNDERGROUND INJECTION CONTROL PROGRAM (REVISION)

Legal Authority: 42 USC 300f/SDWA 1421 to 1423

CFR Citation: 40 CFR 147

Legal Deadline: None

Abstract: The Safe Drinking Water Act (SDWA) requires EPA to develop regulations for the protection of underground sources of drinking water from contamination by injection wells. EPA is proposing amendments to its Underground Injection Control (UIC) program regulations for the Osage Mineral in Oklahoma (40 CFR 147 Subpart GGG) to allow the Regional Administrator flexibility to waive certain technical requirements for temporary abandoned wells and to designate a portion of the Happy Hollow and Z-Sand aquifers in Western Osage County, Oklahoma as exempted aquifers. The proposed changes will provide the Regional Administrator with the same flexibility that presently

exists in the generic Federal regulations (40 CFR 144.28(c)(2)(iv) and 144.52(a)(6)) to waive certain technical requirements applicable to active injection wells upon a demonstration by the owner or operator that the well will not endanger underground sources of drinking water during the period of temporary abandonment.

3259. ● CONSTRUCTION REQUIREMENTS FOR CLASS II (OIL AND GAS RELATED WELLS) UNDER PART C OF THE SDWA

Legal Authority: 42 USC 300F/SDWA 1421 to 1422

CFR Citation: 40 CFR 144; 40 CFR 146

Legal Deadline: None

Abstract: Part C of the SDWA directs EPA to develop regulations for the protection of underground sources of drinking water from contamination by injection wells. The greatest number of injection wells are Class II (oil and gas related) wells operated by the petroleum industry for disposal of produced brines and enhanced recovery projects. EPA is considering proposing standards for all newly constructed or converted (from production operations) Class II injection wells. These standards may establish new or incremental performance criteria to ensure protection of underground sources of drinking water (USDWs).

3260. ● MANAGEMENT OF CLASS V INJECTION WELLS UNDER PART C OF THE SAFE DRINKING WATER ACT

Significance: Regulatory Program

Legal Authority: 42 USC 300(f)/SDWA 1421 to 1425

CFR Citation: 40 CFR 144; 40 CFR 145; 40 CFR 146

Legal Deadline: None

Abstract: The SDWA requires EPA to develop regulations for the protection of underground sources of drinking water from contamination by injection wells. Previously promulgated regulations specified minimizing standards and technical requirements for Class I-IV wells. Class V wells, such as certain septic systems and a variety of drainage wells, are the subject of this action. Intent is to establish a regulatory framework for the management of these wells that will protect against contamination of groundwater while recognizing the difficulties of this diverse well class. Development of any regulatory program will focus on providing maximum flexibility to state, sub-state, and local entities. Initial analysis indicates economic impacts of over $100 million for certain well sub-types; this action is considered significant.

Significance: Regulatory Program

Legal Authority: 42 USC 300 / SDWA 1412

CFR Citation: 40 CFR 141; 40 CFR 142; 40 CFR 143

Legal Deadline: NPRM, Judicial, April 30, 1989. Final, Judicial, December 31, 1990.

Abstract: EPA is promulgating maximum contaminant level goals (MCLGs) and National Primary Drinking Water Regulations (NPDWRs) for about 38 synthetic organic chemicals and inorganic chemicals. The NPDWRs consist of maximum contaminant levels (MCLs), as well as monitoring, reporting, and public notification requirements for these contaminants. This action specifies the best available technology (BAT) upon which the MCLs are based and BAT for the purposes of issuing variances and exemptions to public water systems. In addition to the NPDWRs for the synthetic organic chemicals and inorganic chemicals, the notice requires monitoring for other synthetic organic chemicals which are not currently regulated by NPDWRs or included in this notice.

3264. ● DRINKING WATER PRIORITY LIST OF ADDITIONAL SUBSTANCES WHICH MAY REQUIRE REGULATION UNDER THE SAFE DRINKING WATER ACT

Legal Authority: 42 USC 300/SDWA 1412

CFR Citation: 40 CFR Not applicable

Legal Deadline: Other, Statutory, January 1, 1991.

Abstract: The purpose of this action is to develop a list of additional substances which may require regulation under the Safe Drinking Water Act (SDWA). This action is intended to meet the SDWA requirement of publishing a list of contaminants on a triennial basis. Substances on this list become candidates for future national primary drinking water regulations. The initial list was published in January 1988. Consequently, the next version of the list is required to be published by January 1, 1991.

3266. STATE-ADMINISTERED UIC PROGRAMS; INCORPORATION BY REFERENCE UPDATE

Legal Authority: 42 USC 300 /SDWA 1451

CFR Citation: 40 CFR 147

Legal Deadline: None

Abstract: The Safe Drinking Water Act requires EPA to promulgate regulations specifying minimum requirements for State Underground Injection control programs to prevent injections through wells which may endanger drinking water sources. The individual State-administered programs (primacy) are codified in 40 CFR 147 and that Part incorporates by reference and makes applicable requirements from the appropriate State regulations. The incorporation by reference material has not been updated since 1984. Any Federal enforcement action in a primacy State will be based on the codified Part 147 material no matter what is actually in place at the time. Thus, for any enforcement action to be effective, the State statutes which are incorporated by reference must be up-to-date. Without this action, any Federal enforcement action could be ineffective. There is no impact on the economy, costs, or prices, and no public health or intermedia issues, or adverse consequences on the public. The only alternative given the present codification (cont)

Legal Deadline: NPRM, Statutory, November 8, 1985. Final, Statutory, November 8, 1986.

Abstract: EPA's decision not to list recycled oil as hazardous waste (51 FR 41900, 11/19/86) was remanded by the U.S. Court of Appeals (D.C. Circuit) on 10/7/88. Therefore, EPA is considering approaches for management of used oil that is consistent with the court's decision. EPA is reexamining its options for listing and management of used oil. EPA is collecting additional information on the potential toxicity of used oil to be made available for public comment. The Agency also projects issuing a new proposal for management standards in April 1991.

3270. DETERMINATION ON WASTES FROM COMBUSTION OF COAL BY ELECTRIC UTILITY POWER PLANTS

Significance: Regulatory Program

Legal Authority: 42 USC 6921 /RCRA 3001; 42 USC 6982 /RCRA 8002

CFR Citation: 40 CFR Not yet determined

Legal Deadline: NPRM, Statutory, September 1988.

Abstract: EPA conducted a study of fly ash waste, bottom ash waste, slag waste, flue gas emission control waste and other wastes generated by the combustion of coal by electric utility power plants. The study was in response to Section 8002(n) of RCRA and culminated in a Report to Congress on March 8, 1988. EPA must determine within six months after submitting the report, holding public hearings, and allowing for public comment whether to regulate any of these wastes under Subtitle C of RCRA.

Abstract: EPA has completed development of a list of "high-volume", "low-hazard" ore processing wastes for study under Section 8002(p) of RCRA, in response to an opinion of the U.S. Court of Appeals for the DC Circuit (EDF v. EPA, 852 F.2d 1316 (DC Cir. 1988) is now conducting a Section 8002 study of those processing wastes excluded from Subtitle C regulation by the "Bevill Amendment" 3001(b)(3)(A) RCRA. The study will culminate in a Report to Congress in July 1990. RCRA Section 3001(b)(3) requires the Agency, after public hearing and public comment, to determine within six months of submitting the report, whether to regulate any of these wastes under RCRA Subtitle C.

3272. OIL POLLUTION PREVENTION REGULATION

Significance: Agency Priority

Legal Authority: 33 USC 1321 /CWA 311(j)(1)(c)

CFR Citation: 40 CFR 112

Legal Deadline: None

Abstract: Following a major oil spill with substantial environmental impacts (i.e., Ashland Oil in Floelle, PA in January, 1988) an interagency task force reviewed the adequacy of regulations concerning the prevention and control of oil spills. The task force recommended a significant upgrade to the listing Oil Pollution Prevention Regulation and an inventory of the regulated community. A two-phased regulatory approach is being pursued. In Phase I, the existing regulation will be clarified to indicate that widely accepted industry practices that are currently treated as recommended practices henceforth will be considered as required practices. The Phase II regulatory effort may address other recommended modifications, such as contingency planning.

3276. MUNICIPAL WASTE COMBUSTOR ASH MANAGEMENT

Significance: Regulatory Program

Legal Authority: 42 USC 6907 /RCRA 1008; 42 USC 6944 /RCRA 4004; 42 USC 6949 /RCRA 4010

CFR Citation: 40 CFR Not yet determined

Legal Deadline: None

Abstract: Based on preliminary data, EPA has determined a need to develop

a management scheme for handling and disposing of municipal waste combustor ash. The 101st Congress is considering several legislative initiatives which would regulate all ash from municipal waste combustors (MWC) under Subtitle D of RCRA and require EPA to develop management standards for the treatment, transportation, storage, disposal, and recycling/reuse of MWC ash. Once such legislation is enacted, EPA will publish its schedule for the proposal and final promulgation of ash regulations.

3278. EXCLUSIONS FOR WASTE GENERATED ON-BOARD SHIPS (REVISION)

Legal Authority: 42 USC 6921/RCRA 3001; 42 USC 6922/RCRA 3002; 42 USC 6905/RCRA 1006; 42 USC 6912(a)/RCRA 2002(a)

CFR Citation: 40 CFR 261.4(c)

Legal Deadline: None

Abstract: This proposed rule would broaden an existing exemption in 40 CFR 261.4(c), currently limited to product or raw material vessels, to all vessels. The result of this change would be a consistent regulation for all vessel operators, both product and non-product. In all cases, hazardous wastes generated on-board ships would not be subject to the RCRA regulations for storage, manifesting, etc., until the waste is removed from the ship. The discharge of any wastes while underway is governed by regulations issued under the provision of the Clean Water Act, Rivers and Harbors Act, Refuse Act, CERCLA/SARA, and others.

3281. LOCATION STANDARDS FOR HAZARDOUS WASTE FACILITIES

Significance: Regulatory Program

Legal Authority: 42 USC 6912/RCRA 2002; 42 USC 6924(o)(7)/RCRA 3004(o)(7)

CFR Citation: 40 CFR 260; 40 CFR 264; 40 CFR 265; 40 CFR 270

Legal Deadline: None

Abstract: Section 3004(o)(7) of RCRA authorizes EPA to promulgate standards for the location of hazardous waste treatment, storage, and disposal facilities. Two existing location standards (floodplain and seismic zones) at 40 CFR Part 264.18 will be amended d based on new data and information. Additional standards will specify other criteria for the acceptable location of new, expanding, and existing treatment, storage and disposal facilities in a variety of sensitive environments (e.g., unstable terrains, wetlands). The Agency's goals are to enhance the effectiveness of a unit's design and operating controls by avoiding the most sensitive locations, to decrease the future need for cleanups reduce the number of prospective future RCRA Corrective Action and Superfund sites, and to more effectively ensure long-term protection of human health and the environment.

3288. MODIFICATION OF THE DEFINITION OF WASTEWATER TREATMENT UNIT

Legal Authority: 42 USC 6924 /RCRA 3004

CFR Citation: 40 CFR 260; 40 CFR 270

Legal Deadline: None

Abstract: Currently, wastewater treatment units and elementary neutralization units are exempt from the requirements in 40 CFR Parts 264, and 265 (see 45 FR 76074, November 17, 1980). This action will amend the regulations to explain more clearly that thermal treatment units, except sludge dryers, are not exempt from regulation under the "wastewater treatment unit exclusion." It was never EPA's intention that thermal treatment units be exempt from regulation. Rather, specific regulations have been developed for these devices.

3289. RCRA SUBTITLE C FINANCIAL TEST CRITERIA (REVISION)

Legal Authority: 42 USC 6905/RCRA 1006; 42 USC 6912(a)/RCRA 2002(a); 42 USC 6924/RCRA 3004; 42 USC 6925/RCRA 3005

CFR Citation: 40 CFR 264; 40 CFR 265

Legal Deadline: None

Abstract: This amendment will revise financial test criteria that must be satisfied by TSDF owners and operators employing the test to demonstrate RCRA financial responsibility requirements. The anticipated revisions will adjust test criteria so as to increase availability of this assurance mechanism to financially viable and stable firms and increase sensitivity to bankruptcy prediction.

3290. DEFINITION OF HAZARDOUS WASTE TANK, SURFACE IMPOUNDMENT AND WASTE PILE (REVISION)

Significance: Regulatory Program

Legal Authority: 42 USC 6924/RCRA3004

CFR Citation: 40 CFR 260

Legal Deadline: None

Abstract: The Agency is receiving information on an increasing number of situations where it is difficult to determine whether specific types of hazardous waste management units meet the definition of a tank, waste pile or surface impoundment. EPA intends to clarify the difference between these units by revising the definitions for these units in 40 CFR260.1. In particular, EPA expects to address the use of liners for primary containment as well as other issues relating to the use of "earthen" and "nonearthen" materials.

3291. HAZARDOUS WASTE SUMP REQUIREMENTS IN RESPONSE TO RULEMAKING PETITION (REVISION)

Legal Authority: 42 USC 6905; 42 USC 6912; 42 USC 6921; 42 USC 6974; 42 USC 6924; 42 USC 6925

CFR Citation: 40 CFR 260; 40 CFR 264; 40 CFR 265

Legal Deadline: None

Abstract: This regulation will address a petition for rulemaking submitted by the Boeing Company, requesting that EPA amend several hazardous waste tank system requirements as applied to certain existing sumps. A sump is a type of tank. The petition focuses on those existing sumps that are situated inside of buildings and constructed as an integral part of the building's floor or foundation. The petitioner argues that because of differences in design, construction, and use, these sumps should be regulated independently of other hazardous waste storage/treatment tank systems.

3292. LIST (PHASE 2) OF HAZARDOUS CONSTITUENTS FOR GROUND WATER MONITORING

Significance: Regulatory Program

Legal Authority: 42 USC 3251/RCRA 3004 and 3005

CFR Citation: 40 CFR 264; 40 CFR 270

Legal Deadline: None

Abstract: The Appendix IX of 40 CFR Part 264 is a list of hazardous constituents presently referenced in 40 CFR Part 264 for use in ground water monitoring. This proposed amendment would make minor revisions to Appendix IX and create a new list for the first part (Detection Monitoring) of the ground water monitoring program. This proposal would also include a more detailed discussion of the appropriate monitoring techniques than currently exists in the regulations.

3294. MINING WASTE MANAGEMENT UNDER RCRA SUBTITLE D

Significance: Regulatory Program

Legal Authority: 42 USC 6941 to 6949 /RCRA 4001-4009

CFR Citation: 40 CFR Not yet determined

Legal Deadline: None

Abstract: Based on the first mining waste Report to Congress submitted 12/31/85, comments on the report, and other available information, EPA has determined that regulation of wastes from the extraction and beneficiation of ores and minerals under Subtitle C of the Resource Conservation and Recovery Act (RCRA) is not warranted at this time (51 FR 24496). Instead, EPA plans to develop a program for mining waste under Subtitle D of RCRA, working with the States to determine the specific nature of their current mining waste activities and their future plans to administer such programs. EPA will propose a set of criteria for the proper disposal of mining wastes under RCRA Subtitle D authority. EPA will also work with other Federal agencies (e.g., DOI, USGS) to avoid duplication in regulatory efforts.

3296. ● ADEQUACY DETERMINATIONS FOR STATE SOLID WASTE PROGRAMS

Legal Authority: 42 USC 6945/RCRA 4005

CFR Citation: Not yet determined

Legal Deadline: None

Abstract: Regulations will describe procedures EPA will use to make determinations of adequacy for State Solid Waste permitting programs, as required by Section 4005 of the Solid Waste Disposal Act, as amended (RCRA). This state adequacy determination regulation is critical to the successful implementation of the Revised Criteria. Section 4005(c)(B) requires States to adopt and implement a permit program, or other system of prior approval, within 18 months after the promulgation of revised criteria under Section 4004(a). Section 4005(c)(C) requires the Administrator to determine whether each State has developed an "adequate program" under this paragraph.

3297. UNDERGROUND STORAGE TANKS CONTAINING HAZARDOUS SUBSTANCES - FINANCIAL RESPONSIBILITY REQUIREMENTS

Legal Authority: 42 USC 6991 /RCRA 9003

CFR Citation: 40 CFR 280

Legal Deadline: Final, Statutory, August 8, 1988.

Abstract: This regulation will establish, under Subtitle I of RCRA (as amended by SARA), requirements for demonstrating financial responsibility for taking corrective action and compensating third parties for bodily injury and property damage caused by releases from underground storage tanks (USTs) containing hazardous substances. An ANPRM was published to help gather data (e.g., frequency of releases from such USTs, costs of corrective action and third-party damages, and the regulated community's financial condition and use of financial assurance mechanisms) needed for the development of a proposed rule.

3299. TECHNICAL AMENDMENT TO FINAL UNDERGROUND STORAGE TANK RULES FOR OVERFILL PREVENTION

Legal Authority: 42 USC 6991(b)/RCRA 9003(b)

CFR Citation: 40 CFR 280.20(c)

Legal Deadline: None

Abstract: This action adds a provision to the overfill prevention equipment requirements that provides a performance standard alternative to the two design choices already in the final Underground Storage Tanks (UST) regulations. This clarifies EPA's interpretation of the "other alternatives allowed" provision in the final UST regulations. The added flexibility of meeting a performance standard will more clearly enable UST system owners and operators to use overfill prevention equipment in a manner that is more flexible as long as it is protective of human health and the environment.

3300. MEDICAL WASTE DEMONSTRATION TRACKING PROGRAM

Significance: Regulatory Program

Legal Authority: 42 USC 6992/Medical Waste Tracking Act

CFR Citation: 40 CFR 259

Legal Deadline: Other, Statutory, May 30, 1989.
The legal deadline prescribed is for an interim final rule by May 1989.

Abstract: Because of the numerous incidents of public exposure to improperly disposed medical waste Congress passed the Medical Waste Tracking Act of 1988. The Act requires EPA to develop a two-year demonstration tracking program for medical waste. The demonstration program sets forth segregation, packaging, labeling, tracking, transportation, and recordkeeping requirements of medical waste generated in the covered States, and lists the wastes to be covered by the program. The emphasis of the tracking program is to assure the generator that the waste is delivered to a proper disposal facility. States participating in the program include New York, New Jersey, Connecticut (effective 6/22/89), Rhode Island, and Puerto Rico (effective 7/24/89).

3304. SOLID WASTE DISPOSAL FACILITY CRITERIA

Significance: Regulatory Program

Legal Authority: 42 USC 6907(a)(3)/RCRA 1008(a)(3); 42 USC 6944(a)/RCRA 4004(a); 42 USC 6949(c)/RCRA 4001(c); 33 USC 1345(d)/CWA 405(d); 33 USC 1345(e)/CWA 405(e)

CFR Citation: 40 CFR 257; 40 CFR 258

Legal Deadline: Final, Statutory, March 31, 1988.

Abstract: The Hazardous and Solid Waste Amendments of 1984 (HSWA) require that EPA, by March 31, 1988, revise the Subtitle D criteria for facilities that may receive hazardous household wastes or hazardous wastes from small quantity generators. In response to this statutory mandate, EPA is revising the Subtitle D criteria for municipal landfills. The statute requires that, at a minimum these criteria include groundwater monitoring requirements, location standards, and corrective action requirements as appropriate.

3309. BURNING OF HAZARDOUS WASTE IN BOILERS AND INDUSTRIAL FURNACES

Significance: Regulatory Program

Legal Authority: 42 USC 6924 / RCRA 3004; 42 USC 6925/RCRA 3005

CFR Citation: 40 CFR 266

Legal Deadline: None

Abstract: Burning of hazardous waste in boilers and industrial furnaces for the purpose of heat recovery or material recovery is currently exempt from regulation under RCRA. The Hazardous and Solid Waste Amendments of 1984 require the Agency to develop technical standards for the burning of hazardous waste fuels. This regulation will establish standards for controlling emissions of organic compounds, metals, and hydrogen chloride from boilers and industrial furnaces that burn hazardous waste for any purpose, including energy recovery, material recovery, or

destruction. It also considers questions on status of residues from Bevill devices burning non-Bevill wastes.

3310. LINERS AND LEAK DETECTION FOR HAZARDOUS WASTE LAND DISPOSAL UNITS

Significance: Regulatory Program

Legal Authority: 42 USC 6924 / RCRA 3004(o); 42 USC 6925 / RCRA 3005

CFR Citation: 40 CFR 264; 40 CFR 265; 40 CFR 260; 40 CFR 270; 40 CFR 271

Legal Deadline: NPRM, Statutory, May 8, 1987.

Abstract: EPA has proposed these regulations under the authority of section 3004(a) and 3004(o)(4) of the Resource Conservation and Recovery Act. The regulations would require: 1) new landfills, surface impoundments, waste piles, and land treatment units for the treatment, storage, or disposal of hazardous wastes to utilize an approved leak detection system; 2) double liners and leachate collection systems for waste piles, and certain landfills and surface impoundments; and 3) development of a construction quality assurance program for certain landfills and surface impoundments, as well as final covers at land treatment units. EPA originally proposed this rule on May 29, 1987 (52 FR 20218); the Agency may repropose the double liner sections of the rule.

3311. AMENDMENTS TO GROUND-WATER MONITORING AT HAZARDOUS WASTE FACILITIES

Significance: Regulatory Program

Legal Authority: 42 USC 6924 to 6927/RCRA 3004 to 3007

CFR Citation: 40 CFR 260; 40 CFR 264; 40 CFR 270

Legal Deadline: None

Abstract: This action will change the Subpart F ground-water monitoring regulations. The following is a summary of the major changes: - require use of site-specific data and modeling predictions on containment fate and transport for groundwater monitoring variances; - allow flexibility in well installation requirements when existing physical obstacles present installation at the point of compliance; - clarify the definition of waste management area and provide flexibility in determining the appropriate monitoring or response programs for individual areas; - allow flexibility in schedules for submittal of the information upon approval by the Regional Administrator (RA); - clarify the RA's authority to require ground-water flow rate and direction determinations upon site-specific fluctuations in water levels; - clarify the RA's authority to require monitoring of any flow pathway in the uppermost aquifer and unsaturated zone; - clarify the RA's authority to designate supplemental monitoring (cont)

3312. DOUBLE LINER AND LEACHATE COLLECTION SYSTEMS FOR HAZARDOUS WASTE LAND DISPOSAL UNITS

Significance: Regulatory Program

Legal Authority: 42 USC 6924(o)/RCRA 3004o)

CFR Citation: 40 CFR 264; 40 CFR 265; 40 CFR 260; 40 CFR 270; 40 CFR 144

Legal Deadline: Final, Statutory, November 1986.

Abstract: This rule establishes minimum technology requirements (e.g., double liners and leachate collection systems) for new hazardous waste landfills and surface impoundments, as well as lateral expansions and replacements to existing landfills and surface impoundments. This rule will establish standards for these systems enabling unit owners and operators to design and construct systems that will protect human health and the environment.

3313. LAND DISPOSAL RESTRICTIONS FOR THE THIRD THIRD OF SCHEDULED WASTES

Legal Authority: 42 USC 6924(g); 42 USC 6924(h); 42 USC 6924(j); 42 USC 6924(h); 42 USC 6924(k); 42 USC 6924(m)

CFR Citation: 40 CFR 268

Legal Deadline: Final, Statutory, May 8, 1990.

Absolute prohibition takes effect on 5/8/90 on land disposal of restricted hazardous waste of any kind for which EPA has not established a treatment standard.

Abstract: This rule will establish land disposal restrictions for the surface disposal and underground injection of the Third Third of scheduled hazardous waste and promulgate treatment standards for these waste streams as required by section 3004(g) and 3004(m) of RCRA. The schedule was published on May 6, 1986 (51 FR 19300).

3328. FUEL AND FUEL ADDITIVES: HEALTH AND EMISSIONS EFFECTS TESTING

Legal Authority: 42 USC 7545(e) / CAA 211(e)

CFR Citation: 40 CFR 79; 40 CFR 80

Legal Deadline: Final, Statutory, August 7, 1978.

Abstract: The CAA requires that testing protocols be developed to address at a minimum, the possible carcinogenic, mutagenic, and teratogenic effects of fuels and fuel additives as well as their effect on emissions and emission control devices. This action would implement protocols for such testing, which would have to be performed prior to fuel or additive registration, and or in the case already registered fuels, within three years of the date on which the protocols are promulgated. Fuels and additives already registered or for sale would also have to undergo testing, as provided for by the CAA.

3331. ● PROTECTION OF STRATOSPHERIC OZONE (PHASE-OUT)

Significance: Regulatory Program

Legal Authority: 42 USC 7457(b)

CFR Citation: 40 CFR 82

Legal Deadline: NPRM, Judicial, November 15, 1990. Final, Judicial, August 15, 1991.

Abstract: Recent scientific evidence indicates the risks of ozone depletion may be greater than expected. In response, the international community has begun negotiations on whether to strengthen the Montreal Protocol. President Bush has called for a complete phase-out of CFCs provided safe substitutes become available. EPA estimates that the cumulative cost to completely phase-out these chemicals by the year 2000 is approximately $2.7 billion. EPA has entered into a consent decree to determine whether additional regulations are necessary to protect the stratospheric ozone layer.

3333. NAAQS: OZONE (REVIEW)

Significance: Regulatory Program

Legal Authority: 42 USC 7408 / CAA 108; 42 USC 7409 / CAA 109

CFR Citation: 40 CFR 50.9

Legal Deadline: Final, Statutory. Reviews due by December 31, 1980 and at 5-year intervals thereafter.

Abstract: EPA is reassessing health and welfare information which has become

available since the last revision of the standard. In May 1989 EPA received closure on the scientific and technical adequacy of the ozone staff paper. In order to retain a unified regulatory review package in light of the emerging data base on health and welfare effects associated with longer-term averaging times, EPA is continuing the standard review until such information is published and a decision made on the appropriate standards choice. The major issue is whether the new information will indicate that new standards with longer-term averaging times are required to protect public health and welfare or whether adequate protection is afforded by the current form and averaging time of the standard.

3334. NAAQS: FINE PARTICULATE MATTER

Significance: Regulatory Program

Legal Authority: 42 USC 7408 /CAA 108; 42 USC 7409 /CAA 109

CFR Citation: 40 CFR 50.7

Legal Deadline: None

Abstract: On July 1, 1987, EPA issued an ANPRM soliciting public comment on the development of a new secondary (welfare-based) NAAQS for fine particles (those particles less than 2.5 micrometers in aerodynamic diameter). This action represents a continuation of the review process for the secondary standards for particulate matter discussed by the Agency on March 20, 1984 (49 FR 10408). The principal welfare effect to be addressed by such a standard is impairment of visibility. Once a decision on whether and how to proceed is reached, a schedule for further action will be developed.

3337. NSPS: MUNICIPAL LANDFILLS

Significance: Agency Priority

Legal Authority: 42 USC 7411/CAA 111

CFR Citation: 40 CFR 60

Legal Deadline: None

Abstract: The purpose of this action is to develop a proposal for regulating emissions from new and modified municipal landfills under Section 111(b). Pollutants to be regulated would include one or more designated pollutants (pollutants not regulated under Section 108-110 or 112 of the Act) thus invoking Section 111(d). Section 111(d) would require States to develop emission standards for existing landfills based on EPA guidelines.

3338. NSPS: MEDICAL WASTE INCINERATION

Significance: Regulatory Program

Legal Authority: 42 USC 7411/CAA 111

CFR Citation: 40 CFR 60

Legal Deadline: None

Abstract: The incineration of medical waste is being investigated for control under Section 111. Add-on controls and operator training requirements are being investigated.

3339. NESHAP: COKE OVEN EMISSIONS FROM COKE OVEN CHARGING, DOOR LEAKS, AND TOPSIDE LEAKS ON WET-COAL-CHARGED BATTERIES

Significance: Regulatory Program

Legal Authority: 42 USC 7412 / CAA 112

CFR Citation: 40 CFR 61

Legal Deadline: NPRM, Statutory, March 1985.

Abstract: This regulation would control emissions of coke oven emissions, which have been designated as hazardous under section 112. It would require improved maintenance and operation to limit visible emissions from wet-coal-charged coke oven batteries. The standards may apply to charging and leaks from doors, lids, or offtakes for all existing or new sources. A supplemental proposal will be published to reevaluate the standard consistent with the court decision on vinyl chloride.

3340. NESHAP: ASBESTOS REVISION (RISK REDUCTION)

Legal Authority: 42 USC 7412 / CAA 112

CFR Citation: 40 CFR 61, Subpart M

Legal Deadline: None

Abstract: The Agency is considering revising the asbestos NESHAP to reduce further risks to public health. The Agency is also considering another provision on an accelerated schedule that would address compliance and monitoring provisions only. See asbestos revision (compliance provisions).

3341. NESHAP: CHROMIUM—INDUSTRIAL COOLING TOWERS

Significance: Regulatory Program

Legal Authority: 42 USC 7412 / CAA 112

CFR Citation: 40 CFR 61

Legal Deadline: None

Abstract: EPA issued a notice of intent to list total chromium or hexavalent chromium under Section 112 (50 FR 24137). EPA is further assessing the public health risks of chromium compounds. Preliminary assessment performed by EPA has identified industrial process cooling towers as a source category for which the proposal of national emission standards may be warranted. If EPA decides, based on these investigations, that emissions standards are warranted, chromium or hexavalent chromium will be listed under Section 112 and EPA will propose standards.

3342. NESHAP: CHROMIUM—ELECTROPLATING

Significance: Regulatory Program

Legal Authority: 42 USC 7412 / CAA 112

CFR Citation: 40 CFR 61

Legal Deadline: None

Abstract: EPA issued a notice of intent to list chromium or hexavalent chromium under Section 112 (50 FR 24317). EPA is further assessing the public health risks of chromium compounds. A preliminary assessment

performed by EPA has identified chromium electroplating as a source category which emits significant quantities of chromium to the atmosphere and for which the proposal of national emission standards may be warranted. If EPA decides, based on these investigations, that emission standards are warranted, chromium or hexavalent chromium will be listed under Section 112, and standards will be proposed.
